**A Passion for Democracy** Benjamin R. Barber 2000-04-02 Benjamin Barber is one of America's preeminent political theorists. He has been a significant voice in the continuing debate about the nature and role of democracy in the contemporary world. *A Passion for Democracy* collects twenty of his most important writings on American democracy. Together they refine his distinctive position in democratic theory. Barber's conception of "strong democracy" contrasts with traditional concepts of "liberal democracy," especially in its emphasis on citizen participation in central issues of public debate. These essays critique the "thin representation" of liberal democracy and buttress the arguments presented in Barber's twelve books, most recently in his well-received *Jihad vs. McWorld: How Globalism and Tribalism Are Re-shaping the World*. In these pieces, Barber argues for participatory democracy without dependence on abstract metaphysical foundations, and he stresses the relationship among democracy and civil society, civic education, and culture. *A Passion for Democracy* is divided into four sections. In the first, "American Theory: Democracy, Liberalism, and Rights," Barber addresses issues of ongoing relevance to today's debates about the roots of participatory democracy, including individualism vs. community, the importance of consent, and the irrelevance of Marxism. Essays in the second section, "American Practice: Leadership, Citizenship, and Censorship" provide a "strong democracy" critique of American democratic practice. "Education for Democracy: Civic Education, Service, and Citizenship" applies Barber's theories to three related topics and includes his much-discussed essay "America Skips School." The final section, "Democracy

and Technology: Endless Frontier or End of Democracy?" provides glimpses into a future that technology alone cannot secure for democracy. In his preface, Barber writes: "In these essays ... I have been hard on my country. Like most ardent democrats, I want more for it than it has achieved, despite the fact that it has achieved more than most people have dared to want." This wide-ranging collection displays not only his passion for democracy, but also his unique perspective on issues of abiding importance for the democratic process.

**Liam Davis & The Raven** Anyta Sunday 2020-05-15 Love and romance? I don't know how I feel about that. But I'm about to find out. Jock. Big-boned. Broad shoulders. Tall. Runs fingers through hair as though he's attractive and knows it. Walks into party like he has all the time in the world, slow but oddly graceful. Laugh lines around the mouth, a deep crack in his skin where a dimple might be. That's how I described him in the notes for my latest party-page column. He fascinates me, but I'm not sure why. Or what to do about it. My belly is a fluttery, twisty mess. Best to focus on my mission to find The Raven-the campus vigilante-and warn him about the hate mail the student paper's been getting for him. Except . . . Quinn looks at me and his eyes darken. He wants something. But what is it? Why do I want so badly to give it to him? *Liam Davis & the Raven* is a slow-burn, bi-awakening, New Adult, gay romance set in college. and domesticity in lifestyle television. **Under One Roof** Ali Hazelwood 2022-05-03 From the New York Times and Sunday Times bestselling author of The Love Hypothesis comes a new steamy, STEMInist novella... A scientist should never cohabit with her annoyingly hot nemesis - it leads to combustion. Mara, Sadie, and Hannah are friends first, scientists always. Though their fields of study might take them to different corners of the world, they can all agree on this universal truth: when it comes to love and science, opposites attract and rivals make you burn... As an environmental engineer, Mara knows all about the delicate nature of ecosystems. They require balance. And leaving the thermostat alone. And not stealing someone else's food. And other rules Liam, her detestable big-oil lawyer of a roommate, knows nothing about. Okay, sure, technically she's the interloper. Liam was already entrenched in his aunt's house like some glowering grumpy giant when Mara moved in, with his big muscles and kissable mouth just sitting there on the couch tempting respectable scientists to the dark side...but Helena was her mentor and Mara's not about to move out and give up her inheritance without a fight. The problem is, living with someone means getting to know them. And the more Mara finds out about Liam, the harder it is to loathe him...and the easier it is to love him. To read Sadie and Hannah's stories look for the novellas Stuck with You and Below Zero. Ali Hazelwood's latest novel, Love on the Brain is out now.

When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instagramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and the power, to be the people we are meant to be? And how can we learn to let our true colors shine through? Casey McQuiston's Red, White & Royal Blue proves: true love isn't always diplomatic. "I took this with me wherever I went and stole every second I had to read! **The Celluloid Couch** Leslie Y. Rabkin 1998 In this unique filmography, Leslie Rabkin delves deeply into film's "unconscious," producing a valuable reference text concerned with the history of film and its representation of therapy and mental illness. The Celluloid Couch is arranged by decade, with the exception of the earliest period, The Silent Era (from the very beginnings of film to 1920). Each period contains a thoughtful introduction that highlights important films and discusses the intersection of film with history and psychology. Rabkin's overview lays bare patterns in film's representation of mental illness and therapy, and inquires how contemporary stereotypes of psychiatric patients and institutions have been formed from film. Textual examples in the introduction are drawn from magazines and newspapers, as well as numerous readings of particularly important films refracted through the lens of a psychologist. The alphabetical entries are compact and inclusive, containing main titles as well as foreign listings, and detailed information such as cast, length, director, producer, and a brief synopsis of the film's plot and discussion of the forms of therapy depicted and utilized in the film. An efficient resource for the student of film, psychology, or mass culture, The Celluloid Couch makes the huge number of popular films that portray mental illness and therapy accessible.
