Love Tom Inglis 2013-03-05 Love is a dominant theme in Western popular culture. It has become central to the meaning of everyday life, propagated through the media and the market. Being in love has become idealised. With the demise of institutional religion in the West, romantic love has become the dominant form of inner-worldly salvation. In Foucault's terms, it has become a key component in the 'arts of existence' and the care of self. In this highly accessible introduction to love of all kinds, Tom Inglis gives a clear, concise picture of how love shapes, and is shaped by, society. How is romantic love linked to capitalism? What is the difference between romantic love and loving? How is love connected to separation, loss and grief? Inglis addresses all these questions, and looks at how today's changing circumstances - globalisation, mobile lives and a new rugged individualism - have changed our perceptions of love and relationships. Love is an engaging, thoughtful introduction to the subject for students, academics and general readers alike.

Glocal Rick Love 2017-07-14 Three far-reaching global trends--terrorism, pluralism, and globalization--have irrevocably altered how we live, think, and communicate in the twenty-first century. We now live in a "glocal" world: what happens globally impacts us locally, and what happens locally impacts things globally. These changes have profound implications for followers of Jesus. Rick Love offers biblical wisdom and practical insights on how to navigate the complexities of communication in this interconnected world. He also invites you to an inward journey that helps you better discern how the things of the heart relate to the work of the ministry. Glocal: Following Jesus in the 21st Century is a call to be a faithful follower of and a winsome witness for Jesus. Love will help you better embody and communicate a core message worth dying for, an integrated identity worthy living for, and a global dream worth suffering for.

Love and Globalization Mark Padilla 2007 Abstract:

Television and Dating in Contemporary China Chao Yang 2017-06-29 This book considers the changing nature of intimacy in contemporary China, providing a unique case study of romantic subjectivities in young people in the world's fastest growing economy. Since the implementation of reform in 1978, the economic and socio-cultural environment of modern China has experienced a dramatic transformation under the influence of urbanization and globalization, facilitating more individualized identity among Chinese youth. This book bridges the gap between an emergent emphasis on individualisation and the country's traditional norms and values. It focuses on young people's understandings of various forms of relationships such as cohabitation, extramarital relationships and multiple relationships, suggesting a challenge to traditional familial values and an increasingly diversified understanding of the concepts of love and romance. By examining the formation of relationships among 21st century Chinese youth, notably through the lens of popular Chinese TV dating programs, this book considers how dating and relationships mirror China's changing societal structure and examines social and cultural transformations in Chinese society.

Recentering Globalization Koichi Iwabuchi 2002-10-18 Globalization is usually thought of as the worldwide spread of Western—particularly American—popular culture. Yet if one nation stands out in the dissemination of pop culture in East and Southeast Asia, it is Japan. Pokémon, anime, pop music, television dramas such as Tokyo Love Story and Long Vacation—the export of Japanese media and culture is big business. In *Recentering Globalization*, Koichi Iwabuchi explores how Japanese popular culture circulates in Asia. He situates the rise of Japan's cultural power in light of decentering globalization processes and demonstrates how Japan's extensive cultural interactions with the other parts of Asia complicate its sense of being "in but above" or "similar but superior to" the region. Iwabuchi has conducted extensive interviews with producers, promoters, and consumers of popular culture in Japan and East Asia. Drawing upon this research, he analyzes Japan's "localizing" strategy of repackaging Western pop culture for Asian consumption and the ways Japanese popular culture arouses regional cultural resonances. He considers how transnational cultural flows are experienced differently in various geographic areas by looking at bilateral cultural flows in East Asia. He shows how Japanese popular music and television dramas are promoted and understood in Taiwan, Hong Kong, and Singapore, and how "Asian" popular culture (especially Hong Kong's) is received in Japan. Rich in empirical detail and theoretical insight, *Recentering Globalization* is a significant contribution to thinking about cultural globalization and transnationalism, particularly in the context of East Asian cultural studies.

Revolutionary Love Michael Lerner 2019-10-15 From social theorist and psychotherapist Rabbi Michael Lerner comes a strategy for a new socialism built on love, kindness, and compassion for one another. *Revolutionary Love* proposes a method to replace what Lerner terms the "capitalist globalization of selfishness" with a globalization of generosity, prophetic empathy, and environmental sanity. Lerner challenges liberal and progressive forces to move beyond often weak-kneed and visionless politics to build instead a movement that can reverse the environmental destructiveness and social injustice caused by the relentless pursuit of economic growth and profits. Revisiting the hidden injuries of class, Lerner shows that much of the suffering in our society—including most of its addictions and the growing embrace of right-wing nationalism and reactionary versions of fundamentalism—is driven by frustrated needs for community, love, respect, and connection to a higher purpose in life. Yet these needs are too often missing from liberal discourse. No matter that progressive programs are smartly constructed—they cannot be achieved unless they speak to the heart and address the pain so many people experience. Liberals and progressives need coherent alternatives to capitalism, but previous visions of socialism do not address the yearning for anything beyond material benefits. Inspired by Herbert Marcuse, Erich Fromm, and Carol Gilligan, *Revolutionary Love* offers a strategy to create the "Caring Society." Lerner details how a civilization infused with love could put an end to global poverty, homelessness, and hunger, while democratizing the economy, shifting to a twenty-eight-hour work week, and saving the life-support system of Earth. He asks that we develop the courage to stop listening to those who tell us that fundamental social transformation is "unrealistic."

Global Issues beyond Sovereignty Maryann Cusimano Love 2019-10-07 This book compares and discusses a range of responses to managing global issues. The three channels that global issues flow through (public sector responses, private sector responses, and mixed public-private sectors) are explored in detail for undergraduate students, with lessons learned from the responses presented to enhance theory and practice.

Love in Africa Jennifer Cole 2009-08-01 In recent years, scholarly interest in love has flourished. Historians have addressed the rise of romantic love and marriage in Europe and the United States, while anthropologists have explored the ways globalization has reshaped local ideas about those same topics. Yet, love in Africa has been peculiarly ignored, resulting in a serious lack of understanding about this vital element of social life—a glaring omission given the intense focus on sexuality in Africa in the wake of HIV/AIDS. *Love in Africa* seeks both to understand this failure to consider love and to begin to correct it. In a substantive introduction and eight essays that examine a variety of countries and range in time from the 1930s to the present, the contributors collectively argue for the importance of paying attention to the many different cultural and historical strands that constitute love in Africa. Covering such diverse topics as the reception of Bollywood movies in 1950s Zanzibar, the effects of a Mexican telenovela on young people's ideas about courtship in Niger, the models of romance promoted by South African and Kenyan magazines, and the complex relationship between love and money in Madagascar and South Africa, *Love in Africa* is a vivid and compelling look at love's role in African society.

Southern Africa in World Politics Janice Love 2018-03-09 These days, politics often seem to be local and global simultaneously, challenging people, politicians, and scholars to sort out what is domestic from what is international and how the two are related. Janice Love demonstrates the

complex realities of how local and global politics are intimately interwoven, sometimes inextricably so, specifically in southern Africa. In southern Africa, like many other regions, such linkages have existed for decades, if not centuries. Yet the current era is different from previous times when human communities found themselves closely intertwined. Love examines military, political, and economic changes in recent decades. Students of international relations, comparative politics, and African studies will find the region's experience instructive in understanding larger trends in the world. Students particularly interested in Africa will gain insight not only about this region, but also its significance for the whole continent. Deliberately crosses the boundaries of domestic politics and foreign policy as well as comparative politics and international relations. By taking a globalization approach, connecting the local, regional and global, the book offers fresh insights into the dynamics of war and peace, wealth and poverty as well as local to global governance in southern Africa. Examines globalization in three arenas or domains (military, political, and economic), not only distinguishing them from each other, but also probing what has changed and what has remained the same across time.

Mobility and Globalization in the Aftermath of COVID-19 Maximiliano E. Korstanje 2021-08-14 This book argues that COVID-19 revives a much deeper climate of terror which was instilled by terrorism and the War on Terror originally declared by Bush's administration in 2001. It discusses critically not only the consequences of COVID-19 on our daily lives but also "the end of hospitality", at least as we know it. Since COVID-19 started spreading across the globe, it affected not only the tourism industry but also ground global trade to a halt. Governments adopted restrictive measures to stop the spread of the virus, including the closure of borders, and airspace, the introduction of strict lockdowns and social distancing, much of which led to large-scale cancellations of international and domestic flights. This book explores how global tourists, who were largely considered ambassadors of democratic and prosperous societies in the pre-pandemic days, have suddenly become undesired guests.

Gay Bombay Parmesh Shahani 2008-04-14 Using a combination of multi-sited ethnography, textual analysis, historical documentation analysis, and memoir writing, the author provides macro and micro perspectives on what it means to be a gay man located in Gay Bombay at a particular point in time. Specifically, he explores what being gay means to members of Gay Bombay and how they negotiate locality and globalization, their sense of identity as well as a feeling of community within its online/offline world. On a broader level, he critically examines the formulation and reconfiguration of contemporary Indian gayness in the light of its emergent cultural, media, and political alliances.

Rethinking Romantic Love Begonya Enguix 2016-11-14 This volume is the result of a thorough exploration of contemporary conceptions of romantic love from different points of view. Beginning with an initial text where the meanings of romantic love are discussed theoretically and historically, the contributions gathered here present current discussions about love in the present day and in different geographical contexts that range from Hungary to Italy or Spain. The first part of the book is devoted to the analysis of mobilities for the sake of love as a result of globalization. These mobilities are analysed in relation to love ideals, to gender equality and to online searches for the ideal partners. The second part of the book deals with the exploration of different imaginaries of love in particular geographical contexts. The topics dealt with here include love as sickness, love and violence, love ideals for men engaged in gender equality and love ideals for those who engage in cross-dressing practices. In the third part, writing about and for love is addressed. Love writings to the beloved dead, teenage girls' blogs and bestsellers such as *Fifty Shades of Grey* are discussed in particular detail. This book addresses current conceptions of romantic love in different social groups through different practices and in different countries, and shows that, despite the variability of discourses, experiences and practices related to love, a number of ideas of what love should be like - related to the Western ideals of romantic love - persist in all these contexts. The contributions to this volume are derived from extensive fieldwork and ethnographic research, and will be of undoubted interest for the academic milieu. However, given the topic it deals with, the book will also appeal to the general public, who will find in these pages many 'love stories' derived from the detailed study of the society which we inhabit and the ideals of love that we breathe.

Sixty Million Frenchmen Can't be Wrong Jean-Benoit Nadeau 2004-04-28 Decrypting French ideas about land, food, privacy and language, this book encompasses observations and anecdotes, political analysis and reflection to uncover links between the French national character, the essence of France and how the French got to be the way they are.

Strange Love Robin Truth Goodman 2002 Seeks to answer the question of how varied cultural forms--in this case, curricula, multicultural literature, and popular films--educate the public ideologically. Interrogates the relationship between the political economy of globalization and the new human rights imperialism and the cultural politics that educate the public into complicity with it through such narratives as family, war, politics, privatization, and innocence. [Introduction].

The Ironic State Brassett, James 2021-01-13 What can comedy tell us about the politics of a nation? In this book, James Brassett builds on his prize-winning research to demonstrate how British comedy can provide intimate and vital understandings of the everyday politics of globalization in Britain. The book explores British comedy and Britain's global politics from post-war imperial decline through to its awkward embrace of globalization, examining a wide variety of comedic mediums, such as the popular television show *The Office* and the online satire *The Daily Mash*. Touching on issues such as empire, the class system and capitalism, the author demonstrates how comedy offers valuable insights on how global market life is experienced, mediated, contested and accommodated.

Straight Talk on Trade Dani Rodrik 2019-08-27 Deftly navigating the tensions among globalization, national sovereignty, and democracy, *Straight Talk on Trade* presents an indispensable commentary on today's world economy and its dilemmas, and offers a visionary framework at a critical time when it is most needed.

Toward Global Civilization Love Tolerance M. Fethullah Gülen 2010-03-16 This book touches on certain dynamics regarding the theoretical and cultural basis of the model Fethullah Gulen has developed based on dialogue, tolerance, concurrence among different groups that come from different religions, cultures, and civilizations. Gulen's model focuses on human beings, those who surround all their world with thought and action, and who are directed toward love for God and for creation.

Book of Love and Pain, The Juan-David Nasio 2012-02-01 Addresses the limits in treating pain psychoanalytically, and offers a phenomenological description of psychic pain, particularly the pain of a lost loved one.

Food and Love Jack Goody 2010-03-15 The development of romantic love, the evolution of national and regional cuisines, the globalization of Chinese food, the histories of various taboos on certain types of food and drink, the uniqueness of the European family—such are the fascinating and diverse themes Goody addresses in *Food and Love*. Starting with a sustained discussion of the debates on social development in the thought of classic theorists as well as contemporary historical and sociological notions of modernization, Goody goes on to tease out the general historical processes embedded in the most intimate recesses of our lives. In a final bracing section challenging dominant relativist conceptions, Goody considers the difficulties and complexities of cross cultural and comparative analysis, and he picks apart the doubts involved in the very process of representation and symbolic communication. Throughout this collection, Goody demonstrates that the ethnocentricity of much of Western scholarship has distorted not only the comprehension of the East but also developments in the European past and present.

Domestic Goddesses Henrike Donner 2016-05-23 Based on extensive fieldwork in Calcutta, this book provides the first ethnography of how middle-class women in India understand and experience economic change through transformations of family life. It explores their ideas, practices and experiences of marriage, childbirth, reproductive change and their children's education, and addresses the impact that globalization is having on the new middle classes in Asia more generally from a domestic perspective. By focusing on maternity, the book explores subjective understandings of the way intimate relationships and the family are affected by India's liberalization policies and the neo-liberal ideologies that accompany through an analysis of often competing ideologies and multiple practices. And by drawing attention to women's agency as wives, mothers and grandmothers within these new frameworks, *Domestic Goddesses* discusses the experiences of different age groups affected by these changes. Through a careful analysis of women's narratives, the domestic sphere is shown to represent the key site for the remaking of Indian middle-class citizens in a global world.

Love and Intimacy in Contemporary Society Ann Brooks 2019-12-06 *Love and Intimacy in Contemporary Society* reflects on relationships in

contemporary society and the role of love and intimacy in framing lives. The book draws on sociological perspectives, cultural sociology and gender theory perspectives. It looks at how love and intimacy is experienced differently and intersected by gender, ethnicity, race and sexuality. This book aims to encourage people to understand theories of intimacy, emotions and desire by examining these concepts contemporaneously and cross-culturally. It also explores how love and intimacy is experienced by young people and how it is impacted by age. It looks at its representation in the media and film and focuses on how gender, ethnicity and sexuality offer different perspectives on love and intimacy. The book shows how relationships are impacted by social networking and new technologies and the opportunities and challenges posed by these new platforms for building relationships. Finally, the book examines how intimacy has become commercialised in late capitalism and how that acts to change relationships. The book is written in an accessible way and explores a range of theoretical debates and contemporary research around emotions, which can be useful for undergraduate, postgraduate and doctoral study.

Love and Intimacy in Online Cross-Cultural Relationships Wilasinee Pananakhonsab 2016-11-16 This book challenges assumptions about the motivations that drive women from relatively poor, developing countries to use intermarriage dating sites to find partners from relatively wealthy, developed countries. It is generally assumed that economic deprivation or economic opportunities are the main factors, but this book instead focuses on the work of women's imagination in online cross-cultural relationships, including the role of desire, love and intimacy. The experiences of Thai women are used to explore how they initiate, develop and maintain love and intimacy with Western men across distance and time. The book shows that, in the absence of opportunities to search and meet partners from geographically distant parts of the world, the technology of the internet offers new ways of searching for and managing relationships and has significant consequences for local experiences and expectations of love and partnering. The book will be of interest to scholars and students with an interest in family and intimate life, gender and sexualities, Asian and Thai studies, globalization and nationalism, culture and media, sociology and anthropology.

Cores, Peripheries, and Globalization Peter Hanns Reill 2011-01-10 Deals with the intersection of issues associated with globalization and the dynamics of core-periphery relations. It places these debates in a large and vital context asking what the relations between cores and peripheries have in forming our vision of what constitutes globalization and what were and are its possible effects. In this sense the debate on globalization is framed as part of a larger and more crucial discourse that tries to account for the essential dynamics—economic, social, political and cultural—between metropolitan areas and their peripheries.

Families, Intimacy and Globalization Raelene Wilding 2018-03-13 Growing numbers of partners, parents, children, grandchildren and siblings are living far away from each other, yet their opportunities to stay in touch have never been greater. Smartphones, tablets and personal computers are used by parents in London to care for their children in the Philippines. Refugees use phones and international transfers to send money and support to parents overseas. Funerals, weddings and anniversaries prompt return visits by plane and are streamed online to kin around the world. The mechanisms and processes of globalization are transforming the ways in which people 'do' and think about their families. Families, Intimacy and Globalization examines their experiences, charting the tensions between the freedoms and choices of late modern individuals, on the one hand, and the constraints of relational ties of love and obligation, on the other, which produce the 'floating ties' of global families and intimate relationships. Using detailed examples from all corners of the globe and across the life course, from internet dating to parenting to aged care, this thought-provoking book examines the transformation of relationships by the processes of migration and the cultural and economic flows that are central to globalization.

Rethinking the Romance Genre E. Davis 2013-12-05 Rethinking the Romance Genre examines why the romance genre has proven such an irresistible form for contemporary writers and filmmakers as they approach global issues. In contemporary texts ranging from literary works, to films, to social media, romance facilitates a range of intimacies that offer new feminist models in the age of globalization.

The Globalisation of Love Wendy Williams 2012-04-20 One of the most profound influences of globalisation is that people from everywhere are falling in love with people from everywhere else. The Globalisation of Love is about the whirls and twirls, the quirks and perks, the frustrations and the fun of a multicultural relationship.

Grave New World Stephen D. King 2018-05-22 A controversial look at the end of globalization and what it means for prosperity, peace, and the global economic order Globalization, long considered the best route to economic prosperity, is not inevitable. An approach built on the principles of free trade and, since the 1980s, open capital markets, is beginning to fracture. With disappointing growth rates across the Western world, nations are no longer willing to sacrifice national interests for global growth; nor are their leaders able—or willing—to sell the idea of pursuing a global agenda of prosperity to their citizens. Combining historical analysis with current affairs, economist Stephen D. King provides a provocative and engaging account of why globalization is being rejected, what a world ruled by rival states with conflicting aims might look like, and how the pursuit of nationalist agendas could result in a race to the bottom. King argues that a rejection of globalization and a return to "autarky" will risk economic and political conflict, and he uses lessons from history to gauge how best to avoid the worst possible outcomes.

The Empire of Love Elizabeth A. Povinelli 2006-08-30 Anthropologist Elizabeth A. Povinelli theorizes intimate relations as sites which bring into view the interplay between liberalism's contradictory ideals of freedom and constraint.

The Global and the Intimate Geraldine Pratt 2012 By placing the global and the intimate in near relation, sixteen essays by prominent feminist scholars and authors forge a distinctively feminist approach to questions of transnational relations, economic development, and intercultural exchange. This pairing enables personal modes of writing and engagement with globalization debates and forges a definition of justice keyed to the specificity of time, place, and feeling. Writing from multiple disciplinary and geographical perspectives, the contributors participate in a long-standing feminist tradition of upending spatial hierarchies and making theory out of the practices of everyday life.

International Handbook of Love Claude-Hélène Mayer 2021-05-04 This handbook includes state-of-the-art research on love in classical, modern and postmodern perspectives. It expands on previous literature and explores topics around love from new cultural, intercultural and transcultural approaches and across disciplines. It provides insights into various love concepts, like romantic love, agape, and eros in their cultural embeddedness, and their changes and developments in specific cultural contexts. It also includes discussions on postmodern aspects with regard to love and love relationships, such as digitalisation, globalisation and the fourth industrial revolution. The handbook covers a vast range of topics in relation to love: aging, health, special needs, sexual preferences, spiritual practice, subcultures, family and other relationships, and so on. The chapters look at love not only in terms of the universal concept and in private, intimate relationships, but apply a broad concept of love which can also, for example, be referred to in postmodern workplaces. This volume is of interest to a wide readership, including researchers, practitioners and students of the social sciences, humanities and behavioural sciences. In the 1970s through the 90s, I was told that globalization was homogenizing cultures into a worldwide monoculture. This volume, as risky and profound as the many adventures of love across our multiplying cultures are, proves otherwise. The authors' revolutionary and courageous work will challenge our sensibilities and expand the boundaries of what we understand what love is. But that's what love does: It communicates what is; offers what can be; and pleads for what must be. I know you'll enjoy this wonderful book as much as I do! Jeffrey Ady, Associate Professor (retired), Public Administration Program, University of Hawaii at Manoa, Founding Fellow, International

Academy for Intercultural Research The International Handbook of Love is far more than a traditional compendium. It is a breath-taking attempt to synthesize our anthropological and sociological knowledge on love. It illuminates topics as diverse as Chinese love, one-night stands, teen romance or love of leaders and many more. This is a definitive reference in the field of love studies. Eva Illouz, author of *The End of Love: A sociology of Negative relationships*. Oxford University Press. "This is not a volume to be read in a single sitting (though I almost did, due to a protracted hospital stay), nor is it romantic or inspirational reading (though, in some cases, I had hoped for more narrative examples and case studies. Rather it is a highly diverse scholarly effort, a massive resource collection of research papers on love in a variety of contexts, personal and professional settings, and cultures. The work is well referenced providing a large number of resources for deeper exploration. We owe our thanks to the authors and editors of this "handbook" for work well done, though that word in the title should not lead readers to suspect that, enlightening as it is, this book is a vade mecum or practical tour guide that provides ready solutions to the vicissitudes and challenges of our love lives!" The Transformation of Intimacy Anthony Giddens 2013-04-23 The sexual revolution: an evocative term, but what meaning can be given to it today? How does 'sexuality' come into being and what connections does it have with the changes that have affected personal life on a more general plane? In answering these questions, Anthony Giddens disputes many of the dominant interpretations of the role of sexuality in modern culture. The emergence of what the author calls plastic sexuality - sexuality freed from its intrinsic relation to reproduction - is analysed in terms of the long-term development of the modern social order and social influences of the last few decades. Giddens argues that the transformation of intimacy, in which women have played the major part, holds out the possibility of a radical democratization of the personal sphere. This book will appeal to a large general audience as well as being essential reading for students and professionals.

Love and Trade War Li Sheng 2021-01-24 This book puts the trade war between the United States and China in historical context. Exploring the dynamics of isolation and internal reform from a Chinese perspective, the author draws upon valuable insights from China's years of isolation prior to the famous Nixon-Mao summit. Advocating internal reform as a more productive strategy than conflict with other powers, this powerful argument for globalization with Chinese characteristics will be of interest to scholars of China, economists, and political scientists.

Gender, Humiliation, and Global Security Evelin Lindner 2010-02-26 An award-winning author and transdisciplinary social scientist offers a must-read guide to paradigm change for creating a socially and ecologically sustainable future. *Gender, Humiliation, and Global Security: Dignifying Relationships from Love, Sex, and Parenthood to World Affairs* aims at outlining the kind of change that needs to be made if we wish to create a less crisis-prone world. Distant Love Ulrich Beck 2013-12-18 Love and family life in the global age: grandparents in Salonika and their grandson in London speak together every evening via Skype. A U.S. citizen and her Swiss husband fret over large telephone bills and high travel costs. A European couple can finally have a baby with the help of an Indian surrogate mother. In their new book, Ulrich Beck and Elisabeth Beck-Gernsheim investigate all types of long-distance relationships, marriages and families that stretch across countries, continents and cultures. These long-distance relationships comprise so many different forms of what they call 'world families', by which they mean love and intimate relationships between individuals living in, or coming from, different countries or continents. In all their various forms these world families share one feature in common: they are the focal point in which different aspects of the globalized world become embodied in the personal lives of individuals. Whether they like it or not, lovers and relatives in these families find themselves confronting the world in the inner space of their own lives. The conflicts between the developed and developing worlds come to the surface in world families- they acquire faces and names, creating confusion, surprise, anger, joy, pleasure and pain at the heart of everyday life. This path-breaking book will appeal to a wide readership interested in the changing character of love in our times.
