Counseling and Community Rod Wilson 1995-06-16 Traditionally, counseling has focused primarily on the individual--overlooking the interaction between the community and the individual. Wilson has created a biblically-based counseling model that anchors the individual within the community. The result is a perspective that encompasses all aspects of a person's life, where the community becomes a helper in the counseling process.

Dual Relationships And Psychotherapy Arnold A Lazarus, PhD, ABPP 2002-06-21 "The opinions expressed in this publication go directly to the challenges we will collectively face as we enter the 21st century.." -- from the Foreword by Patrick H. DeLeon, PhD, JD, ABPP, Past President, American Psychological Association "This volume, through a series of diverse approaches and considerations, has dispelled for all time the monolithic notion that dual relationships are always harmful and should be avoided...remarkable and refreshing." -- Nicholas A. Cummings, PhD, ScD, Former President., American Psychological Association This book, the first of its kind, covers the clinical, ethical and legal aspects of non-sexual dual relationships. It provides detailed guidelines on how to navigate the complexities of intended and unintended crossings of the boundaries of the therapeutic relationship. Contributors representing various therapeutic approaches and work settings challenge the prevailing interpretations of ethical standards as presented by the American Psychological and the American Counseling Associations' Code of Ethics. Through case examples, they demonstrate how non-sexual dual relationships may result in increased trust, familiarity, and therapeutic effectiveness. Discussions include concerns of rural, military, church, hearing impaired and other small communities; behavioral, cognitive, humanistic, and feminist views on DR; and more. This is a book for all practicing therapists. Appendices contain guidelines to nonsexual dual relationships in psychotherapy.

The Mystical Power of Person-Centred Therapy Brian Thorne 2002-05-22 Brian Thorne's latest book is likely to cause something of a furore in the counselling and psychotherapy world and more particularly among person-centred practitioners and pastoral counsellors. 'The Mystical Power of Person-Centred Therapy' takes the later work of Carl Rogers with the utmost seriousness and, as a result, moves into unexpected and perhaps, for some, dangerously controversial terrain. Rogers discovered towards the end of his life that he had greatly underestimated both the mystical quality of the therapeutic process and the power of the person-centred approach to give access to the spiritual dimension of experience. Professor Thorne takes this concept further and explores the implications of regarding person-centred therapy as an essentially spiritual discipline. The outcome is a book which not only provides new and startling challenges for therapists of all orientations but also suggests that the person-centred way of being may have a major contribution to make to the resolution of some of humanity's seemingly intractable problems. It should appeal not only to therapists but also to clergy and all those concerned with the spiritual evolution of humanity. In the light of the events of September 11th 2001 and their aftermath such a book could not come at a more opportune time.

Wholeness in Hope Care Daniel Johannes Louw 2015 Throughout his life, the apartheid activist, Nelson Mandela (Madiba), maintained, 'In the darkest moment there is always hope. We must never give up'. Hope as a mode of the courage to be (Paul Tillich), points to what the Sociologist Peter Berger calls: signals of transcendence. Wholeness in Hope Care explores the rich tradition of hope in wisdom, philosophy and Christian theology. It connects non-hope/un-hope (Gabriel Marcel: inespour) to a theology of compassion in soul care (cura animarum). Resurrection hope (theologia resurrectionis) points to the healing of life (cura vitae) and the preservation of land (cura terrae). In order to describe the helping and healing dimension in pastoral caregiving, the term 'promissiotherapy' has been coined. Daniel Johannes Louw was Dean of the faculty of theology at the University of Stellenbosch (2001-2005), President of the International Academy of Practical Theology (IAPT) (2003-2005) and President of the International Council for Pastoral Care and Counselling (ICPPC) (2011-2015). Messiah the Most Consequential War Ever Fought and the Christian Mistaken Perception of God Robert Price 2022-09-11 There are many places in the Bible where God is described as Love and Loving. There are also many places where God is described doing and saying things thar are cruel. Could the Bible be mistaken? Both the Old and New Testaments tell us that the crucifixion of Jesus was a a sacrifice to God to appease God's wrath. Could there be another reason. The truth in the Bible is golden. The correlations of science with Genesis are amazing. Did Isiah and other Jewish prophets have the same message that Jesus brought to the world.

Religion and Psychotherapy in Modern Japan Christopher Harding 2014-09-15 Since the late nineteenth century, religious ideas and practices in Japan have become increasingly intertwined with those associated with mental health and healing. This relationship developed against the backdrop of a far broader, and deeply consequential meeting: between Japan's long-standing, Chinese-influenced intellectual and institutional forms, and the politics, science, philosophy, and religion of the post-Enlightenment West. In striving to craft a modern society and culture that could exist on terms with - rather than be subsumed by - western power

and influence, Japan became home to a religion--psy dialogue informed by pressing political priorities and rapidly shifting cultural concerns. This book provides a historically contextualized introduction to the dialogue between religion and psychotherapy in modern Japan. In doing so, it draws out connections between developments in medicine, government policy, Japanese religion and spirituality, social and cultural criticism, regional dynamics, and gender relations. The chapters all focus on the meeting and intermingling of religious with psychotherapeutic ideas and draw on a wide range of case studies including: how temple and shrine 'cures' of early modern Japan fared in the light of German neuropsychiatry; how Japanese Buddhist theories of mind, body, and self-cultivation negotiated with the findings of western medicine; how Buddhists, Christians, and other organizations and groups drew and redrew the lines between religious praxis and psychological healing; how major European therapies such as Freud's fed into self-consciously Japanese analyses of and treatments for the ills of the age; and how distress, suffering, and individuality came to be reinterpreted across the twentieth and early twenty-first centuries, from the southern islands of Okinawa to the devastated northern neighbourhoods of the Tohoku region after the earthquake, tsunami, and nuclear disasters of March 2011. Religion and Psychotherapy in Modern Japan will be welcomed by students and scholars working across a broad range of subjects, including Japanese culture and society, religious studies, psychology and psychotherapy, mental health, and international history.

Christian Counseling and the Law Steve Levicoff 1991 What you don't know can hurt you. Do you know: What constitutes "clergy malpractice" and "negligent counseling"? What is "duty of care"? When do you break confidentiality? When are you breaking the law? What are the legal ramifications of church discipline? What is your responsibility in child abuse cases? Can you use counseling illustrations in your sermons? If you are a pastor or counselor, or are in any counseling ministry, this may be the most important new book you will read this year. In this "age of litigation" an explosive new area of law -- suing churches -- is impacting Christians. How do these lawsuits affect pastors and counselors? Steve Levicoff's scholarly, yet easy to read, Christian Counseling and the Law, summons all Christian counselors to study the law themselves so that they can be "as shrewd as serpents and as innocent as doves" and thereby "fight the good fight of faith" in the secular arena. This is not a book filled with stilted legalese and lofty phrases. It is a straightforward, well-documented resource for the Christian counselor. When you put it down -- if you can -- you will probably say, "That was just what I needed." - Flyleaf.
