

The Complete Elegies Of Sextus Propertius

Lockert Library Of Poetry In Translation

The Complete Elegies of Sextus Propertius - Propertius 2016-07-07

The Roman poet Propertius is best known as the writer who perfected the Latin love elegy, a technical as much as a psychological and cultural feat. Propertius has been admired for both his metrical genius and the modernity of his narrative flow. Many of the poems here pay tribute to Cynthia, Propertius's romantic obsession, but the scope of these 107 elegies is broad. Propertius's poetry offers a fascinating look into life in the Augustan age, addressing social, political, and historical subjects. A contemporary of Virgil and Horace, Propertius has influenced scores of poets--from Ovid to Housman to Pound. His poetry appears here for the first time in a dual-language edition with the translations facing the original Latin. Rendered into English by a poet who is also one of the nation's pre-eminent Propertius experts, the volume brings Propertius's difficult mix of vernacular and high literary allusion into contemporary language. Cynthia was the first. She caught me with her eyes, a fool who had never before been touched by desires. Love cast down my look of constant pride, and he pressed on my head with his feet, until he taught me to despise chaste girls, perversely, and to live without plan. Already, it's been a whole year that the frenzy hasn't stopped, when, for all that, the gods are against me. ?

The Complete Poems of Tibullus - Albius Tibullus 2012-05-21

Tibullus is considered one of the finest exponents of Latin lyric in the golden age of Rome, during the Emperor Augustus's reign, and his poetry retains its enduring beauty and appeal. Together these works provide an important document for anyone who seeks to understand Roman culture and sexuality and the origins of Western poetry. • The new translation by Rodney Dennis and Michael Putnam conveys to students the elegance and wit of the original

poems. • Ideal for courses on classical literature, classical civilization, Roman history, comparative literature, and the classical tradition and reception. • The Latin verses will be printed side-by-side with the English text. • Explanatory notes and a glossary elucidate context and describe key names, places, and events. • An introduction by Julia Haig Gaisser provides the necessary historical and social background to the poet's life and works. • Includes the poems of Sulpicia and Lygdamus, transmitted with the text of Tibullus and formerly ascribed to him.

The Complete Elegies of Sextus Propertius - Sextus Propertius 2004

Vincent Katz offers translations of all 107 known poems by the Augustan poet Sextus Propertius, a contemporary of Ovid. The translations keep as closely as possible to the original syntax, as Propertius' willful compressions & unusual tellings of myth are definitive of his poetics.

The Poems - Sextus Propertius 1999

Of the Greek and Latin love poets, Propertius (c. 50-10 B.C.) is one of those who holds the most immediate appeal for the twentieth-century reader. His helpless infatuation for the sinister figure of his mistress Cynthia forms the main subject of his poetry, and is analyzed with a tormented but witty grandeur in all its changing moods--from ecstasy to suicidal despair. This study includes English verse translations of his work, along with a chronology, explanatory notes, and a brief bibliography.

The Satires of Juvenal - Decio Junio Juvenal 1739

Poetry - Harriet Monroe 2004

Forthcoming Books - Rose Arny 2004

A Dictionary of Modern Critical Terms - Roger Fowler 1987

The book differs from other 'dictionaries of

criticism' in concentrating less on time-honoured rhetorical terms and more on conceptually flexible, powerful and contemporary critical terms. Each entry consists not simply of a 'dictionary definition' but an essay exploring the history and full significance of the term, and its possibilities in contemporary critical discourse.

The Literary Review - 2004

Epigrams from Martial - Martial 1969

The Armed Vision - Stanley Edgar Hyman 1978
Examines the nature of modern critical method as exemplified by contemporary critics. It also discusses the background to of their techniques and suggest some possibilities for an integrated and practical methodology that consolidates the best procedures of criticism.

The Royal Mail - James Wilson Hyde 1885
Oll Roads, Postboys, Stage and mail coaches, Foot-posts. Mail-packets, englische Kolonien, Commonwealth.

The Lesbian Lyre - Jeffrey M. Duban
2016-08-23

Hailed by Plato as the "Tenth Muse" of ancient Greek poetry, Sappho is inarguably antiquity's greatest lyric poet. Born over 2,600 years ago on the Greek island of Lesbos, and writing amorously of women and men alike, she is the namesake lesbian. What's left of her writing, and what we know of her, is fragmentary. Shrouded in mystery, she is nonetheless repeatedly translated and discussed - no, appropriated - by all. Sappho has most recently undergone a variety of treatments by agenda-driven scholars and so-called poet-translators with little or no knowledge of Greek. Classicist-translator Jeffrey Duban debunks the postmodernist scholarship by which Sappho is interpreted today and offers translations reflecting the charm and elegant simplicity of the originals. Duban provides a reader-friendly overview of Sappho's times and themes, exploring her eroticism and Greek homosexuality overall. He introduces us to Sappho's highly cultured island home, to its lyre-accompanied musical legends, and to the fabled beauty of Lesbian women. Not least, he emphasizes the proximity of Lesbos to Troy, making the translation and enjoyment of Homer's Iliad and Odyssey a further focus. More than anything else, argues Duban, it is free verse

and its rampant legacy - and no two persons more than Walt Whitman and Ezra Pound - that bear responsibility for the ruin of today's classics in translation, to say nothing of poetry in the twentieth century. Beyond matters of reflection for classicists, Duban provides a far-ranging beginner's guide to classical literature, with forays into Spenser and Milton, and into the colonial impulse of Virgil, Spenser, and the West at large.

The Dream of the Poem - 2009-01-10

Hebrew culture experienced a renewal in medieval Spain that produced what is arguably the most powerful body of Jewish poetry written since the Bible. Fusing elements of East and West, Arabic and Hebrew, and the particular and the universal, this verse embodies an extraordinary sensuality and intense faith that transcend the limits of language, place, and time. Peter Cole's translations reveal this remarkable poetic world to English readers in all of its richness, humor, grace, gravity, and wisdom. The Dream of the Poem traces the arc of the entire period, presenting some four hundred poems by fifty-four poets, and including a panoramic historical introduction, short biographies of each poet, and extensive notes. (The original Hebrew texts are available on the Princeton University Press Web site.) By far the most potent and comprehensive gathering of medieval Hebrew poems ever assembled in English, Cole's anthology builds on what poet and translator Richard Howard has described as "the finest labor of poetic translation that I have seen in many years" and "an entire revelation: a body of lyric and didactic verse so intense, so intelligent, and so vivid that it appears to identify a whole dimension of historical consciousness previously unavailable to us." The Dream of the Poem is, Howard says, "a crowning achievement."

Choice - 2004

Roman Homosexuality - Craig A. Williams
1999-06-10

This book provides a thoroughly documented discussion of ancient Roman ideologies of masculinity and sexuality with a focus on ancient representations of sexual experience between males. It gathers a wide range of evidence from the second century B.C. to the second century

A.D.--above all from such literary texts as courtroom speeches, love poetry, philosophy, epigram, and history, but also graffiti and other inscriptions as well as artistic artifacts--and uses that evidence to reconstruct the contexts within which Roman texts were created and had their meaning. The book takes as its starting point the thesis that in order to understand the Roman material, we must make the effort to set aside any preconceptions we might have regarding sexuality, masculinity, and effeminacy. Williams' book argues in detail that for the writers and readers of Roman texts, the important distinctions were drawn not between homosexual and heterosexual, but between free and slave, dominant and subordinate, masculine and effeminate as conceived in specifically Roman terms. Other important questions addressed by this book include the differences between Roman and Greek practices and ideologies; the influence exerted by distinctively Roman ideals of austerity; the ways in which deviations from the norms of masculine sexual practice were negotiated both in the arena of public discourse and in real men's lives; the relationship between the rhetoric of "nature" and representations of sexual practices; and the extent to which same-sex marriages were publicly accepted.

The Old Roman World - John Lord 1867

The Translator's Invisibility - Lawrence Venuti 2012-06-25

Since publication over ten years ago, *The Translator's Invisibility* has provoked debate and controversy within the field of translation and become a classic text. Providing a fascinating account of the history of translation from the seventeenth century to the present day, Venuti shows how fluency prevailed over other translation strategies to shape the canon of foreign literatures in English and investigates the cultural consequences of the receptor values which were simultaneously inscribed and masked in foreign texts during this period. The

author locates alternative translation theories and practices in British, American and European cultures which aim to communicate linguistic and cultural differences instead of removing them. In this second edition of his work, Venuti clarifies and further develops key terms and arguments responds to critical commentary on his argument incorporates new case studies that include: an eighteenth century translation of a French novel by a working class woman; Richard Burton's controversial translation of the Arabian Nights; modernist poetry translation; translations of Dostoevsky by the bestselling translators Richard Pevear and Larissa Volokhonsky; and translated crime fiction updates data on the current state of translation, including publishing statistics and translators' rates. *The Translator's Invisibility* will be essential reading for students of translation studies at all levels. Lawrence Venuti is Professor of English at Temple University, Philadelphia. He is a translation theorist and historian as well as a translator and his recent publications include: *The Scandals of Translation: Towards an Ethics of Difference* and *The Translation Studies Reader*, both published by Routledge.

Haifa - Laurence Oliphant 1886

Propertius in Love - Sextus Propertius 2002-06-03

These ardent, even obsessed, poems about erotic passion are among the brightest jewels in the crown of Latin literature. Written by Propertius, Rome's greatest poet of love, who was born around 50 b.c., a contemporary of Ovid, these elegies tell of Propertius' tormented relationship with a woman he calls "Cynthia." Their connection was sometimes blissful, more often agonizing, but as the poet came to recognize, it went beyond pride or shame to become the defining event of his life. Whether or not it was Propertius' explicit intention, these elegies extend our ideas of desire, and of the human condition itself.
