Transforming Social Work Practice - Jan Fook
2016-01-08

Transforming Social Work Practice shows that postmodern theory offers new strategies for social workers concerned with political action and social justice. It explores ways of developing practice frameworks, paradigms and principles which take advantage of the perspectives offered by postmodern theory without totally abandoning the values of modernity and the Enlightenment project of human emancipation. Case studies demonstrate how these perspectives can be applied to practice.

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-12-21
Decades of research have demonstrated that the parent-child dyad and the environment of the family "which includes all primary caregivers" are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure.

Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The Happy Child - Steven Harrison 2002-10-15
The author of *The Shimmering World* proposes allowing children to follow their own educational path, thus enabling their curiosity to fuel their learning. In this thought-provoking new book, bestselling author Steven Harrison ventures far outside the box of traditional thinking about education. His radical proposal? Children naturally want to learn, he asserts, so let them direct their own education in democratic learning communities where they can interact seamlessly with their neighborhoods, their towns, and the world at large. Most learning systems apply external motivation through grades, rankings, teacher direction, and approval. *The Happy Child* suggests that a self-motivated child who is interdependent within a community can develop the full human potential to live a creative and fulfilling life. Harrison focuses on the integration of the whole child, the learning environment, and the non-coercive

spirit of curiosity-driven education. Part social-critic, part humanistic visionary, Harrison not only focuses on a reorientation of education, but the possibility of rethinking our families, communities and workplaces, and ultimately what gives our children, and all of us, real happiness. Harrison adds his voice to those of A. S. Neil, John Holt, and John Gatto, all who believe that contemporary schools can never be reformed sufficiently, but must be abandoned entirely for something new and vital to emerge. Praise for *The Happy Child* "A clarion call for our culture to wise up and re-think what education—and the soul of a child—are really all about. Steven Harrison offers us something sorely lacking in today's educational policy: a vision of true human potential and a practical philosophy for attaining it. Read this book and envision possibility." —Jane M. Healy, Ph, author of *Failure to Connect: How Computers Affect Our Children's Minds* "Harrison's hard-biting social critique of the plight children and education are in should wake us up to our atrocious treatment of our young, that we might actually address their critical needs rather than simply ignoring them as usual." —Joseph Chilton Pearce, author of *The Crack in the Cosmic Egg* "Such a nobly simple idea, that the true purpose of education should be happiness, and so clearly reasoned." —Chris Mercogliano, author of *Making It Up As We Go Along*

The Path to Love is the Practice of Love - Carol Riddell 1995

The book explains the meaning of a spiritual life, and provides a way for people to get together with like-minded friends to practice its principles. Through understanding and practice, the book promotes the chance to transform daily life, to give meaning to its experiences, and to find happiness in the service of others. The teachings can apply equally to Christians, Buddhists, Moslems, Hindus or Humanists, as long as it is accepted that the essential principle of the cosmos is love, a love both detached and personal, all-pervasive and specific. wisdom that can be learned (first third of the book). The exercises have been tested out over a period of four years in workshops in several European countries and at the Findhorn Foundation.

Violence, Abuse, and Neglect - Myron R. Utech 1994

Violence, Abuse and Neglect provides a systematic exposition of the national problem of domestic violence and how public and private agencies have dealt with it. Looking at the four major types of domestic violence (child, spouse, adolescent and elder) and placing domestic violence in the context of violence in the larger American society, Utech's book works well in sociology, criminal justice, social work, psychology and healthcare.

Insecure Attachment - David Lawson PhD

Do you find it difficult to maintain a successful romantic relationship? Do you see the same behavior patterns emerge in your relationships from time to time? Are you constantly worried that everything will end in a heartbreak? Is it possible to predict in advance the probability of a relationship's success or failure? Whether we are aware of it or not, our childhood experiences play a huge role in producing the type of people we become. The relationships we experience as children, with our parents or other primary caregivers, have a profound effect on how we react to situations throughout our lives; and how we interact with the people around us. As young children, we instinctively respond to the type of love and support offered by our parents or carers. While a strong bond with our primary caregiver is critical to our development in these early years, any difficulties resulting from this attachment can lead to problems with relationships and self-image in later life. In fact, dysfunctional or incorrect dysfunctional attachment patterns can lead us to make poor emotional choices, or enter dysfunctional and unstable relationships that can be characterized by violence, oppression or submission. Human relationships can give rise to the constant presence of fear of abandonment, associated with controlling behaviors, a continuous search for reassurance, emotional hyper-vigilance and sometimes even emotional blackmail. Whether you like it or not, attachment styles inevitably determine intimate relationships between people. Knowing what they are, and managing them efficiently, guarantees you a positive and stable vision of your relationships for life. We recommend that you read this book if your relationship is characterized by:

- Dissatisfaction and/or high levels of conflict.
- Obsessiveness, intrusiveness, jealousy and

mistrust. • A strong desire for fusion and concern about rejection and abandonment. • Interpersonal distance. • A low level of emotional involvement. • Intimacy issues and an inability to have fun or thrive in sexual relationships. Don't worry if you identify with all or some of these conditions. The patterns and beliefs that we develop as children, although often deeply rooted in our psyche, can be unlearned and replaced with positive beliefs and approaches that allow you to embark on a more constructive path through life. Have you ever heard of the inner voice? You may constantly ask yourself these questions: • "Why would anyone be interested in me?" • I'm not up to it! • But do you love me enough? • What if you abandon me? • What if he's cheating on me? • I can't be without him! If, however, you do not face such problems, you will bring their negative influence into your life, leading to the unwanted and repetitive situations that you have become familiar with. What if I told you that there is a way to silence this little voice? Understanding how to get rid of attachment problems is one of the most satisfying and valuable things you can do for yourself. You will open the door to a greater sense of self-esteem, successful friendships, strong family ties and long-lasting and loving romantic relationships. If you are tired of living a life full of complicated and painful relationships, and would like to move beyond insecure attachment to a more fulfilling and joyful life, this book is for you. It's time to break the cycle of unhealthy relationships and create a life that you love. Order your copy today and start your journey to a more secure and fulfilling future.

Leaving a Violent Relationship - Adele Jones 2021-05-06

Intimate partner violence (IPV), defined as physical, sexual, emotional, and economic abuse and controlling behaviors inflicted within

intimate partner relationships, is a global crisis that extends beyond national and sociocultural boundaries, affecting people of all ages, religions, ethnicities, and economic backgrounds. Though studies exist that seek to explain how people become trapped within violent relationships and what factors facilitate survival, escape and safety, this book provides fresh insights into this complex and multifaceted issue. People often ask of women in abusive relationships “why does she stay?” Critics suggest that this question carries implicit notions of victim blame and fails to hold to account the perpetrators of abuse. The studies described in this book, however, explore the question from the perspectives of survivors and represent a shift away from individual pathology to an approach based on the recognition of structural oppression, agency and resilience. Comprising eight chapters, new theoretical frameworks for the analysis of IPV are provided to guide practitioners and policy makers in improving services for vulnerable people in abusive relationships, and a range of studies into the experiences of a diverse range of survivors, including mothers in Portugal, women who experienced child marriage in Uganda, and refugees in the United States of America, generate findings which elucidate perspectives from marginalised and under-researched groups.

Citizenship Revisited - Peter Herrmann 2004

Strangely, citizenship has usually been considered as a matter of interest when it is questioned or even withheld. The other way round, usually citizenship is taken for granted 'as it is', not being defined as such. In consequence we find only a negative definition rather than a clear way of spelling out the meaning. As globalisation spreads and deepens, the question of citizenship becomes crucial for society. It is already possible to see changes in voting patterns in such a country as France due to its immigration policies. This has long been the case in America as well, and is being felt there yet again by the effects of the citizenships of its newest immigrants. The contributions in this volumes are dealing with different aspects of defining citizenship -- though not necessarily conceptualising it as such, i.e. under this term. These are burning questions which this book explores in this explosive national and

international issue. Contents: Introduction; Citizenship Revisited: Threats and Opportunities of Shifting Boundaries; Globalisation as Seen from the Local Level; Self-Improved Citizens: Citizenship, Social Inclusion and the Self in the Politics of Welfare; Citizen Partici

Yes, Your Kid - Debby Herbenick, PhD
2023-11-14

Parents of teenagers and young adults have enormous catching up to do to understand how sexting, internet porn, TikTok, and more have shaped sex for young people. Too often, parents wear blinders when it comes to the sex lives of their children. They hear the statistics—how 80% of college students have engaged in rough sex or how one in four teens have sent or received a sext—and think, “Not my kid.” Yes, *Your Kid* is the reality check parents need about what sex is like today—so they can better educate and support their tweens, teens, and college students. Combining insights from cutting-edge research, conversations with real students, and on-the-ground legal experience, *Yes, Your Kid* provides: An overview of key topics in sexuality, from communication and consent to pornography and rough sex, describing how things have changed Real-world legal stories illustrating today’s consensual sex pitfalls and clear tips for how to help your child avoid them Age-appropriate tools to talk with tweens and teens about bodies, puberty, technology, birth control, and consent Concrete advice parents can share directly with their children so that—if and when their children become sexually active with partners—they are more likely to have safer, consensual sex Inclusive sexuality education tips for parents of young people on the autism spectrum Authoritative, supportive, sex-positive, and facts-forward, *Yes, Your Kid* provides parents with the frank, accurate information they and their children need to safely navigate today’s sexual landscape.

Domestic Violence and Family Safety -
Janette Cooper 2008-09-15

The book aims to explore the exciting opportunities offered by a systemic approach for

mental health professionals and psychotherapists when working with families and other systems where domestic violence in intimate relationships is of concern. The main purpose of the book lies in the application of systemic thinking to safety and to understanding the complexity of domestic violence on family relationships over time. The authors outline their approach to these complex issues based on their eight years of joint experience in the Reading Safer Families project. They draw from a broad field of family psychology and systemic psychotherapy to distil the theories, methods and techniques most helpful to practitioners working in modern public and voluntary agencies. Their systemic approach to issues of risk, responsibility and collaboration provides a coherent framework within which to integrate practice. The book also provides a practice orientated and detailed approach to risk assessment, risk management and family reunification. This book will be of interest to practitioners in clinical and educational psychology, social work, nursing, psychiatry, probation, health visiting, counselling and psychotherapy, who work with individuals living in intimate relationships where violence may be of concern, and also to practice supervisors, trainers, trainees and students in these disciplines.

[Focused Genograms](#) - Rita DeMaria 2013-06-17

The interpersonal relationships that make up family life are a complex web between many individuals spanning several generations at one time. This web is further complicated by the influence of other factors such as culture and gender. It can be a daunting task for a therapist to unravel this tangle and understand the specific dynamics and individual development within the family. The Multifocused Family Genogram (MFG) is a powerful tool that allows the therapist to record and structure these different elements that make up the family system. By combining the Basic Genogram, the Family Map, and several Focused Genograms, the MFG provides a clear picture of dynamic family history that aids in individual and family assessment. Focused Genograms provides a thorough account of the use of MFGs in family therapy and practice. The authors present a clinically useful method for collecting the

information in key areas of individual and family functioning needed to create Focused Genograms. In addition, the authors carefully explain the diagnostic use and therapeutic applications of this tool. The book is supplemented by extensive examples of Focused Genograms, Family Maps, and Time Lines used in MFG construction. Suggested readings listed at the close of each chapter provide links between techniques fully described in the book and other therapeutic techniques beyond the scope of this work. A thorough presentation of innovative methods for using Focused Genograms makes this an important text for students of marriage and family therapy, as well as an indispensable resource for professionals. [Working with Adolescent Violence and Abuse Towards Parents](#) - Amanda Holt 2015-08-14 Adolescent violence and abuse towards parents is increasingly recognised as a global problem. Inverting how we normally understand power to operate in abusive relationships, it involves actors who cannot easily be categorised as victims or perpetrators, and often impacts families who are experiencing multiple stressors and hardships and may be experiencing other forms of family abuse. This unique book draws on an international selection of contributors to identify, present and explore what we know about what works when supporting these families. Exploring conceptual and theoretical challenges produced by this emerging social problem: Part 1 discusses some well-established intervention approaches and programmes, looking at their theoretical base and relevant assessment, delivery and evaluation issues. It provides readers with a theoretical framework and toolkit for use in their own intervention work. Part 2 presents examples of innovative practice, with an emphasis on diverse institutional settings, geographical locations and other important contexts that shape practice. It provides readers with an understanding of some of the complexities involved in this kind of intervention work, offering tools and strategies to be applied in their own work. This interdisciplinary guide provides an essential resource for students and practitioners with an interest in domestic and family violence, youth studies, child protection, drug and alcohol work, and youth justice from a wide range of

professional backgrounds.

Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity - Kopano Ratele 2022-09

This book seeks to imagine the possibility of a more loving masculinity in a society where structural violence, failures of government and economic inequality underpin much of the violent behaviour that men display. Enriched with personal reflections on his own experiences as a partner, father, psychologist and researcher in the field of men and masculinities, *Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity* is Kopano Ratele's meditation on love and violence, and the way these forces shape the emotional lives of boys and men. At the core of these critical and deeply insightful texts is the question of why men hurt women they love. Ratele contends that many men in our society suffer from a painful, unrecognised, yet consequential love hunger that sets in during boyhood. This need for love may lie at the root of some of the male violence that damages the lives of women, children and men themselves.

Passion for Love and Happiness - Dr. AA. Syed 2009-08

Dr. A.A. Syed passed away on April 4th, 2020, surrounded by family. In the backdrop, an unprecedented global pandemic (COVID-19). We can only imagine a world where he remained to serve these patients on the front lines as a respirologist, as he continued to serve as up until his final weeks. 100% of proceeds from the digital release will go to Heart and Stroke Foundation in memory of his close personal friend, who passed away several years ago. "In *Passion for Love and Happiness*, Dr. A. A. Syed blends the best of Eastern and Western philosophy and wisdom to give practical guidance that is, at the same time, inspiring and uplifting. Dr. Syed, who was born in Hyderabad, India and emigrated to Canada in 1982, is in a unique position to unite these spiritual and cultural traditions and to use them to help others learn about the process of achieving

contentment. As a practicing specialist in respirology and in internal and critical care medicine, Dr. Syed can also draw on his personal, pragmatic experiences with life-and-death choices to teach us to live life to the fullest, to laugh, love, learn, and listen - to our own hearts and to others - so we can attain the mental and ethical discipline that enables us to forgive, to let go of pain and suffering, and to be our very best selves. □□ 'Reading Dr. Syed's exquisitely simple interpretations of timeless philosophies has helped me cope with personal tragedies. It has changed my "give up" attitude with living with terminal cancer, to one of calmness, achieving a positive and loving outlook. The victim in me has now not only been rescued, but has become a rescuer in the process! Don't just read the words - DO IT.' - Carolyn Fallis-Hale 'A must read for all spouses to improve their loving relationships.' - Syeda Syed"

When Love Costs a Life - Adonna Wilkerson 2020-08-15

WHEN LOVE COSTS A LIFE, THEN IS IT WORTH PAYING THE PRICE? No, No, I can't handover a two weeks old baby to you. I can't allow you to carry my two weeks old baby out on such a long journey! She is too young to travel! Don't bring my baby into this! You are choking me!!!! Domestic violence has become a forever sensitive topic because it costs more than just the heart and can aggravate to costing many lives. It is such a complex term; it comes in various forms and can grow into a lot of other situations. There has always been the problem of domestic violence and the associated abuses. Domestic violence is not one country or one tribe crime. Domestic violence occurs in all parts of the world. Over the years, various countries across the globe have recorded occurrences of domestic violence, which demonstrates that the issue is not limited to a race or tribe. Every nation also has different customs and laws to tackle this issue legally. Incredibly, some countries even justify it under certain circumstances, such as unfaithfulness. I'm not here to discuss this topic with you because of things I learn online, I've been a victim myself, but now I'm a survivor. From experience, no one can truly understand the weight and implications like a victim.

Domestic violence, as most people believe, is not only limited to physical assault. The torment both mentally and emotionally is greater. Apart from this fact, there is a certain mentality underlying the villains' acts, which is most justifiable by them.
