*Introducing Intercultural Communication* Shuang Liu 2010-11-09 Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new topics, including international conflict, social networking, migration, and the effects technology and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local, introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including: • theory corners with concise, boxed-out digests of key theoretical concepts • case illustrations putting the main points of each chapter into context • learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion • a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes. This book will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

*Tall White and Hung* Ann L. Probe 2013-11 Warning: ADULTS ONLY! This story was written for people 18 and older, and features explicit sex between humans and non-human entities. Think you can handle it? Read at your own risk! A HORNY ALIEN WHO NEEDS TO GET LAID OR HE'LL DIE An alien race known as the Tall Whites are holed up in Nevada, and their only pilot has gone into heat, but as his wife died and he can't have sex with another member of his race, the pressure building up within him will kill him, stranding the aliens on Earth. *Staying with the Trouble* Donna J. Haraway 2016-08-19 In the midst of spiraling ecological devastation, multispecies feminist theorist Donna J. Haraway offers provocative new ways to reconfigure our relations to the earth and all its inhabitants. She eschews referring to our current epoch as the Anthropocene, preferring to conceptualize it as what she calls the Chthulucene, as it more aptly and fully describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices. The Chthulucene, Haraway explains, requires sym-poiesis, or making-with, rather than auto-poiesis, or self-making. Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the kind of thinking that would provide the means to building more livable futures. Theoretically and methodologically driven by the signifier SF—string figures, science fact, science fiction, speculative feminism, speculative fabulation, so far—Staying with the Trouble further cements Haraway's reputation as one of the most daring and original thinkers of our time.

*Women, Race & Class* Angela Y. Davis 2019-10-03 Ranging from the age of slavery to contemporary injustices, this groundbreaking history of race, gender and class inequality by the radical political activist Angela Davis offers an alternative view of female struggles for liberation. Tracing the intertwined histories of the abolitionist and women's suffrage movements, Davis examines the racism and class prejudice inherent in so much of white feminism, and in doing so brings to light new pioneering heroines, from field slaves to mill workers, who fought back and refused to accept the lives into which they were born. 'The power of her historical insights and the sweetness of her dream cannot be denied' The New York Times

*Let's Go to Hell* James Burns 2015-08-21 The Butthole Surfers remain one of the most enigmatic bands in the history of rock music. Most of their records have no information of any kind, and often with the suggestion that you play them at 69 rpm.... They lived like nomads through much of the 1980s, and built their reputation upon tours that never ended, and shows that resembled hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...

*The 12th Planet* Zecharia Sitchin 1991-05-01 Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. The 12th Planet brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

The Resonance of Unseen Things Susan Lepselter 2016-03-03 The Resonance of Unseen Things offers an ethnographic meditation on the “uncanny” persistence and cultural freight of conspiracy theory. The project is a reading of conspiracy theory as an index of a certain strain of late 20th-century American despondency and malaise, especially as understood by people experiencing downward social mobility. Written by a cultural anthropologist with a literary background, this deeply interdisciplinary book focuses on the enduring American preoccupation with captivity in a rapidly transforming world. Captivity is a trope that appears in both ordinary and fantastic iterations here, and Susan Lepselter shows how multiple troubled histories—of race, class, gender, and power—become compressed into stories of uncanny memory. “We really don’t have anything like this in terms of a focused, sympathetic, open-minded ethnographic study of UFO experiencers. . . . The author’s semiotic approach to the paranormal is immensely productive, positive, and, above all, resonant with what actually happens in history.” —Jeffrey J. Kripal, J. Newton Rayzor Professor of Religion, Rice University “Lepselter relates a weave of intimate alien sensibilities in out-of-the-way places which are surprisingly, profoundly, close to home. Readers can expect to share her experience of contact with complex logics of feeling, and to do so in a contemporary America they may have thought they understood.” —Debbora Battaglia, Mount Holyoke College “An original and beautifully written study of contemporary American cultural poetics. . . . The book convincingly brings into relief the anxieties of those at the margins of American economic and civic life, their perceptions of state power, and the narrative continuities that bond them to histories of violence and expansion in the American West.” —Deirdre de la Cruz, University of Michigan

Fire Sermon Jamie Quatro 2018-02-22 'Superb. Uncomfortable, ambiguous, erotic . . . first rate prose and an old-fashioned ability to tell a story.' Eimear McBride, author of *A Girl Is A Half-formed Thing* Maggie is entirely devoted to her husband Thomas, their two beautiful children, and to God. But then what begins as innocent letter writing with poet James starts to become something far more erotically charged, their meeting of minds threatening to become a meeting of bodies. As everything Maggie believes in is thrown into doubt the reader is drawn ever deeper into the battleground of her soul. *Fire Sermon* is a daring debut novel of obsession, desire and salvation that shows the radical light and dark of love itself. This is a visceral, rich and devastating portrait of life and loves lived and lost that cannot fail to echo in your own experience.

Qualitative Research from Start to Finish, First Edition Robert K. Yin 2011-09-26 This lively, practical text presents a fresh and comprehensive approach to doing qualitative research. The book offers a unique balance of theory and clear-cut choices for customizing every phase of a qualitative study. A scholarly mix of classic and contemporary studies from multiple disciplines provides compelling, field-based examples of the full range of qualitative approaches. Readers learn about adaptive ways of designing studies, collecting data, analyzing data, and reporting findings. Key aspects of the researcher's craft are addressed, such as fieldwork options, the five phases of data analysis (with and without using computer-based software), and how to incorporate the researcher's “declarative” and “reflective” selves into a final report. Ideal for graduate-level courses, the text includes:\* Discussions of ethnography, grounded theory, phenomenology, feminist research, and other approaches.\* Instructions for creating a study bank to get a new study started.\* End-of-chapter exercises and a semester-long, field-based project.\* Quick study boxes, research vignettes, sample studies, and a glossary.\* Previews for sections within chapters, and chapter recaps.\* Discussion of the place of qualitative research among other social science methods, including mixed methods research.

**Imperial Leather** Anne McClintock 2013-10-01 *Imperial Leather* chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

**Ulysses** James Joyce 2022-10-19 Loosely based on the *Odyssey*, this landmark of modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

**EBOOK: Key Themes in Media Theory** Dan Laughey 2007-10-16 "Key Themes in Media Theory is wonderfully wide-ranging and deservedly destined to become a key text for students of Media Studies." Professor John Storey, University of Sunderland, UK "The very best text books are not just summaries of complex ideas for a student audience or an introduction to a critical canon; the very best add something to the canon they reflect upon, and Dan Laughey's *Key Themes in Media Theory* is one such book. [It] is not a means to an end, as many such books can be. Rather it is a motivational primer, and one that should send both students and teachers heading to the library to read the theorists presented here again, for the first time." Richard Berger, *Art, Design, Media*; The Higher Education Academy, UK What is media theory? How do media affect our actions, opinions and beliefs? In what ways do media serve powerful political and economic interests? Is media consumerism unhealthy or is it empowering? *Key Themes in Media Theory* provides a thorough and critical introduction to the key theories of media studies. It is unique in bringing together different schools of media theory into a single, comprehensive text, examining in depth the ideas of key media theorists such as Lasswell, McLuhan, Hall, Williams, Barthes, Adorno, Baudrillard and Bourdieu. Using up-to-date case studies the book embraces media in their everyday cultural forms - music, internet, film, television, radio, newspapers and magazines - to enable a clearer view of the 'big picture' of media theory. In ten succinct chapters Dan Laughey discusses a broad range of themes, issues and perspectives that inform our contemporary understanding of media production and consumption. These include: Behaviourism and media effects Feminist media theory Postmodernity and information society Political economy Media consumerism With images and diagrams to illustrate chapter themes, examples that apply media theory to media practice, recommended reading at the end of every chapter, and a useful glossary of key terms, this book is the definitive guide to understanding media theory.

**Songs in the Key of Z** Irwin Chusid 2000 Irwin Chusid profiles a number of "outsider" musicians - those who started as "outside" and eventually came "in" when the listening public caught up with their radical ideas. **Was Mao Really a Monster?** Gregor Benton 2013-09-13 *Mao: The Unknown Story* by Jung Chang and Jon Halliday was published in 2005 to a great

fanfare. The book portrays Mao as a monster – equal to or worse than Hitler and Stalin – and a fool who won power by native cunning and ruled by terror. It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list. Few works on China by writers in the West have achieved its impact. Reviews by serious China scholars, however, tended to take a different view. Most were sharply critical, questioning its authority and the authors' methods, arguing that Chang and Halliday's book is not a work of balanced scholarship, as it purports to be, but a highly selective and even polemical study that sets out to demonise Mao. This book brings together sixteen reviews of Mao: *The Unknown Story* – all by internationally well-regarded specialists in modern Chinese history, and published in relatively specialised scholarly journals. Taken together they demonstrate that Chang and Halliday's portrayal of Mao is in many places woefully inaccurate. While agreeing that Mao had many faults and was responsible for some disastrous policies, they conclude that a more balanced picture is needed.

**George Eliot's Religious Imagination** Marilyn Orr 2018-02-15 George Eliot's Religious Imagination addresses the much-discussed question of Eliot's relation to Christianity in the wake of the sociocultural revolution triggered by the spread of theories of evolution. The standard view is that the author of *Middlemarch* and *Silas Marner* "lost her faith" at this time of religious crisis. Orr argues for a more nuanced understanding of the continuity of Eliot's work, as one not shattered by science, but shaped by its influence. Orr's wide-ranging and fascinating analysis situates George Eliot in the fertile intellectual landscape of the nineteenth century, among thinkers as diverse as Ludwig Feuerbach, David Strauss, and Søren Kierkegaard. She also argues for a connection between George Eliot and the twentieth-century evolutionary Christian thinker Pierre Teilhard de Chardin. Her analysis draws on the work of contemporary philosopher Richard Kearney as well as writers on mysticism, particularly Karl Rahner. The book takes an original look at questions many believe settled, encouraging readers to revisit George Eliot's work. Orr illuminates the creative tension that still exists between science and religion, a tension made fruitful through the exercise of the imagination. Through close readings of Eliot's writings, Orr demonstrates how deeply the novelist's religious imagination continued to operate in her fiction and poetry.

**The Left Hand Of Darkness** Ursula K. Le Guin 2012-12-06 Winter is an Earth-like planet with two major differences: conditions are semi arctic even at the warmest time of the year, and the inhabitants are all of the same sex. Tucked away in a remote corner of the universe, they have no knowledge of space travel or of life beyond their own world. And when a strange envoy from space brings news of a vast coalition of planets which they are invited to join, he is met with fear, mistrust and disbelief. . . 'The Left Hand of Darkness' is a groundbreaking work of feminist science fiction, an imaginative masterpiece which poses challenging questions about sexuality, sexism and the organisation of society.

**Slow Violence and the Environmentalism of the Poor** Rob Nixon 2011 "Slow violence" from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war occurs gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.

**The Invention of Tradition** Hobsbawm, E. J. Hobsbawm 1992-07-31 This book explores examples of this process of invention and addresses the complex interaction of past and present in a fascinating study of ritual and symbolism.

**Luboml** Berl Kagan 1997 The story of the former Polish-Jewish community (shtetl) of Luboml, Wołyń, Poland. **Introduction to Nordic Cultures** Annika Lindskog 2020-04-17 Introduction to Nordic Cultures is an innovative, interdisciplinary introduction to Nordic history, cultures and societies from medieval times to today. The textbook spans the whole Nordic region, covering historical periods from the Viking Age to modern society, and engages with a range of subjects: from runic inscriptions on iron rings and stone monuments, via eighteenth-century scientists, Ibsen's dramas and turn-of-the-century travel, to twentieth-century health films and the welfare state, nature ideology, Greenlandic literature, Nordic Noir, migration, 'new' Scandinavians, and stereotypes of the Nordic. The chapters provide fundamental knowledge and insights into the history and structures of Nordic societies, while constructing critical analyses around specific case studies that help build an informed picture of how societies grow and of the interplay between history, politics, culture, geography and people. Introduction to Nordic Cultures is a tool for understanding issues related to the Nordic region as a whole, offering the reader engaging and stimulating ways of discovering a variety of cultural expressions, historical developments and local preoccupations. The textbook is a valuable resource for undergraduate students of Scandinavian and Nordic studies, as well as students of European history, culture, literature and linguistics.

**Archaeologies of the Future** Fredric Jameson 2020-05-05 In an age of globalization characterized by the dizzying technologies of the First World, and the social disintegration of the Third, is the concept of utopia still meaningful? *Archaeologies of the Future*, Jameson's most substantial work since *Postmodernism, Or, the Cultural Logic of Late Capitalism*, investigates the development of this form since Thomas More, and interrogates the functions of utopian thinking in a post-Communist age. The relationship between utopia and science fiction is explored through the representations of otherness, alien life and alien worlds, and a study of the works of Philip K. Dick, Ursula LeGuin, William Gibson, Brian Aldiss, Kim Stanley Robinson and more. Jameson's essential essays, including "The Desire Called Utopia," conclude with an examination of the opposing positions on utopia and an assessment of its political value today.

**The Body Papers** Grace Talusan 2019-04-02 Winner of The Restless Books Prize for New Immigrant Writing "Grace Talusan writes eloquently about the most unsayable things: the deep gravitational pull of family, the complexity of navigating identity as an immigrant, and the ways we move forward even as we carry our traumas with us. Equal parts compassion and confession, *The Body Papers* is a stunning work by a powerful new writer who—like the best memoirists—transcends the personal to speak on a universal level." —Celeste Ng, author of *Everything I Never Told You* and *Little Fires Everywhere* Born in the Philippines, young Grace Talusan moves with her family to a New England suburb in the 1970s. At school, she confronts racism as one of the few kids with a brown face. At home, the confusion is worse: her grandfather's nightly visits to her room leave her hurt and terrified, and she learns to build a protective wall of silence that maps onto the larger silence practiced by her Catholic Filipino family. Talusan learns as a teenager that her family's legal status in the country has always hung by a thread—for a time, they were "illegal." Family, she's told, must be put first. The abuse and trauma Talusan suffers as a child affects all her relationships, her mental health, and her relationship with her own body. Later, she learns that her family history is threaded with violence and abuse. And she discovers another devastating family thread: cancer. In her thirties, Talusan must decide whether to undergo preventive surgeries to remove her breasts and ovaries. Despite all this, she finds love, and success as a teacher. On a fellowship, Talusan and her husband return to the Philippines, where she revisits her family's ancestral home and tries to reclaim a lost piece of herself. Not every family legacy is destructive. From her parents, Talusan has learned to tell stories in order to continue. The generosity of spirit and literary acuity of this debut memoir are a testament to her determination and resilience. In excavating such abuse and trauma, and supplementing her story with government documents, medical records, and family photos, Talusan gives voice to unspeakable experience, and shines a light of hope into the darkness.

*Imagining Extinction* Ursula K. Heise 2016-08-10 As the extinction of species accelerates and more species become endangered, activists, filmmakers, writers, and artists have responded to bring this global crisis to the attention of the public. Until now, there has been no study of the frameworks that shape these narratives and images, or of the symbolic meanings that the death of species carries in different cultural communities. Ursula Heise makes the case that understanding how and why endangered species come to matter culturally is indispensable for any effective advocacy on their behalf. Heise begins by showing that the tools of conservation science and law need to be viewed as cultural artifacts: biodiversity databases and laws for the protection of threatened species use rhetorical and cultural resources that open up different approaches to the problem of understanding global wildlife. The second half of her book explores ways of envisioning alternative futures for biodiversity. The narrative of nature's decline or even imminent disappearance has been a successful rallying trope for those skeptical of modernization and ideologies of progress. But environmentalists' nostalgia for the past and pessimistic outlook on the future have also alienated parts of the public. Heise tells the story of environmental activists, writers, and scientists who are creating new stories to guide the environmental imagination."

Economic Science Fictions William Davies 2018-05-04 An innovative new anthology exploring how science fiction can motivate new approaches to economics. From the libertarian economics of Ayn Rand to Aldous Huxley's consumerist dystopias, economics and science fiction have often orbited each other. In *Economic Science Fictions*, editor William Davies has deliberately merged the two worlds, asking how we might harness the power of the utopian imagination to revitalize economic thinking. Rooted in the sense that our current economic reality is no longer credible or viable, this collection treats our economy as a series of fictions and science fiction as a means of anticipating different economic futures. It asks how science fiction can motivate new approaches to economics and provides surprising new syntheses, merging social science with fiction, design with politics, scholarship with experimental forms. With an opening chapter from Ha-Joon Chang as well as theory, short stories, and reflections on design, this book from Goldsmiths Press challenges and changes the notion that economics and science fiction are worlds apart. The result is a wealth of fresh and unusual perspectives for anyone who believes the economy is too important to be left solely to economists. Contributors AUDINT, Khairani Barokka, Carina Brand, Ha-Joon Chang, Miriam Cherry, William Davies, Mark Fisher, Dan Gavshon-Brady and James Pockson, Owen Hatherley, Laura Horn, Tim Jackson, Mark Johnson, Bastien Kerspern, Nora O Murchú, Tobias Revell et al., Judy Thorne, Sherryl Vint, Joseph Walton, Brian Willems
