Convicted Sex Offenders - Tammy Meredith Poulos 1994

Caught - Marie Gottschalk

2016-02-16

A major reappraisal of crime and punishment in America The huge prison buildup of the past four decades has few defenders, yet reforms to reduce the numbers of those incarcerated have been remarkably modest.

Meanwhile, an ever-widening carceral state has sprouted in the shadows, extending its reach far beyond the prison gate. It sunders families and communities and reworks conceptions of democracy, rights, and citizenship—posing a formidable political and social challenge. In *Caught*, Marie Gottschalk examines why the carceral state remains so tenacious in the United States. She analyzes the shortcomings of the two dominant penal reform strategies—one focused on addressing racial disparities, the other on seeking bipartisan, race-neutral solutions centered on reentry, justice reinvestment, and reducing recidivism. With a new preface evaluating the effectiveness of recent

proposals to reform mass incarceration, Caught offers a bracing appraisal of the politics of penal reform.

Sexual Aggression Against Children - Jerome Blackman 2016-01-29

In Sexual Aggression Against Children: Pedophiles' and Abusers' Development, Dynamics, Treatability, and the Law, Drs. Blackman and Dring use multiple psychoanalytic principles to answer, "Why do people sexually abuse children?" and "Why are most abusers male"? They address the legal and mental health professions' minimization of the horrific nature of child sexual abuse, explain how to assess pedophiles' treatability, and discuss cases of adolescent and adult predators. Also, developmental analysis of sexual predation is integrated with a review of judicial decisions regarding civil commitment and punishment of
