She's built a name as a graphic designer and meets up with her friends online, all from the comfort of her living room couch. But when a rare outing turns disastrous, Kiera finds herself up close and way too personal with an unbelievably hot real-life hero. Zach Ashley doesn't see himself as a hero. He's just a regular guy who gets to help people every day as an EMT. But when he's called to a scene and has to treat his most gorgeous patient ever, he finds himself mixing work with pleasure. He never hesitates to put his life on the line...but will he ever risk his heart? Praise for Erin Nicolas "A brand new Erin Nicholas book means I won't be sleeping until I'm finished. Guaranteed."-Cari Quinn, New York Times bestselling author "Erin Nicholas always delivers swoon-worthy heroes, heroines that you root for, laugh-out-loud moments, a colorful cast of family and friends, and a heartwarming happily ever after." -- Melanie Shawn, New York Times bestselling author

Understanding and Applying Research

Design - Martin Lee Abbott 2013-01-07

A fresh approach to bridging research design with statistical analysis While good social science requires both research design and statistical analysis, most books treat these two areas separately. Understanding and Applying Research Design introduces an accessible approach to integrating design and statistics, focusing on the processes of posing, testing, and interpreting research questions in the social sciences. The authors analyze real-world data using SPSS software, guiding readers on the overall process of science, focusing on premises, procedures, and designs of social scientific research. Three clearly organized sections move seamlessly from theoretical topics to statistical techniques at the heart of research procedures, and finally, to practical application of research design: Premises of Research introduces the research process and the capabilities of SPSS, with coverage of ethics, Empirical

Generalization, and Chi Square and Contingency Table Analysis Procedures of Research explores key quantitative methods in research design including measurement, correlation, regression, and causation Designs of Research outlines various design frameworks, with discussion of survey research, aggregate research, and experiments Throughout the book, SPSS software is used to showcase the discussed techniques, and detailed appendices provide guidance on key statistical procedures and tips for data management. Numerous exercises allow readers to test their comprehension of the presented material, and a related website features additional data sets and SPSS code. Understanding and Applying Research Design is an excellent book for social sciences and education courses on research methods at the upper-undergraduate level. The book is also an insightful reference for professionals who would like to learn how to pose, test, and interpret research questions with confidence.

A Poetic Life - Ink Stains 2020-11-15

A polarizing collection of poetic musings that illuminate the struggles of the African-American male. Each work evaluates the complexities of the black experience from various perspectives and is meant to precipitate discussion. Ink Stains utilizes his political art as a means to collapse emotional barriers and inspire empathy from those that have rejected the tribulations black men face. Infused with both poignancy and triumph this collection speaks to love, religion, politics, and race relations. (N. A. Robinson) A work of art which resonates deep within us by continually speaking to our souls.

"Geeky has never been so sexy"(Carly Phillips) in this cosplay romantic comedy from the New York Times bestselling author of Boys of the Bayou series. Maya

Goodwin doesn't believe in holding back. Ever. As a cop, she never hesitated to throw herself into harm's way to save someone. Even after an injury on the job forces her to retire, she's not afraid to keep risking it all to get the life she wants. With a new career teaching martial arts to kids already underway, she's looking forward to the future - and taking a chance on the unbelievably hot Dr. Alex Nolan. Maya - daring and spontaneous - is the exact opposite of what Alex always thought he wanted. But when a nine-year-old daughter he never knew existed shows up on his doorstep, Maya is the one who helps them hold it together. With love on the line, will the guy who's always played it safe be willing to take the biggest risk of all?

But as the two get to know each other, they're both surprised by the things Finn is willing to do to get closer to her. And when Sophie's estranged father arrives in town and starts causing trouble, the stage is set for disaster...unless Finn can convince her that, for once in her life, she has someone to lean on.

Opposites Attract - Camilla Isley 2021-02-17

First law of magnetism: opposite poles attract. Single mom Vivian has been burned by love once before, and her job as a divorce lawyer has presented enough evidence to convince her there are no good men left in New York City. The worst offender is her new neighbor: Dr. Lucas Keller, a couple's therapist whose piercing blue eyes and flawless dark hair are just as annoying as his bad temper. And when Lucas starts poaching Vivian's clients by saving their marriages, she makes it her mission to force him out of the building to save her practice. But it's

Lucas who gives her the perfect opportunity when he proposes an unexpected bet. With their offices at stake, Vivian and Lucas play the field of love in a fierce battle of wits that quickly turns hot and personal, especially when Vivian's daughter gets involved. Now, taking down Lucas has become more than business for Vivian. It's become a pleasure-and soon, Vivian and Lucas will realize how pointless it is to fight the laws of attraction. A fun, neighbors to lovers romantic comedy filled with heart. Be ready to laugh and swoon. Chick Lit Post This is Camilla Isley at her very best, it's funny, it's touching, it has threads of a tricky storyline, and the banter and chemistry between the two leads is rather evident from the beginning and it's just a sheer pleasure to read. First Five: Your Scientific Solution for a Successful First Impression - Katherine Stanford 2021-07-29

Use verbal and full-body communication tactics to dissolve anxiety, convey confidence and make an impressive introduction. This illustrated book describes in laser-sharp detail battle-tested techniques for influencing others' perceptions of you. It gives you control over your own conscious and subconscious communications and the capacity to take affirmative action towards creating a purposeful first impression. Imagine

you have one small five-minute window to create a solid emotional ecosystem from which every subsequent interaction you have with a person will build. This ecosystem will subconsciously influence the progression of the relationship, the ease of rapport, and whether you will be able to meet the outcomes and expectations you have for each other. This book curates numerous academic articles and advice from the field of behavioral science, hypnosis, and linguistics to create a functional step-by-step guide full of hands-on, practical solutions to problems you may encounter during a first meeting. It covers everything from ways of managing and defusing your own stress and social anxiety, to ways of responding to aggression in others. This book contains information such as: * Building and communicating confidence * Setting SMARTER Spectral Goals * Dissolving discomfort and minimizing anxiety * Making introductions * Helpful handshake hints * Building rapport through isopraxism and linguistic techniques *

*Downloaded from
legacy.opendemocracy.net on 2019-03-15

Movement, gestures, and body language * How to analyse communications to find the hidden meaning and personality differences * Establishing the correct emotional environment * Having the resiliency needed to overcome failure * Cementing long-term connections

Importantly, this book is also illustrated so that we don't just tell you, but also show you the techniques needed to master the perfect first impression. We wanted this book to cover first impression optimisation from a number of different angles so you can choose the correct technique for each individual situation you encounter. After all, sometimes you might want to give off a dominant, confident impression, but sometimes this won't work for the situation. We've outlined the techniques in a short, digestible form and provided insight into some potential scenarios where this tool should and shouldn't be applied. Understanding the different techniques and tools is one thing, but understanding how to apply them is another.

Once you have the right tools in your toolbox you can apply these techniques to all subsequent encounters, and develop upon them as you see fit.

someone else? Such is the dilemma faced by Fahad Mubashir who has been playing pranks on the girl next door Ayza Asher since they were 5 years old. For Ayza, the feeling was very much mutual since she wasn't an angel to Fahad either. She too is shocked to discover the complete turnaround that her feelings have taken ever since the woman came in the picture. Fahad and Ayza are now faced with the insurmountable task of making the other believe that this time around there's no prank or hidden camera. For, if the two don't pull their act together, the biggest joke will be on them.

Once Upon A Snow Day: An Opposites Attract Meet Cute Romance - Kait Nolan
2013-12-19

There's more than snow in the air this ski season... Isabelle Lawson loves her job. Driven,

dedicated, there's no room in her high-pressure life to look for love outside the pages of the books she edits. Can a fun-loving, handsome stranger change her mind? A novelette of approximately 10k words. Q: What makes the Meet Cute Romance series special? "Meet cute" is a term used to describe a situation in which a future romantic couple meets for the first time. Meet Cute Romance is a series of contemporary romantic shorts celebrating the possibilities of that first meeting. Q: Who would dig these books? Meet Cute Romances are designed to be a fast (but not too fast--these are full novelettes, not short stories of only a scene or two), lunchtime or coffee break read to give you a bright spot of romance in your day. If you're looking for a quick romantic pick me up, these short contemporary romances are sure to be right up your alley. Q: What order should I read the books in? These novelettes are each stand-alone and can be read in any order.
