The Art of Asking - Amanda Palmer 2014-11-11  
Rock star, crowdfunding pioneer, and TED speaker Amanda Palmer knows all about asking. Performing as a living statue in a wedding dress, she wordlessly asked thousands of passersby for their dollars. When she became a singer, songwriter, and musician, she was not afraid to ask her audience to support her as she surfed the crowd (and slept on their couches while touring). And when she left her record label to strike out on her own, she asked her fans to support her in making an album, leading to the world's most successful music Kickstarter. Even while Amanda is both celebrated and attacked for her fearlessness in asking for help, she finds that there are important things she cannot ask for-as a musician, as a friend, and as a wife. She learns that she isn't alone in this, that so many people are afraid to ask for help, and it paralyzes their lives and relationships. In this groundbreaking book, she explores these barriers in her own life and in the lives of those

around her, and discovers the emotional, philosophical, and practical aspects of The Art of Asking. Part manifesto, part revelation, this is the story of an artist struggling with the new rules of exchange in the twenty-first century, both on and off the Internet. The Art of Asking will inspire readers to rethink their own ideas about asking, giving, art, and love.

The Driveway Rules - Marc Sander 2020-01-28  
The Driveway Rules is my book of memoirs. It focuses on my struggles when it comes to dating but also has fun entries about various adventures in my life. I am introspective and have learned a lot about my struggles through the years. The point of our struggles is to use them as an opportunity for growth and perhaps to help others later in life. This book is poignant, philosophical and humorous. Next to penicillin laughter is the best medicine.

designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For

many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to

interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. *The Guyde* is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

**Dating Tips for Guys** - Carolyn Bright  
2017-03-10

Women are just people without penises. Remember that golden rule. Every dating guide, every Hollywood movie, every matchmaking website, makes profit by distracting you from this fundamental truth. She is not an alien species; she is just a regular human who sits down to pee. All anyone wants is to love and to be loved. A lot of dating guides are aimed at men who, deep down, don't actually like women. Instead of helping men to understand the opposite sex, these guides encourage men to use mind-games and manipulation to get girls into bed. They encourage cold-hearted efficiency and fast turnover, like a corporate cost-cutting guide. That's fine, if you don't mind falling asleep to the sound of a stripper crying in your shower. This book is aimed at men who are

looking for a girlfriend, not just a succession of joyless hook-ups. When you're looking for a girlfriend, physical attraction is important; but you also want to talk to her about your day, and introduce her to your friends, and take her out for dinner, and spend Sunday afternoons together watching Seinfeld re-runs in your underpants. That's a lot to ask for, really, and it's no surprise that people spend their whole lives searching for one special person. This book will talk you through the very earliest stages of a new relationship - meeting someone, asking them out, and taking them on the first few dates. For many people, this is the most difficult part of the game - keeping a girlfriend happy is child's play compared to the difficulties of finding a girlfriend in the first place. This guide is written from a woman's point of view, to show you other side of the dating game. It's not a set of strict instructions, but a gentle push in the right direction. At each step, there are tips to help things to run smoothly and advice on avoiding

common pitfalls. There are also explanations of some things women do which men tend to find confusing. There is someone out there for everyone. It's a cliché to say that, but it's true. Be yourself! That's another cliché, also true. Women are just people without penises, remember. They have different interests and different desires in just the same way that men do. Whatever makes you weird may be the same thing which attracts people to you. Overweight geek obsessed with anime? There's a Studio Ghibli fan out there who just loves to be hugged by a big guy. It's true that you might have more success with the ladies if you were a handsome billionaire with a six-pack - but so what? There's not enough time in your life to date every attractive woman in the world, so it makes sense to focus on finding the ones who really suit you. The aim is not to turn yourself into some kind of seduction machine, who can charm every woman you meet into bed. Or course, it's nice to daydream about being irresistible to the

opposite sex, but if you have to put on a fake James Bond persona to get a date, you're dating the wrong people. It's wiser to keep on going as you are, but knock off the rough edges. Be yourself - but better. Make the most of what's going well for you already, and stop doing those little things which hold you back. There are so many factors which affect the way women see you, and you can take easy steps to improve your success with women without having to expend a lot of energy or feel like you're faking it. These are some of the most practical dating tips for men in the real world today!
