Promoting Youth Sexual Health - Gina Coffee 2015-09-16

Promoting Youth Sexual Health, written for preventionists and interventionists who work with children and adolescents across home, school, or community settings, offers guidance on how to promote sexual health among youth. The reader is first introduced to the state of the field, including sexual behaviors in which youth engage, sexual risk and protective factors, standards and professional guidelines for promoting sexual health of youth, developmental and cultural considerations, and considerations in supporting LGBTQ youth. Evidence-based strategies to support child and adolescent sexual health in homes, schools, and communities are then presented. The book concludes with a proposed model for integrating supports across settings to comprehensively promote youth sexual health.

Domestic Violence in Asia - Emma Fulu 2013-08-15

This book explores changing patterns of domestic violence in Asia. Based on extensive original research in the Maldives, it argues that forces of globalisation, consumerism, Islamism and democratisation are changing the nature of domestic relations, with shifting ideas surrounding gender and Islam being particularly significant. The book points out that domestic violence has been relatively low in the Maldives in comparison with other Asian countries, as a result of, the book argues, a history of relatively equal gender relations, an ideology of masculinity that is associated with calmness and rationality where violence is not considered an acceptable means of dealing with problems, and flexible marriage and divorce practices. The book shows how these factors are being undermined by new ideas which emphasise the need for wifely obedience, increasing gender inequality and the right of husbands to be coercive.

Contraception and Adolescents - Robert T. Brown 2005

This issue will provide an update on contraception for adolescents. The content will include an overview of contraceptive practices among adolescents with specific articles on hormonal and nonhormonal methods including barrier contraceptives, emergency contraception and the IUD. One article will address contraceptive issues for teens in the developing world. The issue will also include a review of the noncontraceptive benefits of hormonal methods and potential interactions with other medications including herbal products. Specific concerns for teens with chronic illnesses and disabilities will be discussed along with new contraceptive methods under development.

Great Relationships and Sex Education - Alice Hoyle 2019-11-26

Great Relationships and Sex Education is an innovative and accessible guide for educators who work with young people to create and deliver Relationships and Sex Education (RSE) programmes. Developed by two leading experts in the field, it contains hundreds of creative activities and session ideas that can be used both by experienced RSE educators and those new to RSE. Drawing on best practice and up-to-date research from around the world, Great RSE provides fun, challenging and critical ways to address key contemporary issues and debates in RSE. Activity ideas are organised around key areas of learning in RSE: Relationships, Gender and Sexual Equality, Bodies, Sex and Sexual Health. There are activities on consent, pleasure, friendships, assertiveness, contraception, fertility and so much more. All activities are LGBT+ inclusive and designed to encourage critical thinking and consideration of how digital technologies play out in young people's relationships and sexual lives. This book offers: Session ideas that can be adapted to support you to be creative and innovative in your approach and that allow you to respond to the needs of the young people that you work with. Learning aims, time needed for delivery, suggested age groups to work with and instructions on how to deliver each activity, as well as helpful tips and key points for educators to consider in each chapter. Activities to help create safe and inclusive spaces for delivering RSE and involve young people in curriculum design. A chapter on 'concluding the learning' with ideas on how to involve young people in evaluating and reflecting on the curriculum and assessing their learning. A list of recommended resources, websites, online training courses and links providing further information about RSE. With over 200 activities to choose from, this book is an essential resource for teachers, school nurses, youth workers, sexual health practitioners and anyone delivering RSE to young people aged 11-25.

In Search of Cleo - Gina Gershon 2012-10-11

A charming and funny memoir about experiences Gina Gershon has had with cats throughout her life that are analogous to her relationships with men and her ongoing search for true love. Film and television icon Gina Gershon may be best known for her movie roles in *Bound* and *Showgirls* and television appearances

on *Curb Your Enthusiasm* and *How to Make It in America*, but deep down she is a self-described cat lady. In *In Search of Cleo* follows Gina's desperation and despair when her assistant loses her beloved cat, Cleo. Gina spends two months roaming the back streets of Los Angeles at all hours of the night, searching for Cleo and meeting several quirky and outrageous characters who help or hinder her in different ways, including Ellen DeGeneres, who searches with Gina and recommends her pet psychic, Sonia; Arthur, the newspaper delivery man who gives her advice; and the mysterious fortune-teller, who appears from the shadows to give her a statue of Saint Gertrude, the protector of cats everywhere. Gina soon finds herself enmeshed in L.A.'s strangest subcultures, doing everything she can to bring Cleo home, including chanting with a bunch of crystal-wielding hippies and being slapped with a chicken by a Santeria priest. Along the way, she reflects on the various cats that have been a part of her life and shares her travails as a single girl in search of both her cat and some sanity. *In Search of Cleo* will delight pet lovers and singletons alike as it introduces Cleo to the celebrated pantheon of literary cats that includes Dewey, Homer, and Oscar.

Policies to Address Poverty in America - Melissa Kearney 2014-06-19

One-in-seven adults and one-in-five children in the United States live in poverty. Individuals and families living in poverty not only lack basic, material necessities, but they are also disproportionately afflicted by many social and economic challenges. Some of these challenges include the increased possibility of an unstable home situation, inadequate education opportunities at all levels, and a high chance of crime and victimization. Given this growing social, economic, and political concern, The Hamilton Project at Brookings asked academic experts to develop policy proposals confronting the various challenges of America's poorest citizens, and to introduce innovative approaches to addressing poverty. When combined, the scope and impact of these proposals has the potential to vastly improve the lives of the poor. The resulting 14 policy memos are included in *The Hamilton Project's Policies to Address Poverty in America*. The main areas of focus include promoting early childhood development, supporting disadvantaged youth, building worker skills, and improving safety net and work support.

From Blues to Rainbows - Elizabeth Smith 2014-09-23**Brief Sexuality-Related Communication** - World Health Organization 2015-08-18

Both research and consultations over the last decades have identified sexuality-related communication as an issue that requires urgent attention. While clients would like their health-care providers to discuss sexual health concerns, health workers lack the necessary training and knowledge to feel comfortable addressing such issues. This guideline provides health policy-makers and decision-makers in health professional training institutions with advice on the rationale for health-care providers' use of counselling skills to address sexual health concerns in a primary health care setting.

Camp Creepy Time - Gina Gershon 2007

Surrounded by monsters, befriended by a ghost, and having discovered that Camp Sleepy Time's counselors are aliens, thirteen-year-old Einstein P. Fleet's only hope of help is Roxie, a girl who keeps appearing and disappearing with no explanation.

Criminal Man - Cesare Lombroso 2006-06-15

Cesare Lombroso is widely considered the founder of criminology. His theory of the "born" criminal dominated European and American thinking about the causes of criminal behavior during the late nineteenth century and the early twentieth. This volume offers English-language readers the first critical, scholarly translation of Lombroso's *Criminal Man*, one of the most famous criminological treatises ever written. The text laid the groundwork for subsequent biological theories of crime, including contemporary genetic explanations. Originally published in 1876, *Criminal Man* went through five editions during Lombroso's lifetime. In each edition Lombroso expanded on his ideas about innate criminality and refined his method for categorizing criminal behavior. In this new translation, Mary Gibson and Nicole Hahn Rafter bring together for the first time excerpts from all five editions in order to represent the development of Lombroso's thought and his positivistic approach to understanding criminal behavior. In *Criminal Man*, Lombroso used modern Darwinian evolutionary theories to "prove" the inferiority of criminals to "honest" people, of women to men, and of blacks to whites, thereby reinforcing the prevailing politics of sexual and racial hierarchy. He was particularly interested in the physical attributes of criminals—the size of their

skulls, the shape of their noses—but he also studied the criminals' various forms of self-expression, such as letters, graffiti, drawings, and tattoos. This volume includes more than forty of Lombroso's illustrations of the criminal body along with several photographs of his personal collection. Designed to be useful for scholars and to introduce students to Lombroso's thought, the volume also includes an extensive introduction, notes, appendices, a glossary, and an index.

The Ultimate Guide to Sex After Fifty - Joan Price 2014-12-22

The population over age 50 is larger than ever in history. According to the U.S. Census Bureau, 32.1 percent of the U.S. population were age 50 and over in 2011. This demographic is also healthier, more aware, more youthful, and more vocal than any previous older generation. Thanks to ongoing medical discoveries, the sexual revolution, and the Internet, today's seniors are also sexier than ever — or at least they're now willing to talk and ask about sex as never before. They are the generation that discovered clitoral orgasms, vibrators, and Viagra, and there's no stopping the thirst for knowledge and pleasure now. Since 2005, Joan Price has penned *Better Than I Ever Expected: Straight Talk About Sex After Sixty* and emerged as the go-to sexpert for the over-50 population. Price's savvy advice, honesty, helpfulness, and humor garnered awareness in the media, in professional circles of therapists and sex educators, and among the huge population of people over 50 who hunger for real information from an age appropriate author. Price tackles it all in this definitive guide to sex and aging: health, fun (and function), disability, dating, illness, orgasms, G-spots, P-spots, polyamory, kink, and much more.

Umleavyo - Mary Ntukula 2004

Umleavyo, *The Dilemma of Parents* is composed of studies on the gap between the generations and how this gap has widened over the past century. The past serves as the seemingly stable background on which to project currently fluid and ambiguous parent-child relationships. The focus of the studies is often on the different methods and goals for bringing up the next generation. These range from physical punishment, to achieving compliance through fear and reference to supernatural forces, to initiation ceremonies that provide multiple precautions and timely instruction on marriage and procreation, to the emphasis on relations between people as the most crucial experiences and to the encouragement of a sense personal responsibility. This volume is based on the narratives of the grandparents, parents and youths in the villages of the Pare people in the north and of the initiation leaders in Songea in the south, and on a comparison of the opinions of elders and youths about gender issues among the Nyakyusa. The unwillingness of parents to talk about a topic so delicate that they cannot find the right words is confronted. Parents are handicapped in their efforts to discuss sexual matters with their children by a lack of terms that are sufficiently clear, without being crude. Part of the parents' dilemma arises from societal conditions they cannot control. For a long time, individualisation has been understood as a response to hitherto unknown opportunities opened up by education, science and technology. Currently, there are two main branches of individualism: one involving those who have been able to emancipate themselves and reap some of the benefits of modernisation, and another for those for whom the modern economies have no use - surplus people individualised by force, poverty and eroding social bonds. How should one support youths for whom there is no clear passage to full adulthood? How can one forge links between the plight of families and issues of citizenship and public action? These are some of the questions raised in this book.

Research Methods in Health Promotion - Laura F. Salazar 2015-03-09

The bestselling textbook to understanding health research, updated and expanded *Research Methods in Health Promotion* provides students and practitioners with essential knowledge and skills regarding the design, implementation, analysis, and interpretation of research in the field of health promotion. Now in its second edition, this bestselling textbook has been updated with more recent research methodologies and additional information on sampling, participatory and survey research, and qualitative data analysis. The entire research process is covered, with specific points relating to both qualitative and quantitative research. By breaking the daunting process of research into simple and well-defined steps, this user-friendly text encourages students to think about research as a sequential process and provides explanations that facilitate better understanding of each step in the research process. A separate set of chapters cover the more quantitative methodological areas including designs, measurement, sampling, and data analysis in depth, giving readers the understanding they need to apply in practice. This book also provides applied

chapters that illustrate the practical aspects of the research process, along with other critical information including grant writing and scientific writing. Evaluate the ethics, design, analysis, and interpretation of research Identify and understand the key components of research studies Analyze and interpret the results of experimental and survey research designs Understand the process of publishing a research report and constructing a grant proposal *Research Methods in Health Promotion* is ideal for both undergrad and graduate methods courses in health promotion and public health.

The Sleepwalkers - Christopher Clark 2012-09-27

The pacy, sensitive and formidably argued history of the causes of the First World War, from acclaimed historian and author Christopher Clark *SUNDAY TIMES* and *INDEPENDENT BOOKS OF THE YEAR 2012* The moments that it took Gavrilo Princip to step forward to the stalled car and shoot dead Franz Ferdinand and his wife were perhaps the most fateful of the modern era. An act of terrorism of staggering efficiency, it fulfilled its every aim: it would liberate Bosnia from Habsburg rule and it created a powerful new Serbia, but it also brought down four great empires, killed millions of men and destroyed a civilization. What made a seemingly prosperous and complacent Europe so vulnerable to the impact of this assassination? In *The Sleepwalkers* Christopher Clark retells the story of the outbreak of the First World War and its causes. Above all, it shows how the failure to understand the seriousness of the chaotic, near genocidal fighting in the Balkans would drag Europe into catastrophe. Reviews: 'Formidable ... one of the most impressive and stimulating studies of the period ever published' Max Hastings, *Sunday Times* 'Easily the best book ever written on the subject ... A work of rare beauty that combines meticulous research with sensitive analysis and elegant prose. The enormous weight of its quality inspires amazement and awe ... Academics should take note: Good history can still be a good story' *Washington Post* 'A lovingly researched work of the highest scholarship. It is hard to believe we will ever see a better narrative of what was perhaps the biggest collective blunder in the history of international relations' Niall Ferguson '[Reading *The Sleepwalkers*], it is as if a light had been turned on a half-darkened stage of shadowy characters cursing among themselves without reason ... [Clark] demolishes the standard view ... The brilliance of Clark's far-reaching history is that we are able to discern how the past was genuinely prologue ... In conception, steely scholarship and piercing insights, his book is a masterpiece' Harold Evans, *New York Times Book Review* 'Impeccably researched, provocatively argued and elegantly written ... a model of scholarship' *Sunday Times Books of the Year* 'Superb ... effectively consigns the old historical consensus to the bin ... It's not often that one has the privilege of reading a book that reforges our understanding of one of the seminal events of world history' *Mail Online* 'A monumental new volume ... Revelatory, even revolutionary ... Clark has done a masterful job explaining the inexplicable' *Boston Globe* 'Superb ... One of the great mysteries of history is how Europe's great powers could have stumbled into World War I ... This is the single best book I have read on this important topic' Fareed Zakaria 'A meticulously researched, superbly organized, and handsomely written account *Military History* Clark is a masterly historian ... His account vividly reconstructs key decision points while deftly sketching the context driving them ... A magisterial work' *Wall Street Journal* About the author: Christopher Clark is Professor of Modern History at the University of Cambridge and a Fellow of St Catharine's College. He is the author of *The Politics of Conversion*, *Kaiser Wilhelm II and Iron Kingdom*. Widely praised around the world, *Iron Kingdom* became a major bestseller. He has been awarded the Officer's Cross of the Order of Merit of the Federal Republic of Germany.

Sexual Identities in English Language Education - Cynthia D. Nelson 2008-11-01

What pedagogic challenges and opportunities arise as gay, lesbian, and queer themes and perspectives become an increasingly visible part of English language classes within a variety of language learning contexts and levels? What sorts of teaching practices are needed in order to productively explore the sociosexual aspects of language, identity, culture, and communication? How can English language teachers promote language learning through the development of teaching approaches that do not presume an exclusively heterosexual world? Drawing on the experiences of over 100 language teachers and learners, and using a wide range of research and theory, especially queer education research, this innovative, cutting-edge book skillfully interweaves classroom voices and theoretical analysis to provide informed guidance and a practical framework of macrostrategies English language teachers (of any sexual identification) can use to engage with lesbian/gay themes in the classroom. In so doing, it illuminates

broader questions about how to address social diversity, social inequity, and social inquiry in a classroom context.

There's No Place Like Home...for sex education - Mary Gossart 2015-02-21

A friendly and practical guide for having conversations about sex with confidence, comfort and humor.

Sexual Health Medicine - Darren Russell 2011

Authoritative coverage is offered of the biological, clinical, laboratory, psychosocial, and public-health aspects of sexual health medicine. A feature of the book is its holistic approach, with the client seen as a whole person, rather than simply the owner of a set of malfunctioning genitalia.

Promoting Adolescent Health - Thomas J. Coates 2013-10-22

Promoting Adolescent Health: A Dialog on Research and Practice is a collection of essays that discusses the

insights provided by professionals into the problems of encouraging adolescent health. The book presents the open dialog between the views of pediatricians, cardiologists, psychologists, health educators, sociologists, and nutrition scientists. The text gives discussions from a variety of perspectives on each of six problem areas: smoking, drugs and alcohol, sexuality, coronary risk factors, health-risk eating behaviors, and chronic disease. It also discusses the factors influential in smoking onset and describes the examination of health education and health promotion, adolescent medicine, developmental psychology, education, and research methodology. The book will provide valuable insights for anthropologists, psychiatrists, sociologists, students, and researchers in the field of adolescent behaviors.

Understanding Violence Against Women - National Research Council 1996-06-07

Violence against women is one factor in the growing wave of alarm about violence in American society. High-profile cases such as the O.J. Simpson trial call attention to the thousands of lesser-known but no less tragic situations in which women's lives are shattered by beatings or sexual assault. The search for solutions has highlighted not only what we know about violence against women but also what we do not know. How can we achieve the best understanding of this problem and its complex ramifications? What research efforts will yield the greatest benefit? What are the questions that must be answered? *Understanding Violence Against Women* presents a comprehensive overview of current knowledge and identifies four areas with the greatest potential return from a research investment by increasing the understanding of and responding to domestic violence and rape: What interventions are designed to do, whom they are reaching, and how to reach the many victims who do not seek help. Factors that put people at risk of violence and that precipitate violence, including characteristics of offenders. The scope of domestic violence and sexual assault in America and its consequences to individuals, families, and society, including costs. How to structure the study of violence against women to yield more useful knowledge. Despite the news coverage and talk shows, the real fundamental nature of violence against women remains unexplored and often misunderstood. *Understanding Violence Against Women* provides direction for increasing knowledge that can help ameliorate this national problem.
