Dress Code - Toby Fischer-Mirkin 1995

"Drawn from academic studies, hundreds of interviews with fashion designers, and years of covering the industry from the inside, Toby Fischer-Mirkin's insightful analyses of the ins and outs of dressing will help you perfect a more timeless sense of dress - or cultivate an entirely new image." "She asserts that the key to the powerful use of clothing begins with understanding the numerous complex and fundamental motives that influence the way we dress and how personal style reflects our sense of self. She explores the distinct symbolism of clothing - how stiff, constructed collars in business signify seriousness, reliability, and strength, while loose, unconstructed collars convey a more easygoing attitude. She interprets fashion fads and trends such as the androgynous look and status symbols. And with great attention to detail, Fischer-Mirkin examines the psychological implications of clothes and accessories, from shoes to hats. She also offers situation-specific best choices for job interviews and social occasions."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

From Coveralls to Zoot Suits - Elizabeth R. Escobedo 2013-03-21

During World War II, unprecedented employment avenues opened up for women and minorities in U.S. defense industries at the same time that massive population shifts and the war challenged Americans to rethink notions of race. At this extraordinary historical moment, Mexican American women found new means to exercise control over their lives in the home, workplace, and nation. In *From Coveralls to Zoot Suits*, Elizabeth R. Escobedo explores how, as war workers and volunteers, dance hostesses and zoot suiters, respectable young ladies and rebellious daughters, these young women used wartime conditions to serve the United States in its time of need and to pursue their own desires. But even after the war, as Escobedo shows, Mexican American women had to continue challenging workplace inequities and confronting family and communal resistance to their broadening public presence. Highlighting seldom heard voices of the "Greatest Generation," Escobedo examines these contradictions within Mexican families and their

communities, exploring the impact of youth culture, outside employment, and family relations on the lives of women whose home-front experiences and everyday life choices would fundamentally alter the history of a generation.

Reveal and Conceal - Andrea B. Rugh 1986-11-01

This book is an exciting study of clothing as a complex cultural expression. The author analyses contemporary social meanings found in the symbols of dress and shows the way groups and individuals use the symbols like a language to reveal or conceal significant aspects of their personal identities. *Reveal and Conceal* contains thirty-three line drawings, clearly depicting the various modes and differences in dress. Forty-eight photographs are included in the book, most of which were taken by the author during her extensive interviews with the women and men of the Egyptian villages and cities she researched.

Fashion on the Ration - Julie Summers 2015-03-05

In September 1939, just three weeks after the outbreak of war, Gladys Mason wrote briefly in her diary about events in Europe: 'Hitler watched German siege of Warsaw. City in flames.' And, she continued, 'Had my wedding dress fitted. Lovely.' For Gladys Mason, and for thousands of women throughout the long years of the war, fashion was not simply a distraction, but a necessity - and one they weren't going to give up easily. In the face of bombings, conscription, rationing and ludicrous bureaucracy, they maintained a sense of elegance and style with determination and often astonishing ingenuity. From the young woman who avoided the dreaded 'forces bloomers' by making knickers from military-issue silk maps, to Vogue's indomitable editor Audrey Withers, who balanced lobbying government on behalf of her readers with driving lorries for the war effort, Julie Summers weaves together stories from ordinary lives and high society to provide a unique picture of life during the Second World War. As a nation went into uniform and women took on traditional male roles, clothing and beauty began to reflect changing social attitudes. For the first time, fashion was influenced not only by Hollywood and high

society but by the demands of industrial production and the pressing need to 'make-do-and-mend'. Beautifully illustrated and full of gorgeous detail, *Fashion on the Ration* lifts the veil on a fascinating era in British fashion.

Britain, from its Victorian games beginning in 1881 to 2022 and planning for the Euro Finals. In *The History of Women's Football*, author Jean Williams demonstrates how women's football began as a professional sport, and has only recently returned to these professional roots in the UK. This is because there was a fifty-year Football Association 'ban' on women playing on pitches affiliated to the governing body in England. The other British associations followed suit. Why was women's football banned in 1921? Why did it take until 1969 for a Women's Football Association to form? Why did it take until 1995 for England to qualify for a Women's World Cup? Answers to these key questions are supplemented across the chapters by personal accounts of the players who defied the ban, at home and abroad, along with the personal costs, and rewards, of being footballing pioneers. Praise for *The History of Women's Football* "This book was very informed, detailed and a very good read. As a football fan, I was staggered by how much I didn't know and how if football had been better supported at the beginning of the century there is a good chance women's football would be on a par with the men's game now . . . this was a very interesting read and I would happily recommend this book to fellow football fans." —UK Historian

Women & Fashion - Caroline Evans 1989

There are many new looks in fashion; here, at last, is a new look at fashion which focuses on the perplexing relationship between women, fashion and femininity: It brings together fashion and semiotics, psychoanalysis and style, interweaving the vocabulary of fashion literature with that of cultural studies and feminist theory. Helmut Newton's flashing model is contrasted with Deborah Tuberville's models of passive resistance, Jean Paul Gaultier's Dervish Bra with Elsa Schiaparelli's Shoe Hat, the cultural terrorism of punk in the 1970s with the postmodern bedlam of fashion in the 1980s. Analysing fashion at a level of representation, concerned more with images and ideas than with cut and fit, the authors make a series of sorties into fashion photography, design and cultural history, with centre around women, their bodies, and the pleasures and pains of fashion. An examination of attitudes to fashion in the early Women's Liberation Movement is followed by an analysis of how femininity has been appropriated and re-appropriated by women in the urban styles and subcultures of the 1970s and 1980s.
