Leveraging Library Resources in a World of Fiscal Restraint and Institutional Change - Kevin

B. Gunn 2013-09-13

Given the continuing cataclysmic shift in the economic landscape in the last few years, librarians have been forced to reevaluate not only the traditional services that they offer but also their continued existence and relevance to their academic institutions. Given the 'new normal' of tighter constraint on personnel and materials budgets, librarians now are compelled to find new ways of offering services and forging new relationships with departments and programs outside the traditional library setting. This volume highlights a number of projects being implemented in academic

libraries including: rethinking the entire concept of a library, redefining physical space for new collaborative uses, adapting entrepreneurial techniques to acquire funding, creating new research tools and improving services, forging new consortial partnerships, allying more closely the mission of the library with that of the institution, and adapting public library programs to academic libraries. By re-examining the purpose of an academic library under continuing financial duress, librarians can ensure that their libraries will continue to have relevance to higher education. This book was published as a special issue of *College & Undergraduate Libraries*. [Smart Money Smart Kids](#) - Dave Ramsey 2014-04-22
In *Smart Money Smart Kids*,

Financial expert and best-selling author Dave Ramsey and his daughter Rachel Cruze equip parents to teach their children how to win with money. Starting with the basics like working, spending, saving, and giving, and moving into more challenging issues like avoiding debt for life, paying cash for college, and battling discontentment, Dave and Rachel present a no-nonsense, common-sense approach for changing your family tree.

The Illusion of Money - Kyle Cease 2022-08-16

New York Times best-selling author and comedian-turned-motivational speaker, Kyle Cease, shows how your obsession with money is actually preventing you from living the life of your dreams. "I can't afford that." "Now's not the right time . . . I need to save up." "Quit my job? Are you nuts?!" Sound familiar? Money is one of the biggest excuses we make to not go after what we really want. Our fixation with money--the desire for more of it, and the fear of not having enough of it--is often

really just a longing to feel safe. But this obsession with money is coming at a much bigger cost: our sanity, our creativity, our freedom, and our ability to step into our true power. This book is about eliminating the need to seek safety through the illusion of money, and learning to see ourselves for the perfection that we are--so that we can bring our gifts to the world in an authentic way, and allow ourselves to receive massive, true abundance as a result. Kyle Cease has heard excuses like the ones above countless times at his live events, and he has shown people how to completely break through them. In *The Illusion of Money*, he shares his own experiences as well as practical tools to help readers understand their ingrained beliefs and attachments to money, and how they can tap into our infinite assets and talents. "After 25 years as a successful comedian, actor, transformational speaker, author and junior-league amateur bowler, I've

experienced many times how chasing money is not an effective way to create an abundant and fulfilling life. The most alive I've ever felt was after I left my comedy career at its peak to become a transformational speaker. I left tons of guaranteed money and so-called security for a complete unknown. It was terrifying--but what was on the other side of that terror was a completely different life that is not only more abundant financially, but has more freedom, more ease, more passion, more impact and more joy." -- Kyle Cease

Totally Tweens and Teens -

Diane P. Tuccillo 2020-04-30

The library programs featured in this unique collection are those that have been suggested, created, and led by youth with the help and guidance of the supportive adults at their library. Many times, librarians bring ideas to teens in hopes of getting them to buy in and perhaps help them to run programs. In this book, you'll primarily find a role reversal! Tweens and teens lead the way with whatever adult information, support, and supervision they need to see their proposals through. To accomplish this, the youth are encouraged to create new ideas, are empowered to make decisions, and are given control. Plus, the ideas they bring to life are not just peer-focused. The programs, activities, and events they create and lead can

be for children, adults, or even for all ages or mixed audiences, as well as for fellow tweens and teens. In addition to finding a wide array of proven ideas, recommendations, and testimonials from real tweens and teenagers, you will discover helpful advice on using the philosophies behind allowing youth to not only have a say but to take action; testimonials from adults who have worked directly with youth having this level of empowerment; suggestions on getting approval and providing funding and other support for youth ideas; ways to evaluate such youth-led programs; and sample forms, flyers, and other materials that can be adapted.

Lying for Money - Dan Davies
2021-03-09

An entertaining, deeply informative explanation of how high-level financial crimes work, written by an industry insider who's an expert in the field. The way most white-collar crime works is by

manipulating institutional psychology. That means creating something that looks as much as possible like a normal set of transactions. The drama comes later, when it all unwinds. Financial crime seems horribly complicated, but there are only so many ways you can con someone out of what's theirs. In Lying for Money, veteran regulatory economist and market analyst Dan Davies tells the story of fraud through a genealogy of financial malfeasance, including: the Great Salad Oil swindle, the Pigeon King International fraud, the fictional British colony of Poyais in South America, the Boston Ladies' Deposit Company, the Portuguese Banknote Affair, Theranos, and the Bre-X scam. Davies brings new insights into these schemes and shows how all frauds, current and historical, belong to one of four categories ("long firm," counterfeiting, control fraud, and market crimes) and operate on the same basic principles. The only elements

that change are the victims, the scammers, and the terminology. Davies has years of experience picking the bones out of some of the most famous frauds of the modern age. Now he reveals the big picture that emerges from their labyrinths of deceit and explains how fraud has shaped the entire development of the modern world economy.

How to Make Money - a Handbook for Teens, Kids and Young Adults - Sarah Brown 2015-12-18

A Homeschooling Curriculum for Economics, Social Studies and Career Planning. Recommended for Grades 7th to 12th. This is a very unique curriculum that serves a very practical purpose! Instead of learning irrelevant facts about social studies and economics, your student is digging deep into over 80 different careers and income generating hobbies. The workbook is so much fun that students will not realize that they are doing school work. This career planning handbook will help teens to catch a vision for the future. Many career planning books focus ONLY on occupations that require years of college education and mounds of student loans and debt. This book is different. We will introduce your young entrepreneurs to a variety of business ideas that can help them to be self-sufficient without loads of debt and years of school. They can even earn their own money while obtaining an education that will help them to meet their long term goals. We ask serious

questions to get your student thinking, like: "What Do You Want to Be When You Grow Up?" AND "What Do You Want to Be Now?" The options are endless... From Dishwashers to Doctors, from Dog Walkers to Designers, Florists, Professional Cat Breeders, Sound Engineers and Music Teachers... the options are vast and interesting! Learn How to Stop Dreaming and Start Doing Something with Your Life! If you are a parent of a teen, this book will help your son or daughter to plan a course that starts now, and helps them to be ready to support themselves and their future families. If you are ready to help your children to be self-sufficient this book will give them the vision, guidance and direction that they need to make the next step, and the next step and the next step. The only step you need to take is the one that gets this book into their hands. Most career planning books depend on parent to paying thousand of dollars for education, and expect parents to house and feed kids until

age 28. This career planning book costs less than \$30 and sets you free from a future plagued with dirty laundry, messy rooms, pizza boxes and guilt over a child who has no motivation to take life seriously. Maybe you are afraid of having an empty nest, but you need to give your child freedom and push them out of the nest like a good mother bird. You can do this. If you give this book to a young child

or teen they will learn how to be very productive at a young age, and have vision for the years to come. If you are homeschooling this book can be used for one or two semesters of Social Studies for Middle School or High School. This one book could be a turning point in your child's life because everyone needs to develop a vision for the future, chart a course to follow, and a create a plan to act upon, starting now.
