

Slumming Sexual And Social Politics In Victorian London

Mrs Humphry Ward and Greenian Philosophy Helen Loader 2019-03-26 This book examines Mary Ward's distinctive insight into late-Victorian and Edwardian society as a famous writer and reformer, who was inspired by the philosopher and British idealist, Thomas Hill Green. As a talented woman who had studied among Oxford University intellectuals in the 1870s, and the granddaughter of Dr Arnold of Rugby, Mrs Humphry Ward (as she was best known) was in a unique position to participate in the debates, issues and events that shaped her generation; religious doubt and Christianity, educational reforms, socialism, women's suffrage and the First World War. Helen Loader examines a range of biographical sources, alongside Mary Ward's writings and social reform activities, to demonstrate how she expressed and engaged with Greenian idealism, both in theory and practice, and made a significant contribution to British Society.

Imagining Spaces and Places Saija Isomaa 2014-07-18 *Imagining Spaces and Places* seeks to produce an interdisciplinary dialogue between art history and literature studies and other fields of cultural analysis that work with the concepts of space, place and various "scapes", such as cityscapes, bodyscapes, mindscapes and memoryscapes, as well as the more familiar landscapes. The volume was inspired by new lines of study that underline the experiential and multidimensional aspects of spaces. We explore how art, literature or urban spaces forge "scapes" by imposing or suggesting aesthetic, evaluative or ideological orderings and perceptual as well as emotive perspectives on the "raw material" or on previous ways of spatial worldmaking. We look at the role of cultural and artistic renderings of space in relation to everyday experiences of spaces. We examine how the experiences of places are mediated in various art forms and other cultural discourses or practices and how these discourses contribute to the understanding of particular places and also to understanding space in more general terms. *Imagining Spaces and Places* is addressed to scholars and teachers working at the intersection of cultural and spatial analyses, as well as to their undergraduate and postgraduate students.

Cities and the Making of Modern Europe, 1750-1914 Andrew Lees 2007-12-13 A survey of urbanization and the making of modern Europe from the mid-eighteenth century to the First World War.

The Victorian World Martin Hewitt 2013-01-25 With an interdisciplinary approach that encompasses political history, the history of ideas, cultural history and art history, *The Victorian World* offers a sweeping survey of the world in the nineteenth century. This volume offers a fresh evaluation of Britain and its global presence in the years from the 1830s to the 1900s. It brings together scholars from history, literary studies, art history, historical geography, historical sociology, criminology, economics and the history of law, to explore more than 40 themes central to an understanding of the nature of Victorian society and culture, both in Britain and in the rest of the world. Organised around six core themes - the world order, economy and society, politics, knowledge and belief, and culture - *The Victorian World* offers thematic essays that consider the interplay of domestic and global dynamics in the formation of Victorian orthodoxies. A further section on 'Varieties of Victorianism' offers considerations of the production and reproduction of external versions of Victorian culture, in India, Africa, the United States, the settler colonies and Latin America. These thematic essays are supplemented by a substantial introductory essay, which offers a challenging alternative to traditional interpretations of the chronology and periodisation of the Victorian years. Lavishly illustrated, vivid and accessible, this volume is invaluable reading for all students and scholars of the nineteenth century.

A Nation of Petitioners Henry J. Miller 2023-02-09 Between 1780 and 1918, over one million petitions from across the four nations were sent to the House of Commons. *A Nation of Petitioners* is the first study of this nineteenth-century heyday of petitioning in the United Kingdom. It explores how ordinary men and women engaged with politics in an era of democratisation, but not

democracy, and restores their voices and actions to the story of UK political culture. Drawing on more than a million petitions, as well as archives of leading politicians, institutions, and pressure groups, Henry J. Miller demonstrates the centrality of petitions and petitioning to mass campaigning, representation, collective action, and forging collective identities at the local and national level. From the early nineteenth century, the massive growth of petitions underpinned and reshaped the popular authority of the UK state, including Parliament, the monarchy, and government. Challenging accounts that have stressed disciplinary or exclusionary processes in the evolution of popular politics, *A Nation of Petitioners* conclusively establishes the importance of the mass participation of ordinary people through petitions.

Contagion, Isolation, and Biopolitics in Victorian London Matthew Newsom Kerr 2017-10-12

This book is a history of London's vast network of fever and smallpox hospitals, built by the Metropolitan Asylums Board between 1870 and 1900. Unprecedented in size and scope, this public infrastructure inaugurated a new technology of disease prevention—*isolation*. Londoners suffering from infectious diseases submitted themselves to far-reaching forms of surveillance, removal, and detention, which made them legible to science and the state in entirely new ways. Isolation on a mass scale transformed the meaning of urban epidemics and introduced contentious new relationships between health, citizenship, and the spaces of modern governance. Rich in archival sources and images, this engaging book offers innovative analysis at the intersection of preventive medicine and Victorian-era liberalism.

Civilizing Missions in Colonial and Postcolonial South Asia Carey Anthony Watt 2011

'Civilizing Missions in Colonial and Postcolonial South Asia' offers a series of analyses that highlights the complexities of British and Indian civilizing missions in original ways and through various historiographical approaches. The book applies the concept of the civilizing mission to a number of issues in the colonial and postcolonial eras in South Asia: economic development, state-building, pacification, nationalism, cultural improvement, gender and generational relations, caste and untouchability, religion and missionaries, class relations, urbanization, NGOs, and civil society.

Political Ecology of Tourism Mary Mostafanezhad 2016-01-08 Why has political ecology been assigned so little attention in tourism studies, despite its broad and critical interrogation of environment and politics? As the first full-length treatment of a political ecology of tourism, the collection addresses this lacuna and calls for the further establishment of this emerging interdisciplinary subfield. Drawing on recent trends in geography, anthropology, and environmental and tourism studies, *Political Ecology of Tourism: Communities, Power and the Environment* employs a political ecology approach to the analysis of tourism through three interrelated themes: Communities and Power, Conservation and Control, and Development and Conflict. While geographically broad in scope—with chapters that span Central and South America to Africa, and South, Southeast, and East Asia to Europe and Greenland—the collection illustrates how tourism-related environmental challenges are shared across prodigious geographical distances, while also

attending to the nuanced ways they materialize in local contexts and therefore demand the historically situated, place-based and multi-scalar approach of political ecology. This collection advances our understanding of the role of political, economic and environmental concerns in tourism practice. It offers readers a political ecology framework from which to address tourism-related issues and themes such as development, identity politics, environmental subjectivities, environmental degradation, land and resources conflict, and indigenous ecologies. Finally, the collection is bookended by a pair of essays from two of the most distinguished scholars working in the subfield: Rosaleen Duffy (foreword) and James Igoe (afterword). This collection will be valuable reading for scholars and practitioners alike who share a critical interest in the intersection of tourism, politics and the environment

The Oxford History of Anglicanism Anthony Milton 2017 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity. This global study of Anglicanism from the sixteenth century looks at how was Anglican identity constructed and contested at various periods since the sixteenth century; and what was its historical influence during the past six centuries. It explores not just the ecclesiastical and theological aspects of global Anglicanism, but also the political, social, economic, and cultural influences of this form of Christianity that has been historically significant in western culture, and a burgeoning force in non-western societies today. The chapters are written by international experts in their various historical fields which includes the most recent research in their areas, as well as original research. The series forms an invaluable reference for both scholars and interested non-specialists. Volume three of The Oxford History of Anglicanism explores the nineteenth century when Anglicanism developed into a world-wide Christian communion, largely, but not solely, due to the expansion of the British Empire. By the end of this period an Anglican Communion had come into existence as a diverse conglomerate of often competing Anglican identities with their often unresolved tensions and contradictions, but also with some measure of genuine unity. The volume examines the ways the various Anglican identities of the nineteenth century are both metropolitan and colonial constructs, and how they influenced the wider societies in which they formed Anglican Churches.

Slumming It Fabian Frenzel 2016-06-15 Have slums become 'cool'? More and more tourists from across the globe seem to think so as they discover favelas, ghettos, townships and barrios on leisurely visits. But while slum tourism often evokes moral outrage, critics rarely ask about what motivates this tourism, or what wider consequences and effects it initiates. In this provocative book, Fabian Frenzel investigates the lure that slums exert on their better-off visitors, looking at the many ways in which this curious form of attraction ignites changes both in the slums themselves and on the world stage. Covering slums in Rio de Janeiro, Bangkok and multiple cities in South Africa, Kenya and India, *Slumming It* examines the roots and consequences of a growing phenomenon whose effects have ranged from gentrification and urban policy reform to the organization of international development and poverty alleviation. Controversially, Frenzel argues that the rise of slum tourism has drawn attention to important global justice issues, and is far more complex than we initially acknowledged.

Making, Selling and Wearing Boys' Clothes in Late-Victorian England Clare Rose 2016-12-05 There has been a great deal of recent interest in masculine clothing, examining both its production and consumption, and the ways in which it was used to create individual identities and to build businesses, from 1850 onwards. Drawing upon a wide range of sources this book studies the interaction between producers and consumers at a key period in the development of the ready-made clothing industry. It also shows that many innovations in advertising clothing, usually considered to have been developed in America, had earlier British precedents. To counter the lack of documentary evidence that has hitherto hampered research into the dress practices of non-elite groups, this book utilises thousands of unpublished visual documents. These include hundreds of manufacturers' designs, which underline an unexpected degree of investment by manufacturers in boys' clothing, and which was matched by heavy investment in advertising, with thousands of images of boys'

clothing for shop catalogues in the Stationers' Hall copyright archive. Another key source is the archives of Dr Barnardo's Homes. This extraordinary collection contains over 15,000 documented photographs of boys entering between 1875 and 1900, allowing us to look beyond official polarization of 'raggedness' and 'respectability' used by charities and social reformers of all stripes and to establish the clothing that was actually worn by a large sample of boys. A close analysis of 1,800 images reveals that even when families were impoverished, they strove to present their boys in ways that reflected their position in the family group and in society. By drawing on these visual sources, and linking the design and retailing of boys' clothing with social, cultural and economic issues, this book shows that an understanding of the production and consumption of the boys clothing is central to debates on the growth of the consumer society, the development of mass-market fashion, and concepts of childhood and masculinity.

Walter Besant Kevin A. Morrison 2019 In the 1880s and 1890s, Walter Besant was one of Britain's most lionized living novelists. Today he is comparatively unknown. Bringing together literary critics and book historians, as well as social and cultural historians, this volume provides a major reassessment of Besant.

Critical Essays on Arthur Morrison and the East End Diana Maltz 2022-07-26 In 1896, author Arthur Morrison gained notoriety for his bleak and violent *A Child of the Jago*, a slum novel that captured the desperate struggle to survive among London's poorest. When a reviewer accused Morrison of exaggerating the depravity of the neighborhood on which the *Jago* was based, he incited the era's most contentious public debate about the purpose of realism and the responsibilities of the novelist. In his self-defense and in his wider body of work, Morrison demonstrated not only his investments as a formal artist, but also his awareness of social questions. As the first critical essay collection on Arthur Morrison and the East End, this book assesses Morrison's contributions to late-Victorian culture, especially discourses around English working-class life. Chapters evaluate Morrison in the context of Victorian criminality, child welfare, disability, housing, professionalism, and slum photography. Morrison's works are also reexamined in the light of writings by Sir Walter Besant, Clementina Black, Charles Booth, Charles Dickens, George Gissing, and Margaret Harkness. This volume features an introduction and 11 chapters by preeminent and emerging scholars of the East End. They employ a variety of critical methodologies, drawing on their respective expertise in literature, history, art history, sociology, and geography. *Critical Essays on Arthur Morrison and the East End* throws fresh new light on this innovative novelist of poverty and urban life.

London's Shadows Drew D. Gray 2010-07-01 In 1888 London was the capital of the most powerful empire the world had ever known, and the largest city in Europe. In the west a new city was growing, populated by the middle classes, the epitome of 'Victorian values'. Across the city the situation was very different. The East End of London had long been considered a nether world, a dark and dangerous region outside the symbolic 'walls' of the original City. Using the Whitechapel murders of Jack the Ripper as a focal point, this book explores prostitution, poverty, revolutionary politics, immigration, the creation of a criminal underclass and the development of policing. It also considers how the sensationalist 'new journalism' took the news of the Ripper murders to all corners of the Empire and to the United States. This is an important book for those interested in the history of Victorian Britain.

Destination London Andrew Smith 2019-05-21 London is one of the world's most popular destinations and visitors contribute approximately £14.9 billion of expenditure to the city every year. Its tourism and events sectors are growing and over the last few years London has received more visitors than ever before. However, detailed accounts of the city's visitor economy are conspicuously absent. This book analyses how the capital is developing as a destination through the expansion of tourism and events into new urban spaces. The book outlines how parts of London not previously regarded as tourist territory are now subject to the visitor gaze with tourism spreading beyond established central zones into peripheral, suburban and residential areas - in part propelled by a big rise in peer to peer accommodation use. Simultaneously, London's airports and sports stadiums and their surrounds are becoming destinations in their own right. New vantage points have been

created, allowing tourists to explore the city: from above, at night-time or through tours given by the homeless; via the opening up of the River Thames; or through the transformation of local parks into eventscaapes. The book explores these trends and shows how urban destinations expand. In doing so, it enhances our understanding of London and highlights the growing significance of tourism and events in global cities.

The Victorian Underworld Kellow Chesney 1991-01 Beneath the respectable surface of Victorian England lay a criminal world as diverse, turbulent and vicious as any. This begins by looking at that age and its penal methods and it then recreates the showmen, religious fakes, garrotters, pickpockets, prostitutes and magmen who thronged the murky rookeries and lays of the cities.

Imagined Orphans Lydia Murdoch 2006 "In *Imagined Orphans*, Lydia Murdoch focuses on the discrepancy between the representation and the reality of children's experiences within welfare institutions - a discrepancy that she argues stems from conflicts over middle- and working-class notions of citizenship that arose in the 1870s and persisted until the First World War. Reformers' efforts to depict poor children as either orphaned or endangered by abusive or "no-good" parents fed upon the poor's increasing exclusion from the Victorian social body. Reformers used the public's growing distrust and pitiless attitude toward poor adults to increase charity and state aid to the children. With a critical eye to social issues of the period, Murdoch urges readers to reconsider the complex situations of families living in poverty."--BOOK JACKET.

The Oxford Handbook of the Modern Slum Alan Mayne 2023-08-25 "'Slum' is among the most evocative and judgmental words of the modern world. It originated in the slang language of the world's then-largest city, London, early in the nineteenth century. Its use thereafter proliferated, and its original meanings unraveled as colonialism and urbanization transformed the world, and as prejudice against those disadvantaged by these transformations became entrenched. Cuckoo-like, "slum" overtook and transformed other local idioms: for example, bustee, favela, kampong, shack. "Slum" once justified heavy-handed redevelopment schemes that tore apart poor but viable neighborhoods. Now it underpins schemes of neighbourhood renewal that, seemingly benign in their intentions, nonetheless pay scant respect to the viewpoints of their inhabitants. This Oxford Handbook probes both present-day understandings of slums and their historical antecedents. It discusses the evolution of slum "improvement" policies globally from the early nineteenth century to the early twenty-first century. It encompasses multiple perspectives: anthropology, archaeology, architecture, geography, history, politics, sociology, urban studies and urban planning. It emphasizes the influences of gender and race inequality, and the persistence of subaltern agency notwithstanding entrenched prejudice and unsympathetically-applied institutionalized power. Uniquely, it balances contributions from scholars who deny the legitimacy of "slum" in social and policy analysis, with those who accept its relevance as a measuring stick of social disadvantage and as a vehicle for social reform. This Handbook does not simply footnote the past; it critiques conventional understandings of urban social disadvantage and reform across time and place in the modern world. It suggests pathways for future research and for alleviative reform"--

Structures and Transformations in Modern British History David Feldman 2011-01-20 This major collection of essays challenges many of our preconceptions about British political and social history from the late eighteenth century to the present. Inspired by the work of Gareth Stedman Jones, twelve leading scholars explore both the long-term structures - social, political and intellectual - of modern British history, and the forces that have transformed those structures at key moments. The result is a series of insightful, original essays presenting new research within a broad historical context. Subjects covered include the consequences of rapid demographic change in the eighteenth and nineteenth centuries; the forces shaping transnational networks, especially those between Britain and its empire; and the recurrent problem of how we connect cultural politics to social change. An introductory essay situates Stedman Jones's work within the broader historiographical trends of the past thirty years, drawing important conclusions about new directions for scholarship in the twenty-first century.

Religion in Victorian London William M. Jacob 2021-09-17 This innovative book challenges many of

the widely held assumptions about the place of religion in Victorian society and in London, the world's first great industrial and commercial metropolis. Against the background of Victorian London it explores the religiosity of Londoners as expressed through the dynamic renewal of traditional faith communities, including Judaism and the historic churches, as well as fresh expressions of religion, including the Salvation Army, Mormons, spiritualism, and the occult. It shows how laypeople, especially the rich and women were mobilised in the service of their faith, and their fellow citizens. Drawing on research in social, economic, oral, cultural, and women's history Jacob argues that religious motivations lay behind concerns that subsequently preoccupied people in the twentieth and twenty-first centuries. These include the changing place of women in society, an active concern for social justice, the sexual exploitation of women and children, and provision of education for all classes and all ages. By examining religion broadly, in its social and cultural context and looking beyond conventional approaches to religious history, *Religious Vitality in Victorian London* illustrates the dynamic significance of religion in society influencing even the expression of secularism.

London Politics, 1760-1914 M. Cragoe 2005-11-14 This collection offers the first detailed investigation of political life in nineteenth-century London. London politics did not share the free-trade and civil-equality preoccupations of the provinces which currently dominate scholarly literature. As these essays reveal, the capital remained more concerned with older struggles for political independence. By highlighting the inability of existing accounts to accommodate metropolitan distinctiveness, the collection aims to stimulate a major reappraisal not of London politics alone, but of Victorian political history more generally.

The Match Girl and the Heiress Seth Koven 2016-04-19 How two extraordinary women crossed the Victorian class divide to put Christian teachings into practice in the slums of East London Nellie Dowell was a match factory girl in Victorian London who spent her early years consigned to orphanages and hospitals. Muriel Lester, the daughter of a wealthy shipbuilder, longed to be free of the burden of money and possessions. Together, these unlikely soulmates sought to remake the world according to their own utopian vision of Christ's teachings. *The Match Girl and the Heiress* paints an unforgettable portrait of their late-nineteenth-century girlhoods of wealth and want, and their daring twentieth-century experiments in ethical living in a world torn apart by war, imperialism, and industrial capitalism. In this captivating book, Seth Koven chronicles how each traveled the globe—Nellie as a spinster proletarian laborer, Muriel as a well-heeled tourist and revered Christian peacemaker, anticolonial activist, and humanitarian. Koven vividly describes how their lives crossed in the slums of East London, where they inaugurated a grassroots revolution that took the Sermon on the Mount as a guide to achieving economic and social justice for the dispossessed. Koven shows how they devoted themselves to Kingsley Hall—Gandhi's London home in 1931 and Britain's first "people's house" founded on the Christian principles of social sharing, pacifism, and reconciliation—and sheds light on the intimacies and inequalities of their loving yet complicated relationship. *The Match Girl and the Heiress* probes the inner lives of these two extraordinary women against the panoramic backdrop of shop-floor labor politics, global capitalism, counterculture spirituality, and pacifist feminism to expose the wounds of poverty and neglect that Christian love could never heal.

Literature and Politics Peter Marks 2011-12-08 George Orwell argued that one of the four great motives for a prose writer was the desire 'to push the world in a certain direction, to alter other people's idea of the kind of society that they should strive after'. This book contains exciting new work by established and emerging scholars that explores political literature over the last century and a half. It shows how, from *The Communist Manifesto* to the dystopian future of Margaret Atwood's *Oryx and Crake*, writers have attempted to alter people's ideas, not always successfully. Eighteen chapters deal with a global array of writers and topics, from 1890s Australian bohemians and the anti-Peronism of Argentina's Julio Cortázar to Aris Alexandrou's Greek utopia and the harsh modern Zimbabwe of Yvonne Vera's *The Stone Virgins*. Other contributors critically examine the sexual politics of nineteenth century aestheticism, Theodor Adorno and Cultural Studies, Paul Auster

and the altermodern, Yeats's poetry, Celan and the Holocaust, the postmodernism of former-Yugoslavia's Dubravka Ugrešić, or the socialism of Australian Jean Devanny. Whether through informed studies of poetry and politics in Heidegger, Richard Marsh's gothic novel *The Beetle*, how Thomas Pynchon and Don DeLillo deal with 9/11, the cultural politics of child abuse in Christos Tsiolkas's *The Slap*, or how the German politician Joschka Fischer lost weight, readers will be stimulated by a collection that shows political literature's continuing ability to inform, enrage and engage readers from around the world.

The Book of Minor Perverts Benjamin Kahan 2019-02-05 Shortlisted for the Modernist Studies Association Book Prize Statue-fondlers, wanderlusters, sex magicians, and nymphomaniacs: the story of these forgotten sexualities—what Michel Foucault deemed “minor perverts”—has never before been told. In *The Book of Minor Perverts*, Benjamin Kahan sets out to chart the proliferation of sexual classification that arose with the advent of nineteenth-century sexology. The book narrates the shift from Foucault's “thousand aberrant sexualities” to one: homosexuality. The focus here is less on the effects of queer identity and more on the lines of causation behind a surprising array of minor perverts who refuse to fit neatly into our familiar sexual frameworks. The result stands at the intersection of history, queer studies, and the medical humanities to offer us a new way of feeling our way into the past.

Framed Elizabeth Carolyn Miller 2008-10-30 By introducing us to the New Woman Criminal, *Framed* offers a profoundly different view of the fin de siècle British crime narrative

Fatherhood and the British Working Class, 1865-1914 Julie-Marie Strange 2015-01-19 A pioneering study of Victorian and Edwardian fatherhood, investigating what being, and having, a father meant to working-class people. Based on working-class autobiography, the book challenges dominant assumptions about absent or 'feckless' fathers, and reintegrates the paternal figure within the emotional life of families. Locating autobiography within broader social and cultural commentary, Julie-Marie Strange considers material culture, everyday practice, obligation, duty and comedy as sites for the development and expression of complex emotional lives. Emphasising the importance of separating men as husbands from men as fathers, Strange explores how emotional ties were formed between fathers and their children, the models of fatherhood available to working-class men, and the ways in which fathers interacted with children inside and outside the home. She explodes the myth that working-class interiorities are inaccessible or unrecoverable, and locates life stories in the context of other sources, including social surveys, visual culture and popular fiction.

Slum Travelers Ellen Ross 2007-07-26 Ellen Ross has collected impressions from some of the half a million women involved in philanthropy by the 1890s, most of them active in the London slums. The contributors include Sylvia Pankhurst and Beatrice Webb, as well as many more less well known figures.

Women's Writing and Mission in the Nineteenth Century Angharad Eyre 2022-11-30 Until now, the missionary plot in Charlotte Brontë's *Jane Eyre* has been seen as marginal and anomalous. Despite women missionaries being ubiquitous in the nineteenth century, they appeared to be absent from nineteenth-century literature. As this book demonstrates, though, the female missionary character and narrative was, in fact, present in a range of writings from missionary newsletters and life writing, to canonical Victorian literature, New Woman fiction and women's college writing. Nineteenth-century women writers wove the tropes of the female missionary figure and plot into their domestic fiction, and the female missionary themes of religious self-sacrifice and heroism formed the subjectivity of these writers and their characters. Offering an alternative narrative for the development of women writers and early feminism, as well as a new reading of *Jane Eyre*, this book adds to the debate about whether religious women in the nineteenth century could actually be radical and feminist.

City of Dreadful Delight Judith R. Walkowitz 2013-06-14 From tabloid exposes of child prostitution to the grisly tales of Jack the Ripper, narratives of sexual danger pulsed through Victorian London. Expertly blending social history and cultural criticism, Judith Walkowitz shows how these narratives reveal the complex dramas of power, politics, and sexuality that were being played out in late

nineteenth-century Britain, and how they influenced the language of politics, journalism, and fiction. Victorian London was a world where long-standing traditions of class and gender were challenged by a range of public spectacles, mass media scandals, new commercial spaces, and a proliferation of new sexual categories and identities. In the midst of this changing culture, women of many classes challenged the traditional privileges of elite males and asserted their presence in the public domain. An important catalyst in this conflict, argues Walkowitz, was W. T. Stead's widely read 1885 article about child prostitution. Capitalizing on the uproar caused by the piece and the volatile political climate of the time, women spoke of sexual danger, articulating their own grievances against men, inserting themselves into the public discussion of sex to an unprecedented extent, and gaining new entree to public spaces and journalistic practices. The ultimate manifestation of class anxiety and gender antagonism came in 1888 with the tabloid tales of Jack the Ripper. In between, there were quotidian stories of sexual possibility and urban adventure, and Walkowitz examines them all, showing how women were not simply figures in the imaginary landscape of male spectators, but also central actors in the stories of metropolotin life that reverberated in courtrooms, learned journals, drawing rooms, street corners, and in the letters columns of the daily press. A model of cultural history, this ambitious book will stimulate and enlighten readers across a broad range of interests.

Literature and the Peripheral City Jason Finch 2015-05-27 Cities have always been defined by their centrality. But literature demonstrates that their diverse peripheries define them, too: from suburbs to slums, rubbish dumps to nightclubs and entire failed cities. The contributors to this collection explore literary urban peripheries through readings of literature from four continents and numerous cities.

Encyclopedia of London's East End Kevin A. Morrison 2023-03-03 The East End is an iconic area of London, from the transient street art of Banksy and Pablo Delgado to the exhibitions of Doreen Fletcher and Gilbert and George. Located east of the Tower of London and north of the River Thames, it has experienced a number of developmental stages in its four-hundred-year history. Originating as a series of scattered villages, the area has been home to Europe's worst slums and served as an affluent nodal point of the British Empire. Through its evolution, the East End has been the birthplace of radical political and social movements and the social center for a variety of diasporic communities. This reference work, with its alphabetically organized cross-referenced entries and its original and historical photography, serves as a comprehensive guide to the social and cultural history of this global hub.

Literary Slumming Eliza Jane Smith 2021-08-06 *Literary Slumming: Slang and Class in Nineteenth-Century France* reveals how the use of slang in French literature and culture led to the emergence of a sociolinguistic phenomenon that prioritized criminal life and culture in a way that expanded class boundaries and increased visibility for minorities within the public sphere.

British Aestheticism and the Urban Working Classes, 1870-1900 D. Maltz 2005-11-22 This cultural study reveals the interdependence between British Aestheticism and late-Victorian social-reform movements. Following their mentor John Ruskin who believed in art's power to civilize the poor, cultural philanthropists promulgated a Religion of Beauty as they advocated practical schemes for tenement reform, university-settlement education, Sunday museum opening, and High Anglican revival. Although subject to novelist's ambivalent, even satirical, representations, missionary aesthetes nevertheless constituted an influential social network, imbuing fin-de-siecle artistic communities with political purpose and political lobbies with aesthetic sensibility.

Tourism and Geographies of Inequality Fabian Frenzel 2016-02-08 Slum tourism is a controversial pastime on the rise globally. This volume provides a collection of studies that shed light on the phenomenon from historical, geographical, sociological, political and anthropological perspectives. Based on unique and in depth research from across the globe, the collection forms an indispensable resource for Scholars and Students of tourism and the geographies of inequality. Connecting slum tourism to debates over the ethics and aesthetics of travel, volunteering, second homes and cross border mobilities, the case studies provide ample ground for an understanding of slum tourism as transversal terrain in which the questions of global equity came to the fore. Slum Tourism Fabian Frenzel 2012-06-14 Slum tourism is a globalizing trend and a controversial form of tourism. Impoverished urban areas have always enticed the popular imagination, considered to be places of 'otherness', 'moral decay', 'deviant liberty' or 'authenticity'. 'Slumming' has a long tradition in the Global North, for example in Victorian London when the upper classes toured the East End. What is new, however, is its development dynamics and its rapidly spreading popularity across the globe. Township tourism and favela tourism have currently reached mass tourism characteristics in South Africa and in Rio de Janeiro, Brazil. In other countries of the Global South, slum tourism now also occurs and providers see huge growth potential. While the morally controversial practice of slum tourism has raised much attention and opinionated debates in the media for several years, academic research has only recently started addressing it as a global phenomenon. This edition provides the first systematic overview of the field and the diverse issues connected to slum tourism. This multidisciplinary collection is unique both in its conceptual and empirical breadth. Its chapters indicate that 'global slumming' is not merely a controversial and challenging topic in itself, but also offers an apt lens through which to discuss core concepts in critical tourism studies in a global perspective, in particular: 'poverty', 'power' and 'ethics'. Building on research by prolific researchers from ten different countries, the book provides a comprehensive and unique insight in the current empirical, practical and theoretical knowledge on the subject. It takes a thorough and critical review of issues associated with slum tourism, asking why slums are visited, whether they should be visited, how they are represented, who is benefiting from it and in what way. It offers new insights to tourism's role in poverty alleviation and urban regeneration, power relations in contact zones and tourism's cultural and political implications. Drawing on research from four continents and seven different countries, and from multidisciplinary perspectives, this ground-breaking volume will be valuable reading for students, researchers and academics interested in this contemporary form of tourism.

Slumming Seth Koven 2006-08-13 In the 1880s, fashionable Londoners left their elegant homes and clubs in Mayfair and Belgravia and crowded into omnibuses bound for midnight tours of the slums of East London. A new word burst into popular usage to describe these descents into the precincts of poverty to see how the poor lived: slumming. In this captivating book, Seth Koven paints a vivid portrait of the practitioners of slumming and their world: who they were, why they went, what they claimed to have found, how it changed them, and how slumming, in turn, powerfully shaped both Victorian and twentieth-century understandings of poverty and social welfare, gender relations, and sexuality. The slums of late-Victorian London became synonymous with all that was wrong with industrial capitalist society. But for philanthropic men and women eager to free themselves from the starched conventions of bourgeois respectability and domesticity, slums were also places of personal liberation and experimentation. Slumming allowed them to act on their irresistible "attraction of repulsion" for the poor and permitted them, with society's approval, to get dirty and express their own "dirty" desires for intimacy with slum dwellers and, sometimes, with one another. Slumming elucidates the histories of a wide range of preoccupations about poverty and urban life, altruism and sexuality that remain central in Anglo-American culture, including the ethics of undercover investigative reporting, the connections between cross-class sympathy and same-sex desire, and the intermingling of the wish to rescue the poor with the impulse to eroticize and sexually exploit them. By revealing the extent to which politics and erotics, social and sexual categories overflowed their boundaries and transformed one another, Koven recaptures the ethical dilemmas that men and women confronted--and continue to confront--in trying to "love thy neighbor as thyself."

City Dreamers Graeme Davison 2016-08-01 I became an urban historian because I believed that our cities deserved more of our curiosity and idealism. In *City Dreamers* Graeme Davison restores Australian cities, and those who created them, to their rightful place in the national imagination. Building on a lifetime's work, Davison views Australian history, from 1788 to the present day, through the eyes of city dreamers - such as Henry Lawson, Charles Bean and Hugh Stretton - and others who have helped make the cities we inhabit. Davison looks at significant individuals or groups

that he calls snobs, slummers, pessimists, exodists, suburbans and anti-suburbans - and argues that there's a particular twist to the ways in which Australians think about cities. And the ways we live in them. This extraordinary book excavates the cultural history of the Australian city by focusing on 'dreamers', those who battle to make and re-make our cities. It reminds us that for most of us the city is home, and it is there that we find belonging.
