[A Curious Mind Expanded Edition](#) - Brian Grazer 2023-11-28

In this specially combined edition with a new foreword, Academy Award-winning producer Brian Grazer and acclaimed author Charles Fishman blend their insights from bestselling books *A Curious Mind* and *Face to Face* to transform the art of connecting with and through curiosity. In *A Curious Mind*, deemed “a captivation account of how the simple act of asking questions can change your life” by Malcolm Gladwell, Grazer offers a brilliant peek into the “curiosity conversations” that inspired him to create some of the world’s most iconic movies and television shows. He shows how curiosity has been the “superpower” that fueled his rise as one of Hollywood’s leading producers and creative visionaries. And in the captivating follow-up *Face to Face*, Grazer reveals that the secret to a more fulfilling life lies in personal connections, sparked through curiosity, learning through his interactions with people like Taraji P. Henson, Bill Gates, Barack Obama, Eminem, and Prince. Now with a new foreword with fresh insights about curiosity from the last decade, *A Curious Mind Expanded* invites you to consider your personal journey of human connection. A fascinating page-turner, this combined edition offers a blueprint for how we can awaken our own curiosity and use it as a superpower in our own lives.

[Zoom for Teachers 2020](#) - Beverly Brown 2020-11-08

From the author of *Zoom for Beginners* comes a starting guide geared specifically for teachers. Zoom's functionality and host of built-in collaboration tools are examined from the perspective of schoolmen and teachers alike, acknowledging both those working for an institution such as a college or high school, as well as the more entrepreneurial educators who prefer to tutor privately. Zoom is an increasingly-popular piece of video-conferencing software that helps millions of people come together worldwide. From small businesses to grand organizations, Zoom is there to enable face-to-face communication across any distance. As a teacher, you likely understand the importance of body language and facial expression when trying to ensure that a lesson sinks into a student's brain; even more so if you've ever had to grade an oral presentation. You are likely painfully aware that emails or phone calls just do not cut it when trying to give assignments to students remotely, as several of the tools required to make an engaging and impactful session simply do not transfer through. Even if you're the best transactional writer in the world, how do you reinforce the right tone for all of your students? How do you ensure that an academic atmosphere will manifest in a student's home or apartment when you're trying to communicate from many miles away? Some learn better through reading, some through listening, and some through observing. Through Zoom's high-quality video rendering, screen-sharing, and annotation features you will give your students the opportunity to learn through observation. Zoom's crisp audio and ability to let you interface with hundreds of students at once will ensure that you can give your classes the opportunity to learn through listening. And for those who prefer reading, or those who were ill or lost connectivity? Through this book, you can learn how to record your Zoom meetings, letting you send audio and video files containing your lesson to students, so that they may write down their own notes on them. As a teacher, this book will show you: How to set up your very own virtual classrooms using Zoom How you can use Zoom's tools to ensure class discipline, much like if you were there yourself How to use Zoom's Breakout Rooms to facilitate group projects How to keep your online meetings safe and secure for your students How easy it can be for anyone to join a Zoom meeting, even if they've never used the application before How to get the most out of Zoom's extensive list of ensuite tools How to easily share Powerpoints, PDFs, Word documents ... and more! For

both teaching and revision, learning to use Zoom properly will help you keep your education needs covered.

So, What Are You Waiting For? Purchase this book, and find out how to help Zoom help you today!

[The Road Forward](#) - Carla Bailo 2021-04-22

Carla Bailo, CEO of the Center for Automotive Research, and Terry Barclay, CEO of Inforum, bring together over 70 of the most influential women in the automotive industry to share their insight and advice. As with their first book, *The Road to the Top*, Bailo and Barclay interview women in positions of leadership throughout the industry from suppliers, to OEMs and academia. *The Road Forward* provides insight and advice to all professionals on the impact of the COVID pandemic by sharing their thoughts of the road ahead and what changes they have experienced professionally, personally, and socially. In addition, the leaders discuss resilience, professional network maintenance and growth, personal growth, diversity and inclusion, and sustainability.

[Separation Anxiety in Dogs](#) - Malena DeMartini-Price, CTC 2020-10-23

It has now been six years since the release of Malena DeMartini-Price’s best selling first book, *Treating Separation Anxiety in Dogs*. Not one to rest on her laurels, Malena has been busy teaching and mentoring dog trainers worldwide to become Certified Separation Anxiety Trainers (CSAT). Working in collaboration with a large network of trainers to collect data and conduct research, new strategies have been developed on many of the key elements of treating separation anxiety. Now, in a completely new book, Malena share these strategies for the use of current technologies, no absence management, and improved desensitization techniques. Any trainer or guardian dealing with separation anxiety will find this book a valued resource.

[Global Media Arts Education](#) - Aaron D. Knochel 2022-10-22

This edited volume broadens the understanding of the media arts at a global scale bringing together practices and ideas from artists and art educators from around the world. Authors explore issues of cultural and social diversity in fields of education, media theory, and critical theories of education and pedagogy with particular attention to digital technologies' impact on visual arts learning. Researchers utilize a range of methodologies including participant-researcher ethnographies, action research, case study, and design based research. These artists and art educators share new research about the pedagogical and theoretical aspects of media arts in educational systems that are facing unprecedented change. This volume begins to map why and how experts are working within networked society and playing with digital innovations through media arts education as a critical and creative practice.

[Innovation for Entrepreneurs](#) - Meyer, Marc H. 2022-04-22

Innovation for Entrepreneurs presents a powerful but easy to apply toolkit for innovation, based on Professors Meyer and Lee’s decades of experience as company founders and innovators for corporations around the globe. This textbook includes guidance in developing new product and service ideas with genuine impact, building teams around these ideas, understanding customers’ needs, translating these needs into compelling product and service designs, and creating initial prototypes. It also helps students learn how to scope and size target markets and position an innovation successfully relative to competitors. These methods are fundamental for any new, impactful venture.

[Enhancing Higher Education Accessibility Through Open Education and Prior Learning](#) - Stevenson, Carolyn N. 2021-02-05

Institutions of higher learning are providing access to free and low-cost open resources to support students with prior college-level learning during every step of their educational journey. This unconventional approach to education removes traditional barriers to college credit by placing learners in an open environment, which encourages accessibility to higher education and fosters independent and critical thinking. By providing learners with free resources, more learners have the resources needed to be successful in college. Prior learning assessment is an excellent way for students to demonstrate the skills and knowledge gained throughout the course of their lives. By developing a portfolio of artifacts that support prior learning outside of the classroom, learners reduce the time and money needed to complete a degree. Open educational resources, prior learning assessment, and competency-based learning offer the potential to provide access to higher education to those who may not have the opportunity to earn a college degree. As the costs of higher education continue to rise, these flexible, open approaches to learning can bridge the equity gap and provide more opportunity to earn a college degree. *Enhancing Higher Education Accessibility Through Open Education and Prior Learning* provides a comprehensive resource book on open resources and prior learning in order to provide access and equity to higher education. The chapters pull together resources and case studies that exemplify alternative means to higher education. Highlighted topics within this book include remote e-learning, online fundraising, smart learning and assessments, effective learning, and faculty mentorship. This book is essential for curriculum designers; administrators; policymakers; government executives; professors and instructors in higher education; students; researchers in adult education, competency-based education, social justice, and open educational resources; and practitioners interested in open educational resources and accessibility in higher education.

[Higher Education Beyond COVID](#) - Regan A. R. Gurung 2023-11-14

This book illustrates how higher education responded to the COVID-19 pandemic and grew from it. The pandemic impacted faculty development, drew a greater focus on the measurement of effective teaching in higher education, and provided a better understanding of what was needed to better aid educators in colleges and universities nationwide. The stage is set for a more resilient higher education with chapters illustrating new paradigms and promise. Three themes are highlighted throughout this volume. Authors underscore the need to explore different modalities of delivery for faculty development and instruction, to enhance the leverage of technology in course design, and to refine faculty development for holistic development. Pulling together empirical data on college faculty administration, and student responses to the pandemic, chapter authors address the unique issues faced by educators and highlight successes and challenges in working with existing Centers for Teaching and Learning (CTLs) and information technology structures. Featuring contributions from diverse institutions, each chapter provides specific guidelines and recommendations for higher education to set the stage for innovation and change. Laying the groundwork for the design of more effective models of faculty development for higher education, this book is a valuable resource for higher education administrators and faculty to improve higher education going forward.

[Read the Zoom](#) - 2021-11-25

Read the Zoom illustrates how to observe and interpret facial expressions and body language in virtual meetings. It is photo-driven to quickly show executives what to look for and what to do when they observe specific nonverbal signals. This means readers can learn strategies proven to uncover issues while they are still in their virtual meeting. Melinda is able to pull from actual business scenarios, where results are proven, because she has more than 30 years of experience consulting on key issues at the highest levels of organizations. Melinda's consulting and speaking engagements have given her experience with a full range of business issues that come up for publicly traded companies and large municipal institutions as well as for regional and large local companies. This has given her insights into the deeper, behind-the-scenes factors that influence big decisions. She shows how reading facial expressions and body language in virtual meetings can provide valuable insights, leading to better decisions and higher "win rates" in business.

[Adapting Curriculum to Bridge Equity Gaps Towards an Inclusive Curriculum](#) - OECD 2021-05-11

This report takes a pragmatic look at equality, equity and inclusion in curriculum. It examines how curriculum can be adapted to meet specific needs of diverse learners, particularly vulnerable students. It also features a range of strategies which countries use to design curriculum, so that no student will be left behind.

The Kaleidoscope of Lived Curricula - Karin Ann Lewis 2021-11-01

Within the context of recent, and ongoing, plural pandemics such as COVID-19 up/ending lives, social and racial chaos and catastrophe, political pressures, and economic convulsions, *The Kaleidoscope of Lived Curricula: Learning Through a Confluence of Crises* offers a journey through a collection of scholarly reflective creative pieces--stories of lived curricula. Like a kaleidoscope filled with loose pieces of simple colored glass and objects transforming into an infinite variety of beautiful forms and patterns with the slightest turn, the collection of pieces in this book reflect images of the sky that nurtures life; sun that illuminates understanding; earth that shifts and grounds us; fire that is primal, intending to spark and extend curricular and pedagogical conversations and understandings. This book provides a lens through which to observe and experience how plural pandemics shifted the lived curricula--the colored glass and objects in the lives of others--to surface, contextualize, confront, and curate challenges, as well as celebrate the courageous and elevate and empower marginalized groups to relate, learn, and heal through stories of lived curricula. This beautiful collection brings readers to an awareness, understanding, and appreciation of the lived curricula unlike they have ever experienced before.

Digital Body Language - Erica Dhawan 2021-05-11

An instant Wall Street Journal Bestseller The definitive guide to communicating and connecting in a hybrid world. Email replies that show up a week later. Video chats full of "oops sorry no you go" and "can you hear me?!" Ambiguous text-messages. Weird punctuation you can't make heads or tails of. Is it any wonder communication takes us so much time and effort to figure out? How did we lose our innate capacity to understand each other? Humans rely on body language to connect and build trust, but with most of our communication happening from behind a screen, traditional body language signals are no longer visible -- or are they? In *Digital Body Language*, Erica Dhawan, a go-to thought leader on collaboration and a passionate communication junkie, combines cutting edge research with engaging storytelling to decode the new signals and cues that have replaced traditional body language across genders, generations, and

culture. In real life, we lean in, uncross our arms, smile, nod and make eye contact to show we listen and care. Online, reading carefully is the new listening. Writing clearly is the new empathy. And a phone or video call is worth a thousand emails. Digital Body Language will turn your daily misunderstandings into a set of collectively understood laws that foster connection, no matter the distance. Dhawan investigates a wide array of exchanges—from large conferences and video meetings to daily emails, texts, IMs, and

conference calls—and offers insights and solutions to build trust and clarity to anyone in our ever changing world.
