Sex Guide All about Positions and How to Make Her Happy - Tino Mario 2017-02-24

If you want to make your woman beg for more, you need to understand the way that the female mind works. There is a vast difference between what men see as sexual satisfaction and what a woman experiences as satisfaction. In this guide, I'll show you the difference. There's no beating around the bush. The positions suggested are those that will make her beg for bedtime and want to be in your embrace. We have also included a section on positions and behaviors to avoid. These are seen as turn-offs for women and it is unlikely that you will gain any points in the bedroom if your behaviors fall into this category. Learn to play the role of the lover, rather than thinking about your own pleasure. Her pleasure assures your pleasure in a way that you never thought possible. Believe me, the positions detailed in this book will give you the edge. The

exact percentage of women who come out of the bedroom without having had an orgasm is higher than you may imagine and most of this is unnecessary. Men being unaware of what it takes to make a woman climax is often the cause. The positions mentioned in the book put her in control to a certain degree and to involve her in the equation will also make sex better for you. Often men don't take the time. They believe that making love is more of an animal instinct, whereby woman need more than that. Their needs are almost always going to be emotional and I explain just which positions will make her feel secure enough to allow her the luxury of equality in the bedroom. The male and female psyche is different. Once you understand how that works, you are in a better position to please her and to actually make her climax every time you make love. It doesn't have to be the hit and miss affair. Lovemaking can be a wonderful experience that brings intimacy into the picture. When it does, you are much more likely to keep

Time? - Amanda Brown 2019-08-23

Break the chain of failures in your relationship. Don't be like 99.9% of people. Make a decision and change your life. Let yourself be happy. Save hundreds and even thousands of dollars spent on books, courses, manuals, visits to specialists, lawyers. Avoid making your relationship worse and even divorce. Learn how to improve your relationship and your sex life. In my book, you will find answers to the following questions: Why new sexual positions, sex toys, BDSM, public sex, will not improve your sex life for a long time. Why triangles and group sex can forever destroy your relationship. How to deal with boredom in the bedroom. How to make your sex life more interesting and exciting. How to improve your relationship and be happy all your life. Anyone can implement my solution without any problems. It only takes a decision and a little bit of goodwill. For how much would you sell the knowledge that can change people's lives? Hundreds of dollars? Thousands of dollars? But

then who would be able to afford to change their lives and become happier? Unfortunately, only a few people. Then maybe you could share your knowledge for free? But then would people respect your words? I doubt it. People don't respect the things they get for free. My name is Amanda. When I was a teenager, my parents divorced. I decided then to devote my life to finding a solution to a problem that troubles many couples. Most divorces start with sex life. After the first period of excitement and meeting a partner, boredom slowly starts to creep in. This is a serious problem, which usually ends in betrayal and then divorce. For many years I have tried to find the main cause of boredom in the bedroom and discover why new sexual positions, sex toys, BDSM, or public sex do not improve sex life for a long time. I spent hundreds of dollars on books, courses, training, and further education. As a relationship expert, I studied many couples' relationships. I have analyzed the behavior and causes of relationship problems.

I've spent countless hours doing this. All this time and my dedication were not in vain. I was able to discover the cause of the problem that troubles so many couples. Use my knowledge today. I have written a guide for people, it's short, it's concise and it's for everyone. All of that so you could improve your life as soon as possible. Have sex that you haven't even dreamed of and make your relationship satisfying forever. I'm not giving you a book to read before sleep. I'm giving you a working solution to a problem that has destroyed many relationships. Words that change lives aren't for free. Can you afford to finally be happy? Do you want to improve your relationship? Do you want to avoid relationship problems before they occur? Or maybe you want to finally have a sex life that you didn't even dream of? The decision is yours. Don't wait...

Are you a man who knows how to satisfy a woman in bed? If you were lucky, when you were 18, some 35-year-old woman who looked like Jennifer Lopez seduced you and spent a summer teaching you everything you needed to know. More likely, you had no sex at all until you were in your 20s and that was with a "nice" girl who knew even less than you did. So you've had to make do with the embarrassed mumblings of your father when you were a teenager (who basically told you nothing), some sex education in school about how to avoid infections and not get a girl pregnant, the enthusiastic but ill-informed bragging of your mates in the locker room, and a misleading array of porn. You're still stuck trying to figure out how this sex thing actually works. You've had plenty of affairs or

not so many, maybe been married or still are, and sometimes it's been good, sometimes not so good, and you're not sure why. What do women actually want? The man is supposed to just know. There are books, of course, but they're mostly instructions manuals with techniques, which may or may not work with the woman you're actually with (how are you supposed to know?--half the time, even she doesn't know), or they're by female doctors largely for women, with a few remarks thrown in for men. It's time, therefore, for some frank talk about sex from a male perspective, and that's what this book is about.
