Haunting Experiences - Diane
Goldstein 2007-09-15

Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in

how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

Empire of Ecstasy - Karl Toepfer 2023-11-10
Empire of Ecstasy offers a novel interpretation of the explosion of German body culture between the two wars—nudism and nude dancing, gymnastics and dance training, dance photography and criticism, and diverse genres of performance from solo dancing to mass movement choirs. Karl Toepfer presents this dynamic subject as a vital and historically unique construction of "modern identity." The modern body, radiating freedom and power, appeared to Weimar artists and intelligentsia to be the source of a transgressive energy, as well as the sign and manifestation of powerful, mysterious "inner" conditions. Toepfer shows how this view of the modern body sought to extend the aesthetic experience beyond the boundaries imposed by rationalized life and to transcend these limits in search of ecstasy. With the help of much unpublished or long-forgotten archival

material (including many little-known photographs), he investigates the process of constructing an "empire" of appropriative impulses toward ecstasy. Toepfer presents the work of such well-known figures as Rudolf Laban, Mary Wigman, and Oskar Schlemmer, along with less-known but equally fascinating body culture practitioners. His book is certain to become required reading for historians of dance, body culture, and modernism.

Sinner - Sierra Simone
2018-03-15

An Entertainment Weekly Top 10 Romance of 2018! I'm not a good man, and I've never pretended to be. I don't believe in goodness or God or any happy ending that isn't paid for in advance. In fact, I've got my own personal holy trinity: in the name of money, sex, and Macallan 18, amen. So when the gorgeous, brilliant Zenny Iverson asks me to teach her about sex, I want to say yes, I really do. Unfortunately, there are several reasons to say no-- reasons that even a very bad

man like myself can't ignore. 1. She's my best friend's little sister. 2. She's too young for me. Like way too young. 3. She's a nun. Or about to be anyway. But I want her. I want her even with my best friend and God in the way, I want to teach her and touch her and love her, and I know that makes me something much worse than a very bad man. It makes me a sinner. And it's those very sins that are about to save me... ***Sinner is a standalone companion to Priest about Father Bell's brother Sean. You do not have to read Priest or Midnight Mass to read Sinner***

The Child of Pleasure - Gabriele D'Annunzio 2006
Originally published in 1889, this work's protagonist Andrea Sperelli introduced the Italian culture to aestheticism and a taste for decadence. The young count seeks beauty, despises the bourgeois world, and rejects the basic rules of morality and social interaction. His corruption is evident in his sadistic superimposing of two women.

~~Botticelli Past and Present~~

Ana Debenedetti 2019-01-08
The recent exhibitions dedicated to Botticelli around the world show, more than ever, the significant and continued debate about the artist. *Botticelli Past and Present* engages with this debate. The book comprises four thematic parts, spanning four centuries of Botticelli's artistic fame and reception from the fifteenth century. Each part comprises a number of essays and includes a short introduction which positions them within the wider scholarly literature on Botticelli. The parts are organised chronologically beginning with discussion of the artist and his working practice in his own time, moving onto the progressive rediscovery of his work from the late eighteenth to the turn of the twentieth century, through to his enduring impact on contemporary art and design. Expertly written by researchers and eminent art historians and richly illustrated throughout, the broad range of essays in

Caribbean Literature in Transition, 1970-2020:

Volume 3 - Ronald Cummings

2021-02-28

The period from the 1970s to the present day has produced an extraordinarily rich and diverse body of Caribbean writing that has been widely acclaimed. Caribbean Literature in Transition, 1970-2020 traces the region's contemporary writings across the established genres of prose, poetry, fiction and drama into emerging areas of creative non-fiction, memoir and speculative fiction with a particular attention on challenging the narrow canon of Anglophone male writers. It maps shifts and continuities between late twentieth century and early twenty-first century Caribbean literature in terms of innovations in literary form and style, the changing role and place of the writer, and shifts in our understandings of what constitutes the political terrain of the literary and its sites of struggle. Whilst reaching across language divides and multiple diasporas, it shows how contemporary Caribbean Literature has focused its attentions on social complexity and ongoing

Writing and Performing Female Identity in Italian Culture -

Virginia Picchiotti 2017-01-28

This volume investigates the ways in which Italian women writers, filmmakers, and performers have represented female identity across genres from the immediate post-World War II period to the turn of the twenty-first century.

Considering genres such as prose, poetry, drama, and film, these essays examine the vision of female agency and self-actualization arising from

women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision.

Hematologies - Jacob

Copeman 2019-12-15

In this ground-breaking account of the political economy and cultural meaning of blood in contemporary India, Jacob Copeman and Dwaipayan Banerjee examine how the giving and receiving of blood has shaped social and political life. *Hematologies* traces how the substance congeals

political ideologies, biomedical rationalities, and activist practices. Using examples from anti-colonial appeals to blood sacrifice as a political philosophy to contemporary portraits of political leaders drawn with blood, from the use of the substance by Bhopali children as a material of activism to biomedical anxieties and aporias about the excess and lack of donation, *Hematologies* broaches how political life in India has been shaped through the use of blood and through contestations about blood. As such, the authors offer new entryways into thinking about politics and economy through a "bloodscape of difference": different sovereignties; different proportionalities; and different temporalities. These entryways allow the authors to explore the relation between blood's utopic flows and political clottings as it moves through time and space, conjuring new kinds of social collectivities while reanimating older forms, and always in a reflexive relation to norms that

A History of Celibacy -

Elizabeth Abbott 2001

Joan of Arc was one. So was Sir Isaac Newton. A monk vows to be one. A prisoner has no choice. History tells of many avowed celibates, and today's society reflects a renewed interest in celibacy. But what causes people to give up sex, the very activity that drives, fascinates, troubles, and delights so many of the rest of us? Elizabeth Abbott's exploration of celibacy debunks the traditionally held notion that celibacy is a predominantly religious concept of little concern to the secular world. Chosen or imposed for myriad reasons, celibacy actually is a practice that reveals a host of telling insights about our sexual desires and drives, as well as our changing attitudes toward religion, gender, and physical health. *A History of Celibacy* humanises celibacy through the ages, from the vestal virgins of ancient Rome who were entombed alive if they broke their vows, to

contemporary athletes who

conserve semen to enhance their game. While most people associate institutional celibacy with Catholicism, Abbott shows how virtually every culture and religion through history has incorporated it in some form. Her examples range from Judaism's rules regarding abstinence during menstruation to Hinduism's forced celibacy for widows. Written from a feminist perspective, the book paints a dual portrait of celibacy as both emancipator and enslaver of women and the poor. Yet the book's focus is not solely on women. It recounts for instance the forced castration of Italy's young male sopranos, and tells why impoverished Chinese boys and men became eunuchs for the Emperor. The extremes to which people will go to abstain from sexual activity or to prevent others from having sex is an intriguing thread through a serious book.

The Essential Cult TV

Reader - David Lavery

2021-09-15

The Essential Cult TV Reader is a collection of insightful essays that examine television shows that amass engaged, active fan bases by employing an

imaginative approach to programming. Once defined by limited viewership, cult TV has developed its own identity, with some shows gaining large, mainstream audiences. By exploring the defining characteristics of cult TV, The Essential Cult TV Reader traces the development of this once obscure form and explains how cult TV achieved its current status as legitimate television. The essays explore a wide range of cult programs, from early shows such as Star Trek, The Avengers, Dark Shadows, and The Twilight Zone to popular contemporary shows such as Lost, Dexter, and 24, addressing the cultural context that allowed the development of the phenomenon. The contributors investigate the obligations of cult series to their fans, the relationship of camp and cult, the effects of DVD releases and the Internet, and the globalization of cult TV. The Essential Cult TV Reader answers many of the questions surrounding the form while revealing emerging debates on

Crazy Like Us - Ethan Watters
2011-03-24

It is well-known that US culture is a dominant force and a world-wide phenomenon. But it is possible that its most troubling export has yet to be accounted for? America has been the world leader in generating new mental health treatments and modern theories: it exports psychopharmaceuticals and categorises disorders, thereby defining mental illness and health. The outcome of these efforts is just now coming to light: it turns out that the US has not only been changing the way the world talks about and treats mental illness -- it has been changing the mental illnesses themselves. Watters travels from China to Tanzania to bring home the unsettling conclusion that the virus is the US: as Americanized ways of treating mental illnesses are introduced, they are in fact spreading the diseases and
