Friends, Lovers and the Big Terrible Thing - Matthew Perry
2022-11-01

'There's never been a more honest or raw memoir ... and it may just save lives' Daily Mail 'Funny, fascinating, compelling ... also a wonderful read for fans of Friends' The Times The beloved star of Friends takes us behind the scenes of the hit sitcom and his struggles with addiction in this candid, funny, and revelatory memoir that delivers a powerful message of hope and persistence. 'Hi, my name is Matthew, although you may know me by another name. My friends call me Matty. And I should be dead.' So begins the riveting story of acclaimed actor Matthew Perry, taking us along on his journey from childhood ambition to fame to addiction and recovery in the aftermath of a life-threatening health scare. Before the frequent hospital visits and stints in rehab, there was five-year-old Matthew, who travelled from Montreal to Los Angeles, shuffling between his separated parents; fourteen-year-old Matthew, who was a nationally ranked tennis star in Canada; twenty-four-year-old Matthew, who nabbed a coveted role as a lead cast member on the talked-about pilot then called Friends Like Us. . . and so much more. In an extraordinary story that only he could tell - and in the heartfelt, hilarious, and warmly familiar way only he could tell it - Matthew Perry lays bare the fractured family that raised him (and also left him to his own devices), the desire for recognition that drove him to fame, and the void inside him that could not be filled even by his greatest dreams coming true. But he also details the peace he's found in sobriety and how he feels about the ubiquity of Friends, sharing stories about his castmates and other stars he met along the way. Frank, self-aware, and with his trademark humour, Perry vividly depicts his lifelong battle with addiction and what fuelled it despite seemingly having it all. Friends, Lovers, and the Big Terrible Thing is an unforgettable memoir that is both intimate and eye-opening - as well as a hand extended to anyone struggling with sobriety. Unflinchingly honest, moving, and uproariously funny, this is the book fans have been waiting for. 'An unflinching and often harrowing must-read for 90s pop culture fans' Guardian 'Written with Chandler's trademark sarcasm and self-deprecation' Telegraph 'A hopeful read ... I started to think of [it] not as a celebrity memoir about addiction, but as an addiction memoir written by a man who understands his own history through the prism of showbiz' Independent

The Negro Motorist Green Book - Victor H. Green

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Digimodernism - Alan Kirby 2009-05-01

Almost without anybody noticing, a new cultural paradigm has come center stage, displacing an exhausted and increasingly marginalised postmodernism. Dr. Alan Kirby calls this cultural paradigm digimodernism, a name comprising both its central technical mode and its privileging of the fingers and thumbs in its use. The increasing irrelevancy of postmodernism requires a new theory to underpin our current digital culture.

The Lying Life of Adults - Elena Ferrante 2021-11-03

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post - O, The Oprah Magazine - TIME Magazine - NPR - Financial Times - New York Post - Kirkus Reviews - Harper's Bazaar AN INSTANT NEW YORK TIMES BESTSELLER - A NATIONAL INDIE BESTSELLER In this powerful novel set in a divided Naples by Elena Ferrante, the New York Times best-selling author of My Brilliant Friend, fourteen-year-old Giovanna is searching for her reflection in two kindred cities that fear and detest one another: Naples of the heights, which wears a mask of refinement, and Naples of the depths, a place of excess and vulgarity, where her guide is the unforgettable Aunt Vittoria. With this new novel

about the passage from childhood to adolescence to adulthood, Ferrante gives her readers another gripping, highly addictive, Neapolitan story. "Another spellbinding coming-of-age tale from a master."--People Magazine

House of Leaves - Mark Z. Danielewski 2000-03-07

"A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when House of Leaves was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

Dire Cartographies - Margaret Atwood 2015-09-15

In honor of the thirtieth anniversary of *The Handmaid's Tale*: Margaret Atwood describes how she came to write her utopian, dystopian works. The word "utopia" comes from Thomas More's book of the same name—meaning "no place" or "good place," or both. In "Dire Cartographies," from the essay collection *In Other Worlds*, Atwood coins the term "ustopia," which combines utopia and dystopia, the imagined perfect society and its opposite. Each contains latent versions of the other. Following her intellectual journey and growing familiarity with utopias fictional and real, from Atlantis to Avatar and Beowulf to Berlin in 1984 (and 1984), Atwood explains how years after abandoning a PhD thesis with chapters on good and bad societies, she produced novel-length dystopias and ustopias of her own. "My rules for *The Handmaid's Tale* were simple," Atwood writes. "I would not put into this book anything that humankind had not already done, somewhere, sometime, or for which it did not already have the tools." With great wit and erudition, Atwood reveals the history behind her beloved creations.

Down and Dirty Pictures - Peter Biskind 2016-06-16

In the late 1980s a generation of filmmakers began to flower outside the Hollywood studio system and in the following decade, the independent film movement bloomed. Dozens of lesser-known filmmakers such as Steven Soderbergh and Quentin Tarantino began walking away with coveted prizes at Cannes and eventually the Academy Awards. Many of these directors were discovered at Robert Redford's Sundance Film Festival and then scooped up by Harvey and Bob Weinstein, whose company Miramax laid waste to the competition. In *Down and Dirty Pictures*, Peter Biskind tells the incredible story of these filmmakers, the growth of Sundance into the premier showcase of independent film, and the meteoric rise of the controversial Weinstein brothers who left a trail of carnage in their wake yet created an Oscar factory that is the envy of the studios.

Racing the Beam - Nick Montfort 2020-02-25

A study of the relationship between platform and creative expression in the Atari VCS, the gaming system for popular games like Pac-Man and Star Wars: The Empire Strikes Back. The Atari Video Computer System dominated the home video game market so completely that "Atari" became the generic term for a video game console. The Atari VCS was affordable and offered the flexibility of changeable cartridges. Nearly a thousand of these were created, the most significant of which established new techniques, mechanics, and even entire genres. This book offers a detailed and accessible study of this influential video game console from both computational and cultural perspectives. Studies of digital media have rarely investigated platforms—the systems underlying computing. This book, the first in a series of Platform Studies, does so, developing a critical approach that examines the relationship between platforms and creative expression. Nick Montfort and Ian Bogost discuss the Atari VCS itself and examine in detail six game cartridges: *Combat*, *Adventure*, *Pac-Man*, *Yars' Revenge*, *Pitfall!*, and *Star Wars: The Empire Strikes Back*. They describe the technical constraints and affordances of the system and track developments in programming, gameplay, interface, and aesthetics. *Adventure*, for example, was the first game to represent a virtual space larger than the screen (anticipating the boundless virtual spaces of such later games as *World of Warcraft* and *Grand Theft Auto*), by allowing the player to walk off one side into another space; and *Star Wars: The Empire Strikes Back* was an early instance of interaction between media properties and video games. Montfort and Bogost show that the Atari VCS—often considered merely a retro fetish object—is an essential part of the history of video games.

Talking to Strangers - Malcolm Gladwell 2019-09-10

THE INTERNATIONAL BESTSELLER 'Compelling, haunting, tragic stories . . . resonate long after you put the book down' James McConnachie, Sunday Times Book of the Year The routine traffic stop that ends in tragedy. The spy who spends years undetected at the highest levels of the Pentagon. The false conviction of Amanda Knox. Why do we so often get other people wrong? Why is it so hard to detect a lie, read a face or judge a stranger's motives? Using stories of deceit and fatal errors to cast doubt on our strategies for dealing with the unknown, Malcolm Gladwell takes us on an intellectual adventure into the darker side of human nature, where strangers are never simple and misreading them can have disastrous consequences.

The Cinema of Steven Soderbergh - Andrew deWaard 2013-05-07

The industry's only director-cinematographer-screenwriter-producer-actor-editor, Steven Soderbergh is contemporary Hollywood's most innovative and prolific filmmaker. A Palme d'Or and Academy Award-winner, Soderbergh has directed nearly thirty films, including political provocations, digital experiments, esoteric documentaries, global blockbusters, and a series of atypical genre films. This volume considers its slippery subject from several perspectives, analyzing Soderbergh as an expressive auteur of art cinema and genre fare, as a politically-motivated guerrilla filmmaker, and as a Hollywood insider. Combining a detective's approach to investigating the truth with a criminal's

alternative value system, Soderbergh's films tackle social justice in a corporate world, embodying dozens of cinematic trends and forms advanced in the past twenty-five years. His career demonstrates the richness of contemporary American cinema, and this study gives his complex oeuvre the in-depth analysis it deserves.

sex, lies and videotape - Steven Soderbergh 2011-06-02

Like Michael Powell's *Peeping Tom*, Steven Soderbergh's *sex, lies and videotape* presents us with a protagonist who can only connect with others through the lens of a camera. Graham is an enigmatic young man who returns to Baton Rouge from a long road trip, mildly irritating his old lawyer friend John and wholly intriguing John's housebound wife Ann. John is conducting a sneaky and entirely sexual affair with Ann's sister Cynthia. For her part, Ann has lost interest in sex, yet Graham's obscurely charming eccentricity stirs something inside her - until she learns that he is functionally impotent and can manage arousal only with the help of a video camera and an agreeably loose-lipped female. Nevertheless, it's the dragging into the open of Graham's dirty little secret that causes all of these characters to confront their own veiled deceptions and hypocrisies. *sex, lies and videotape* won the Palme d'Or at the 1989 Cannes Film Festival, affirming the arrival of a distinctive new talent and signalling the start of a movement among young independent American film-makers opposed to the values and formats of the Hollywood system. Soderbergh's script is an unerringly elegant, witty and literate study of contemporary perversity.
