English Words - Francis Katamba 2015-02-11
How do we find the right word for the job? Where does that word come from? Why do we spell it like that? And how do we know what it means? Words are all around us - we use them every day to communicate our joys, fears, hopes, opinions, wishes and demands - but we don't often think about them too deeply. In this highly accessible introduction to English words, the reader will discover what the study of words can tell them about the extraordinary richness and complexity of our daily vocabulary and about the nature of language in general. Assuming no prior knowledge of linguistics, the book covers a

wide range of topics, including the structure of words, the meaning of words, how their spelling relates to pronunciation, how new words are manufactured or imported from other languages, and how the meaning of words changes with the passage of time. It also investigates how the mind deals with words by highlighting the amazing intellectual feat performed routinely when the right word is retrieved from the mental dictionary. This revised and expanded second edition brings the study of words right up to date with coverage of text messaging and email and includes new material on psycholinguistics and word meaning. With lively examples from a

range of sources - encompassing poetry, jokes, journalism, advertising and clichés - and including practical exercises and a fully comprehensive glossary, *English Words* is an entertaining introduction to the study of words and will be of interest to anyone who uses them.

Buyology - Martin Lindstrom 2010-02-02
NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and

drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.

The Conspiracy against the Human Race - Thomas Ligotti 2018-10-02

In Thomas Ligotti's first nonfiction outing, an examination of the meaning (or meaninglessness) of life through an insightful, unsparing argument that proves the greatest horrors are not the products of our imagination but instead are found in reality. "There is a signature motif discernible in both works of philosophical pessimism and supernatural horror. It may be stated thus: Behind the scenes

of life lurks something pernicious that makes a nightmare of our world." His fiction is known to be some of the most terrifying in the genre of supernatural horror, but Thomas Ligotti's first nonfiction book may be even scarier. Drawing on philosophy, literature, neuroscience, and other fields of study, Ligotti takes the penetrating lens of his imagination and turns it on his audience, causing them to grapple with the brutal reality that they are living a meaningless nightmare, and anyone who feels otherwise is simply acting out an optimistic fallacy. At once a guidebook to pessimistic thought and a relentless critique of humanity's employment of self-deception to cope with the pervasive suffering of their existence, *The Conspiracy against the Human Race* may just convince readers that there is more than a measure of truth in the despairing yet unexpectedly liberating negativity that is widely considered a hallmark of Ligotti's work. *The History of British India* - James Mill 1848

Primate Behavioral Ecology - Karen B. Strier
2016-08-25

This comprehensive introductory text integrates evolutionary, ecological, and demographic perspectives with new results from field studies and contemporary noninvasive molecular and hormonal techniques to understand how different primates behave and the significance of these insights for primate conservation. Each chapter is organized around the major research themes in the field, with Strier emphasizing the interplay between theory, observations, and conservation issues. Examples are drawn from the "classic" primate field studies as well as more recent studies on previously neglected species, illustrating the vast behavioral variation that exists across the primate order. *Primate Behavioral Ecology 5th Edition* also examines how anthropogenic activities are negatively impacting primate populations, including a thorough analysis of behavioural plasticity and its implications. This fully updated new edition

incorporates exciting new discoveries and the most up-to-date approaches in the field to provide an invaluable overview of the field of primate behavioral ecology and its applications to primate conservation. It is considered to be a "must read" for all students interested in primates.

Where Are the Women Architects? - Despina Stratigakos 2016-04-12

A timely and important search for architecture's missing women For a century and a half, women have been proving their passion and talent for building and, in recent decades, their enrollment in architecture schools has soared. Yet the number of women working as architects remains stubbornly low, and the higher one looks in the profession, the scarcer women become. Law and medicine, two equally demanding and traditionally male professions, have been much more successful in retaining and integrating women. So why do women still struggle to keep a toehold in architecture? Where Are the Women

Architects? tells the story of women's stagnating numbers in a profession that remains a male citadel, and explores how a new generation of activists is fighting back, grabbing headlines, and building coalitions that promise to bring about change. Despina Stratigakos's provocative examination of the past, current, and potential future roles of women in the profession begins with the backstory, revealing how the field has dodged the question of women's absence since the nineteenth century. It then turns to the status of women in architecture today, and the serious, entrenched hurdles they face. But the story isn't without hope, and the book documents the rise of new advocates who are challenging the profession's boys' club, from its male-dominated elite prizes to the erasure of women architects from Wikipedia. These advocates include Stratigakos herself and here she also tells the story of her involvement in the controversial creation of Architect Barbie. Accessible, frank, and lively, Where Are the

Women Architects? will be a revelation for readers far beyond the world of architecture.

Deleuzian and Guattarian Approaches to Contemporary Communication Cultures in India - Gopalan Ravindran 2020-03-02

This book sheds new light on Indian communication cultures and the critical philosophical trajectories of Gilles Deleuze and Felix Guattari. It explores issues such as contemporary communication cultures in India, nationalism, subjectivities, negotiating and protesting bodies, music on social media, children on reality television, and the materialities of Indian films. The book provides a balance between issues of communication from a philosophical perspective and issues of philosophy from a communication perspective in the Indian context. This engaging examination of two modes of thought is an important resource for anyone interested in communication studies, modern philosophy, cultural and media studies.

Old St Paul's and Culture - Shanyln Altman

Old St Paul's and Culture is an interdisciplinary collection of essays that looks predominantly at the culture of Old St Paul's and its wider precinct in the early modern period, while also providing important insights into the Cathedral's medieval institution. The chapters examine the symbolic role of the site in England's Christian history, the London book trade based in and around St Paul's, the place of St Paul's commercial indoor playhouse within the performance culture of sixteenth and seventeenth-century London, and the intersection of religion and politics through events such as civic ceremonies and occasional sermons. Through the organising theme of culture, the authors demonstrate how the site, as well as the people and trades occupying the precinct, can be positioned within wider fields of representations, practices, and social networks. A focus on St Paul's is therefore about more than just the specific site on Ludgate Hill: it is about

those practices and representations connected to it, which either extended beyond or originated in places other than the Cathedral environs. This points to the range of localised, regional, national, and transnational relationships in which the precinct and its people were situated and to which they contributed.

Investigating Developmentalism - Dev Nath Pathak 2020-08-14

Compiling various strands of the dis/enchantment with development discourse in contemporary South Asia, with specific focus on the cases from India, this edited book brings together anthropologists, sociologists, economists, and historians to refresh the understanding of development. It introduces

ways of thinking “otherwise” about development discourse and what the contributors term “developmentalism”—the social enchantment with development. The cultural discourse of development in contemporary South Asia manifests not only in the official programs of state agencies, but in cinema, television, and mass media. Dear to various stakeholders—from government leaders and manufacturers to consumers and the electorate—is the axiom of a “development(al) society.” Organized to bridge familiar understandings of development with radical ways of thinking through developmentalism, this book holds value for those engaged in the anthropology and sociology of development, development studies, South Asian studies, as well as for development professionals working for state and non-governmental organizations.

Popular Culture, Voice and Linguistic

Diversity - Sender Dovchin 2017-10-25

This book analyses the language practices of

young adults in Mongolia and Bangladesh in online and offline environments. Focusing on the diverse linguistic and cultural resources these young people draw on in their interactions, the authors draw attention to the creative and innovative nature of their transglossic practices. Situated on the Asian periphery, these young adults roam widely in their use of popular culture, media voices and linguistic resources. This innovative and topical book will appeal to students and scholars of sociolinguistics, applied linguistics, cultural studies and linguistic anthropology.

it has received throughout the entire Buddhist world. It has even been officially introduced in Buddhist schools and temples of Japan and Ceylon. The eminent feature of the work is its grasp of the difficult subject and the clear enunciation of the doctrine of the most puzzling problem of ātman, as taught in Buddhism. So far as we have examined the question of ātman ourselves from the works of the Southern canon, the view taken by Dr. Paul Cams is accurate, and we venture to think that it is not opposed to the doctrine of Northern Buddhism. Twelve Years A Slave, Illustrated Edition - Solomon Northup 2014-04-08

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Living as an Author in the Romantic Period -

Matthew Sangster 2021-01-27

This book explores how authors profited from their writings in the late eighteenth and early nineteenth centuries, contending that the most tangible benefits were social, rather than financial or aesthetic. It examines authors' interactions with publishers; the challenges of literary sociability; the vexed construction of enduring careers; the factors that prevented most aspiring writers (particularly the less privileged) from accruing significant rewards; the rhetorical professionalisation of periodicals; and the manners in which emerging paradigms and technologies catalysed a belated transformation in how literary writing was consumed and perceived.

Eileen Gray and the Design of Sapphic Modernity - Jasmine Rault 2017-07-05

The first book-length feminist analysis of Eileen Gray's work, *Eileen Gray and the Design of Sapphic Modernity: Staying In* argues that Gray's unusual architecture and design - as well as its history of abuse and neglect - emerged from her involvement with cultures of sapphic modernism. Bringing together a range of theoretical and historical sources, from architecture and design, communication and media, to gender and sexuality studies, Jasmine Rault shows that Gray shared with many of her female contemporaries a commitment to designing spaces for sexually dissident

modernity. This volume examines Gray's early lacquer work and Romaine Brooks' earliest nude paintings; Gray's first built house, E.1027, in relation to Radclyffe Hall and her novel *The Well of Loneliness*; and Gray's private house, *Tempe* ?nbsp; Pailla, with Djuna Barnes' *Nightwood*. While both female sexual dissidence and modernist architecture were reduced to rigid identities through mass media, women such as Gray, Brooks, Hall and Barnes resisted the clarity of such identities with opaque, non-communicative aesthetics. Rault demonstrates that by defying the modern imperative to publicity, clarity and identity, Gray helped design a sapphic modernity that cultivated the dynamism of uncertain bodies and unfixed pleasures, which depended on staying in rather than coming out.
