**The Black Jacobins** - C. L. R. James 2001-05-31

In 1789 the West Indian colony of San Domingo supplied two-thirds of the overseas trade of France. The entire structure of what was arguably the most profitable colony in the world rested on the labour of half a million slaves. In 1791 the waves of unrest inspired by the French Revolution reached across the Atlantic dividing the loyalties of the white population of the island. The brutally treated slaves of Saint Domingo seized at this confusion and rose up in rebellion against masters. In this classic work, CLR James chronicles the only successful slave revolt in history and provides a critical portrait of their leader, Toussaint L'Ouverture, 'one of the most remarkable men of a period rich in remarkable men'.

**Unthought** - N. Katherine Hayles 2017-04-05

N. Katherine Hayles is known for breaking new ground at the intersection of the sciences and the humanities. In *Unthought*, she once again bridges disciplines by revealing how we think without thinking—how we use cognitive processes that are inaccessible to consciousness yet necessary for it to function. Marshalling fresh insights from neuroscience, cognitive science, cognitive biology, and literature, Hayles expands our understanding of cognition and demonstrates that it involves more than consciousness alone. Cognition, as Hayles defines it, is applicable not only to nonconscious processes in humans but to all forms of life, including unicellular organisms and plants. Startlingly, she also shows that cognition operates in the sophisticated information-processing abilities of technical systems: when humans and cognitive technical systems interact, they form “cognitive assemblages”—as found in urban traffic control, drones, and the trading algorithms of finance capital, for instance—and these assemblages are transforming life on earth. The result is what Hayles calls a “planetary cognitive ecology,” which includes both human and technical actors and which poses urgent questions to humanists and social scientists alike. At a time when scientific and technological advances are bringing far-reaching aspects of cognition into the public eye, *Unthought* reflects deeply on our contemporary situation and moves us toward a more sustainable and flourishing environment for all beings.

Black Skin, White Masks - Frantz Fanon 2017

*Black Skin, White Masks* is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to

this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

*Symphony of Light and Winter* - Renea Mason 2018-06-21

For Linden Hill, life was predictable-go to work, an occasional drink with friends, and repeat-until one unexpected night when she finds herself face-to-face with her past-all six-foot-five-inches of sex-god perfection she once knew as Cyril. The problem? He died. Or so she thought. But Linden's long-lost love isn't welcoming her with open arms. Fueled by suspicion and doubt, their turbulent re-acquaintance drives Cyril to desperate acts. The chance at renewing their love is jeopardized, pulling Linden into his war with supernatural rivals hell-bent on his destruction. Defeating the enemy seems easy compared to surviving each other. With hunger threatening to consume them, and love begging to endure, can Linden learn to accept who she must become to save them both?

*The Lynching of Cleo Wright* - Dominic J. Capeci Jr. 2021-12-14

On January 20, 1942, black oil mill worker Cleo Wright assaulted a white woman in her home and nearly killed the first police officer who tried to arrest him. An angry mob then hauled Wright out of jail and dragged him through the streets of Sikeston, Missouri, before burning him alive.

Wright's death was, unfortunately, not unique in American history, but what his death meant in the larger context of life in the United States in the twentieth-century is an important and compelling story. After the lynching, the U.S. Justice Department was forced to become involved in civil rights concerns for the first time, provoking a national reaction to violence on the home front at a time when the country was battling for democracy in Europe. Dominic Capeci unravels the tragic story of Wright's life on several stages, showing how these acts of violence were indicative not only of racial tension but the clash of the traditional and the modern brought about by the war. Capeci draws from a wide range of archival sources and personal interviews with the participants and spectators to draw vivid portraits of Wright, his victims, law-enforcement

officials, and members of the lynch mob. He places Wright in the larger context of southern racial violence and shows the significance of his death in local, state, and national history during the most important crisis of the twentieth-century.

**Hour Game** - David Baldacci 2009-08-21

David Baldacci's heart-stopping *Hour Game* is the second fast-paced thriller in the King and Maxwell series. Following their collaboration in *Split Second*, ex-Secret Service agents Sean King and Michelle Maxwell have gone into partnership and are investigating the robbery of some secret documents at the residence of the incredibly wealthy Battle family. It seems like a straightforward case of domestic burglary, but soon they begin to suspect links to larger, more terrifying events now shaking the prosperous town of Wrightsburg . . . The unidentified corpse of an attractive young woman turns up in the woods; two high school kids, one shot in the back, the other in the face, are found dead in their car; a successful lawyer is discovered stabbed to death in her own home. A serial killer is on the loose. The murderer kills in the manner of famous killers of the past but takes care to leave a stopped watch at the scene of each crime - corresponding to the victim's position on his hit list. As the

killing spree escalates it seems that the fractured Battle family are somehow involved and Maxwell and King suddenly find themselves racing to solve an intricate puzzle, one that is full of tantalizing clues but barren of solid evidence, and one that is leaving even the FBI confounded. Layers of Blackness - Deborah Gabriel 2007

This is the first book by an author in the UK to take an in-depth look at colourism - the process of discrimination based on skin tone among members of the same ethnic group, whereby lighter skin is more valued than darker complexions. The African Diaspora in Britain is examined as part of a global black community with shared experiences of slavery, colonization and neo-colonialism. The author traces the evolution of colourism within African descendant communities in the USA, Jamaica, Latin America and the UK from a historical and political perspective and examines its present impact on the global African Diaspora. This book is essential reading for educators and students and will appeal to anyone with an interest in the subject of race and identity who wants to understand why colourism - a psychological legacy of slavery still impacts people of African descent in the Diaspora today.
