Wake Up Crazy World! Thomas Vincent Murphy 2014-03-19 Over the years, Hollywood has learned the secret of how to captivate our minds through the art of make-believe. Life in our world has become so unpredictable and uncertain, that it has become hard to distinguish between real-life and make-believe. It's time for God's true people to "wake up," and distance themselves as much as possible from the perils of a negative world; and take time to live a life filled with hope and promise. Putting our trust in God, loving and enjoying our families, respecting others and showing appreciation to our friends can put us in the frame of mind to continuously thank God for the precious time He has allowed us on this earth. Thomas Vincent Murphy has been involved in the music industry as a writer, arranger, producer and performer. He has been a major part of many music projects and productions. His peers, the public and the critics have given him high marks; but his desire to please God keeps him humble in a world filled with arrogant people. He has worked closely with radio and television for years by writing jingles, music for television commercials seen worldwide, being music director for a television program, and by hosting and being the executive producer of his own radio programs. His Christian variety program "Murph's Positive Reflections" is being heard worldwide in individual markets and by advanced satellite technology and the internet. He enjoys broadcasting his "live" weekly program from "The Broadcast Center" in NW Florida each Sunday; which is a varied version of the worldwide program. As a newspaper columnist, he's able to reach people with positive messages each week through his writings. Thomas is thankful to God for his family, many blessings, gifts and opportunities.

Butterflies on a Sea Wind Anne Rudloe 2012-11-06 This memoir by a marine biologist "sings the life of a beginning Zen practitioner. . . [with] a haunting, beautiful appreciation of the natural world." (Publishers Weekly) Anne Rudloe was attracted to Zen as a college student. But it seemed premature for a twenty-one-year-old to focus on the difficulties of life when she'd hardly begun to live. Twenty-five years later, she was ready to explore the spiritual discipline that originated in Asian monasteries more than a millennium ago. Rudloe's quest is compellingly chronicled in *Butterflies on a Sea Wind*, which combines the rigor of formal monastic Zen practice with the challenges of integrating Zen concepts into modern daily life. Her narrative describes both the physical and mental demands of Zen retreats and how she applied what she learned there to her work as a marine biologist in Florida, as well as to the rigors of raising children and caring for an elderly grandmother. In words that intimately draw in her readers, she describes how Zen helps us look inward and use the wisdom we find there to reach out to others. During the 1990s, the number of organized Buddhist centers in this country grew more than 40 percent, from 429 to 1,062. While there are many books about Zen on the market today, few give a clear picture of what it's like to actually sit down and begin a meditation practice and then apply it to a daily life. Likewise, few books discuss the types of issues most people face every day: raising a family and earning a living. *Butterflies on a Sea Wind* does all this and more.

An Editor's Tales Anthony Trollope 2021-02-11 "An Editor's Tales" describes a series of encounters between various magazine editors and those who wish to have their works published. While containing some amusing bits, the tales are relatively grim compared to most Trollope stories. In "The Turkish Bath", an editor, upon visiting a Turkish bath, is accosted by an Irish stranger, who, after some conversation, requests to submit a manuscript to the magazine. The editor's reactions to the solicitation and subsequent familiarity with the writer's circumstances forms the frame of the story. Humor arises about the Turkish bath situation and the reluctance of editors to make themselves available to amateur writers. "Mary Gresley" is the rather sad tale of a young girl's giving up her writing career to satisfy the deathbed wish of the curate she was engaged to. The editor in this tale (and also in the next) becomes rather involved emotionally with the girl and wishes her to continue writing. "Josephine de Montmorenci" is actually the proposed pen name of a disabled young lady, who only becomes acquainted with the editor because her attractive sister-in-law initially pretends to be that author. "The Panjandrum" (meaning "appearing to be important") is a magazine proposed by a group of literate but incompatible, inexperienced, would-be writers. The clash of personalities brings about the demise of the venture. "The Spotted Dog" is the story of a writer down on his luck. He and his wife drink excessively. He's well educated and the editor offers him the task of indexing the work of a third person, but his drunken wife destroys the manuscript. "Mrs. Brumby" is the most amusing of the tales. In this one the editor encounters a poor writer who is, unfortunately for him, also a remarkably aggressive and ambitious woman. Anthony Trollope (1815-1882) was one of most successful British authors of the Victorian era. He has written more than forty novels, as well as many short stories and travelogues. Trollope was also an editor and an active member of the London literary scene. Among his most notable works is the series "The Chronicles of Barsetshire", a series of six novels set in fictional Barsetshire.

Emmett Till Devery S. Anderson 2015-08-18 *Emmett Till: The Murder That Shocked the World and Propelled the Civil Rights Movement* offers the first, and as of 2018, only comprehensive account of the 1955 murder, the trial, and the 2004-2007 FBI investigation into the case and Mississippi grand jury decision. By all accounts, it is the definitive account of the case. It tells the story of Emmett Till, the fourteen-year-old African American boy from Chicago brutally lynched for a harmless flirtation at a country store in the Mississippi Delta. Anderson utilizes documents that had never been available to previous researchers, such as the trial transcript, long-hidden depositions by key players in the case, and interviews given by Carolyn Bryant to the FBI in 2004 (her first in fifty years), as well as other recently revealed FBI documents. Anderson also interviewed family members of the accused killers, most of whom agreed to talk for the first time, as well as several journalists who covered the murder trial in 1955. Till's murder and the acquittal of his killers by an all-white jury set off a firestorm of protests that reverberated all over the world and spurred on the civil rights movement. Like no other event in modern history, the death of Emmett Till provoked people all over the United States to seek social change. Anderson's exhaustively researched book was also the basis for the ABC miniseries *Women of the Movement*, which was written/executive-produced by Marissa Jo Cerar; directed by Gina Prince-Bythewood, Tina Mabry, Julie Dash, and Kasi Lemmons; and executive-produced by Jay-Z, Jay Brown, Tyran "Ty Ty" Smith, Will Smith, James Lassiter, Aaron Kaplan, Dana Honor, Michael Lohmann, Rosanna Grace, Alex Foster, John Powers Middleton, and David Clark. For over six decades the Till story has continued to haunt the South as the lingering injustice of Till's murder and the aftermath altered many lives. Fifty years after the murder, renewed

interest in the case led the Justice Department to open an investigation into identifying and possibly prosecuting accomplices of the two men originally tried. Between 2004 and 2005, the Federal Bureau of Investigation conducted the first real probe into the killing and turned up important information that had been lost for decades. Anderson covers the events that led up to this probe in great detail, as well as the investigation itself. This book will stand as the definitive work on Emmett Till for years to come. Incorporating much new information, the book demonstrates how the Emmett Till murder exemplifies the Jim Crow South at its nadir. The author accessed a wealth of new evidence. Anderson made a dozen trips to Mississippi and Chicago over a ten-year period to conduct research and interview witnesses and reporters who covered the trial. In *Emmett Till*, Anderson corrects the historical record and presents this critical saga in its entirety.

The Problem with Pleasure Laura Frost 2013-07-09 Aldous Huxley decried "the horrors of modern 'pleasure,'" or the proliferation of mass produced, widely accessible entertainment that could degrade or dull the mind. He and his contemporaries, including James Joyce, T. S. Eliot, Gertrude Stein, D. H. Lawrence, and Jean Rhys, sought to radically redefine pleasure, constructing arduous and indirect paths to delight through their notoriously daunting work. Laura Frost follows these experiments in the art of unpleasure, connecting modernism's signature characteristics, such as irony, allusiveness, and obscurity, to an ambitious attempt to reconfigure bliss. In *The Problem with Pleasure*, Frost draws upon a wide variety of materials, linking interwar amusements, such as the talkies, romance novels, the Parisian fragrance Chanel no. 5, and the exotic confection Turkish Delight, to the artistic play of Joyce, Lawrence, Stein, Rhys, and others. She considers pop cultural phenomena and the rise of celebrities such as Rudolph Valentino and Gypsy Rose Lee against contemporary sociological, scientific, and philosophical writings on leisure and desire. Throughout her study, Frost incorporates recent scholarship on material and visual culture and vernacular modernism, recasting the period's high/low, elite/popular divides and formal strategies as efforts to regulate sensual and cerebral experience. Capturing the challenging tensions between these artists' commitment to innovation and the stimulating amusements they denounced yet deployed in their writing, Frost calls attention to the central role of pleasure in shaping interwar culture.

Dear Life Rachel Clarke 2020-01-30 THE SUNDAY TIMES TOP TEN BESTSELLER SHORTLISTED FOR THE COSTA BIOGRAPHY AWARD 'So very important' NIGELLA LAWSON 'Brilliantly alive' SUNDAY TIMES 'A truly wonderful book. Read it' HENRY MARSH 'Shows us the very best of human nature' ADAM KAY 'Her words are brimful of love, grace and kindness' GUARDIAN As a specialist in palliative medicine, Dr Rachel Clarke chooses to inhabit a place many people would find too tragic to contemplate. Every day, she tries to bring care and comfort to those reaching the end of their lives and to help make dying more bearable. Rachel's training was put to the test in 2017 when her beloved GP father was diagnosed with terminal cancer. She learned that nothing - even the best palliative care - can sugar-coat the pain of losing someone you love. And yet, she argues, in a hospice there is more of what matters in life - more love, more strength, more kindness, more joy, more tenderness, more grace, more compassion - than you could ever imagine. For if there is a difference between people who know they are dying and the rest of us, it is simply this: that the terminally ill know their time is running out, while we live as though we have all the time in the world. *Dear Life* is a book about the vital importance of human connection, by the doctor we would all want by our sides at a time of crisis. It is a love letter - to a father, to a profession, to life itself.

Every day poet and educator Shanice Nicole is reminded of how special Black girls are and of how lucky she is to be one. Illustrations by Kezna Dalz support the book's message that no two Black girls are the same but they are all special--that to be a Black girl is a true gift. In this celebratory poem, Kezna and Shanice remind young readers that despite differences, they all deserve to be loved just the way they are.

Badlands and Days of Heaven remain benchmarks of American cinema, while his recent *The Thin Red Line* returned him to the pantheon of American directors. In this new study, authors James Morrison and Thomas Schur examine each of his films in detail, drawing on extensive archival research to construct a portrait of his working methods as a director as well as the thematic, aesthetic, and cultural components of his work. Moreover, aside from tracing the development of Malick's filmmaking from its beginnings to the present, the book compares his finished pictures to their original shooting scripts, and so provides a unique means of exploring the nature of his working methods and the ways in which they influence the final products. Revealing the ways in which these films connect to and depart from evolving traditions of the last 30 years, *The Films of Terrence Malick* provides a comprehensive and penetrating study as well as an informative and adventurous work of film criticism.

Sister Mine Tawni O'dell 2011-10-13 Set in the fictional mining town of Jolly Mount, Pennsylvania, *Sister Mine* is told in the wry, honest and sometimes heartbreakingly poignant voice of Shae-Lynn Penrose, an offbeat ex-cop and now sole proprietor of the local cab company. Two years previously, five of Shae-Lynn's friends were catapulted into media stardom when the pit in which they were working exploded. They survived five days underground and emerged as heroes - but neither they nor their town have been the same since. Still, things are fine - until Shae-Lynn's kid sister Shannon, presumed dead, walks back into town. Where has she been for the last seventeen years? Who is the father of her unborn baby? And why is the mob on her heels? Shae-Lynn herself, beaten black and blue as a child by her brute of a miner father, has plenty of her own demons to confront - and one or two secrets she's never told... With all the heartache of Jodi Picoult, but served up with a blackly humorous twist and set in the sort of small working-class town that Karin Slaughter has made so familiar, *Sister Mine* is redemptive, embracing - and, above, all, unputdownable.

Why It's OK to Love Bad Movies Matthew Strohl 2022-01-06 Most people are too busy to keep up with all the good movies they'd like to see, so why should anyone spend their precious time watching the bad ones? In *Why It's OK to Love Bad Movies*, philosopher and cinematic bottom feeder Matthew Strohl enthusiastically defends a fondness for disreputable films. Combining philosophy of art with film criticism, Strohl flips conventional notions of "good" and "bad" on their heads and makes the case that the ultimate value of a work of art lies in what it can add to our lives. By this measure, some of the worst movies ever made are also among the best. Through detailed discussions of films such as *Troll 2*, *The Room*, *Batman & Robin*, *Twilight*, *Ninja III: The Domination*, and a significant portion of Nicolas Cage's filmography, Strohl argues that so-called "bad movies" are the ones that break the rules of the art form without the aura of artistic seriousness that surrounds the avant-garde. These movies may not win any awards, but they offer rich opportunities for creative engagement and enable the formation of lively fan communities, and they can be a key ingredient in a fulfilling aesthetic life. Key Features: Written in a humorous, approachable style, appealing to readers with no background in philosophy. Elaborates the rewards of loving bad movies, such as forming unlikely social bonds and developing refinement without narrowness. Discusses a wide range of beloved bad movies, including *Plan 9 from Outer Space*, *The Core*, *Battlefield Earth*, and *Freddy Got Fingered*. Contains the most extensive discussion of Nicolas Cage ever included in a philosophy book.

Immigrants of the Independence Valley Richard Erickson 2015-09-15 Between 1890 and 1930, approximately 1100 Nordic immigrants settled into or moved through the Independence Valley and the areas around Rochester, Washington. About 40% were Swedish speaking Finns, about 27 % were Finnish speaking Finns, 23% were Swedish, 8% were Norwegian and 2% were Danish. This book describes the settlement of the area and the assimilation of the immigrants into a new culture. Each immigrant, as identified through numerous sources, is listed. Included is a description of the various cultures, customs and daily life activities. The review of the community history focuses on schools, churches, cemeteries, local farms, logging and sawmills and social and volunteer organizations. A few stories from local immigrant families describe their personal experiences growing up in the area. The objective of the book is to provide an historical perspective of families settling into a new land far from their Nordic roots.

Blue Legalities Irus Braverman 2020-01-17 The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, Blue Legalities explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, Blue Legalities illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, Blue Legalities questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves. Contributors. Hollywood Highbrow Shyon Baumann 2018-06-05 Today's moviegoers and critics generally consider some Hollywood products—even some blockbusters—to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies—and not just European ones—deserved to be considered art.

Cats of Copenhagen James Joyce 2012-10-16 The first-ever U.S. edition of this delightful gem based on a letter Joyce wrote to his grandson, revealing the modernist master's playful side—filled with one-of-a-kind illustrations—the perfect gift for Joyce fans and cat lovers alike. The Cats of Copenhagen was first written for James Joyce's most beloved audience, his only grandson, Stephen James Joyce, and sent in a letter dated September 5, 1936. Cats were clearly a common currency between Joyce and his grandson. In early August 1936, Joyce sent Stephen "a little cat filled with sweets"—a kind of Trojan cat meant to outwit grown-ups. A few weeks later, Joyce penned a letter from Copenhagen that begins "Alas! I cannot send you a Copenhagen cat because there are no cats in Copenhagen." The letter reveals the modernist master at his most playful, yet Joyce's Copenhagen has a keen, anti-authoritarian quality that transcends the mere whimsy of a children's story. Only recently rediscovered, this marks the inaugural U.S. publication of The Cats of Copenhagen, a treasure for readers of all ages. A rare addition to Joyce's known body of work, it is a joy to see this exquisite story in print at last.

Terrence Malick Robert Sinnerbrink 2019-07-11 Many critics have approached Terrence Malick's work from a philosophical perspective, arguing that his films express philosophy through cinema. With their remarkable images of nature, poetic voiceovers, and meditative reflections, Malick's cinema certainly invites philosophical engagement. In *Terrence Malick: Filmmaker and Philosopher*, Robert Sinnerbrink takes a different approach, exploring Malick's work as a case of cinematic ethics: films that evoke varieties of ethical experience, encompassing existential, metaphysical, and religious perspectives. Malick's films are not reducible to a particular moral position or philosophical doctrine; rather, they solicit ethically significant forms of experience, encompassing anxiety and doubt, wonder and awe, to questioning and acknowledgment, through aesthetic engagement and poetic reflection. Drawing on a range of thinkers and approaches from Heidegger and Cavell, Nietzsche and Kierkegaard, to phenomenology and moral psychology Sinnerbrink explores how Malick's films respond to the problem of nihilism the loss of conviction or belief in prevailing forms of value and meaning and the possibility of ethical transformation through cinema: from self-transformation in our relations with others to cultural transformation via our attitudes towards nature and the world. Sinnerbrink shows how Malick's later films, from *The Tree of Life* to *Voyage of Time*, provide unique opportunities to explore cinematic ethics in relation to the crisis of belief, the phenomenology of love, and film's potential to invite moral transformation.

Douglas Sirk Robert B. Pippin 2021-04-08 It would be easy to dismiss the films of Douglas Sirk (1897-1987) as brilliant examples of mid-century melodrama with little to say to the contemporary world. Yet Robert Pippin argues that, far from being marginal pieces of sentimentality, Sirk's films are rich with irony, insight and depth. Indeed Sirk's films, often celebrated as classics of the genre, are attempts to subvert rather than conform to rules of conventional melodrama. The visual style, story and characters of films like *All That Heaven Allows*, *Written on the Wind* and *Imitation of Life* are explored to argue for Sirk as an incredibly nuanced moral thinker. Instead of imposing moralising judgements on his characters, Sirk presents them as people who do 'wrong' things often without understanding why or how, creating a complex and unsettling ethics. Pippin argues that it this moral ambiguity and ironic richness enables Sirk to produce films that grapple with important themes such as race, class and gender with real force and political urgency. *Douglas Sirk: Filmmaker and Philosopher* argues for a filmmaker who was a 'disruptive not restorative' auteur and one who broke the rules in the most interesting and subtle of ways.

Theology and the Films of Terrence Malick Christopher B. Barnett 2016-08-12 Terrence Malick is one of the most important and controversial filmmakers of the last few decades. Yet his renown does not stem from box office receipts, but rather from his inimitable cinematic vision that mixes luminous shots of nature, dreamlike voiceovers, and plots centered on enduring existential questions. Although scholars have thoroughly examined Malick's background in philosophy, they have been slower to respond to his theological concerns. This volume is the first to focus on the ways

in which Malick integrates theological inquiries and motifs into his films. The book begins with an exploration of Malick's career as a filmmaker and shows how his Heideggerian interests relate to theology. Further essays from established and up-and-coming scholars analyze seven of Malick's most prominent films - *Badlands* (1973), *Days of Heaven* (1978), *The Thin Red Line* (1998), *The New World* (2005), *The Tree of Life* (2011), *To the Wonder* (2012), and *Knight of Cups* (2015) - to show how his cinematic techniques point toward and overlap with principles of Christian theology. A thorough study of an iconic filmmaker, this book is an essential resource for students and scholars in the emerging field of religion and film.

Representing Autism Stuart Murray 2008-01-01 From concerns about an 'autism epidemic' to the MMR vaccine crisis, autism is a source of peculiar fascination in the contemporary media. Author Stuart Murray, himself the parent of an autistic child, contends that for all the coverage, autism rarely emerges from the various images we produce of it as a comprehensible way of being in the world—instead occupying a succession of narrative spaces as a source of fascination and wonder. A refreshing analysis and evaluation of autism within contemporary society and culture, *Representing Autism* establishes the autistic presence as a way by which we might more fully articulate our understanding of those with the condition, and what it means to be a human. "This is an outstanding volume of empathetic scholarship. . . . *Representing Autism* is a truly significant piece of cultural criticism about one of the defining conditions of our time."—Mark Osteen, Loyola College

Disability, Literature, Genre Ria Cheyne 2019-11-30 Examining the intersection of disability and genre in popular works of horror, crime, science fiction, fantasy, and romance published since the late 1960s, *Disability, Literature, Genre* is a major contribution to both cultural disability studies and genre fiction studies. Drawing on recent work on affect and emotion, the book explores how disability makes us feel, and how those feelings shape interpersonal and fictional encounters. Written in a clear and accessible style, *Disability, Literature, Genre* offers a timely reflection on the rapidly growing body of scholarship on disability representation, as well as an innovative new theorisation of genre. By reconceptualising genre reading as an affective process, Ria Cheyne establishes genre fiction as a key site of investigation for disability studies. She argues that genre fiction's unique combination of affectivity and reflexivity makes it ideally suited to the production of reflexive representations of disability: representations which encourage the reader to reflect upon what they understand about disability, and potentially to rethink it. Examining the affective--and effective--power of disability representations in a wide range of popular genre fiction, this book will be essential reading for academics in disability studies, literary studies, popular culture studies, and the medical humanities.

Unchained Mind Ricardo G. Williams 2017-03-15 I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our happiness in check. Our smiles are met with a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinking chains from an uncertain future, chains of work, chains of relationships, chains of our finances, too many chains to mention. My time away from work gave me the opportunity to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your emotions, embrace moments, and the importance of spiritual peace. I will teach you how to live in thankfulness, with compassion, while activating love.

Bullying Among Prisoners Jane L. Ireland 2014-07-16 Bullying in prisons can have severe consequences both for those directly involved and for the prison regime as a whole, yet the subject has been curiously neglected in the literature. In 1993, the Prison Service introduced their first anti-bullying strategy, and since then there has been a great deal of research on the subject. **Bullying**
