*The Story of Sexual Identity* - Phillip L. Hammack 2009-03-06

This book assembles a diverse group of scholars working within a new, pathbreaking paradigm of sexual science, fusing perspectives from history, sociology, and psychology. The contributors are united in their commitment to the idea of "narrative" as central to the study of sexual identity, offering an analytic approach to social science inquiry on sexual identity that restores the voices of sexual subjects. The result is a rich examination of lives in context, with an eye toward multiplicity and meaning across the life course. Central to the chapters in this volume is the significance of history, generation, and narrative in the provision of a workable and meaningful configuration of identity.

**Homosexuality** - Stanton L. Jones 2009-09-20

: The Use of Scientific Research in the Church's Moral Debate Stanton L. Jones and Mark A. Yarhouse help us face questions surrounding the issue of homosexuality squarely and honestly, examining how scientific research has been used within church debates--especially within Methodist, Presbyterian, Lutheran and Episcopal contexts.

**The Gay Past** - Salvatore J. Licata 1985

Fascinating reading on the plight of gay men and women through the ages. The contributors to this compassionate book document how society has made life difficult and even dangerous for homosexual people. Through narrative history as well as biography, these essays trace the legal, social, and physical consequences of this oppression.

**Scandinavian Homosexualities** - Jan Leofstroom 2014-02-04

Scandinavian Homosexualities offers non-Scandinavian readers a rare opportunity to explore the history, sociology, notions, experiences, and cultural politics of homosexuality in Scandinavian societies in English. This unique insight into some of the most advanced countries in regard to institutionalized civil rights for lesbians and gays will help you direct change and progress in your own country. Chapters in Scandinavian Homosexualities draw from a range of theoretical and methodological strands to give you an overall picture of homosexuality in Scandinavian society. They cover a wide range of issues, including: traditions and practices in the legal regulation of same-sex sexuality the historically changing understanding of femininity and masculinity physical, social, and cultural niches of same-sex desire and sexual conduct theoretical approaches to individual experiences of sexual and erotic self In Scandinavian Homosexualities, you'll come to see the cultural and social differences that exist between Scandinavian and Anglo-American societies. Specifically, you'll see how differences in the culture of gender and sexuality may bear upon our scholarly theories and conceptualizations of homosexuality and on our analysis of sexual and gender politics. In many of the chapters there is, thus, an agenda to encourage comparisons among Western societies. The Scandinavian countries are among the most advanced in the world with regard to institutionalized civil rights of lesbians and gays. They are also, which is relevant for analyses of sexuality and homosexuality, societies where men and women are exceptionally equal in access to social, economic, and cultural resources. You can directly apply what you learn in Scandinavian Homosexualities of the cultural specificities of gender and sexuality in Scandinavian societies to your efforts to establish equality for same-sex relationships within your own culture.

**LGBT Studies and Queer Theory** - Karen Lovaas 2013-05-13

Find out how the tension between LGBT studies and queer theory exists in the classroom, politics, communities, and relationships LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain examines the similarities and differences between LGBT studies and queer theory and the uneasy relationship between the two in the academic world. This unique book meets the challenge that queer theory presents to the study and politics of gay and lesbian studies with a collection of essays from leading academics who represent a variety of disciplines. These original pieces place queer theory in social

and historical contexts, exploring the implications for social psychology, religious studies, communications, sociology, philosophy, film studies, and women's studies. The book's contributors address queer theory's connections to a wide range of issues, including the development of capitalism, the evolution of the gay and lesbian movement, and the study of bisexuality and gender. Many scholars working in gay and lesbian studies still question the intellectual and political value of queer theory. As a result, queer theory has often been concentrated in the humanities, while gay and lesbian studies are concentrated in the social sciences and history. But this has begun to change in the past 10-15 years, as documented by the 12 essays presented in LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain. LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain includes: historical notes on LGBT studies and queer theory some continuing tensions between LGBT studies and queer theory doubts about whether queer theory can lead to social change an analysis of the current state of "proto-fields" of LGBT studies and queer studies in religion concerns that queer theory's "erasure of identity" feeds into late capitalism an analysis of variability in social psychologists' studies of anti-homosexual prejudice an exploration of the commodification of queer identities in independent cinema how and why the category of bisexuality has been marginalized a historical review and assessment of recent bisexual theory a case study of Provincetown, Massachusetts an investigation of the interarticulation of race/ethnicity and gender a case study of the struggle to introduce LGBT studies in the curriculum at West Chester University and much more LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain is an essential read for researchers, academics, and practitioners involved in exploring multifaceted aspects of LGBT Studies and Queer Theory and their points of convergence and divergence.

*Sexuality and Human Rights* - International Bar Association. Conference 2005

Reviewing the progression from historical foundations and shifting public opinions through the most recent landmark legal cases, this text thoroughly discusses the status of important sexuality and human rights laws around the world.

**Historical Perspectives on Homosexuality** - Salvatore J. Licata 1981

Traces the reactions of various societies towards homosexuality, and looks at the development of the Gay Rights Movement

**Journal of Homosexuality** - Charles Silverstein 2007

**Homosexuality and Male Bonding in Pre-Nazi Germany** - Hubert Kennedy 2013-09-13

This is a landmark publication featuring English translations of selections from the early gay German journal, *Der Eigene*. This collection, previously scattered and difficult to read in the original German, allows readers direct access to primary source material on the early gay movement. Neglected for years, these articles provide insight into the early gay movement, particularly in its relation to the various political currents in pre-World War II Germany. Simultaneously, the essays are relevant to current discussions and debates in contemporary gay, women's, and youth movements. Masterly introductory and concluding essays add additional insight by placing the articles in their historical context, discussing their past and current significance, and drawing lessons for the future. Readers of all levels of sophistication will find this anthology a fascinating look at homosexuality in early years.

*The Pink and the Black* - Frédéric Martel 1999

[While acknowledging that the development of France's homosexual communities was influenced by America, Martel highlights the differences arising from the fact that homosexuality has not been criminalised in France as in the United States] -- back cover.

*Working with Gay Men and Lesbians in Private Psychotherapy Practice* - Christopher J Alexander 2020-03-24

Working with Gay Men and Lesbians in Private Psychotherapy Practice is written for private practitioners solely by private practice clinicians who specialize in the treatment of gay men or lesbians. Focusing on numerous clinical issues that gays and lesbians often deal with, Working with Gay Men and Lesbians in Private Psychotherapy Practice also offers you proven guidance for maintaining and promoting your psychotherapy practice as a business. You will explore issues such as whether the therapist should disclose her/his sexual orientation, and how the therapist should address the degree to which internalized stigma about sexual orientation may impact the client's concerns about the process of therapy in general. This insightful volume also focuses on the special complexities introduced to psychotherapy by managed care. You'll find detailed, practical information about: a strategic plan for establishing, marketing, and developing a private practice in l/g/b psychology staying abreast of the latest research and trends in gay/lesbian mental health treatment planning with gay and lesbian clients lesbian/gay couples counseling multiple identity and gender issues particular to culture and ethnicity boundary issues Working with Gay Men and Lesbians in Private Psychotherapy Practice tackles how to therapeutically respond to the issues of gay men and lesbians. The practical strategies and specific suggestions can be directly incorporated into your work with gay and lesbian clients to ensure your success in confronting the specific issues and challenges they face.

**Homosexuality in French History and Culture** - Jeffrey Merrick 2013-09-13

Deconstruct changing representations of homosexuality with this important new work of cultural criticism! Homosexuality in French History and Culture explores episodes, patterns, and images of same-sex attraction in France from the sixteenth to the twenty-first century, from the essays of Michel de Montaigne to pride parades in contemporary Paris. This groundbreaking book documents the ways homosexuality has been named, experienced, regulated, understood, and imagined. During these centuries, homosexuality has been stigmatized as a sin, crime, or disease, and denounced as a threat to social order and national identity. Yet the rhetoric of condemnation has always co-existed with the reality of toleration. This groundbreaking collection analyzes the ways in which persecutions, as well as differences within minority sexual subcultures, have highlighted stereotypes and anxieties about class and age differences, gendered roles, and separatism. Homosexuality in French History and Culture offers historical and literary studies based on a wide variety of sources, including: novels, plays, and poetry gossip and satires police reports medical texts travel literature newspapers and periodicals memoirs Homosexuality in French History and Culture combines fresh, creative re-interpretation of familiar texts with exciting new explorations of neglected historical episodes and cultures. It is a landmark of meticulous scholarship and rigorous theoretical analysis, and a vital resource for scholars of queer theory, French history and culture, and literary criticism.

[Journal of Homosexuality](#) - 1988

**Journal of Homosexuality. Monographic Supplement** - 19??

[The Many Faces of Homosexuality](#) - Evelyn Blackwood 1986

This groundbreaking book examines the diverse manifestations of homosexuality in various historical periods and non-Western cultures. The distinguished authors examine Kimam male ritualized homosexual behavior, Mexican homosexual interaction in public contexts, male homosexuality and spirit possession in Brazil, and much more.

**Lesbian, Gay, and Bisexual Identities and Youth** - Anthony R. D'Augelli 2001-05-03

Changes in biological processes, relationships, and community interactions influence the emergence of sexuality in all young people. The process is more complex and difficult for lesbian, gay and bisexual (LGB) teenagers. Fortunately, the cultural changes that have allowed LGB youths to become more open about

themselves at earlier ages have also allowed social and behavioral scientists the opportunity to study them. The essays in this volume explore the psychological dimensions of LGB identities from puberty to adulthood. The essays focus on three general areas: theoretical frameworks that are important in understanding the development of sexual orientation in adolescence, challenges faced by LGB youth, and issues related to interventions and services for LGB youths in community settings. This volume presents authoritative, research-based reviews of this ever-increasing area of study and social concern.

[Lesbian, Gay, and Bisexual Identities over the Lifespan](#) - Anthony R. D'Augelli 1995-02-09

Over the last fifteen years, psychological research regarding sexual orientation has seen explosive growth. In this book, Anthony R. D'Augelli and Charlotte J. Patterson bring together top experts to offer a comprehensive overview of what we have discovered--and what we still need to learn--about lesbian, gay, and bisexual identities. Writing in clear, nontechnical language, the contributors cover a range of topics, including conceptions of sexual identity, development over the lifespan, family and other personal relationships, parenting, and bigotry and discrimination. Lesbian, Gay, and Bisexual Identities Over the Lifespan is essential reading for researchers, students, social scientists, mental health practitioners, and general readers who seek the most up-to-date and authoritative treatment of the subject available.

**Sodomites and Urnings** - Michael A. Lombardi-Nash 2006

The future of the gay movement is best understood by searching its past. This text provides a valuable glimpse into the past by presenting some of the most important seminal articles on homosexuality, translated with precision from the German language.

**Gay Ethics** - Timothy F. Murphy 1994

Gay Ethics is an anthology that addresses ethical questions involving key moral issues of today--sexual morality, outing, gay and lesbian marriages, military service, anti-discrimination laws, affirmative action policies, the moral significance of sexual orientation research, and the legacy of homophobia in health care. It focuses on these issues within the social context of the lives of gay men and lesbians and makes evident the ways in which ethics can and should be reclaimed to pursue the moral good for gay men and lesbians. Gay Ethics is a timely book that illustrates the inadequacies of various moral arguments used in regard to homosexuality. This book reaches a new awareness for the standing and treatment of gay men and lesbians in society by moving beyond conventional philosophical analyses that focus exclusively on the morality of specific kinds of sexual acts, the nature of perversion, or the cogency of scientific accounts of the origins of homoeroticism. It raises pertinent questions about the meaning of sexuality for private and public life, civics, and science. Some of the issues covered: Sexual Morality Outing Same-Sex Marriage Military Service Anti-Discrimination Laws Affirmative Action Policy The Scientific Study of Sexual Orientation Bias in Psychoanalysis Homophobia in Health Care Gay Ethics presents a wide range of perspectives but remains united in the common purpose of illuminating moral arguments and social policies as they involve homosexuality. The chapters challenge social oppression in the military, civil rights, and the social conventions observed among gay men and lesbians themselves. This book is applicable to a broad range of academics working in gay and lesbian studies and because of its current content, is of interest to an educated lay public. It will be a standard reference point for future discussion of the matters it addresses.

[Homosexuality and the Law](#) - Donald C. Knutson 1980

A fascinating exploration of how the law--as viewed and decided by the courts--often embodies fear and prejudice against homosexuality, and thereby, becomes the instrument for discrimination. This valuable book covers a wide range of subjects, illustrating the extent to which the lives of gay persons are touched by these laws and providing a highly critical examination of the response by the American judicial system to our claims for equal protection under the law. Leading law professors and practicing lawyers address the important legal issues and court decisions relevant to male and female homosexuality--criminal punishment for gay sex acts, employment discrimination, child custody, gay organizational rights, and more.
