To Punish or Persuade - John Braithwaite 1985-06-30
In *To Punish or Persuade*, John Braithwaite declares that coal mine disasters are usually the result of corporate crime. He surveys 39 coal mine disasters from around the world, including 19 in the United States since 1960, and concludes that mine fatalities are usually not caused by human error or the unstoppable forces of nature. He shows that a combination of punitive and educative measures taken against offenders can have substantial effects in reducing injuries to miners. Braithwaite not only develops a model for determining the optimal mix of punishment and persuasion to maximize mine safety, but provides regulatory agencies in general with a model for mixing the two strategies to

ensure compliance with the law. *To Punish or Persuade* looks at coal mine safety in the United States, Great Britain, Australia, France, Belgium, and Japan. It examines closely the five American coal mining companies with the best safety performance in the industry: U.S. Steel, Bethlehem Steel, Consolidation Coal Company, Island Creek Coal Company, and Old Ben Coal Company. It also takes a look at the safety record of unionized versus non-unionized mines and how safety regulation enforcement impacts productivity.

No Mercy Here - Sarah Haley 2016-02-17

In the late nineteenth and early twentieth centuries imprisoned black women faced wrenching forms of gendered racial terror and heinous structures of economic exploitation. Subjugated as convict laborers

Not At Their Mercy A Self Defense Book Designed To Prevent Women From Being At The Mercy Of Unconscionable Sexual Predators

and forced to serve additional time as domestic workers before they were allowed their freedom, black women faced a pitiless system of violence, terror, and debasement. Drawing upon black feminist criticism and a diverse array of archival materials, Sarah Haley uncovers imprisoned women's brutalization in local, county, and state convict labor systems, while also illuminating the prisoners' acts of resistance and sabotage, challenging ideologies of racial capitalism and patriarchy and offering alternative conceptions of social and political life. A landmark history of black women's imprisonment in the South, this book recovers stories of the captivity and punishment of black women to demonstrate how the system of incarceration was crucial to organizing the logics of gender and race, and constructing Jim Crow modernity.

The Girl - Samantha Geimer
2014-06-17

Breaking a thirty-five year silence, the girl at the center of

the infamous Roman Polanski sexual assault case reflects on the events of that day and tells how her life was irrevocably altered by the rape and subsequent media attention.

A Theory of Justice - John RAWLS 2009-06-30

Though the revised edition of A Theory of Justice, published in 1999, is the definitive statement of Rawls's view, so much of the extensive literature on Rawls's theory refers to the first edition. This reissue makes the first edition once again available for scholars and serious students of Rawls's work.

Making All Things New - David Powlison 2017-08-15

Sexuality was a part of God's good creation from the beginning. But with sin came a world filled with sexual brokenness. Thankfully, God is always in the business of restoration. This book offers hope for both the sexually immoral and the sexually victimized, pointing us all to the grace of Jesus Christ, who mercifully intervenes each moment in our lifelong journey

Not At Their Mercy A Self Defense Book Designed To Prevent Women From Being At The Mercy Of Unconscionable Sexual Predators

toward renewal. Author David Powlison casts a vision for the key to deep transformation, better than anything the world has to offer—not just fresh resolve, not just flimsy forgiveness, not just simple formulas, but true, lasting mercy from God, who is making all things new.

Mercy - Andrea Dworkin
1993-01-12

A controversial novel by the author of *Pornography*, *Intercourse* and *Ice & Fire*. *Mercy* is an intelligent and courageous woman who, as a nine-year-old girl, was molested by a man in a dark theatre. The repercussions of this act follow her through her life. Gloria Steinem says of Dworkin: "In every century, there are a handful of writers who help the human race evolve. Andrea is one of them".

The Abuse Excuse - Alan M. Dershowitz
1995-10-01

According to renowned defense attorney and Harvard law professor Alan M. Dershowitz, "abuse excuses" are enabling people to get away with murder - literally. From the

Bobbitt, more and more Americans accused of violent crimes are admitting to the charges, but arguing that they shouldn't be held legally responsible. The reason: they're victims - of an abusive parent, a violent spouse, a traumatic experience, ethnic hatred, society at large, or anything else - who struck back at a real or perceived oppressor. And they couldn't help themselves, they say. In this provocative and important collection of essays, Dershowitz reviews a wide range of recent cases - including those of O. J. Simpson, Tonya Harding, and Woody Allen - and argues that the current vogue in victim defenses is antithetical to the ideals of our constitutional democracy. For Dershowitz, the foundations of American society are individual responsibility and the rule of law. And people who claim to be above the law - whatever the excuse - are no more than vigilantes.

Cry - Fauziya Kassindja

stripped, shackled and imprisoned for sixteen months

2010-01-26

Like the bestsellers *Princess and Not Without My Daughter*, *Do They Hear You When You Cry?* tells the dramatic, compulsively readable story of a woman fighting to free herself from the injustices of her culture. Fauziya Kassindja's harrowing story begins in Togo, Africa, where she enjoyed a sheltered childhood, shielded by her progressive father from the tribal practice of polygamy and genital mutilation. But when her father died in 1993, Fauziya's life changed dramatically. At the age of seventeen, she was forced to marry a man she barely knew who already had three wives, and prepare for the tribal ritual practice of genital mutilation - a practice that is performed without painkillers or antibiotics. But hours before the ritual was to take place, Fauziya's sister helped her escape to Germany, and from there she travelled to the United States seeking asylum - and freedom. Instead she was

by the Immigration and Naturalization Service. Enter Layli Miller Bashir, a twenty-three-year-old law student who took on Fauziya's case. When the two women met, Layli found a broken, emaciated girl with whom she forged an extraordinary friendship. Putting her heart into Fauziya's case, Layli enlisted help from the American University International Human Rights Clinic. The clinic's acting director Karen Musalo, an expert in refugee law, assembled a team to fight on Fauziya's behalf. Ultimately, in a landmark decision that has given hope to many seeking asylum on the grounds of gender-based persecution, Fauziya was granted asylum on 13 June 1996. Here, for the first time, is Fauziya's dramatic personal story, told in her own words, vividly detailing her life as a young woman in Togo and her nightmarish day-to-day existence in American prisons. It is a story of faith and freedom, courage and

inspiration - one that you will not easily forget.

Corporate Crime in the Pharmaceutical Industry (Routledge Revivals) - John Braithwaite 2013-10-08
First published in 1984, this book examines corporate crime in the pharmaceutical industry. Based on extensive research, including interviews with 131 senior executives of pharmaceutical companies in the United States, the United Kingdom, Australia, Mexico and Guatemala, the book is a major study of white-collar crime. Written in the 1980s, it covers topics such as international bribery and corruption, fraud in the testing of drugs and criminal negligence in the unsafe manufacturing of drugs. The author considers the implications of his findings for a range of strategies to control corporate crime, nationally and internationally.

Just Mercy - Bryan Stevenson
2014-10-21

#1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend
NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time
Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice

Not At Their Mercy A Self Defense Book Designed To Prevent Women From Being At The Mercy Of Unconscionable Sexual Predators

system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn't commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinksmanship—and transformed his understanding of mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book "Every bit as moving as *To Kill a Mockingbird*, and in some ways more so . . . a searing indictment of American

criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields."—David Cole, *The New York Review of Books* "Searing, moving . . . Bryan Stevenson may, indeed, be America's Mandela."—Nicholas Kristof, *The New York Times* "You don't have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. Just Mercy will make you upset and it will make you hopeful."—Ted Conover, *The New York Times Book Review* "Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he's also a gifted writer and storyteller."—*The Washington Post* "As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty."—*The Financial Times* "Brilliant."—*The Philadelphia Inquirer*

In The Name of Justice - Timothy Lynch 2009-02-24
America's criminal codes are

Not At Their Mercy A Self Defense Book Designed To Prevent Women From Being At The Mercy Of Unconscionable Sexual Predators

so voluminous that they now bewilder not only the average citizen but also the average lawyer. Our courthouses are so clogged that there is no longer adequate time for trials. And our penitentiaries are overflowing with prisoners. In fact, America now has the highest per capita prison population in the world. This situation has many people wondering whether the American criminal justice system has become dysfunctional. A generation ago Harvard Law Professor Henry Hart Jr. published his classic article, "The Aims of the Criminal Law," which set forth certain fundamental principles concerning criminal justice. In this book, leading scholars, lawyers, and judges critically examine Hart's ideas, current legal trends, and whether the "first principles" of American criminal law are falling by the wayside. Policymakers, academics, and citizens alike will enjoy this lively discussion on the nature of crime and punishment, and how the choices we make in formulating

criminal laws can impact liberty, security, and justice.

What We Don't Talk About - Joann Wypijewski 2020-06-02
An exquisite examination of a sexual culture in crisis What if we took sex out of the box marked "special," either the worst or best thing that a human person can experience, and considered it within the complexity of reality? In this extraordinary book, despite longstanding tabloid-style sexual preoccupations with monsters and victims, shame and virtue, JoAnn Wypijewski does exactly that. From the HIV crisis to the paedophile priest panic, Woody Allen to Brett Kavanaugh, child pornography to Abu Ghraib, Wypijewski takes the most famous sex panics of the last decades and turns them inside out, weaving what together becomes a searing indictment of modern sexual politics, exposing the myriad ways sex panics and the expansion of the punitive state are intertwined.

Not At Their Mercy A Self Defense Book Designed To Prevent Women From Being At The Mercy Of Unconscionable Sexual Predators

What emerges is an examination of the multiple ways in which the ever-expanding default language of monsters and victims has contributed to the repressive power of the state. Politics exists in the mess of life. Sex does too, Wypijewski insists, and so must sexual politics, to make any sense at all.

Shame Management Through Reintegration -

Eliza Ahmed 2001-10-15
This 2001 book is a follow-on to John Braithwaite's best-selling and influential *Crime, Shame and Reintegration*. Shame management is becoming a central concept, in theoretical and practical terms. This book makes a major contribution to the advancement of shame in a theoretical sense. For criminology, as well as for psychology, sociology and other areas, this accessible book serves as an introduction to the concepts of shame, guilt and embarrassment. Presenting research by the Restorative Justice Centre at the Australian National University, the book

contributes immeasurably to the development of practical alternatives to common sanctions in an effort to reduce crime and other social problems. Written by the key exponents of restorative justice, the book is an important re-statement of the theory and practice of shaming. It will develop important and often controversial debates about punishment, shaming and restorative justice to a new level.

The Cultural Defense - Alison Dundes Renteln 2005

Publisher's description: In a trial in California, Navajo defendants argue that using the hallucinogen peyote to achieve spiritual exaltation is protected by the Constitution's free exercise of religion clause, trumping the states' right to regulate them. An Ibo man from Nigeria sues Pan American World Airways for transporting his mother's corpse in a cloth sack. Her arrival for the funeral face down in a burlap bag signifies death by suicide according to the customs of her Ibo kin, and

Not At Their Mercy A Self Defense Book Designed To

brings great shame to the son. In Los Angeles, two Cambodian men are prosecuted for attempting to eat a four month-old puppy. The immigrants' lawyers argue that the men were following their own "national customs" and do not realize their conduct is offensive to "American sensibilities." What is the just decision in each case? When cultural practices come into conflict with the law is it legitimate to take culture into account? Is there room in modern legal systems for a cultural defense? In this remarkable book, Alison Dundes Renteln amasses hundreds of cases from the U.S. and around the world in which cultural issues take center stage—from the mundane to the bizarre, from drugs to death. Though cultural practices vary dramatically, Renteln demonstrates that there are discernible patterns to the cultural arguments used in the courtroom. The regularities she uncovers offer judges a starting point for creating a body of law that

Renteln contends that a systematic treatment of culture in law is not only possible, but ultimately more equitable. A just pluralistic society requires a legal system that can assess diverse motivations and can recognize the key role that culture plays in influencing human behavior. The inclusion of evidence of cultural background is necessary for the fair hearing of a case.

Restorative Justice & Responsive Regulation - John Braithwaite 2002

Braithwaite's argument against punitive justice systems and for restorative justice systems establishes that there are good theoretical and empirical grounds for anticipating that well designed restorative justice processes will restore victims, offenders, and communities better than existing criminal justice practices. Counterintuitively, he also shows that a restorative justice system may deter, incapacitate, and rehabilitate more effectively than a punitive system. This is particularly true when the restorative justice

responsive regulatory framework that opts for deterrence only after restoration repeatedly fails, and incapacitation only after escalated deterrence fails. Braithwaite's empirical research demonstrates that active deterrence under the dynamic regulatory pyramid that is a hallmark of the restorative justice system he supports, is far more effective than the passive deterrence that is notable in the stricter "sentencing grid" of current criminal justice systems.

Pure Murder - Corey Mitchell 2008-06-01

A "compelling" deep dive into the case that rocked Houston, Texas: the horrific murder of two teenage girls—by the bestselling author of Strangler (Suzy Spencer, New York Times—bestselling author). "We gotta kill 'em. They know what we look like." On a hot summer night in Houston, two teenage girls—bright, beautiful, success-bound friends—took a shortcut home from a friend's apartment to make their

Not At Their Mercy A Self Defense Book Designed To Prevent Women From Being At The Mercy Of Unconscionable Sexual Predators

curfew. They never reached their homes. The next morning, the families of the two girls began a frantic search, organizing friends and neighbors and posting thousands of fliers across the sprawling city. But not until an anonymous 911 call four days later were the bodies of Jennifer Ertman and Elizabeth Pena finally recovered. Their killers were soon rounded up—a brutal, unrepentant gang of teenage boys whose convictions should have put them behind bars for life. But in the halls of justice, nothing is ever a sure bet . . .
