The Attraction Blueprint - Dawn Peters 2020-06-24

Attraction is nature's strong force that enabled our ancestors to mate with each other to produce offspring. If the force of attraction were not

strong enough, they would have been too busy trying to survive and forget to create offspring. This same powerful force of attraction still drives men and women to mate with each other. Yet, most men find it difficult to attract women. The specific attributes that trigger attraction has remained the same despite the change in civilization and culture. Yet, most men do not understand attraction; they follow what seems rational, and even what women say they like in a man doesn't attract them. Attraction is a biological impulse, and hence, it's not controlled by the rational mind. When a man sees the attractive traits he finds in a woman, he cannot choose his reaction to it. Similarly, when a woman sees a man with the attractive traits she desires, she cannot choose her reaction to it. That's why women are attracted to jerks. Even though these men behave unscrupulously, they have the traits that naturally attracts women, more than nice men do. So, women are attracted to these men, over the nice men. Women are attracted to masculine men, and jerks possess masculine traits more than the nice men do. Most men have long lost touch with their masculinity and hence, struggle with their lives. However, this book helps to develop the masculine traits that make a man achieve success, and therefore, get women as a byproduct of his success in life. The book is divided into three parts PART 1:

Understanding Attraction. This part will explain the nuance of attraction and how men and women have adopted different sexual selection strategies to ensure they optimize the survivability of their genes. A Woman's Guide to the Male Mind - Sam Geraldo 2011-01-14
A Womans Guide to the Male Mind is the indirect result of a blog that I wrote in 2005 How Do You Tell If a Guy Fancies You? The article was so popular, receiving more than 70 replies from women with lots more questions, that I launched my web site www.seducemen.co.uk. Since then, most of the advice Ive given in hundreds of published articles was based on my own experiences and those of my friends. To write the book, however, I adopted a more scientific approach. I performed a significant amount of research into recent discoveries by anthropologists,

sociologists, psychologists and biochemists on topics ranging from basic sexual attraction to personality type and male/female communications strategies. It's my belief, therefore, that *A Woman's Guide to the Male Mind* features the best of two worlds: common sense opinions backed by solid empirical evidence. By helping ladies understand the male point of view with regard to sex, dating and relationships; I hope to eliminate the senseless conflicts that so often erupt between lovers and would-be lovers. Once you understand a few fundamentals about the male mind and male behaviour, you will stop thinking of men as inscrutable blockheads and primitive misfits. You will no longer regard them as you would a small, nasty child or an alien race. Arming yourself with the wisdom in this book, you'll increase your odds of finding happiness and harmony in romantic relationships, and you will help ensure that this bliss lasts a lifetime. By the time a man reaches maturity, he has passed through four evolutionary stages in his attitude toward women and relationships. It's very important to understand and identify these four stages, because it will save you from wasting time on guys who aren't ready for serious romance.

Simply Irresistible - Raj Persaud 2010-09-30

As psychology advances its understanding of the mind and brain, perhaps the last remaining bastion of mystery about why we do what we do relates to love and attraction. However, recent research suggests that even the mysteries of attraction are being revealed - which is great news for those amongst us who would rather not leave seduction to chance. In this illuminating follow-up to his acclaimed bestseller, *The Motivated Mind*, Dr Raj Persaud draws on the very latest research to show not only how to increase your attractiveness generally, but how to become absolutely irresistible to anyone. For example, do you know... that experiments on dating can predict with over 80% accuracy who will be attracted to who by whether just a few simple conversational strategies are used on a date? why abnormally low lighting is strongly associated with romance, why women wear blusher on their cheeks, or lipstick to enhance their pouting lips? Or that seeking to be agreeable on a date is not actually the most attractive or successful strategy to use. And for

anyone out there who is looking for that rare combination of brains and beauty, there is reassuring news: current research reveals that it is indeed perfectly possible to guess a person's IQ from the way they look. Frank, witty and packed with useful questionnaires and invaluable advice, *Simply Irresistible* is the essential guide on how to catch - and keep - your perfect partner.

Cues - Vanessa Van Edwards 2022-03-03

Our cues can either enhance our message or undermine it. With exercises, practical tools, and inspiring stories, Deeper Dating will guide you on a journey to find the love—and personal fulfillment—you long for. Lose weight. Be confident. Keep your partner guessing. At the end of the day, this soulless approach to dating doesn't lead to love but to insecurity and desperation. In Deeper Dating, Ken Page presents a new path to love.
