Out of Touch Michelle Drouin 2022-02-01 A behavioral scientist explores love, belongingness, and fulfillment, focusing on how modern technology can both help and hinder our need to connect. A Next Big Idea Club nominee. Millions of people around the world are not getting the physical, emotional, and intellectual intimacy they crave. Through the wonders of modern technology, we are connecting with more people more often than ever before, but are these connections what we long for? Pandemic isolation has made us even more alone. In *Out of Touch*, Professor of Psychology Michelle Drouin investigates what she calls our intimacy famine, exploring love, belongingness, and fulfillment and considering why relationships carried out on technological platforms may leave us starving for physical connection. Drouin puts it this way: when most of our interactions are through social media, we are taking tiny hits of dopamine rather than the huge shots of oxytocin that an intimate in-person relationship would provide. Drouin explains that intimacy is not just sex—although of course sex is an important part of intimacy. But how important? Drouin reports on surveys that millennials (perhaps distracted by constant Tinder-swiping) have less sex than previous generations. She discusses pandemic puppies, professional cuddlers, the importance of touch, "desire discrepancy" in marriage, and the value of friendships. Online dating, she suggests, might give users

too many options; and the internet facilitates “infidelity-related behaviors.” Some technological advances will help us develop and maintain intimate relationships—our phones, for example, can be bridges to emotional support. Some, on the other hand, might leave us out of touch. Drouin explores both of these possibilities.

Difficult Conversations Bruce Patton 2021-01-28 The 10th anniversary edition of the classic guide to handling life's toughest conversations What is a difficult conversation? Asking for a pay rise, saying 'no' to your boss or spouse, confronting a friend, apologizing. We all have conversations that we dread and find unpleasant. But can we develop the skills to make such situations less stressful and more productive? Based on fifteen years of research and consultations with thousands of people, Difficult Conversations pinpoints what works. It teaches us to work through them by understanding that we're not engaging in one dialogue but three: - The "what happened" conversation (what do we believe was said and done) - The "feelings" conversation (the emotional impact on everyone involved) - The "identity" conversation (what does this mean for everyone's opinion of themselves) Use this ground-breaking, step-by-step book to turn your difficult conversations into positive, problem-solving experiences.

one decade, Dr. Turek has hosted the Cross Examined Instructors Academy (CIA) through his Cross Examined Ministries, wherein he leads a group of professors and apologists as they teach and train others in the field of apologetics. Several rising stars within the apologetics community began their ministries because of Dr. Turek and the CIA. The authors of this book were chosen from this ever-widening pool of CIA attendees, past and present, most of whom have gone on to academic instruction or their own successful apologetics ministries. Their contributions broadly address challenges from philosophy and science; challenges against Jesus and the Bible; and even challenges facing parents and the church. Many topics offer new approaches, while others reestablish existing responses, but all seek to provide answers to a skeptical world for the hope that rests within all Christians.

Reclaiming Conversation Sherry Turkle 2015-10-06 “In a time in which the ways we communicate and connect are constantly changing, and not always for the better, Sherry Turkle provides a much needed voice of caution and reason to help explain what the f*** is going on.” —Aziz Ansari, author of *Modern Romance*

Renowned media scholar Sherry Turkle investigates how a flight from conversation undermines our relationships, creativity, and productivity—and why reclaiming face-to-face conversation can help us regain lost ground. We live in a technological universe in which we are always communicating. And yet we have sacrificed conversation for mere connection. Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years. Long an enthusiast for its possibilities, here she investigates a troubling consequence: at work, at home, in politics, and in love, we find ways around conversation, tempted by the possibilities of a text or an email in which we don’t have to look, listen, or reveal ourselves. We develop a taste for what mere connection offers. The dinner table falls silent as children compete with phones for their parents’ attention. Friends learn strategies to keep conversations going when only a few people are looking up from their phones. At work, we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work. Online, we only want to share opinions that our followers will agree with – a politics that shies away from the real conflicts and solutions of the public square. The case for conversation begins with the necessary conversations of solitude and self-reflection. They are endangered: these days, always connected, we see loneliness as a problem that technology should solve. Afraid of being alone, we rely on other people to give us a sense of ourselves, and our capacity for empathy and relationship suffers. We see the costs of the flight from conversation everywhere: conversation is the

cornerstone for democracy and in business it is good for the bottom line. In the private sphere, it builds empathy, friendship, love, learning, and productivity. But there is good news: we are resilient. Conversation cures. Based on five years of research and interviews in homes, schools, and the workplace, Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation. The most human—and humanizing—thing that we do. The virtues of person-to-person conversation are timeless, and our most basic technology, talk, responds to our modern challenges. We have everything we need to start, we have each other. Turkle's latest book, *The Empathy Diaries* (3/2/21) is available now.

Kickoff Judith Arnold 2020-01-07 When one of Lainie Lovett's closest friends suspects her husband of cheating on her, she turns to Lainie for help. He insists he's innocent, but he's seen leaving the Other Woman's house—shortly before the Other Woman turns up dead, apparently killed after pigging out on Happy's Hamburgers. Now he's suspected of murder, and he begs Lainie to clear his name. How can she say no? His wife is the goalie of the Rockettes, Lainie's soccer team. Lainie has to make sense of the victim's blasé family and back-stabbing pals. Add to this the mysterious green car that keeps appearing in front of Lainie's house, the romantic ups and downs of her flaky sister-in-law, the subtle pressure she's feeling from her boyfriend, and kickoff week—the start of a new school year for Lainie and her fellow teachers. She also has to figure out why the victim, a devout vegetarian, would consume all those fast-food hamburgers. Whether it's affection for family and friends, passion for teaching, enthusiasm for soccer, panic over a possibly straying husband, or a soul-deep craving for a greasy meat patty on a toasted bun... Ultimately, everything is about love. And love, Lainie learns, can cause a whole lot of trouble.

A ROOM OF ONE'S OWN Virginia Woolf 2017-12-06 First published on 24 October 1929, the essay was based on a series of lectures she delivered at Newnham College and Girton College, two women's colleges at Cambridge University in October 1928. While this extended essay in fact employs a fictional narrator and narrative to explore women both as writers of and characters in fiction, the manuscript for the delivery of the series of lectures, titled "Women and Fiction", and hence the essay, are considered non-fiction. The essay is generally seen as a feminist text, and is noted in its argument for both a literal and figural space for women writers within a literary tradition dominated by patriarchy. Virginia Woolf was one of the greatest authors of the twentieth century, transformed the art of fiction. The author of numerous novels and short stories, she was also an acknowledged master of the essay form, and an admired literary critic. Adeline Virginia Woolf (1882-1941) was an English writer who is considered one of the foremost modernists of the twentieth century and a pioneer in the use of stream of consciousness as a narrative device.

We Need To Talk Celeste Headlee 2017-09-05 Take a moment to consider how many outcomes in your life may have been affected by poor communication skills. Could you have gotten a job you really wanted? Saved a relationship? What about that political conversation that got out of hand at a dinner party? How is it that we so often fail to say the right thing at the right time? In her career as an NPR host, journalist Celeste Headlee has interviewed hundreds of people from all walks of life, and if there's one thing she's learned, it's that it's hard to overestimate the power of conversation and its ability to both bridge gaps and deepen wounds. In *We Need to Talk*, she shares what she's learned on the job about how to have effective, meaningful, and respectful conversations in every area of our lives. Now more than ever, Headlee argues, we must begin to talk to and, more importantly, listen to one another - including those with whom we disagree. *We Need to Talk* gives readers ten simple tools to help facilitate better conversations, ranging from the errors we routinely make (put down the smart phone when you're face to face with someone) to the less obvious blind spots that can sabotage any conversation, including knowing when not to talk, being aware of our own bias, and avoiding putting yourself in the centre of the discussion. Whether you're gearing up for a big conversation with your boss, looking to deepen or improve your connection with a relative, or trying to express your child's needs to a teacher, *We Need to Talk* will arm you with the skills you need to create a productive dialogue.

Otto, the Boy at the Window Peter Abeles; Tom Hicks

2004-07-13 As sixty-eight year old Peter Abeles confronts his ambivalence over his mother's recent death, he laces together his childhood memories of the prewar Austrian aristocracy his Jewish family belonged to, the rising tide of hate that engulfed them and their decision to flee, and the story of his life in America. In trying to come to terms with his personal history and family, Abeles looks beyond the immediate horrors of the Holocaust and the Diaspora to some of the more subtle effects on the reconstructed lives that followed. He gives a hard, honest account of his upbringing by a cold, demanding father and an embittered, materialistic mother...but he frames that account in forgiveness and redemption, imagining his dead mother as she receives a treasure box of Sefirot, the ten Hebrew words that allow an individual to know Kabbalah, or wisdom. Peter Abeles and Tom Hicks have produced an intelligent and edifying memoir that has much to say about exile and immigration, about class, money, love and forgiveness. In *Otto, the Boy at the Window*, they offer readers some hard-earned shreds of Kabbalah. Praise for *Otto, the Boy at the Window*: "This unforgettable book opens with the death of Abeles' mother in Long Island when he was 68, which prompts him to reflect on his Viennese childhood in the 1930s. His mother was strict and possessive, and his father was unyielding. The father owned a thriving wholesale shoe business, and the family had servants and tutors. Abeles recounts his subsequent service in the U.S. Air Force, his success in the business world, and his love of family life in this story of reconciliation and forgiveness, which is told with grace and insight.”

33 ways to make her miss you Celine Claire 2022-02-14 Being apart from the lady you like can be one of the difficult things you ever have to do. So how do you make sure that the girl misses you while you're gone? This e-book gives you up to 50 ways to make her miss you. Tip number one. Minimize the amount of time you spend together If you want the girl to miss you when you're apart from one another, then you can't spend too much of your free time with her. You should hang out with her enough to make her see how awesome, fun, and interesting you are, but not so much that she starts to take you for granted or feels like you've run out of things to say to each other. Make an effort to see her once or twice a week, but ensure that she's not the only to-do on your social calendar, or she'll start to think that she can have you whenever she wants. Tip number two. Limit your phone time with her If you and the girl you are interested in talk on the phone, ensure that you keep your conversations relatively short so she doesn't assume you have nothing better to do than to talk to her all the time. You can talk to her to set up plans or to see how she's doing for some few minutes, but you shouldn't let the conversation drag on so long that you've run out of things to say. To keep her interested, you want her to feel like she can never run out of things to say to you once you meet. Don't tell her everything that you're thinking or everything that's happening in your life over the phone. Save some of it for when you actually meet her in-person. TEKTIME

Red Geraniums Sally Salisbury Stoddard 2013-03-08 After the funerals, Kate MacLean knelt in front of a small chest of drawers in the attic. She pulled out the bottom drawer to find the photograph of Gyorgy taken in her studio in Tingle Creek. The picture of the handsome Gypsy reminded her of things past, of the people she had known and loved, of hopes dashed and dreams denied. She thought of the country school where she had taught, of her life in town as a studio photographer, of the phone call from Henry Fergus which led her to a life as a farm wife and mother of three children-not her own. She sighed. If only she had used the camera to photograph dear Henry and his adopted son Will, his hired boy Hjelmmer, and finally, Margaret who came to them from the Orphan Train. Kate sighed again and closed the drawer. ++++++ From a forlorn Gypsy cemetery to a crescendo of sudden death, this is a tale of an early 1900s woman, a studio photographer and farm wife with a family not her own. The rhythm of life awaits a reader. -Joe Vosoba, Author of 'Tales of the Czechs. ++++++

The Guyde Howie Reith 2016-11-19 *The Guyde* is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. *The Guyde* is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body

language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

Non Extinct: A Royal Antigen Mystery Leigh Pulliam

2017-09-29 Based on a true story in the 1980's, a virtually unknown woman (whose name has been changed to Leia Martin) became the first person to test positive of the old royal antigen since the 1950's and the only person known to test positive for it in the United States of America. From an undisclosed Kentucky medical office, Leia's blood was sent to the Mayo Clinic and later to Switzerland for testing. Leia herself denied having any kinship to royalty from the very beginning. It turned out to be a positive royal antigen, thus making her related to the bloodlines of England's Queen Victoria. It's viewed as extraordinary and mysterious since it's been extinct for many years. Thus, she becomes suspect of having a hidden royal family ancestry. Thus, she becomes trapped in a dangerous spy ring with foreigners...

We Need to Talk Celeste Anne Headlee 2018 Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist--and offers simple tools that can improve anyone's communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence

protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. HIDE YOUR PHONE. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most--Headlee offers smart strategies that can help us all have conversations that matter.
