S=EX2 - Pere Estupinyà 2016-08-25

You have in your hands the most rigorous, complete and readable book ever written about the fascinating science of human sexuality. This book goes beyond the well-worn sexual education advice and the usual evolutionist psychology. After *The Brain Snatcher*, Pere Estupinyà comes back with the first popular science book on sex aimed at a wide audience. While there are some tips for the more adventurous, there is also a wealth of new information to be discovered. Distancing himself from the many books on advice or techniques, Estupinyà brings sex to another dimension by combining popular beliefs and science. Do you want proof that our decision-making in the "heat of the moment" is less

rational than we think? Did you know that mind and vagina each go their own way? Are you interested in learning about the effects of yoga on sexual pleasure? Did you know about the attempts in the 60s to "cure" homosexuals with electric shock therapy, the chemical analysis of female ejaculation, or the fundamental relationship between the sympathetic and parasympathetic nervous system? The author has spoken directly with asexual and intersexual individuals, fetishists, multi-orgasmic women, women who never have orgasms through penetration, and men who have no refractory period. He has also participated in sadomasochistic events; learned tantric techniques with a couple of coaches, spoken with porn performers at Barcelona's Bagdad, and attended workshops in which a woman teaches how to have orgasms with your mind and breathing. The result is an incredible miscellany of information that appeals to both the scientific community and the curious.

Historia oculta del Satanismo - Santiago Camacho Hidalgo 2010-01-01

"El autor, Santiago Camacho, nos describe cómo era esta ideología en sus orígenes y como la Iglesia, igual que siempre ha ocurrido a lo largo de la Historia (y no sólo en aspectos religiosos), ha tratado de contaminarla durante siglos hasta que se ha conseguido demonificar unas creencias milenarias."-web Comentarios de libros Desde tiempos ancestrales, los seres humanos han pactado con la divinidad, a cualquier precio, incluso si esa divinidad es la personificación del mal. Historia oculta del satanismo recorre la historia de la adoración del maligno sin prejuicios, sin censurar nada y sin ponerse por sistema de parte de uno de los bandos, mostrando así que el problema del satanismo, históricamente contemplado, es más complejo de los que parece. Parte de la brujería ancestral y de su dominio de las hierbas para lograr estados alterados de conciencia, ese saber es transmitido oralmente y escapa al control de la Iglesia. Narra también la historia de los pactos con Satán, las diferentes formas en las que hombres deseosos de medrar han vendido su alma, o alguna otra cosa, al maligno. Desde el aséptico contrato hasta los sacrificios más horribles que se pueden imaginar las fórmulas son diversas, pero todas han llegado hasta nuestro siglo. La labor de investigación de Santiago Camacho es tremenda, y gracias a esa labor infatigable, el autor consigue llevarnos al centro de un aquelarre, conoceremos gracias a él toda la simbología luciferina pero también la irracional y cruel persecución que sufrieron los practicantes de magia negra o, simplemente, las mujeres que conocían los secretos de las plantas. En un estilo neutral, informativo y ameno consigue dejarnos estupefactos con las atrocidades que se cometieron en nombre de Lucifer pero también en nombre de Dios.

Tantra, sexualidad sagrada - Erica Gómez del Corral 2016-04-10

Una mujer y un hombre que se unen sexualmente tienen la posibilidad más elevada de experimentar la plenitud del ser en el sentido más absoluto y completo. Sin embargo, no es eso lo que muchas veces sucede. Prejuicios de índole diversa que se arrastran desde hace siglos: frigidez, anorgasmia, impotencia y el tan mentado aburrimiento sexual son, lamentablemente, dificultades conocidas por buena parte de las parejas de hoy en día. El Tantra, disciplina oriental originada hace milenios, que celebra el placer y el éxtasis, constituye una vía de superación a esos problemas. Las enseñanzas del tantrismo permiten activar la magia erótica presente, pero dormida, en toda persona.

Magia Sexualis - Paschal Beverly Randolph 2012-08-27

A step-by-step guide to the occult science of sex magic • Based on the practices of P. B. Randolph, occult rival of H. P. Blavatsky • Reveals how to perform sex magic rituals for specific real-world results, such as greater strength or enhancement of the senses • Explains how to create magical talismans, such as rings with specific planetary forces, how to enliven a painting, and how to charge an effigy Conceived by Paschal Beverly Randolph, *Magia Sexualis* has been heralded as the most influential book about sex magic ever written, surviving to the present day solely through Maria de Naglowska's French translation. Published more than 50 years after Randolph's death, the authorship of this "translation" has been repeatedly called into question: While the greater part of the content can be traced to Randolph's known works, a very significant portion cannot--leading to the conclusion that this work was supplemented by Naglowska's own sex magic work and extensive occult teachings. *Magia Sexualis* explains Randolph's meticulous science of sex magic, practiced by the Brotherhood of Eulis and the Hermetic Brotherhood of Light. Beginning with exercises to develop essential skills, the book explains in step-by-step detail how to perform sex magic rituals for specific results, such as greater strength or enhancement of the senses, how to charge and use a "vot" --an effigy of a specific person you want to influence or protect, how to enliven a painting in order to influence those around it, and how to create magical talismans with specific planetary forces, using what Randolph calls "fluid condensers." This work from two great occult minds shows that true power of the spirit is acquired in conjunction with the power of sex--affirming that

"sex is the fundamental force in every being, the most powerful force in Nature, and the most characteristic evidence of God."
