

Lost Intimacies Rethinking Homosexuality Under National Socialism Gender Sexuality And Culture

The British National Bibliography - Arthur James Wells 2009

Sexuality in Premodern Europe - Franz X. Eder 2023-11-02

How did sexual relationships work before, in and outside of marriage in the pre-modern era? What problems did contraception and sexually transmitted diseases pose? How did people deal with prostitution and pornography back then? What were the possibilities for same-sex and queer desire and practice? Using numerous examples and sources from across the continent, *Sexuality in Premodern Europe* shows that even in earlier centuries, sexual life had an elementary significance for the coexistence of couples and communities. It was just as decisive for how individuals saw themselves and others as it was for maintaining the social, economic and political order. Franz X. Eder interestingly emphasises the socio-historical view of sexuality, offering an apt foil for the cultural perspective which is so prevalent in the field. In this book, sexual behaviour is understood and thought about as social practice. From this vantage point, Eder deals with the function of the sexual in upbringing and socialization, its significance for the image of men and women, its role in marriage initiation, and the importance of sexual life for marital relationships and concubinage. Deviant and discriminated sexual forms such as prostitution, pornography and same-sex acts are also addressed throughout. The book explores the ways in which many people gained sexual experiences before, besides or beyond marriage, even if these experiences were forbidden in former societies. While research into the history of sexuality has so far dealt with such forms of the sexual primarily from the point of view of regulation and sanctioning, here they are understood as 'positive' practices that allowed

people to understand and take ownership of their sexual desire.

Lost Intimacies - William J. Spurlin 2009

Lost Intimacies: Rethinking Homosexuality under National Socialism uses queer theory as a hermeneutic tool with which to read against the grain of heterotextual narratives of the Holocaust and as a way of locating alternative pathways of meaning in dominant Holocaust research. Specifically addressing the racialization of sexuality, the book asks how the politics of sexuality can be more explicitly and systematically theorized, along with state-sanctioned homophobia under Nazism, with a clear recognition that homophobia seldom operated alone, but worked in conjunction with other axes of power, including race, gender, eugenics, and population politics. In theorizing gender and sexuality as entangled axes of analysis, the book allows the specificity of lesbian difference to emerge and challenges the received wisdom that lesbians were not as systematically persecuted under National Socialism. William J. Spurlin questions the wisdom of received scholarship that reduces Nazi fascism to latent homosexuality, and examines the possible implications of Nazi homophobia, and its imbrication with other deployments of power, for the study of contemporary culture where the homophobic impulse continues to reverberate, thereby challenging understandings of history steeped in notions of progressive modernity.

Gendering Border Studies - Jane Aaron 2010-06-15

The study of borders has recently undergone significant transitions, reflecting changes in the functions of boundaries themselves, as the world political map has experienced transformations. Gender (defined as the knowledge about perceived distinctions between the sexes) is an

important signifier of borders as constructed and contested lines of differences. In the interplay with other categories of difference like class, race, ethnicity, and religion, it plays a major role in giving meaning to different forms of borders. It is not surprising, then, that an increasing number of studies in the last years have aimed for a gendering of border studies. This book explores this new interdisciplinary field and develops it further. The main questions it asks are: How do we define 'borders', 'frontiers' and 'boundaries' in different disciplinary approaches of gendered border studies? What were and are the main fields of gendered border studies in different fields? What might be important questions for future research? And how useful is an inter- or transdisciplinary approach for gendered border studies? Sixteen established scholars from various disciplines contribute chapters in which they set out how the issue of gender and borders has been approached in their discipline and describe what they expect from future research.

Queer Budapest, 1873-1961 - Anita Kurimay 2020

"By the dawn of the twentieth century Budapest was on its way to becoming a cosmopolitan metropolis. The 'Pearl of the Danube' boasted some of Europe's most beguiling architectural achievements, and its growing middle class was committed to advancing the city's liberal politics, fostering its centrality as an intellectual and commercial crossroads between East and West. As historian Anita Kurimay reveals, fin-de-siècle Budapest was also famous for its boisterous public sexual culture-including a robust homosexual subculture. *Queer Budapest, 1873-1961* is her riveting story of non-normative sexualities in Hungary as they were understood, experienced, and policed between the birth of the its capital as a unified metropolis in 1873 and the decriminalization of male homosexual acts in 1961. A stunning reappraisal of sexuality between East and West, *Queer Budapest, 1873-1961* demolishes myths identifying queer life with the failures of late-twentieth-century liberalism and instead recuperates queer sociality as an integral part of Budapest's-and Hungary's-modern incarnation"--

Alles erforscht? - Susanne Wein 2013-05-30
Beim vorliegenden Literaturbericht nebst

zugehöriger Bibliografie handelt es sich um historisch-politische Grundlagenforschung. Eine solche Studie zum Nationalsozialismus in Württemberg und Hohenzollern existiert bisher nicht. Die Berliner Historikerin Susanne Wein beschreibt zunächst die Entwicklungslinien und Zäsuren, wie und in welcher Form seit 1945 an den Nationalsozialismus in der Region erinnert wurde. Dabei stellt sie fest, dass sich systematische Aufarbeitung und deutlich gesteigertes, anhaltendes Interesse am Nationalsozialismus in Stuttgart und Württemberg erst seit den 1980er Jahren beobachten lassen. Die Abschnitte im Literaturbericht haben ihre Entsprechung in den Kapiteln der weit umfangreicheren Bibliografie. Aufgrund der Komposition von einführendem Literaturbericht und Bibliografie ist eine gelungene Handreichung entstanden, die ehrenamtliche und akademische Forschung gleichermaßen befruchtet wird.

Comparatively Queer - Jarrod Hayes 2010-09-15
These innovative essays take a comparative approach to queer studies while simultaneously queering the field of comparative literature, strengthening the interdisciplinarity of both. By focusing not only on comparative praxis, but also on interrogating our assumptions and categories of analysis, *Comparatively Queer* powerfully transforms the paradigms of comparison.

Queer in Europe during the Second World War - Régis Schlagdenhauffen 2018-09-18

At the height of the Second World War, Switzerland decriminalised homosexuality. At the same time, France chose to introduce a law punishing homosexual relationships in certain circumstances. These two examples illustrate contradictory attitudes adopted by European states towards homosexuals during the Second World War. Going beyond the issue of the persecution of homosexuals and the central role played by Nazi Germany between 1939 and 1945, this book is the first to examine the daily lives of homosexual men and women in wartime. By bringing together European specialists on the subject, it relates a different history, one which was indeed marked by repression but also by enlistment in armies at war and resistance groups, not to mention collaboration. Chapter by chapter, it enables us to better understand why the Second World War was a turning point for

gays and lesbians in Europe and why our continent is a leader in the fight against discrimination. For the Council of Europe, this book contributes to two separate programmes, the Passing on the Remembrance of the Holocaust and Prevention of Crimes against Humanity programme and the Promoting Human Rights and Equality for LGBT People programme, within the framework of Committee of Ministers Recommendation CM/Rec(2010)5 on combating discrimination on grounds of sexual orientation or gender identity programme. It also continues work towards acknowledging all of the victims of the Nazi regime. Régis Schlagdenhauffen is a lecturer at the École des hautes études en sciences sociales (EHESS), head of the gender-based social history department, member of the Laboratory of Excellence "Writing a new history of Europe" (LabEx EHNE) and co-author of the Council of Europe pedagogical factsheets for teachers entitled "Victims of Nazism. A mosaic of fates" (2015).

Genocide and Gender in the Twentieth Century - Amy E. Randall 2022-01-13

Focusing on events in Rwanda, Armenia, and the former Yugoslavia as well as the Holocaust, *Genocide and Gender in the Twentieth Century* investigates how historically- and culturally-specific ideas led to genocidal sexual violence. Expert contributors also consider how these ideas, in conjunction with issues relating to femininity, masculinity and understandings of gendered identities, contributed to perpetrators' tools and strategies for ethnic cleansing and genocide. The 2nd edition features: * Five brand new chapters which explore: imperialism, race, gender and genocide; the Cambodian genocide; memory and intergenerational transmission of Holocaust trauma; and genocide, gender and memory in the Armenian case. * An extended and enhanced introduction which makes use of recent scholarship on gender and violence. * Historiographical and bibliographical updates throughout. * Key primary document - excerpt from the 1948 UN Convention on the Prevention and Punishment of Genocide. Updated and revised in its second edition, *Genocide and Gender in the Twentieth Century* is the authoritative study on the complex gender dimensions of ethnic cleansing and genocide in

the 20th century.

Private Life and Privacy in Nazi Germany -

Elizabeth Harvey 2019-07-18

Highlights the surprising ways in which the Nazi regime permitted or even fostered aspirations of privacy.

The Fury Archives - Juno Jill Richards 2020-08-11

In the late nineteenth and early twentieth centuries, radical women's movements and the avant-gardes were often in contact with one another, brought together through the socialist internationals. Juno Jill Richards argues that these movements were not just socially linked but also deeply interconnected. Each offered the other an experimental language that could move beyond the nation-state's rights of man and citizen, suggesting an alternative conceptual vocabulary for women's rights. Rather than focus on the demand for the vote, *The Fury Archives* turns to the daily practices and social worlds of feminist action. It offers an alternative history of women's rights, practiced by female arsonists, suffragette rioters, industrial saboteurs, self-named terrorists, lesbian criminals, and queer resistance cells. Richards also examines the criminal proceedings that emerged in the wake of women's actions, tracing the way that citizen and human emerged as linked categories for women on the fringes of an international campaign for suffrage. Recovering a transatlantic print archive, Richards brings together a wide range of activists and artists, including Lumina Sophie, Ina Césaire, Rosa Luxemburg, Rebecca West, Angelina Weld Grimké, Elizabeth Gurley Flynn, Hannah Höch, Claude Cahun, Paulette Nardal, and Leonora Carrington. An expansive and methodologically innovative book, *The Fury Archives* argues that the relationship of women's rights movements and the avant-gardes offers a radical alternative to liberal discourses of human rights in formation at the same historical moment.

Undoing Gender - Judith Butler 2004-10-22

Undoing Gender constitutes Judith Butler's recent reflections on gender and sexuality, focusing on new kinship, psychoanalysis and the incest taboo, transgender, intersex, diagnostic categories, social violence, and the tasks of social transformation. In terms that draw from feminist and queer theory, Butler considers the

norms that govern--and fail to govern--gender and sexuality as they relate to the constraints on recognizable personhood. The book constitutes a reconsideration of her earlier view on gender performativity from *Gender Trouble*. In this work, the critique of gender norms is clearly situated within the framework of human persistence and survival. And to "do" one's gender in certain ways sometimes implies "undoing" dominant notions of personhood. She writes about the "New Gender Politics" that has emerged in recent years, a combination of movements concerned with transgender, transsexuality, intersex, and their complex relations to feminist and queer theory.

Profit and Pleasure - Rosemary Hennessy
2002-06

Drawing on an international range of examples, from Che Guevarra to "The Crying Game," *Profit and Pleasure* leads the discussion of sexuality to a consideration of material reality and the substance of men and women's everyday lives.

Reclaiming the Heartland - Karen Lee Osborne
1996

This important and diverse new collection by writers and artists who have lived in the Midwest presents a wide range of fiction, poetry, memoir, essays, and photography, adding a vital point of view to the canon of lesbian and gay literature.

Forget Burial - Marty Fink 2020-11-13

Queers and trans people in the 1980s and early '90s were dying of AIDS and the government failed to care. Lovers, strangers, artists, and community activists came together take care of each other in the face of state violence. These early HIV care-giving narratives continue to shape how we understand our genders and our disabilities, forming ongoing chosen families for body self-determination.

The Queer Art of History - Jennifer V. Evans
2023-03-17

In *The Queer Art of History* Jennifer V. Evans examines postwar and contemporary German history to broadly argue for a practice of queer history that moves beyond bounded concepts and narratives of identity. Drawing on Black feminism, queer of color critique, and trans studies, Evans points out that although many rights for LGBTQI people have been gained in Germany, those rights have not been enjoyed

equally. There remain fundamental struggles around whose bodies, behaviors, and communities belong. Evans uses kinship as an analytic category to identify the fraught and productive ways that Germans have confronted race, gender nonconformity, and sexuality in social movements, art, and everyday life. Evans shows how kinship illuminates the work of solidarity and intersectional organizing across difference and offers an openness to forms of contemporary and historical queerness that may escape the archive's confines. Through forms of kinship, queer and trans people test out new possibilities for citizenship, love, and public and family life in postwar Germany in ways that question claims about liberal democracy, the social contract, and the place of identity in rights-based discourses.

A Companion to the Holocaust - Simone Gigliotti
2020-06-02

Provides a cutting-edge, nuanced, and multi-disciplinary picture of the Holocaust from local, transnational, continental, and global perspectives Holocaust Studies is a dynamic field that encompasses discussions on human behavior, extremity, and moral action. A diverse range of disciplines - history, philosophy, literature, social psychology, anthropology, geography, amongst others - continue to make important contributions to its scholarship. *A Companion to the Holocaust* provides exciting commentaries on current and emerging debates and identifies new connections for research. The text incorporates new language, geographies, and approaches to address the precursors of the Holocaust and examine its global consequences. A team of international contributors provides insightful and sophisticated analyses of current trends in Holocaust research that go far beyond common conceptions of the Holocaust's causes, unfolding and impact. Scholars draw on their original research to interpret current, agenda-setting historical and historiographical debates on the Holocaust. Six broad sections cover wide-ranging topics such as new debates about Nazi perpetrators, arguments about the causes and places of persecution of Jews in Germany and Europe, and Jewish and non-Jewish responses to it, the use of forced labor in the German war economy, representations of the Holocaust witness, and many others. A masterful framing

chapter sets the direction and tone of each section's themes. Comprising over thirty essays, this important addition to Holocaust studies: Offers a remarkable compendium of systematic, comparative, and precise analyses Covers areas and topics not included in any other companion of its type Examines the ongoing cultural, social, and political legacies of the Holocaust Includes discussions on non-European and non-Western geographies, inter-ethnic tensions, and violence A Companion to the Holocaust is an essential resource for students and scholars of European, German, genocide, colonial and Jewish history, as well as those in the general humanities.

The Far Right Today - Cas Mudde 2019-10-25

The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies - Brazil, India, and the United States - now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and

consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.

Contested Borders - William J. Spurlin

2022-06-06

Contested Borders broadens understandings of dissident sexualities in Africa through focusing specifically on the Maghreb. It examines new representations of same-sex desire emerging in new francophone life writing, memoir, and literature from Algeria, Morocco, and Tunisia.

IBSS: Sociology: 2009 Vol. 59 - Compiled by the British Library of Polit 2010-11

First published in 1952, the International Bibliography of the Social Sciences (anthropology, economics, political science, and sociology) is well established as a major bibliographic reference for students, researchers & librarians.
