Theatre and Culture in Early Modern England, 1650-1737 - Catie Gill 2017-03-02

Framed by the publication of Leviathan and the 1713 Licensing Act, this collection provides analysis of both canonical and non-canonical texts within the scope of an eighty-year period of theatre history, allowing for definition and assessment that uncouples Restoration drama from eighteenth-century drama. Individual essays demonstrate the significant contrasts between the theatre of different decades and the

context of performance, paying special attention to the literary innovation and socio-political changes that contributed to the evolution of drama. Exploring the developments in both tragedy and comedy, and in literary production, specific topics include the playwright's relationship to the monarch, women writers' connection to the audience, the changing market for plays, and the rise of the bourgeoisie. This collection also examines aspects of gender and class through the exploration of women's impact

on performance and production, masculinity and libertinism, master/servant relationships, and dramatic representations of the coffee house. Accompanied by a list of Spanish-English plays and a chronology of monarch's reigns and significant changes in theatre history, *From Leviathan to Licensing Act* is a valuable tool for scholars of Restoration and eighteenth-century performance, providing groundwork for future research and investigation.

Modernist Writers and the Marketplace - Warren Chernaik 2014-01-14

Modernist Writers and the Marketplace is a new research-level collection devoted to an exciting area in the history of the book. Focusing on Henry James, W.B. Yeats, Joseph Conrad, D.H. Lawrence, Virginia Woolf, T.S. Eliot, James Joyce, Ezra Pound, Wyndham Lewis and the culture of the little magazine of the period, eleven contributors from six countries demonstrate new developments in the sociology of texts, the practice of literary biography, and

textual criticism.

The Seventeenth - Century Literature

Handbook - Marshall Grossman 2011-01-11

The *Seventeenth Century Handbook* provides the undergraduate with a succinct account of the century's events, along with an exploration of the ways the literature reflected and helped shape the history of the time. Provides a coherent narrative of the entire century of literary history as well as an easy-to-use guide to the principal literary works and figures. Offers an exploration of the ways the literature reflected and helped shape the history of the time. Describes the continuities as well as the radical changes in this century of civil war and reformation. Combines a central narrative account of "texts and contexts" with a selection of brief essays on key texts and topics. Includes an alphabetical selection of capsule descriptions of important writers.

John Wilmot, Earl of Rochester - Keith

Building on the strength of Keith Walker's acclaimed *The Poems of John Wilmot, Earl of Rochester* (1984), leading scholar Nicholas Fisher presents a thoroughly revised and updated edition of the work of one of the greatest Restoration wits. Includes the text of *Lucina's Rape*, Rochester's adaptation of Fletcher's revenge tragedy *Valentinian*, in a text that readily identifies Rochester's revisions. Presents the poems in versions that were current during Rochester's lifetime, allowing the reader to experience the poems as Rochester's contemporaries did. Incorporates insights and discoveries made over the last twenty-five years and texts of manuscripts that previously were unavailable for study.

Milton and the Burden of Freedom - Warren Chernaik 2017-01-20

Throughout his writings, Milton, deeply engaged in political and theological controversy, sought to clear a space for human freedom in a world ruled by an omniscient and omnipotent deity.

Paradise Lost and *Samson Agonistes*, as well as other works by Milton in verse and prose, explore the problematical aspects of a universe ruled by an Old Testament God of wrath, demanding obedience, who allows his creatures the freedom to be 'authors' of their own fate. *Milton and the Burden of Freedom* examines the contradictions inherent in Milton's religious, political, and ethical beliefs as expressed in his poems, prose writings, and the treatise *De Doctrina Christiana*. Milton, whose writings are rooted in the Reformed tradition while challenging Calvinist orthodoxy, is both radical and conservative. In this book, Warren Chernaik traces the evolution of Milton's attitude towards freedom, servitude and virtue during a century of political upheaval and disappointed hopes.

Restoration Literature - Paul Hammond 2002
This anthology brings together a stimulating and entertaining collection of works from the confident and creative period of 1660-1700. The literature of this time is by turns refined, poignant, and brash. Alongside major works such as Dryden's *Absalom and Achitophel* and *Mac Flecknoe*, printed in their entirety, is a substantial group of lyrics by Rochester, while Milton's *Paradise Lost* provides a running commentary on the Restoration scene. Scurrilous satires and pamphlets, diaries, theatrical prologues, translations and striking work by women poets and autobiographers illustrate the period in politics, religion, philosophy and in attitudes to town and country, love and friendship.

The Baroque in English Neoclassical Literature - John Douglas Canfield 2003

In this study, J. Douglas Canfield contends that baroque disruption persists even as English literature becomes more neoclassical. It twists forms and meanings. From paradoxical, mysterious moments in *Paradise Lost*, amazing metaphors in Cavendish and Philips, momentous materializations in Waller and Dorset, and revealing displacements in Buckingham and Rochester to outrageous attack in Dryden and Pope, astonishing ventriloquizing in Killigrew and Finch and Montagu, and eccentricity and grotesquerie in *Gulliver's Travels* - the baroque comes back to disturb neoclassical regularity.--BOOK JACKET.

The Myth of Rome in Shakespeare and his Contemporaries - Warren Chernaik 2011-03-17
When Cleopatra expresses a desire to die 'after the high Roman fashion', acting in accordance with 'what's brave, what's noble', Shakespeare is suggesting that there are certain values that are characteristically Roman. The use of the terms 'Rome' and 'Roman' in *Julius Caesar*, *Antony and*

Cleopatra or Jonson's Sejanus often carry the implication that most people fail to live up to this ideal of conduct, that very few Romans are worthy of the name. In this book Chernaik demonstrates how, in these plays, Roman values are held up to critical scrutiny. The plays of Shakespeare, Jonson, Massinger and Chapman often present a much darker image of Rome, as exemplifying barbarism rather than civility. Through a comparative analysis of the Roman plays of Shakespeare and his contemporaries, and including detailed discussion of the classical historians Livy, Tacitus and Plutarch, this study examines the uses of Roman history - 'the myth of Rome' - in Shakespeare's age.

The Oxford English Literary History - Margaret J. M. Ezell 2017

The Oxford English Literary History is the new century's definitive account of a rich and diverse literary heritage that stretches back for a millennium and more. Each of these thirteen groundbreaking volumes offers a leading

scholar's considered assessment of the authors, works, cultural traditions, events, and ideas that shaped the literary voices of their age. The series will enlighten and inspire not only everyone studying, teaching, and researching in English Literature, but all serious readers. This volume covers the period 1645-1714, and removes the traditional literary period labels and boundaries used in earlier studies to categorize the literary culture of late seventeenth-century England. It invites readers to explore the continuities and the literary innovations occurring during six turbulent decades, as English readers and writers lived through unprecedented events including a King tried and executed by Parliament and another exiled, the creation of the national entity 'Great Britain', and an expanding English awareness of the New World as well as encounters with the cultures of Asia and the subcontinent. The period saw the establishment of new concepts of authorship and it saw a dramatic increase of women working as

professional, commercial writers. London theatres closed by law in 1642 reopened with new forms of entertainments from musical theatrical spectacles to contemporary comedies of manners with celebrity actors and actresses. Emerging literary forms such as epistolary fictions and topical essays were circulated and promoted by new media including newspapers, periodical publications, and advertising and laws were changing governing censorship and taking the initial steps in the development of copyright. It was a period which produced some of the most profound and influential literary expressions of religious faith from John Milton's *Paradise Lost* and John Bunyan's *Pilgrim's Progress*, while simultaneously giving rise to a culture of libertinism and savage polemical satire, as well as fostering the new dispassionate discourses of experimental sciences and the conventions of popular romance.

Refiguring Revolutions - Kevin Sharpe

2023-11-10

Refiguring Revolutions presents an original and interdisciplinary reassessment of the cultural and political history of England from 1649 to 1789. Bypassing conventional chronologies and traditional notions of disciplinary divides, editors Kevin Sharpe and Steven Zwicker frame a set of new agendas for, and suggest new approaches to, the study of seventeenth- and eighteenth-century England. Customary periodization by dynasty and century obscures the aesthetic and cultural histories that were enacted between and even by the English Civil Wars and the French Revolution. The authors of the essays in this volume set about returning aesthetics to the center of the master narrative of politics. They focus on topics and moments that illuminate the connection between aesthetic issues of a private or public nature and political culture. Politics between the Puritan Revolution and the Romantic Revolution, these authors argue, was a set of social and aesthetic practices, a narrative

Sin's Multifaceted Aspects in Literary Texts

- Paola Partenza 2018-05-14

Within art, society, culture, philosophy, literature and many other spheres, a constant

issue being dealt with is that of sin. Reevaluation of this concept has proceeded down varied stimulating paths in relation to the multidisciplinary appraisal, although philosophical aesthetic and epistemic emphases commonly reflect issues present in literature. In certain instances, texts clearly refer to sin, while in other it is more of an ambiguous and obscured notion. Alongside the established understanding of sin, discourse, poetry and novels have responded to sin variously, due to the blossoming of ideas. French, American and British literature's responses to the notion of sin will be investigated through the academic studies included in this volume.

Eighteenth Century English Literature -

Charlotte Sussman 2013-04-18

This engaging book introduces new readers of eighteenth-century texts to some of the major works, authors, and debates of a key period of literary history. Rather than simply providing a chronological survey of the era, this book analyzes the impact of significant cultural developments on literary themes and forms - including urbanization, colonial, and mercantile expansion, the emergence of the "public sphere," and changes in sex and gender roles. In eighteenth-century Britain, many of the things we take for granted about modern life were shockingly new: women appeared for the first time on stage; the novel began to dominate the literary marketplace; people entertained the possibility that all human beings were created equal, and tentatively proposed that reason could triumph over superstition; ministers became more powerful than kings, and the consumer emerged as a political force.

Eighteenth-Century English Literature:

1660-1789 explores these issues in relation to well-known works by such authors as Defoe, Swift, Pope, Richardson, Gray, and Sterne, while also bringing attention to less familiar figures, such as Charlotte Smith, Mary Leapor, and Olaudah Equiano. It offers both an ideal introduction for students and a fresh approach for those with research interests in the period.

The Cambridge Companion to Aphra Behn -

Todd 2004-11-25

Traditionally known as the first professional woman writer in English, Aphra Behn has now emerged as one of the major figures of the Restoration. She provided more plays for the stage than any other author and greatly influenced the development of the novel with her ground-breaking fiction, especially *Love-Letters between a Nobleman and his Sister* and *Oroonoko*, the first English novel set in America. Behn's work straddles the genres: beside drama and fiction, she also excelled in poetry and she

made several important translations from French libertine and scientific works. This Companion discusses and introduces her writings in all these fields and provides the critical tools with which to judge their aesthetic and historical importance. It also includes a full bibliography, a detailed chronology and a description of the known facts of her life. The Companion will be an essential tool for the study of this increasingly important writer and thinker.

Histories of Sexuality - Stephen Garton

2014-12-18

This book presents the first assessment of one of the most rapidly expanding fields of research: the history of sexuality. From the early efforts of historians to work out a model for sexual history, to the extraordinary impact of French philosopher Michel Foucault, to the vigorous debates about essentialism and social constructionism, to the emergence of contemporary debates about historicism, queer theory, embodiment, gender and cultural history

- we now have vast and diverse historical scholarship on sex and sexuality. 'Histories of Sexuality' highlights the key historical moments and issues: pederasty and cultures of male passivity in ancient Greece and Rome; the impact of early Christianity and ideals of renunciation on the sexual cultures of late antiquity; the sustained existence of homosexual cultures in medieval and renaissance Europe; the "invention" of homosexuality and heterosexuality in eighteenth century Europe and America; the truth behind Victorian sexual repression; the work of reformers and scientists such as Havelock Ellis, Marie Stopes, Stella Browne, Margaret Sanger, Alfred Kinsey, William Masters and Virginia Johnson.

Sexual Freedom in Restoration Literature - Warren Chernaik 1995-03-30

Linker 2016-05-13

In the first full-length study of the figure of the female libertine in late seventeenth- and early eighteenth-century literature, Laura Linker examines heroines appearing in literature by John Dryden, Aphra Behn, Catharine Trotter, Delariviere Manley, and Daniel Defoe. Linker argues that this figure, partially inspired by Epicurean ideas found in Lucretius's *De rerum natura*, interrogates gender roles and assumptions and emerges as a source of considerable tension during the late Stuart and early Georgian periods. Witty and rebellious, the female libertine becomes a frequent satiric

target because of her transgressive sexuality. As a result of negative portrayals of lady libertines, women writers begin to associate their libertine heroines with the pathos figures they read in French texts of *sensibilité*. Beginning with a discussion of Charles II's mistresses, Linker shows that these women continue to serve as models for the female libertine in literature long after their "reigns" at court ended. Her study places the female libertine within her cultural, philosophical, and literary contexts and suggests new ways of considering women's participation and the early novel, which prominently features female libertines as heroines of sensibility.
