Rekindling Love Louisa Jackson 2017-08-12 If your partner has told you it's over, if you're devastated and you want them back - this book is for you. Perhaps you're still with your partner but they're losing interest or pulling away - this book is also for you. Not all relationships can be saved. However, there are those that definitely can, and should, be saved. Given the right inner conditions, broken relationships can, and do, heal. Here you will learn precisely how to cultivate those conditions. Author, Louisa Jackson, describes how her life spiralled downwards after the break-up of a relationship. In crisis, she turned to the Law of Attraction and slowly mastered the subtle art of harnessing this intelligence in her favour. This brought miraculous changes to all areas of her life. Her long-term battle with depression, social anxiety, and an eating disorder came to an end. So,

too, did the cycle of toxic and dysfunctional relationships that she kept repeating over and over. Louisa now enjoys a happy and loving, long-term relationship - one which was successfully rekindled after applying the techniques and principles outlined in this book. The focus here is what's going on inside you, rather than on the outer circumstances of your life - for when you transform your inner world, your outer world transforms in equal measure. As you'll see, this isn't merely a spiritual concept but is backed up by quantum physics principles. Rekindling Love will teach you: - how not to behave in the immediate aftermath of a break-up - how to move step-by-step out of heartache and pain - how to avoid the intense suffering so common after a break-up - the power of letting go - why most people are living their life back-to-front - the importance of happiness in the rekindling process - what real happiness is, and how to cultivate it - why the Western approach to happiness causes so much suffering - how the concept of 'like attracts like' impacts every area of your life - how to prevent a repeating pattern of failed relationships - how to reverse the flow of love from getting to giving If your relationship does successfully rekindle, you'll discover methods for sustaining the honeymoon period and preventing further heartbreak. This book is about magnetizing you for love, whether that's with your existing partner or a new one. With practice and repetition, you'll stop needing love and instead start to radiate love. When this happens, you cannot help but attract love. Whether you want to save a long-term marriage or a short-term romance, the same formula applies. This is a new way of 'being' which will radiate out into all areas of your life. You may even find after reading this that you no longer want, or need, your partner to return. About the Author Louisa Jackson lives in London with her partner and son. She has an Honours and Masters degree in Psychology and a passion for all things scientific and psychological.

And, most importantly, he offers practical suggestions to help get the spark back. For both of you. This book is a godsend for any new, or newish, parent who thinks their other relationship could do with a little attention too.

Win Your Partner Back After A Break Up? Louisa Jackson 2021-05-08 Those that go searching for love only make manifest their own lovelessness - D.H. Lawrence If you're going through the agony of a break up and you long, desperately, to reunite with your partner - this book is for you. Perhaps you're still with your partner but they're losing interest or pulling away - this book is also for you. Not all relationships can be saved. However, given the right inner conditions, some relationships can - and do - heal. Here you will learn precisely how to cultivate those conditions. Author, Louisa Jackson, describes how her life spiralled downwards after the break-up of a relationship. This triggered a long and intense period of study. Immersed in quantum physics, spirituality and Law of Attraction principles, she started to experiment with these concepts in her day-to-day life. Slowly, her intense suffering transformed into deep peace and happiness. A completely new way of living emerged and miraculous changes to all

areas of her life then followed. Her long-term battle with depression, social anxiety and bulimia came to an end. Financial and family difficulties also resolved. So, too, did the cycle of toxic and dysfunctional relationships that she kept repeating over and over. Louisa now enjoys a happy, long-term, relationship - one which was successfully rekindled after applying the techniques and principles outlined in this book. The focus here is what's going on inside you, rather than on the outer circumstances of your life. For when you transform your inner world, you'll find that your outer world transforms in equal measure - sometimes in miraculous ways. As you'll see, this isn't merely a spiritual concept but is backed up by quantum physics principles. This book gets right to the heart of your beliefs about love, happiness and the fundamental nature of reality. It's faulty beliefs in these areas which are so often at the root of dysfunctional relationships. You'll learn what real happiness is, and how to cultivate it. You'll also discover techniques for sustaining the honeymoon period and how to prevent a repeating pattern of heartbreak. With practice, you'll stop needing love and instead start to radiate love. When this happens, you cannot help but attract love, whether that's from your existing partner or a new one. This is a new way of 'being' which will radiate out into all areas of your life. Whether you want to save a long-term marriage or a short-term romance, the same formula applies. You may even find after reading this book that you no longer want, or need, your partner to return.

How to have a sparkling relationship in 49 ways Celine Claire 2022-02-19 This e-book gives you tips on how to fully enjoy your relationship. Are you curious about how you too can have a sparkling relationship? Well, reading this e-book will help you have better relationships since it has up to 49 ways that you can depend on for good relationship outcomes. 1, Assess the type of your love: Falling in love with somebody is the easy part. The challenge that couples encounter is how to rekindle the fires of their romance often and also to cultivate the mature, trusting love that is the foundation of a sparkling and lasting relationship. What style of love are you using? When you say that, "I love you," What do you want to imply? Terry Hatkoff, a sociologist at California State University, has initiated a love scale that identifies six different types of love present in our closest links that are mentioned here below; Romantic love: This type of love is based on passion and sexual attraction. Best friends: This is characterized by fondness and deep affection. Logical: It is characterized by practical feelings based on shared values, financial goals, religion, among others. Playful: In this type of love, feelings are evoked by flirtation or feeling challenged. Possessive: Jealousy and obsession are the foundation of this type of love. Unselfish: This is a type of love that is characterized by nurturing, kindness, and sacrifice. Researchers have discovered that the love we feel in our highly committed relationships is mainly a combination of two or three distinctive forms of love. But usually, two individuals in the same relationship can possess extremely different versions of how they define love. Dr. Hatkoff shares the example of a man and a woman having dinner. The waiter flirts with the lady, but the husband doesn't seem to care much, and he then talks about changing the oil in her car. The wife is troubled since her husband is not jealous. Her husband feels like she is not appreciative of his extra work. How is love assessed here? Well, the husband and his wife define love differently. To him, love is practical and is best illustrated by supportive gestures such as car maintenance. To her, love is possessive, and a jealous response from her husband would make her feel treasured. So, you must understand what makes your partner feel loved to help you navigate disagreements and put the romance back into your relationship. 2, Learn to ignite romance: Romantic love is termed as a natural addiction since it activates your brain's reward center that is characterized by dopamine pathways that are associated with novelty, energy, focus, learning, motivation, cravings, and ecstasy. This is why we feel very energized and motivated once we fall in love. Translator: Celine Claire PUBLISHER: TEKTIME
