The Palgrave Handbook of Digital and Public Humanities - Anne Schwan 2022-11-04

This handbook brings together recent international scholarship and developments in the interdisciplinary fields of digital and public humanities. Exploring key concepts, theories, practices and debates within both the digital and public humanities, the handbook also assesses how these two areas are increasingly intertwined. Key questions of access, ownership, authorship and representation link the individual sections and contributions. The handbook includes perspectives from the Global South and presents scholarship and practice that engage with a multiplicity of underrepresented 'publics', including LGBTQ+ communities, ethnic and linguistic minorities, the incarcerated and those affected by personal or collective trauma. Chapter "The Role of Digital and Public Humanities in Confronting the Past: Survivors' of Ireland's Magdalene Laundries Truth Telling" is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

[Sorting Some of the Wrights of Southern Virginia: Text](#) - Robert Noel Grant 2006

How to Be an Epicurean - Catherine Wilson 2019-09-24

A leading philosopher shows that if the pursuit of happiness is the question, Epicureanism is the answer. Epicureanism has a reputation problem, bringing to mind gluttons with gout or an admonition to eat, drink, and be merry. In *How to Be an Epicurean*, philosopher Catherine Wilson shows that Epicureanism isn't an excuse for having a good time: it's a means to live a good life. Although modern conveniences and scientific progress have significantly improved our quality of life, many of the problems faced by ancient Greeks -- love, money, family, politics -- remain with us in new forms. To overcome these obstacles, the Epicureans adopted a philosophy that promoted reason, respect for the natural world, and reverence for our fellow humans. By applying this ancient wisdom to a range of modern problems, from self-care routines and romantic entanglements to issues of public policy and social justice, Wilson shows us how we can all fill our lives with purpose and pleasure.

Negotiating Sainthood - Kathy Bacon 2017-12-02

"This study demonstrates the previously unrecognised significance of discourses of saintliness for constructions of gender and national identity in late-nineteenth and early-twentieth-century Spanish culture. Kathy Bacon's innovative approach to sainthood leads to fresh readings of texts by Spain's three principal realist novelists: *La familia de Leon Roch* and *Nazarin* (Benito Perez Galdos, 1878 and 1895), *La Regenta* (Leopoldo Alas, 1884-85), and *Dulce dueno* (Emilia Pardo Bazan, 1911). The author challenges the conventional distinction between anti-clerical and spiritual novels by these writers, and questions previous feminist assumptions about the negative role of religion for female identity. Sainthood emerges as a key theme through which texts grapple with Spain's difficult transition to modernity."

[The Oxford Handbook of Philosophy in Early Modern Europe](#) - Desmond M. Clarke 2013-05-23

In this Handbook twenty-six leading scholars survey the development of philosophy between the middle of the sixteenth century and the early eighteenth century. The five parts of the book cover metaphysics and natural philosophy; the mind, the passions, and aesthetics; epistemology, logic, mathematics, and language; ethics and political philosophy; and religion. The period between the publication of Copernicus's *De Revolutionibus* and Berkeley's reflections on Newton and Locke saw one of the most fundamental changes in the history of our way of thinking about the universe. This radical transformation of worldview was partly a response to what we now call the Scientific Revolution; it was equally a reflection of political changes that were no less fundamental, which included the establishment of nation-states and some of the first attempts to formulate a theory of international rights and justice. Finally, the Reformation and its aftermath undermined the apparent unity of the Christian church in Europe and challenged both religious beliefs that had been accepted for centuries and the interpretation of the Bible on which they had been based. The Handbook surveys a number of the most important developments in the philosophy of the period, as these are expounded both in texts that have since become very familiar and in

other philosophical texts that are undeservedly less well-known. It also reaches beyond the philosophy to make evident the fluidity of the boundary with science, and to consider the impact on philosophy of historical and political events—explorations, revolutions and reforms, inventions and discoveries. Thus it not only offers a guide to the most important areas of recent research, but also offers some new questions for historians of philosophy to pursue and to have indicated areas that are ripe for further exploration.

Picturing the Book of Nature - Sachiko Kusukawa 2012-05-02

Because of their spectacular, naturalistic pictures of plants and the human body, Leonhart Fuchs's *De historia stirpium* and Andreas Vesalius's *De humani corporis fabrica* are landmark publications in the history of the printed book. But as *Picturing the Book of Nature* makes clear, they do more than bear witness to the development of book publishing during the Renaissance and to the prominence attained by the fields of medical botany and anatomy in European medicine. Sachiko Kusukawa examines these texts, as well as Conrad Gessner's unpublished *Historia plantarum*, and demonstrates how their illustrations were integral to the emergence of a new type of argument during this period—a visual argument for the scientific study of nature. To set the stage, Kusukawa begins with a survey of the technical, financial, artistic, and political conditions that governed the production of printed books during the Renaissance. It was during the first half of the sixteenth century that learned authors began using images in their research and writing, but because the technology was so new, there was a great deal of variety of thought—and often disagreement—about exactly what images could do: how they should be used, what degree of authority should be attributed to them, which graphic elements were bearers of that authority, and what sorts of truths images could and did encode. Kusukawa investigates the works of Fuchs, Gessner, and Vesalius in light of these debates, scrutinizing the scientists' treatment of illustrations and tracing their motivation for including them in their works. What results is a fascinating and original study of the visual dimension of scientific knowledge in the sixteenth century.

[The Past as Present in the Drama of August Wilson](#) - Harry J. Elam 2009-05-21

Pulitzer-prizewinning playwright August Wilson, author of *Fences*, *Ma Rainey's Black Bottom*, and *The Piano Lesson*, among other dramatic works, is one of the most well respected American playwrights on the contemporary stage. The founder of the Black Horizon Theater Company, his self-defined dramatic project is to review twentieth-century African American history by creating a play for each decade. Theater scholar and critic Harry J. Elam examines Wilson's published plays within the context of contemporary African American literature and in relation to concepts of memory and history, culture and resistance, race and representation. Elam finds that each of Wilson's plays recaptures narratives lost, ignored, or avoided to create a new experience of the past that questions the historical categories of race and the meanings of blackness. Harry J. Elam, Jr. is Professor of Drama at Stanford University and author of *Taking It to the Streets: The Social Protest Theater of Luis Valdez and Amiri Baraka* (The University of Michigan Press).

[The Routledge Guidebook to Descartes' Meditations](#) - Gary Hatfield 2014-07-11

Descartes is widely regarded to be the father of modern philosophy and his *Meditations* is among the most important philosophical texts ever written. The *Routledge Guidebook to Descartes' Meditations* introduces the major themes in Descartes' great book and acts as a companion for reading this key work, examining: The context of Descartes' work and the background to his writing Each separate part of the text in relation to its goals, meanings and impact The reception the book received when first seen by the world The relevance of Descartes' work to modern philosophy, its legacy and influence With further reading included throughout, this text follows Descartes' original work closely, making it essential reading for all students of philosophy, and all those wishing to get to grips with this classic work.

[The Reigning Star](#) - Catherine Wilson 2017-10-12

When Brave made a promise to protect the kingdom of Theron, she did so with the understanding she may have to give up the one person she longs for the most. Now, with Aras free from Knox's grasp and her little

sister wielding a magic of her own, Brave's vow doesn't seem nearly as simple as it first appeared. Desperate to save Ian's heart while holding onto Aras' love, Brave must put her feelings aside to help Theron defeat its biggest threat yet-her father. Teaming up with friends and foes from the past, Brave and Ian develop a plan to end Knox's reign once and for all. But when Vivi decides to change their tactics with a scheme of her own, Brave's entire world is turned upside down. No longer is she fighting just to save a kingdom... now she must rescue everyone she holds dear. In this thrilling end to The Orien Trilogy, only one thing is certain-war brews on the horizon, and Brave will have to face her toughest battle yet. Will she follow the path the stars have laid out for her, or will she create a destiny of her own?

The Law and Practice of Secured Transactions - Richard F. Duncan 2013

The Cambridge Companion to Leibniz - Nicholas Jolley 1995

The most comprehensive account of the full range of Leibniz's thought.

Descartes and Cartesianism - Stephen Gaukroger 2017

This volume is a collection of original essays dealing with Cartesian themes and problems, especially as these arise in connection with Cartesian natural science and the theory of perception, agency, mentality, divinity, and the passions. It focuses in particular on Desmond Clarke's important contributions to these aspects of Descartes's writings. Stephen Gaukroger and Catherine Wilson split the volume into four distinct parts; Cartesian Science, Mind and Perception, Actions and Passions, and Cartesian Woman. The contributors are internationally known and respected scholars of 17th century philosophy writing on a number of their favourite Cartesian topics.

Archeological Investigations in Skagway, Alaska: Excavations at the Pantheon Saloon Complex - Catherine Holder Spude 1983

Reinventing the Peabody Sisters - Monika M. Elbert 2006-04-01

Whether in the public realm as political activists, artists, teachers, biographers, editors, and writers or in the more traditional role of domestic, nurturing women, Elizabeth Peabody, Mary Peabody Mann, and Sophia Peabody Hawthorne subverted rigid nineteenth-century definitions of women's limited realm of influence. Reinventing the Peabody Sisters seeks to redefine this dynamic trio's relationship to the literary and political movements of the mid nineteenth century. Previous scholarship has romanticized, vilified, or altogether erased their influences and literary productions or viewed these individuals solely in light of their relationships to other nineteenth-century luminaries, particularly men--Ralph Waldo Emerson, Nathaniel Hawthorne, Horace Mann. This collection underscores that each woman was a creative force in her own right. Despite their differences and sibling conflicts, all three sisters thrived in the rarefied--if economically modest--atmosphere of a childhood household that glorified intellectual and artistic pursuits. This background allowed each woman to negotiate the nineteenth-century literary marketplace and in the process redefine its scope. Elizabeth, Mary, and Sophia remained linked throughout their lives, encouraging,

complementing, and sometimes challenging each other's endeavors while also contributing to each other's literary work. The essays in this collection examine the sisters' confrontations with and involvement in the intellectual movements and social conflicts of the nineteenth century, including Transcendentalism, the Civil War, the role of women, international issues, slavery, Native American rights, and parenting. Among the most revealing writings that the sisters left behind, however, are those which explore the interlaced relationship that continued throughout their remarkable lives.

Dance Magazine - 1968

The Origins of the English Marriage Plot - Lisa O'Connell 2019-07-11

Examines how and why marriage plots became the English novel's most popular form in the eighteenth century. This book will be of interest to students and researchers of eighteenth and early nineteenth-century English literature and culture as well as feminist literary history.

Kant and the Concept of Race - Jon M. Mikkelsen 2013-08-01

Late eighteenth-century writings on race by Kant and four of his contemporaries. Kant and the Concept of Race features translations of four texts by Immanuel Kant frequently designated his *Racenschriften* (race essays), in which he develops and defends an early theory of race. Also included are translations of essays by four of Kant's contemporaries[E. A. W. Zimmermann, Georg Forster, Christoph Meiners, and Christoph Girtanner]which illustrate that Kant's interest in the subject of race was part of a larger discussion about human differences, one that impacted the development of scientific fields ranging from natural history to physical anthropology to biology.

LOL with God - Pam Farrel 2013-02-08

Feeling tired, stressed or disconnected with God? In this devotional, authors Pam Farrel and Dawn Wilson provide real-life stories mixed with a splash of humor and an encouraging word from God to help women get through hectic days. Joy from God, unlike the fleeting happiness of the world, transforms the soul and helps to heal frazzled, broken women. A cheerful heart is still good medicine (Proverbs 17:22), and women need it in megadoses! There will always be a need for humor to cheer our hearts, and when that humor is paired with powerful truth principles from Scripture, women will be revived and refreshed. To make it fun, the authors have taken Scripture verses and made them into text messages similar to those you might see on your cell phone, but these are from God's Word.

Shakespiritualism - J. Kahan 2013-02-27

This study concerns itself with a now-forgotten religious group, Spiritualists, and how their ensuing discussions of Shakespeare's meaning, his writing practices, his possible collaborations, and the supposed purity and/or corruption of his texts anticipated, accompanied, or silhouetted similar debates in Shakespeare Studies.

Victorian Architecture - James Stevens Curl 2007

James Curl argues that the greatest architectural achievements of the Victorian period have been greatly undervalued and that they produced confident, colourful, eclectic architecture in keeping with the intellectual complexities of the age.
