**Sex for Life - Laura Carpenter  
2012-02**

Sexual beliefs, behaviors and identities are interwoven throughout our lives, from childhood to old age. An edited collection of original empirical contributions united through its use of a distinctive, cutting-edge theoretical framework, Sex for Life critically examines sexuality across the entire lifespan. Rooted in diverse disciplines and employing a wide range of research methods, the chapters explore the sexual and social

transitions that typically map to broad life stages, as well as key age-graded physiological transitions, such as puberty and menopause, while drawing on the latest developments in gender, sexuality, and life course studies. Sex for Life explores a wide variety of topics, including puberty, sexual initiation, coming out, sexual assault, marriage/life partnering, disability onset, immigration, divorce, menopause, and widowhood, always attending to the social locations - including gender, race, ethnicity, and social class - that shape, and are shaped by, sexuality. The empirical work collected in Sex for Life ultimately speaks to important public policy issues, such as sex education, aging societies, and the increasing politicization of scientific research. Accessibly written, the contributions capture the interplay between individual lives and the ever-changing social-historical context, facilitating new insight not only into people's sexual lives, but also into ways of studying

them, ultimately providing a fresh, new perspective on sexuality.

*The Transformation of American Sex Education* - Ellen S. More 2022-01-11

"This book examines Americans' attempts to come to terms with the vexed subject of sex education in the schools from the late 1940s to the early 21st century. Using Mary Calderone's life and career as a touchstone, it traces the origins of modern sex education in the United States from the work of a group of reformers who coalesced around Calderone to create SIECUS in 1964 through the development and use of the competing approaches known as 'abstinence-based' and 'comprehensive' sex education from the 1980s into the 21st century"--

**Culture, Health and Sexuality** - Peter Aggleton

2015-04-24

The last twenty years have seen a growth in multi-disciplinary work in the area of sexuality, culture and health. What was once a set of specialist concerns has been steadily mainstreamed. Alongside this, a broader interest has developed in 'social' and 'cultural' factors relating to sexuality and sexual health, from family planning and STI management to gender and intimate partner violence and the technologisation of sex. This book offers a research-based overview of key topics relevant to social and cultural perspectives on sexuality and sexual health. Beginning with an extended introduction and divided into six sections, it looks at culture, sex and gender, sexual diversity, sex work, migration and sexual violence. Each section opens with an editorial discussion which places the theme, and the chapters that follow, in a contemporary context. Six additional substantive chapters can be accessed online at [www.routledge.com/cw/aggleto](http://www.routledge.com/cw/aggleto)

n. Including cutting-edge conceptual and empirical material from around the world, this is a key resource for students in, and across, a variety of academic disciplines in the social and health sciences. It is especially suitable for readers from sexuality studies, gender studies, development studies, anthropology and sociology as well as those with public health and social work backgrounds. *Annual Report of the State Board of Health and Vital Statistics of the Commonwealth of Pennsylvania* - Pennsylvania. This is a groundbreaking, personal, and informative guide for the transgender

population, covering health, legal issues, cultural and social questions, history, theory, and more. It is a place for transgender and gender-questioning people, their partners and families, students, professors, and guidance counselors, to look for up-to-date information on transgender life.

**Bisexual Women in the Twenty-First Century** - Dawn Atkins 2013-11-19

*Bisexual Women in the Twenty-First Century* reflects the "brave new world" of bisexual women's lives through an eclectic collection of articles that typifies an ongoing feminist process of theory grounded in life experience.

The book's broad scope addresses a "world" created in response to lesbian-feminism, homophobia within the mainstream women's movement, and sexism within the gay rights movement. The book includes Carol Queen's memoirs of the swinging lesbian scene in the 1970s, a critical examination of Alice Walker's novel *The Temple of*

My Familiar, and a look back at the controversy surrounding bisexual inclusion in the Northampton Lesbian and Gay Pride March in Massachusetts in the early 90s. Previous groundbreaking work on bisexuality had to focus on breaking the silence around bisexual invisibility. This collection works from that foundation to explore the complexities and histories of bisexual women's lives. *Bisexual Women in the Twenty-First Century* examines: tensions between lesbians and bisexual women the shifting place of bisexual women in society the use of skin color as a charged metaphor the inclusion of bisexuality into queer theory groundbreaking new work on bisexual youth the creative use of the "sacred whore" archetype *Bisexual Women in the Twenty-First Century* is an essential source of social and political critique, and a vital resource for anyone interested in the complex dynamics of human sexuality, regardless of sexual orientation.

Routledge Handbook of Sexuality Studies in East Asia - Mark McLelland 2014-09-15  
This collection brings together cutting-edge work by established and emerging scholars focusing on key societies in the East Asian region: China, Taiwan, Hong Kong, Japan, North and South Korea, Mongolia and Vietnam. This scope enables the collection to reflect on the nature of the transformations in constructions of sexuality in highly developed, developing and emerging societies and economies. Both Japan and China have established traditions of 'sexuality' studies reflecting longstanding indigenous understandings of sex as well as more recent developments which interface with Euro-American medical and psychological understandings. Authors reflect upon the complex colonial and

economic interactions and cultural flows which have affected the East Asian region over the last two centuries. They trace local flows of ideas instead of defaulting to Euro-American paradigms for sexuality studies. Through looking at regional and global exchanges of ideas about sexuality, this volume adds considerably to our understanding of the East Asian region and contributes to wider discussions of social transformation, modernisation and globalisation. It will be essential reading in undergraduate and graduate programs in sexuality studies, gender studies, women's studies and masculinity studies, as well as in anthropology, sociology, history, cultural studies, area studies and health sciences.

### **Sexuality and Social Work -**

Julie Bywater 2007-10-08

Sexuality remains a neglected and largely taboo area within practice, but it can be a demanding aspect of social work. Social workers may be familiar with the importance of issues such as racism and ethnicity, but sexuality is also a very significant part of people's lives, closest relationships and sense of identity. This valuable resource introduces the topic, using a combination of perspectives to consider sexual diversity and examining related issues across the life course, including sexual orientation, disability, HIV, sexual abuse, mental health and sexual exploitation.

*Remaking HIV Prevention in the 21st Century* - Sarah Bernays 2021-07-26

Prevention (TasP), new technologies such as Pre-Exposure Prophylaxis (PrEP), and the Undetectable equals Untransmittable (U=U) movement. The growth of new forms of biomedical HIV prevention has created hope for the future, signalling the possibility of a world without AIDS. In this context, the volume discusses the profound social, political and ethical dilemmas raised by such advances, which are to do with readiness, access, equity and availability. It examines how HIV prevention has been, and is, re-framed in policy, practice and research, and asks: How best can new biomedical technologies be made available in a profoundly unequal world? What new understandings of responsibility and risk will emerge as HIV becomes a more manageable condition? What new forms of blame will emerge in a context where the technologies to prevent HIV exist, but are not always used? How best can we balance public health's concern for adherence and compliance with

the rights of individuals to decide on what is best for themselves and others? Few of these questions have thus far received serious consideration in the academic literature. The editors, all leaders in the social aspects of HIV, have brought together an innovative and international collection of essays by top thinkers and practitioners in the field of HIV. This book is an important resource for academics and professionals interested in HIV research. Chapters "Anticipating Policy, Orienting Services, Celebrating Provision: Reflecting on Scotland's PrEP Journey", "How the science of HIV treatment-as-prevention restructured PEPFAR's strategy: The case for scaling up ART in 'epidemic control' countries", "Stigma and confidentiality indiscretions: Intersecting obstacles to the delivery of Pre-Exposure Prophylaxis to adolescent girls and young women in east Zimbabwe" and "The drive to take an HIV test in rural Uganda: a risk to prevention

for young people?" are available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](http://link.springer.com).
