Sleeping with Strangers - David Thomson 2019-01-29

In this wholly original work of film criticism, David Thomson, celebrated author of *The Biographical Dictionary of Film*, probes the many ways in which sexuality has shaped the movies—and the ways in which the movies have shaped sexuality. Exploring the tangled notions of masculinity, femininity, beauty, and sex that characterize our cinematic imagination—and drawing on examples that range from advertising to pornography, *Bonnie and Clyde* to *Call Me by Your Name*—Thomson illuminates how film as art, entertainment, and business has historically been a polite cover for a kind of erotic séance. In so doing, he casts the art and the artists we love in a new light, and reveals how film can both expose the fault lines in conventional masculinity and point the way past it, toward a more nuanced understanding of what it means to be a person with desires.

Queer Masculinities - John Landreau 2011-09-28

Queer Masculinities: A Critical Reader in Education is a substantial addition to the discussion of queer masculinities, of the interplay between queer masculinities and education, and to the political gender discourse as a whole. Enriching the discourse of masculinity politics, the cross-section of scholarly interrogations of the complexities and contradictions of queer masculinities in education demonstrates that any serious study of masculinity—hegemonic or otherwise—must consider the theoretical and political contributions that the concept of queer masculinity makes to a more comprehensive and nuanced understanding of masculinity itself. The essays adopt a range of approaches from empirical studies to reflective theorizing, and address themselves to three separate educational realms: the K-12 level, the collegiate level, and the level in popular culture, which could be called 'cultural pedagogy'. The wealth of detailed analysis includes, for example, the notion that normative expectations and projections on the part of teachers and administrators unnecessarily reinforce the values and behaviors of heteronormative masculinity, creating an institutionalized loop that disciplines masculinity. At the same time, and for this very reason, schools represent an opportunity to 'provide a setting where a broader menu can be introduced and gender/sexual meanings, expressions, and experiences boys encounter can create new possibilities of what it can mean to be male'. At the collegiate level chapters include analysis of what the authors call 'homosexualization of heterosexual men' on the university dance floor, while the chapters of the third section, on popular culture, include a fascinating analysis of the construction of queer 'counternarratives' that can be constructed watching TV shows of apparently hegemonic bent. In all, this volume's breadth and detail make it a landmark publication in the study of queer masculinities, and thus in critical masculinity studies as a whole.

Wanderlust - Rebecca Solnit 2014-05-01

What does it mean to be out walking in the world, whether in a landscape or a metropolis, on a pilgrimage or a protest march? In this first general history of walking, Rebecca Solnit draws together many histories to create a range of possibilities for this most basic act. Arguing that walking as history means walking for pleasure and for political, aesthetic, and social meaning, Solnit homes in on the walkers whose everyday and extreme acts have shaped our culture, from the peripatetic philosophers of ancient Greece to the poets of the Romantic Age, from

the perambulations of the Surrealists to the ascents of mountaineers. With profiles of some of the most significant walkers in history and fiction - from Wordsworth to Gary Snyder, from Rousseau to Argentina's Mother of the Plaza de Mayo, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja - *Wanderlust* offers a provocative and profound examination of the interplay between the body, the imagination, and the world around the walker.

Sex at Dawn - Christopher Ryan 2021-01-05

The 10th-anniversary edition of the book that radical re-evaluates the origins and nature of human sexuality. Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science — as well as religious and cultural institutions — has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. In this groundbreaking book, however, Christopher Ryan and Cacilda Jethá argue that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. With intelligence and humour, Ryan and Jethá explain how our promiscuous past haunts our contemporary struggles. They explore why many people find long-term fidelity so difficult; why sexual passion tends to fade even as love deepens; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. Shocking, enlightening, and ultimately inspiring, *Sex at Dawn* offers a revolutionary understanding of why we live and love as we do.

Bad Girls - Amanda H. Littauer 2015-07-17

In this innovative and revealing study of midcentury American sex and culture, Amanda Littauer traces the origins of the "sexual revolution" of the 1960s. She argues that sexual liberation was much more than a reaction to 1950s repression because it largely involved the mainstreaming of a counterculture already on the rise among girls and young women decades earlier. From World War II-era "victory girls" to teen lesbians in the 1940s and 1950s, these nonconforming women and girls navigated and resisted intense social and interpersonal pressures to fit existing mores, using the upheavals of the era to pursue new sexual freedoms. Building on a new generation of research on postwar society, Littauer tells the history of diverse young women who stood at the center of major cultural change and helped transform a society bound by conservative sexual morality into one more open to individualism, plurality, and pleasure in modern sexual life.

We So Seldom Look on Love - Barbara Gowdy 2008-07

This powerful, disturbing and entirely original collection of prize-winning tales is a compelling exploration of all that is seemingly unnatural and outlandish. The cult film success *Kissed* is based on the title story.

Prostitution and Sex Work - Melissa Hope Ditmore 2010-12-16

A fascinating overview of prostitution and sex work in the United States, from the Colonial era to today, examines the issue as it affects men, women, and transgender individuals of all races and classes. *Prostitution and Sex Work* is the first book since 1921 to offer a historic overview of this controversial topic—and what our views on it say about American society. Exploring key people, places, and events, the guide includes descriptions of the myriad variations of the sale of sex and of the venues where prostitution occurs, as well as recurring themes such as panics about sexually transmitted diseases and the ever-present issue of violence in the sex trade. After reviewing the history of prostitution and sex work over the past 400 years, the book offers detailed information about the legal context of prostitution in America during the last century. It focuses particularly on the period since prostitution was criminalized during a panic over "white slavery" in the early 20th century, drawing parallels with current "sex trafficking" topics. An appendix of materials produced by sex workers is especially informative for those wishing to

truly understand both sides of the issue.

Boys & Sex - Peggy Orenstein 2020-03-26

The New York Times Bestseller Peggy Orenstein broke ground with her bestselling *Girls & Sex*, exploring young women's right to pleasure and agency in sexual encounters. Now she turns her focus to boys with an examination of how young men are navigating sexual culture in these changing times - and what we need to do help them. Drawing on comprehensive interviews with young men, psychologists and experts in the field, *Boys & Sex* dissects 'locker room talk'; pornography as the new sex education; the role of empathy; boys' understanding of hookup culture and consent; and their experience as both perpetrators and victims of sexual assault. By presenting young men's experience in all its complexity, Orenstein unravels the hidden truths, hard lessons and important realities of young male sexuality in today's world. The result is a provocative and paradigm-shifting work that offers a much-needed vision of how boys can truly move forward as better men.

Scared Selfless - Michelle Stevens, PhD 2017-03-21

"A riveting memoir that takes readers on a roller coaster ride from the depths of hell to triumphant success."—Dave Pelzer, author of *A Child Called "It"* Michelle Stevens has a photo of the exact moment her childhood was stolen from her: She's only eight years old, posing for her mother's boyfriend, Gary Lundquist—an elementary school teacher, neighborhood stalwart, and brutal pedophile. Later that night, Gary locks Michelle in a cage, tortures her repeatedly, and uses her to quench his voracious and deviant sexual whims. Little does she know that this will become her new reality for the next six years. Michelle can also pinpoint the moment she reconstituted the splintered pieces of her life: She's in cap and gown, receiving her PhD in psychology—and the university's award for best dissertation. The distance between these two points is the improbable journey from torture, loss, and mental illness to healing, recovery, and triumph that is Michelle's powerful memoir, *Scared Selfless*. Michelle suffered from post-traumatic stress disorder, anxiety, and depression, and made multiple suicide attempts. She also developed multiple personalities. There was "Chelsey," the rebellious teenager; "Viscous," a tween with homicidal rage; and "Sarah," a sweet little girl who brought her teddy bear on a first date. In this harrowing tale, Michelle, who was inspired to help others heal by becoming a psychotherapist, sheds light on the all-too-real threat of child sexual abuse, its subsequent psychological effects, and the best methods for victims to overcome their ordeals and, ultimately, thrive. *Scared Selfless* is both an examination of the extraordinary feats of the mind that are possible in the face of horrific trauma as well as Michelle's courageous testament to their power.

sex, lies and videotape - Steven Soderbergh 2011-06-02

Like Michael Powell's *Peeping Tom*, Steven Soderbergh's *sex, lies and videotape* presents us with a protagonist who can only connect with others through the lens of a camera. Graham is an enigmatic young man who returns to Baton Rouge from a long road trip, mildly irritating his old lawyer friend John and wholly intriguing John's housebound wife Ann. John is conducting a sneaky and entirely sexual affair with Ann's sister Cynthia. For her part, Ann has lost interest in sex, yet Graham's obscurely charming eccentricity stirs something inside her - until she learns that he is functionally impotent and can manage arousal only with the help of a video camera and an agreeably loose-lipped female. Nevertheless, it's the dragging into the open of Graham's dirty little secret that causes all of these characters to confront their own veiled deceptions and hypocrisies. *sex, lies and videotape* won the Palme d'Or at the 1989 Cannes Film Festival, affirming the arrival of a distinctive new talent and signalling the start of a movement among young independent American film-makers opposed to the values and formats of the Hollywood system. Soderbergh's script is an unerringly elegant, witty and literate study of contemporary perversity.

Strange New World - Jon Abbott 2015-08-07

Black and white / 710 pages / Adult content and strong language To look at the world of the past through films can be a sobering insight into how things have changed, but to look at the world of the 20th century through sex films is to witness a world that is almost inexplicable. In no decade is this experience more bizarre than the 1970s, and yet it is less than half a century in the past. Was society really so strange and different only forty years ago? These films were often not pornography, as we understand the term. But what were they? Who made these films and why, and who were they made for? What did they say then, and what do they tell us now? In some cases, what were we thinking But in others, what have we lost? Nothing even remotely like these films is being made today. What has replaced them, and how, and why? JON ABBOTT, born

in 1956 and a teenager in the 1970s, looks back at the era through over two hundred films exploiting sex and nudity, some of which he loved, and some of which he... liked a little less! This opinionated and fact-filled history looks at the strange new world that adults of both sexes and all ages found themselves in during the 1970s and surrounding decades, from the 1950s to the present day. It looks at films from all around the world, including America, Britain, France, Italy, Sweden, Germany, Spain, Czechoslovakia, China, and Japan, at sci-fi, horror, crime thrillers, comedies that weren't funny, and serious-minded films that were hilarious. Some of the best-known masters of sexploitation are well represented--Stanley Long, Greg Smith, Joe Sarno, Russ Meyer, Mac Ahlberg, Jess Franco, Jean Rollin, Tinto Brass--as are some of the sex films' most beautiful and prolific practitioners--Sylvia Kristel, Gloria Guida, Lina Romay, Maria Forsa, Edwige Fenech, Felicity Devonshire, Christina Lindberg, Joelle Coeur... and such mainstream movie names as Jane Fonda, Jenny Agutter, Julie Christie, and Pam Grier. JON ABBOTT has been writing about films and TV for over thirty years in a variety of publications, trade, populist, and specialist. This is his fifth book.

Irwin Allen Television Productions, 1964-1970 - Jon Abbott 2015-06-14

Before establishing himself as the "master of disaster" with the 1970s films *The Poseidon Adventure* and *The Towering Inferno*, Irwin Allen created four of television's most exciting and enduring science-fiction series: *Voyage to the Bottom of the Sea*, *Lost in Space*, *The Time Tunnel* and *Land of the Giants*. These 1960s series were full of Allen's favorite tricks, techniques and characteristic touches, and influenced other productions from the original *Star Trek* forward. Every science-fiction show owes something to Allen, yet none has equaled his series' pace, excitement, or originality. This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode—and demonstrates that when Irwin Allen's television episodes were good, they were great, and when they were bad, they were still terrific fun.

Male, Female - David C. Geary 1998-01-01

Geary (psychology and anthropology, U. of Missouri-Columbia) thinks culturally constructed gender roles alone cannot account for the differences in the social behavior of men and women. He turns to Darwin's theory of sexual selection as the best avenue for understanding. His main focus is how the two elements of competition between males and of females selecting mates has influenced human behavior over the centuries and across cultures.

Indian Sex Life - Durba Mitra 2020-01-07

"During the colonial period, Indian intellectuals--philologists, lawyers, scientists and literary figures--all sought to hold a mirror to their country. Whether they wrote novels, polemics, or scientific treatises, all sought a better understanding of society in general and their society in particular. Curiously, female sexuality and sexual behavior play an outside role in their writing. The figure of the prostitute is ubiquitous in everything from medical texts and treatises on racial evolution to anti-Muslim polemic and studies of ancient India. In this book, Durba Mitra argues that between the 1840s and the 1940s, the new science of sexuality became foundational to the scientific study of Indian social progress. The colonial state and an emerging set of Bengali male intellectuals extended the regulation of sexuality to far-reaching projects that sought to define what society should look like and how modern citizens should behave. An exploration of this history of social scientific thought offers new perspectives to understand the power of paternalistic and deeply violent claims about sexual norms in the postcolonial world today. These histories reveal the enduring authority of scientific claims to a tradition that equates social good with the control of women's free will and desire. Thus, they managed to dramatically reorganize their society around upper-caste Hindu ideals of strict monogamy"--
