One Hundred Sex Scenes That Changed Cinema - Neil Fulwood

2014-11-12

100 Sex Scenes that Changed Cinema explores the representation of sexuality and sexual expression in cinema by tracing the key scenes that helped change, develop and influence one of the world's most powerful medium. The 100 films are arranged thematically in the following chapters: Implicit (Not-explicit) sex scenes - the lure of sex in film noir (Double Indemnity, The Postman Always Rings Twice and Gilda; suggestiveness through dialogue ('snails and oysters' scene in Spartacus; visual metaphors (food scene in Tom Jones); Explicit sex scenes - films that have shocked, challenged and disturbed, pushing back the boundaries of what can be shown on screen. From Hiroshima, Mon Amour through Ai No Corrida, Emmanuelle, 9 1/2 Weeks to Intimacy and The Piano Teacher. Also with details of homo-eroticism (from Caravaggio to Mulholland Drive) and Rites of passage/sexual awakening; The European Aesthetic - the five European directors whose work is marked by a frank, uncompromising approach to sexuality: Bertolucci (Last Tango in Paris, Stealing Beauty), Bunuel (Belle de Jour, That Obscure Object of Desire), Almodovar (Labyrinth of Passion, Tie Me Up, Tie Me Down), Chabrol (Les Biches), and Greenaway (The Cook, the Thief, His Wife and Her Lover, The Pillow Book). Pleasure and Payment - the darker side of on-screen sexuality: obsessive/self-destructive behaviour (Breaking the Waves, Henry and June, The Night Porter); Bondage and sado-masochism (The Servant, The Opposite of Sex); Voyeurism/pornography (Body Double, Boogie Nights); Prostitution (My Own Private Idaho, Midnight Cowboy and American Gigolo); the role of sex in horror film (Ginger Snaps, Angel Heart); Forbidden Flesh - taboo subjects: incest (Close my Eyes, The Cement Garden, Spanking the Monkey) and necrophilia (suggested in Vertigo but explicit in Kissed).

Abstinence Cinema - Casey Ryan Kelly 2016-03-08

From the perspective of cultural conservatives, Hollywood movies are cesspools of vice, exposing impressionable viewers to pernicious sexually-permissive messages. Offering a groundbreaking study of Hollywood films produced since 2000, Abstinence Cinema comes to a very different conclusion, finding echoes of the evangelical movement's abstinence-only rhetoric in everything from Easy A to Taken. Casey Ryan Kelly tracks the surprising sex-negative turn that Hollywood films have taken, associating premarital sex with shame and degradation, while romanticizing traditional nuclear families, courtship rituals, and gender roles. As he demonstrates, these movies are particularly disempowering for young women, concocting plots in which the decision to refrain from sex until marriage is the young woman's primary source of agency and arbiter of moral worth. Locating these regressive sexual politics not only in expected sites, like the Twilight films, but surprising ones, like the raunchy comedies of Judd Apatow, Kelly makes a compelling case that Hollywood films have taken a significant step backward in recent years. Abstinence Cinema offers close readings of movies from a wide spectrum of genres, and it puts these films into conversation with rhetoric that has emerged in other arenas of American culture. Challenging assumptions that we are living in a more liberated era, the book sounds a warning bell about the powerful cultural forces that seek to demonize sexuality and curtail female sexual agency.

The History of Sex in American Film - Jody Pennington 2007-07-30

Although American films, especially Hollywood fare, are often belittled for their one-dimensional portrayal of sex, a close examination of the history of sex in American motion pictures reveals that American cinema has actually represented sex in myriad ways. A more complete understanding of the ways in which sex has been represented onscreen requires an approach that pays equal attention to cinematic techniques and to the diversity of sexual values and behaviors in American society. It is necessary to frame this discussion within the multiple contradictions of an industry that has both repressed and represented sex with equal fervor over the course of its history; of audiences that have both taken offense at and flocked to films with sexual themes; and a body politic that has regulated the sexual in popular culture even as its discourse has been saturated with sexual images and topics. The History of Sex in American Cinema moves seamlessly between general film and social history to clarify how exactly sex has been expressed cinematically, and how we have responded to those expressions as a culture. In March of 1965 the Supreme Court put into motion legal changes that marked the

end of local film censorship as it had existed since the early years of the twentieth century. In Hollywood that same year, *The Pawnbroker* was released with a Production Code Seal of Approval, despite nudity that violated that Code. As sexual liberation occurred onscreen, parallel developments occurred in the way we lived our lives, and by the end of the 1960s Americans were having sex more often, and with more partners, than ever before. There was also now a public debate surrounding sexuality, and one of the loudest and most continually active voices in this debate was that of American film. This work begins with an examination of some of the earliest altercations in what later came to be known as the culture wars, and follows those skirmishes, more often than not provoked by American film, up to the modern day. By looking at how sex in the cinema has contributed to the demise of the fragile consensus between liberals and conservatives on freedom of expression, *The History of Sex in American Film* suggests a perspective from which today's culture wars can be better understood. This work combines close readings of many representative films—including *Who's Afraid of Virginia Woolf?*, *The Graduate*, *Blue Velvet*, *Philadelphia*, *L.A. Confidential*, and *Closer*—with a social and historical account of the most significant changes in American sexual behavior and sexual representation over the past fifty years.

Sex and Violence - Tom Pollard 2015-11-17

Sex and Violence examines the history and social dynamics of film censorship in the United States. It examines censorship controversies throughout film history, from the beginning of cinema in the 1890s to the present. The book focuses both on formal censorship systems, including state and local censorship boards and industry self-regulation efforts, to unofficial censorship rendered by pressure groups and powerful social movements. It probes beneath the official rhetoric and explanations, revealing sensitive, festering controversies. The book critically examines dozens of Hollywood's most controversial (and interesting) movies, focusing on recurring issues and censorship themes. The book reveals the social and political processes of vetting films and their effect on film form and content. In addition, it examines the use of sexuality and violence in movies and the effects of movie censorship on those issues. Finally, it analyzes and makes recommendations for dramatic changes in motion picture ratings.

Sex and Film - B. Forshaw 2015-02-27

Sex and Film is a frank, comprehensive analysis of the cinema's love affair with the erotic. Forshaw's lively study moves from the sexual abandon of the 1930s to filmmakers' circumvention of censorship, the demolition of taboos by arthouse directors and pornographic films, and an examination of how explicit imagery invaded modern mainstream cinema.

Real Sex Films - John Tulloch 2017-10-03

Real Sex Films explores one of the most controversial movements in international cinema through an innovative interdisciplinary combination of theories of globalization and embodiment. Risk sociology, feminist film theory, and critical feminist mapping theory are brought together with concepts of production, narrative, genre, authorship, stardom, spectatorship, and social audience as several lenses of understanding and extension in ways of seeing real-sex cinema. Notions of personal subjectivity and critical distance, disciplinary co-operation and critique, and cinematic perceptions of the utopia and dystopia of love within risk modernity are the tensions exposed reflexively and in parallel, as each chapter focuses different lenses communicating intimacy, desire, risk and transgression. This book substantively, methodologically, and theoretically embraces and engages in its consideration of the images, ethics, double standards, and embodiments of brutal cinema. Crossing the boundaries of film studies, media and cultural studies, the ethnographic turn, risk sociology, feminist psychoanalytical, and geopolitical studies, this is a book for students, academics, as well as general and professional audiences.

Sex and the Cinema - Tanya Krzywinska 2006

'*Sex And The Cinema*' traces the numerous factors and contexts - artistic, institutional, political and socio-culture - that have shaped the way that sex appears in film.

Sex and Storytelling in Modern Cinema - Lindsay Coleman 2015-11-11

With full-frontal genitalia, erections, even actual sex featuring increasingly in films, this explicitness in presentation has caused critical consternation and accusations that such film narratives are pornographic. This book explores how, rather than being pornographic, explicit sex can be an essential element of cinematic storytelling today. Offering detailed analysis of how choices are made in the presentation of explicit sex in often very controversial films, such as "Shame", "Baise-

Moi", "Antichrist", "Dogtooth" and "Lust, Caution", the expert contributors - including Barbara Creed, Jacob Held and Linda Ruth Williams - show how sexual content can aid characterisation, highlight themes, and provide events that serve to develop plot. The impact of explicit sex as an element of a film's narrative is also revealed to be assisted by effective, nuanced performances and the incisive deployment of directorial technique. Together they detail through the fundamentals of cinema the shot by shot, moment by moment manner in which explicit sex can be an essential component of a dramatically powerful narrative.

Prostitution and Sex Work in Global Cinema - Danielle Hipkins 2017-10-30

This volume brings together international scholars to engage in the question of how film has represented a figure that for many is simply labelled 'prostitute'. The prostitute is one of the most enduring female figures. She has global historical resonance and stories, images and narratives surrounding her, and her experiences, circulate transnationally. As this book will explore, the broad term prostitute can cover a variety of experiences and representations that are both repressive and also have the potential to empower women and disrupt cultural expectations. The contributors aim to consider how frequently 19th-century narratives of female prostitution—hence the label 'fallen women'—are still recycled in contemporary visual contexts, and to understand how widespread, and in what contexts, the destigmatization of female sex work is underway on screen.

Sex Radical Cinema - Carol Siegel 2015-11-18

In this provocative study of cinematic and televisual representations of "sex radicalism," Carol Siegel explores how representations of sexually explicit content on film have shaped American cultural visions of sex and sexual politics in the 21st century. Siegel distinguishes between a liberal approach to visual representations, which has over-emphasized normative equal opportunity while undervaluing our distinctive erotic selves, and a radical approach to visual representation, which portrays forbidden sexualities and desires. She illustrates how visual media participates in and even drives political policies related to pedophilia, prostitution, interracial relationships, and war. By examining such popular film and television shows as *Mystic River*, *The Wire*, *Fifty Shades of Grey*, *Batman Returns*, and the HBO hits, *Sex and the City* and *Girls*, Siegel takes the discussion of radical sex in the movies out of the margins of political discussions and puts it in the center, where, she argues, it has belonged all along.

Making Sex Public and Other Cinematic Fantasies - Damon R. Young 2018-11-30

Beginning in the late 1950s, representations of and narratives about sex proliferated on French and U.S. movie screens. Cinema began to display forms of sexuality that were no longer strictly associated with domesticity nor limited to heterosexual relations between loving couples. Women's bodies and queer sexualities became intensely charged figures of political contestation, aspiration, and allegory, central to new ways of imagining sexuality and to new liberal understandings of individual freedom and social responsibility. In *Making Sex Public* Damon R. Young tracks the emergence of two conflicting narratives: on the one hand, a new model of sex as harmoniously integrated into civic existence; on the other, an idea of women's and queer sexuality as corrosive to the very fabric of social life. Taking a transatlantic perspective from the late '50s through the present, from *And God Created Woman* and *Barbarella* to *Cruising* and *Shortbus*, Young argues that cinema participated in the transformation of the sexual subject while showing how women and queers were both agents and objects of that transformation.

Cinema and the Second Sex - Carrie Tarr 2016-10-06

Women's filmmaking in France has been a source of both delight and despair. On the one hand, the numbers are impressive - over 250 feature-length films were made by over 100 women directors in France in the 1980s and 1990s. On the other hand, despite the heritage of French feminism, French women directors characteristically disclaim their gender as a significant factor in their filmmaking. This incisive study provides an informative, critical guide to this major body of work, exploring the boundaries between personal films (intimate psychological dramas relating to key stages in life) and genre films (which demonstrate women's ability to appropriate and rework popular genres). It analyzes the effects of postfeminism, women's desire to enter the mainstream, and the impact of a new generation of filmmakers, enabling readers to take stock of the wealth and diversity of women's contribution to French cinema during the 1980s and 1990s.

Sex in the Cinema: The 'pre-Code' Years (1929-1934) (Hardback) - Lou Sabini 2017-01-30

107 films profiled. Illustrated with 178 rare photographs and memorabilia from the world's archives. Complete casts, credits, production history, and biographical profiles of the stars, director, writers, and cameramen.

Sex, Class and Realism - John Hill 2019-07-25

Hugely impressive in its scope, with introductory chapters on social history, the film industry and theories of realism, this indispensable history of these vital years contains unusually fresh discussions of films justly regarded as important, alongside those unjustly ignored. The extensive filmography which accompanies *Sex, Class and Realism* will also prove to be an invaluable reference source in the teaching of British cinema history.

Sex In The Head - Linda R. Williams 2016-07-01

In *Sex in the Head*, Linda Ruth Williams uses psychoanalysis and recent feminist film theory to analyze a network of ideas which link looking with sexuality and difference, in the work of a writer who disavowed, yet covertly enjoyed, the pleasures and power of vision. The book is a departure from the long history of feminist readings of Lawrence, in that it discusses his engagement with theories of the gaze and its cultural forms - cinema, photography, painting and the visual dynamics and metaphors of literary texts - as a way of thinking through gender. It shows him arguing, on the one hand, against the evils of cinema and visual sex, while relishing, through the eyes of women, the moving spectacle of those male bodies which populate the pages of his books. It also questions what it is about the work of such an adamant cinephobe which has made it so thoroughly adaptable for film and television.
