Sex and the City and Us Jennifer Keishin Armstrong 2019-05-07 The bestselling author of *Seinfeldia* offers a fascinating retrospective of the iconic and award-winning television series, *Sex and the City*, in a “bubbly, yet fierce cultural dissection of the groundbreaking show” (Chicago Tribune).

This is the story of how a columnist, two gay men, and a writers’ room full of women used their own poignant, hilarious, and humiliating stories to launch a cultural phenomenon. They endured shock, slut-shaming, and a slew of nasty reviews on their way to eventual—if still often begrudging—respect. The show wasn’t perfect, but it revolutionized television for women. When Candace Bushnell began writing for the New York Observer, she didn’t think anyone beyond the Upper East Side would care about her adventures among the Hamptons-hopping media elite. But her struggles with singlehood struck a chord. Beverly Hills, 90210 creator Darren Star brought her vision to an even wider audience when he adapted the column for HBO. Carrie, Miranda, Charlotte, and Samantha launched a barrage of trends, forever branded the actresses that took on the roles, redefined women’s relationship to sex and elevated the perception of singlehood. Featuring exclusive new interviews with the cast and writers, including star Sarah Jessica Parker, creator Darren Star, executive producer Michael Patrick King, and author Candace Bushnell, “Jennifer Keishin Armstrong brings readers inside the writers’ room and into the scribes’ lives...The writing is fizzy and funny, but she still manages an in-depth look at a show that’s been analyzed for decades, giving readers a retrospective as enjoyable as a \$20 pink cocktail” (The Washington Post). *Sex and the City and Us* is both a critical and nostalgic behind-the-scenes look at a television series that changed the way women see themselves.

On-Demand Culture Chuck Tryon 2013-07-18 The movie industry is changing rapidly, due in part to the adoption of digital technologies. Distributors now send films to theaters electronically. Consumers can purchase or rent movies instantly online and then watch them on their high-definition televisions, their laptops, or even their cell phones. Meanwhile, social media technologies allow independent filmmakers to raise money and sell their

movies directly to the public. All of these changes contribute to an “on-demand culture,” a shift that is radically altering film culture and contributing to a much more personalized viewing experience. Chuck Tryon offers a compelling introduction to a world in which movies have become digital files. He navigates the complexities of digital delivery to show how new modes of access—online streaming services like YouTube or Netflix, digital downloads at iTunes, the popular Redbox DVD kiosks in grocery stores, and movie theaters offering digital projection of such 3-D movies as Avatar—are redefining how audiences obtain and consume motion picture entertainment. Tryon also tracks the reinvention of independent movies and film festivals by enterprising artists who have built their own fundraising and distribution models online. Unique in its focus on the effects of digital technologies on movie distribution, On-Demand Culture offers a corrective to address the rapid changes in the film industry now that movies are available at the click of a button.

The Innocent Man John Grisham 2010-10-28 "John Grisham's first work of non-fiction, an exploration of small town justice gone terribly awry, is his most extraordinary legal thriller yet. In the major league draft of 1971, the first player chosen from the State of Oklahoma was Ron Williamson. When he signed with the Oakland A's, he said goodbye to his hometown of Ada and left to pursue his dreams of big league glory. Six years later he was back, his dreams broken by a bad arm and bad habits - drinking, drugs and women. He began to show signs of mental illness. Unable to keep a job, he moved in with his mother and slept 20 hours a day on her sofa. In 1982, a 21 year-old cocktail waitress in Ada named Debra Sue Carter was raped and murdered, and for five years the police could not solve the crime. For reasons that were never clear, they suspected Ron Williamson and his friend Dennis Fritz. The two were finally arrested in 1987 and charged with capital murder. With no physical evidence, the prosecution's case was built on junk science and the testimo"

Notes on Love Lauren Windle 2021-07-15 In this delightfully witty and uplifting book, thirty-something Lauren Windle shines a light on the trials and tribulations - and sometimes also the triumphs - of the world of Christian dating. This is not a how-to guide. Like having a coffee with your mates while you pore over your profile matches, heartbreaks and hilarious mishaps, Notes on Love draws on Lauren's own experiences of being single and dating in the Church to offer a funny, insightful and open-hearted collection of musings on the absurdity, messiness, pain and joy of it all. With notes on 'How to first date' and 'A million ways to meet people' to 'Disappointment' and 'Schrodinger's boyfriend', as well as looking at how you can find true love with yourself, your friends and family and above all in Christ, Notes on Love is a thought-provoking exploration of Christian relationships in the Church today. This is a book for anyone who has struggled with dating in Church, or who has asked themselves how to be single as a Christian only to discover there's no right answer. Warm, generous and honest, Notes on Love is an invitation to laugh, cry and know that whether you are male or female, single, coupled up or somewhere in between, you are not alone.

The Insane Chicago Way John Hagedorn 2015-08-19 Police, the press, and the public all see the kind of violence that besets the inner city today as irrational and basically about turf, revenge, or drugs. Renowned criminologist and expert on gangs, John Hagedorn here tells a very different and little-known story centered on the dramatic rise and fall of a Mafia-like Latino organization in Chicago called Spanish Growth & Development." Hagedorn's main informant is Sal Martino, 'an Italian Mafioso who became intimately involved with the In\$ane Family,' one of the factions of Spanish Growth & Development. Through Sal's first-hand account, Hagedorn shows that the violence was not a result of disorganized crime" but rather the outcome of SGD's prolonged demise. He gives us for the first time a detailed the history of SGDthe reasons for its creation, the uneasy alliances between gang families, the organization's reliance on bottom-up police corruption, and its ultimate collapse in a pool of blood at a 1999 peace" conference. Revealing the hidden and riveting stories of Chicago gangs' efforts to build structures ostensibly to reduce violence and to organize crime, of the integration of gang and mafia history, and of the central role of police corruption in Chicago's gangland, The In\$ane Chicago Way makes a powerful argument for the need to regard corruption as the bedrock of gang power. It dispels the notion that gang violence can be explained solely by ecological, neighborhood-based processes and sheds light on the current gang situation in Chicago by laying bare its history while raising disturbing questions for researchers, policy-makers, and the public.

Hot (broke) Messes Nancy Trejos 2010-05-01 31-year-old Nancy Trejos was supposed to be an expert on handling her money - after all, she's the personal finance columnist for one of the nation's leading newspapers, The Washington Post. But a few months ago, she found herself in her own dire financial straits. Faced with a mountain of bills, debt, and no way to pay her rent, she was forced to call her parents to ask them for a loan. That night was a wake-up call - she vowed to get herself out of debt and into financial solvency. In Hot Broke Messes, Trejos takes readers along with her on her journey. She meets with a financial planner and a therapist to deal with all the issues young people face today - from credit card debt and student

loans, to impulse buying and emotional spending, to the cost of having a social life, to buying a house with someone during a potentially impermanent relationship and more. Trejos learns what causes these problems in herself, how she can fix them, and how she can pass that advice on to other young people going through the same experiences. Even better, she shows readers how they can address these problems without completely giving up their lives - no "give up your latte a day" type advice here! Trejos' personal and unique voice, along with her experiences that everyone can relate to, will lead readers to relatively painless financial security.

Collaborative Economy and Tourism Dianne Dredge 2017-05-30 This book employs an interdisciplinary, cross-sectoral lens to explore the collaborative dynamics that are currently disrupting, re-creating and transforming the production and consumption of tourism. House swapping, ridesharing, voluntourism, couchsurfing, dinner hosting, social enterprise and similar phenomena are among these collective innovations in tourism that are shaking the very bedrock of an industrial system that has been traditionally sustained along commercial value chains. To date there has been very little investigation of these trends, which have been inspired by, amongst other things, de-industrialization processes and post-capitalist forms of production and consumption, postmaterialism, the rise of the third sector and collaborative governance. Addressing that gap, this book explores the character, depth and breadth of these disruptions, the creative opportunities for tourism that are emerging from them, and how governments are responding to these new challenges. In doing so, the book provides both theoretical and practical insights into the future of tourism in a world that is, paradoxically, becoming both increasingly collaborative and individualized.

Social Production and Reproduction at the Interface of Public and Private Spheres Marcia Texler Segal 2012-07-27 This volume examines the ways individuals, families and societies strive to balance paid and unpaid labor, engage in parenting and accomplish other care-work, seek education for themselves and their children and respond to the mass media, sometimes under conditions of poverty or violence.

Intelligent Cities Nicos Komninos 2013-05-13 At the turn of the century some cities and regions in Europe, Japan and the USA, displayed an exceptional capacity to incubate and develop new knowledge and innovations. The favourable environment for research, technology and innovation created in these areas was not immediately obvious, yet it was of great significance for a development based on knowledge, learning, and innovation. *Intelligent Cities* focuses on these environments of innovation, and the major models (technopoles, innovating regions, intelligent cities) for creating an environment-supporting technology, innovation, learning, and knowledge-based development. The introduction and the first chapter deal with innovation as an environmental condition, and with the geography and typology of islands of innovation. The next three parts focus on the theoretical paradigms and the planning models of the 'industrial district', the 'innovating region', and the 'intelligent city', which offer three alternative ways to create an environment of innovation.

Love Letters of Great Men Ursula Doyle 2008-08-05 From the private papers of Mark Twain and Mozart to those of Robert Browning and Nelson, Love Letters of Great Men collects together some of the most romantic letters in history. For some of these great men, love is a 'delicious poison' (William Congreve); for others, 'a nice soft wife on a sofa with good fire, & books & music' (Charles Darwin). Love can scorch like the heat of the sun (Henry VIII), or penetrate the depths of one's heart like a cooling rain (Flaubert). Every shade of love is here, from the exquisite eloquence of Oscar Wilde and the simple devotion of Robert Browning, to the wonderfully modern misery of the Roman Pliny the Younger, losing himself in work to forget how much he misses his beloved wife, Calpurnia. Taken together, these Love Letters of Great Men show that perhaps men haven't changed so very much over the last 2,000 years; passion, jealousy, hope and longing are all represented here - as is the simple pleasure of sending a letter to, and receiving one from, the person you love most.

Some members of Anna's family are bound for the otherworldly landscape of Burning Man, the art community in Nevada's Black Rock Desert where 60,000 revelers gather to construct a city designed to last only one week. Anna herself has another destination in mind: a lonely stretch of road outside of Winnemucca where the 16-year-old boy she once was ran away from the whorehouse he called home. With Brian and his beat-up RV, she journeys into the dusty troubled heart of her Depression childhood to unearth a lifetime of secrets and dreams and attend to unfinished business she has long avoided.

Skype: Bodies, Screens, Space Robyn Longhurst 2016-09-13 Despite the popularity of Skype with video many of us are still figuring out how to 'do' it. Interviews reveal that we can now run the programme but we are less certain about how to 'perform' in front of the webcam. Seeing ourselves in the box on the side can feel strange. We are not quite sure which bits of our bodies to display on the screen, how much to move around the room, or move the device around the room. Is it acceptable to use Skype with video at a funeral, in crowded spaces or while in bed? This book addresses how people are emotionally and affectually connecting with others audio-synchronously on the screen in a variety of different spatial contexts. Topics include Skype with video being used by grandparents to connect with grandchildren, friends and family using it for special occasions, and partners using it for romance and sex. Theories addressing bodies, gender, queerness, phenomenology and orientation inform the research. It concludes that while Skype does not offer some kind of utopian future, it does open up possibilities for existing power relations to be filtered through new lines of sight/site which are shaping what bodies can do and where.
