How To Flirt - William Clark 2019-12-18

Do you want to know how to flirt with women and achieving successful relationships? If yes, then keep reading... You may not know it, but the reason why you may not be alluring to the opposite sex may be because you haven't really thought about what type of male you are. Within the pages of this book, you will find out what it takes to attract women in all kinds of social environments. What's more, the information is up to date and takes account of modern approach, rather than the staid and traditional approach - which you may find isn't that effective anymore. Let's face it, we didn't have all of the potential contact venues several years ago, and older folk don't really understand all of this side swiping and voting on how beautiful you think a woman is. It's a new age now, and thus the rules of combat have to be redefined. As you read through the chapters, you will find that you will learn how to change your approach to suit the new lady of the twenty-first century and

believe me, it will be well worth it. The book covers a whole heap of information about what women expect from men, what turns them on, but most importantly, what doesn't. Once you are aware of their needs, you are more likely to fulfill their fantasies as well as your own. Think being smart is enough? Think having a good job should be enough? Well, pal, I have news for you. Women are becoming less timid, and since the book "50 Shades of Grey" was written are taking a much more proactive part in the dating process. You will find out through the pages of this book exactly what you need to change about your approach, in order to be a winner. Whether you are in the dating game looking for permanence or simply someone to spend your time with, it doesn't matter because the rules of the game are very much the same, and although you may think of yourself as a stud, believe me - if you were that good at the dating game, you wouldn't be reading this introduction. Much of this comes from the approach you use. There's a

lot more to the dating game than simply approaching someone of the opposite sex. Believe me; you need to understand the mentality of a woman and how it differs from her male counterpart. You also need to be aware of your approach and the way in which you present yourself. It does make a huge difference to your level of success. Are you an alpha or a beta? You probably don't know, but you will by the time that you have read this book. I promise you that. I also promise that you will be more confident and able to please a woman because the book will make you much more aware of what women are looking for. It goes beyond good looks and great manners. What do you know about flirting? This question might seem easy since we've all at least tried to get it done properly a couple of times. Dressing up to impress the opposite sex, complimenting them, and sending cheesy pickup lines their way are all various techniques created to attract women, but do you really know what flirting entails? In a nutshell, flirting refers to a sort of mating ritual that isn't exclusive to human beings alone. Take animals, for example. Do you ever wonder if the songs that birds sing have

any meaning to them? Do you think it's only a coincidence that peacock feathers are so colorful and stylish? Have you ever wondered why apes beat their chests like that? Well, there is a simple answer to all of that: they are a small part of these animals' mating rituals. Although flirting tactics tend to be one-of-a-kind for every species out there, their goals aren't. Human beings need to use non-verbal and verbal cues to attract potential mates. Men, for one, need to take certain actions in order to impress their choice of women: humor, intelligence, money, confidence and social status are all a part of this. Just like male apes beating their chests, these are merely several signals that we emit to show

how worthy and desirable we can be to women. This is why flirting is considered a mating ritual. Moreover, flirting is actually done unconsciously, just like with the animals. Do animal mating rituals look pre-planned to you? Well, they aren't. The truth is: these rituals all come from nature and are done to keep the life cycle going. Each creature on this planet was bred for this particular purpose, after all - human beings included. And, as with animals, human beings do not think before they flirt; they simply flirt. As a matter of fact, we only become aware of flirting when it ends up backfiring. Each guy on earth has come across a situation where some girl flirted with him and ended up acting annoyed after he flirted back.
