Teaching Children with Down Syndrome about Their Bodies, Boundaries, and Sexuality

Terri Couwenhoven 2007 Parents of children with Down syndrome and other intellectual disabilities are accustomed to paying close attention to their child's physical, cognitive, and emotional development. This proactive approach should also include their child's sexual development, which for many parents may not seem as obvious or urgent, especially to those with young children. Drawing on her unique background as both a sexual educator and mother of a child with Down syndrome, the author blends factual information and practical ideas for teaching children with Down syndrome about their bodies, puberty, and sexuality. This book gives parents the confidence to speak comfortably about these sometimes difficult subjects. In an easy-to-read, non-clinical style, the book covers relevant issues and concerns for children of all ages, such as: Labelling & explaining private body parts; Identifying & expressing emotions; Respecting personal space; Teaching self-care & hygiene; Understanding norms of privacy; Understanding gender identity; Showing appropriate levels of affection. It also covers later issues that affect teenagers and young adults, including: Anticipating and understanding puberty; Dealing with periods, bras for girls; Experiencing erections, wet dreams for boys; Relating to the opposite sex; Sharing parental values about sexuality; Explaining sexual relationships; Preventing sexual abuse; Understanding how Down syndrome affects puberty & fertility rates. Each chapter highlights important points with key

messages, teaching activities, parental pauses, and anecdotes, all of which prompt readers to stop and consider concepts or values associated with a particular topic. The final chapter covers the special concerns of parents who are now teaching teenaged or adult children about sexuality for the first time. It concludes with extensive appendices containing invaluable teaching materials and illustrations of body parts and functions.

Sexual Knowledge Britta McEwen 2012-02-28 Vienna's unique intellectual, political, and religious traditions had a powerful impact on the transformation of sexual knowledge in the early twentieth century. Whereas turn-of-the-century sexology, as practiced in Vienna as a medical science, sought to classify and heal individuals, during the interwar years, sexual knowledge was employed by a variety of actors to heal the social body: the truncated, diseased, and impoverished population of the newly created Republic of Austria. Based on rich source material, this book charts cultural changes that are hallmarks of the modern era, such as the rise of the companionate marriage, the role of expert advice in intimate matters, and the body as a source of pleasure and anxiety. These changes are evidence of a dramatic shift in attitudes from a form of scientific inquiry largely practiced by medical specialists to a social reform movement led by and intended for a wider audience that included workers, women, and children.

A Parent's Guide to Gifted Children Edward R. Amend, Psy.D. 2023-04-11 A Parent's Guide to Gifted Children (2007), the quintessential compendium of raising gifted children, has been revised! In this new edition, coauthors Edward R. Amend Psy.D., Emily Kircher-Morris, LPC, and Janet Gore, M.Ed. reinforce the reliable approaches originally explored in the first edition, while drawing extensively on the wealth of research and information developed over the last 15 years in the areas of neuroscience, psychology, and education. Our children are navigating a world that in many crucial ways is quite different from the one that existed in 2007. The new Parent's Guide to Gifted Children includes issues of social media, screen time, LGBTQ, and bullying. For gifted children however, many of the needs remain the same- advocacy, educational planning, access to true peers, and more. Rich in information and strategies, this edition will be referred to time and time again whether you are entirely new to gifted, completing your "active" parenting days, or supporting a gifted grandchild, student, or client.
