Tribes - Seth Godin 2011-02-03

In this fascinating book, Seth Godin argues that now, for the first time, everyone has an opportunity to start a movement - to bring together a tribe of like-minded people and do amazing things. There are tribes everywhere, all of them hungry for connection, meaning and change. And yet, too many people ignore the opportunity to lead, because they are "sheepwalking" their way through their lives and work, too afraid to question whether their compliance is doing them (or their company) any good. This book is for those who don't want to be sheep and instead have a desire to do fresh and exciting work. If you have a passion for what you want to do and the drive to make it happen,

there is a tribe of fellow employees, or customers, or investors, or readers, just waiting for you to connect them with each other and lead them where they want to go.

The Psychology of Finance - Lars Tvede
2002-04-22

There is one constant factor in the chaos of the markets and that constant is human psychology. In the Psychology of Finance readers are shown how the market's characteristics that arise can be interpreted and learnt from. This revised edition contains new examples and updates to charts. There is also a summary of the characteristics of each phase of the equity market, bear bottom, rise, bull peak, and decline. It includes an appendix covering the

history of economic psychology Written in an extremely readable and enjoyable style it shows how psychology can drive movements in the prices of financial assets, breakdown key market phenomena, eg, irrational attitude changes in the individual, and their indicators.

The Four - Scott Galloway 2017-10-05

'A fantastic, provocative book about where we are now and where we are going' Phil Simon Huffington Post Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions: - How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? - Why does the stock market forgive them for sins that

would destroy other firms? - And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four.

Legendary leadership and elite performance expert Robin Sharma introduced The 5am Club concept over twenty years ago, based on a revolutionary morning routine that has helped his clients maximize their productivity, activate their best health and bulletproof their serenity in this age of overwhelming complexity. Now, in this life-changing book, handcrafted by the author over a rigorous four-year period, you will discover the early-rising habit that has helped so many accomplish epic results while upgrading their happiness, helpfulness and feelings of aliveness. Through an enchanting—and often amusing—story about two struggling strangers who meet an eccentric tycoon who becomes their secret mentor, The 5am Club will walk you through: How great geniuses, business titans and the world’s wisest people start their mornings to produce astonishing achievements A little-known formula you can use instantly to wake up early feeling inspired, focused and flooded with a fiery drive to get the most out of

each day A step-by-step method to protect the quietest hours of daybreak so you have time for exercise, self-renewal and personal growth A neuroscience-based practice proven to help make it easy to rise while most people are sleeping, giving you precious time for yourself to think, express your creativity and begin the day peacefully instead of being rushed “Insider-only” tactics to defend your gifts, talents and dreams against digital distraction and trivial diversions so you enjoy fortune, influence and a magnificent impact on the world Part manifesto for mastery, part playbook for genius-grade productivity and part companion for a life lived beautifully, The 5am Club is a work that will transform your life. Forever.

Gunter's Winter - Juan Manuel Marcos 2017

Gunter's Winter is an exotic fusion of Spanish, Buenos Airean and Paraguayan culture, of intrigue and human relations set against an unfolding backdrop of the military and political landscape of the time, with more than a touch of Chilean spice. Colourful characters play out their lives revolving around Gunter, Eliza, Soledad and Veronica, the four poles, with passages of prose interspersed with free ranging poetical sections characterised by both their lyricism and their savagery. The overwhelming theme is the triumph of the human spirit, of love and liberation over corruption, greed and vice. Gunter's Winter has a truly mythical quality, part fable, part legend, part moral tale; it is both instructive and compelling, with a brilliantly devised and unexpected conclusion as reality and myth weave together.

traditional advertising is based on the hope of snaring our attention away from whatever we are doing. Seth Godin calls this Interruption Marketing, and, as companies are discovering, it no longer works. Instead of annoying potential customers by interrupting their most coveted commodity, time, Permission Marketing offers consumers incentives to voluntarily accept advertising. Now the Internet pioneer who has dramatically improved marketing effectiveness in media introduces a fundamentally different way of thinking about advertising products and services. By reaching out to only those individuals who have expressed an interest in learning more about a product, Permission Marketing enables companies to develop long-term relationships with customers, create trust, build brand awareness, and greatly improve the chances of making a sale.

At the Tomb of the Inflatable Pig - John

Gimlette 2011-08-31

Paraguay - the name conjures up everything most exotic and extreme in South America. It's a place of hellish jungles, dictators, fraudsters and Nazis, utopian experiments, missionaries and lurid coups. It's not a place for the timid tourist. It doesn't even have its own guidebook. But Paraguay, as revealed in this outstanding new travel book, is among the most beautiful and captivating countries in the world. The beguiling Paraguayans, despised and feared by their neighbours, are unfathomable. They adore Diana, Princess of Wales, as if she were still alive and hundreds volunteered to fight for Britain in the Falklands War. Their politics are Byzantine but when the Vice-President is murdered, they call in Scotland Yard. Discover more about the unique traditions of South American culture through this fascinating piece of travel journalism.
