ABC of HIV and AIDS - Michael W. Adler 2012-07-23

An authoritative guide to the epidemiology, incidence, testing and diagnosis and management of HIV and AIDS. From an international expert editor and contributor team, this new sixth edition includes expanded coverage of HIV testing, assessment and routine follow up and new chapters outlining problematic conditions associated with HIV and AIDS. Prevention strategies, early diagnosis and antiretroviral drugs and pharmacotherapy are covered in detail as well as children and women with HIV. It also addresses key psychological and mental health issues, patient perspectives and the role of patient engagement. As knowledge into the illness grows and major advances in HIV therapy see more people living with HIV in the community, the ABC of HIV and AIDS, 6e provides clear practical guidance for general practitioners, hospital doctors, nurses, medical students, counsellors, allied health workers and anyone working and caring for patients with HIV and AIDS.

Ethics of the Body - Margrit Shildrick 2005

Essays approach bioethics from postmodernist feminist theoretical perspectives, opening it to critiques that question the traditional

normative framework.

ABC of Sexually Transmitted Infections - Michael W. Adler 2010-07-15

This comprehensive introduction to sexually transmitted diseases gives concise, practical information on a wide range of diseases. The text of this fifth edition is substantially rewritten, updated and illustrated with new photographs, drawings and charts. It gives the latest guidance on presenting symptoms, diagnosis, management, and pathological problems associated with sexually transmitted diseases. This ABC also covers the control strategies for these diseases that are used in the developing and the developed world.

Abstracts 7103-9613 - 1988

The AIDS Reader - Loren K. Clarke 1988

The book begins with a detailed and technical journey into the laboratories where the keys to the understanding of the virus were forged in the early years of the search for the infectious agent of AIDS. The discovery of the virus, which was originally called HTLV-III/LAV and which became known as HIV, is only a small part of the saga.

Books in Series - 1985

Vols. for 1980- issued in three parts: Series, Authors, and Titles.

Diseases in the Homosexual Male - Michael W Adler 1988-11-14

Herpes Simplex Virus - Adrian Mindel 2012-12-06

Herpes Simplex Virus is the fifth monograph to be published in the Bloomsbury Series of Clinical Science. It provides an authoritative review of the key issues related to this common clinical problem. The characteristics of the virus, its epidemiology and the diagnosis and management of the various forms of infection are all considered. Adrian Mindel is an international authority on this subject; he joined the Academic Department of Genito-urinary Medicine at the Middlesex Hospital in 1980 and has been actively involved in HSV research since that time. His major research interests include the epidemiology and treatment of genital herpes, the epidemiology of neo-natal herpes and the many and varied features of HSV infections in immuno-compromised patients. The continuing aim of the Bloomsbury Series is to identify the growing areas of clinical research and relate these to current and future medical practice. In Herpes Simplex Virus such aspirations have been successfully achieved. London, May 1989 Jack Tinker Preface There has been considerable interest in herpes simplex viruses (HSV) over recent years. Amongst the many reasons for this are the introduction of safe and efficacious therapy, the recognition that HSV may cause life-threatening infections in neonates and immunocompromised patients, the observation that genital herpes is one of the commonest viral sexually transmitted diseases and the possible association of HSV with cervical cancer.

Diseases in the Homosexual Male - Michael W. Adler 2012-12-06

The Bloomsbury Series in Clinical Science is growing and changing. Its Editorial Board and contributors were all originally selected from, or had links with, the University College and Middlesex School of Medicine. Now, as the Series develops, board members and contributors alike identify with the wider reaches of Bloomsbury and Islington. The aims of the Series remain, however, to highlight, to review and to record significant areas of research and development in the field of clinical science. All contributors are experts in their particular field and monographs may be the work of a single author or several, guided by individual editors. *Diseases in the Homosexual Male* is the third monograph in the Series. Edited by Michael Adler, Professor of Genito-

Urinary Medicine at the University College and Middlesex School of Medicine, it presents contributions from a number of distinguished workers with special expertise. AIDS has perhaps highlighted the problem but this monograph illustrates the wider profile and gives witness to the multidisciplinary nature of clinical science.

First multi-year cumulation covers six years: 1965-70.

ABC of AIDS - Peter Beverley 1987

Positive Images - Dion Kagan 2022-01-27

A tidal wave of panic surrounded homosexuality and AIDS in the 1980s and early 1990s, the period commonly called 'The AIDS Crisis'. With the advent of antiretroviral drugs in the mid '90s, however, the meaning of an HIV diagnosis radically changed. These game-changing drugs now enable many people living with HIV to lead a healthy, regular life, but how has this dramatic shift impacted the representation of gay men and HIV in popular culture? *Positive Images* is the first detailed examination of how the relationship between gay men and HIV has transformed in the past two decades. From *Queer as Folk* to *Chemsex*, *The Line of Beauty* to *The Normal Heart*, Dion Kagan examines literature, film, TV, documentaries and news coverage from across the English-speaking world to unearth the socio-cultural foundations underpinning this 'post-crisis' period. His analyses provide acute insights into the fraught legacies of the AIDS Crisis and its continued presence in the modern queer consciousness.

National Library of Medicine Current Catalog - National Library of Medicine (U.S.) 1990

New Zealand Medical Journal - 1990

The Indian Journal of Medical Research - 1990

Book Review Index Cumulation, 1989 - Neil E. Walker 1990-04

The Index provides a broad coverage and access to book reviews in the general social sciences, humanities, sciences, and fine arts, as well as general interest magazines and includes journals from Great Britain, Canada, Switzerland, Israel and Australia. In addition, it indexes several journals that, while published in the US, concentrate on reviewing foreign published or foreign language books. These include *Hispania*, *French Review*, *German Quarterly* and *World Literature Today*.
