A Simple Girl's Guide to Surviving the Realities - Mary Barber 2023-10-13

Would you believe if someone told you there is another reality? Would you believe me if I said there is another world out there, where people possess certain abilities enabling them to manipulate the weather, natural elements, and even human emotions? If your answer is not 'no' to those questions, you must be living an interesting life. Not long ago I would have said 'no' too, without hesitation. It all changed, however, when a couple of weeks ago I was thrust into that very world, with having no clue how or why I got there, what I was supposed to do, or how to get back to my normal life. And there was no guide to help me manoeuvre through my suddenly upturned life, either. A nuisance, really. Complications didn't end there, though. A good thing too, we wouldn't want life to get boring. So, on top of finding out about the existence of a whole new world, I soon found myself in the middle of an eight-month-long kidnapper case - yes, with real criminals, victims and crime scenes - alongside with new friends, new enemies, and a surly, mostly unwilling detective. Because apparently, letting someone with a day-long investigative career loose around a criminal investigation was completely normal only in some places. I've already seen a lot of crime scenes close up in front of my TV screen, though, so... what could go wrong?

From woman to WOWman - Priyanka Dutta 2021-07-16

Triumph comes to them who are relentlessly striving for it. This is not a triumph over any war but for an identity. As woman in Indian society, we forget that we exist too. What a woman wants is something less attended to and least asked about. To bottle up our sentiments, to cut throat of our wishes and to live a life that others choose for us is what we have been made accustomed to. And it's time we put an end to that. This accumulation of poems try to reach to different aspects of a woman's life and with its lucid words, it tries to touch the chord of every

woman who has still the faith that "She should Live a Life of her own". Life is too short a story to just feel sorry for and this book clearly depicts that in its rhyme and essence. It strongly echoes the vibration each woman somewhere feels in her which asks their alter ego- What I am living for. Am I a human or just a possession? Why do I need a consent in every move I make and the list goes...

TRAP OF LOVE -

Standing right in front of the sight yet he was out of her reach. Staying right beside yet miles apart. Having him yet couldn't call him solely hers. Once the only person who lights up her dark way was now no where to be seen. May be the sweet yet understanding him was just a illusion she thought. It was a bitter-sweet moment that now laced in her memory. It hangs in her mind rent free yet no complaints, no grudges held. Holding hands, entangling them with his, all she felt complete yet incomplete within. Knowing this was the safest place that ever exist yet she wavered. Reaching far, very far from where there is no return she finally realised it's just that "she was loved yet not loved"

Educating Adolescent Girls - E. M. Chandler 2022-12-29

'Girls are worse than boys these days' was a common complaint from teachers in the 1970s. Whether true or not, this viewpoint was pervasive, yet little guidance had been given to the student teachers to help them tackle the problems that girls presented. Originally published in 1980, the main purpose of this work was to provide a soundly based textbook on the education of adolescent girls which, by taking into account the changing role of women in our society at the time, would be of immediate use to all practitioners and students of education. Research findings, and material drawn from recent work by teachers in schools, have been collated along with theoretical approaches selected for their relevance to teaching in a manner which demonstrates their practical implications. The difficulties that teachers found in coping with the normal, as well as the abnormal, behaviour of girls is examined. The importance of education for girls is looked at in the context of their future roles as members of the work force and as mothers of the next generation. Reports and complaints about the inadequacies of the education system in preparing girls for their future life were rife. In dealing with a topic which was causing such

concern the author set out to fill a noticeable gap in the literature of Education at the time. The book was designed for use by student teachers, lecturers, probationary teachers and their supervisors, but social workers, educational psychologists and others who deal with adolescents would also find it useful. For students its value rested in the practical orientation of its information which gave it the dual function of handbook and academic textbook. For practising teachers it gave advice, encouragement and support.
