Queer Theory: Law, Culture, Empire - Robert Leckey 2010-06-10

Queer Theory: Law, Culture, Empire uses queer theory to examine the complex interactions of law, culture, and empire. Building on recent work on empire, and taking contextual, socio-legal, comparative, and interdisciplinary approaches, it studies how activists and scholars engaged in queer theory projects can unwittingly advance imperial projects and how queer theory can itself show imperial ambitions. The authors - from five continents - delve into examples drawn from Bollywood cinema to California's 2008 marriage referendum. The chapters view a wide range of texts - from cultural productions to laws and judgments - as regulatory forces requiring scrutiny from outside Western, heterosexual privilege. This innovative collection goes beyond earlier queer legal work, engaging with recent developments, featuring case studies from India, South Africa, the US, Australasia, Eastern Europe, and embracing the frames offered by different disciplinary lenses. *Queer Theory: Law, Culture, Empire* will be of particular interest to students and researchers in the fields of socio-legal studies, comparative law, law and gender/sexuality, and law and culture.

Sexual Justice / Cultural Justice - Barbara Arneil 2006-11-22

This key volume explores the relationship between cultural justice and sexual justice in multicultural societies in a new light. The authors challenge the framing of 'feminism and multiculturalism' as one of inevitable conflict, as well as the portrayal of liberal sexual equality and cultural rights as irreconcilable, moving the debate beyond the culture/gender impasse. Focusing on three theoretical themes from a feminist perspective: the meaning and role of culture and identity in politics the problem of autonomy in relation to culture and identity the crucial role of democracy in addressing the theoretical and practical problems raised by this set of issues. The diverse contributors break new theoretical ground by providing detailed engagement with the concrete experiences of women and minorities who are caught in the dilemmas of gender and cultural justice. The collected chapters address sexual/cultural justice in a range of different countries, offering illuminating case studies on Britain, South Africa, Canada, the Netherlands, Australia, Mexico, and the United States. *Sexual Justice / Cultural Justice* will be of strong interest to students and researchers working in the areas of gender and feminist theory, politics, law, philosophy and sociology.

Gender, Sexuality, Decolonization - Ahonaa Roy 2020-12-28

This book presents a new approach to the understanding of non-normative sexuality and gender transgressive modes in South Asia and South Asian diaspora. It reconceives sexual representation from the point of view of the theoretical, political and empirical trajectories of decolonization, provincialization and neoliberalism to look at the role of historical contingency, postcolonial sexual politics and gender and sexual diversity. The volume brings together anthropological, historical, material and political analyses

around South Asian sexual politics by exploring a range of themes, including culture, class, ethnicity, identity, intersectionality, migration, borders, diaspora, modernity and cosmopolitanism across various local, regional and global contexts. By using southern/non-Western and subaltern theorizations of gender and sexuality, the book discusses South Asian sexualities through issues such as the sexual politics of indeterminacy; sexual subculture, iconography and political decision-making; religious identity; queer South Asian diaspora; decolonizing the postcolonial body; sexual politics, gender and feminist debates; discrimination, and socio-political violence; the political economy of empowerment; and critical appropriation of the 377 Indian Penal Code. It also builds forms of dialogues to bridge the gap between academic and development practitioners. With diverse case studies and a fresh theoretical framework, this book will be an essential read for scholars and researchers of South Asian studies, gender studies, sexuality studies, sociology and social anthropology, political studies, diaspora studies, postcolonial and global south studies.

Welcome to Greater Edendale - Marc Epprecht 2016-11-01

In the coming decades, the bulk of Africa's anticipated urban population growth will take place in smaller cities. Failure to manage environmental and public health problems in one such aspiring city, Edendale, has fostered severe pollution, seemingly intractable poverty, and gender inequalities that directly fuel one of the worst HIV/AIDS pandemics in the world. A nuanced and timely presentation of South African responses to changing times, conditions, opportunities, and state interventions, *Welcome to Greater Edendale* reconstructs nearly two centuries of contestation over land, governance, human rights, identity, housing, sanitation, public health, and the meaning of development. Bringing gender and health issues to the foreground, Marc Epprecht reveals many unexpected or forgotten triumphs against environmental injustice, but also unsettling continuities between colonial, apartheid, and post-apartheid policies to spur economic growth. Sheltered from the glare of national media and often overlooked by scholars, smaller cities like Edendale attract political patronage, corruption, and violent protests, while rapid climate change promises to further strain their infrastructure, social services, and public health. A challenging, innovative, and thoughtful examination of the history and politics of South Africa, *Welcome to Greater Edendale* questions the common assumptions embedded in environmental policy, gender relations, democracy, and the neoliberal model of development in which so many African cities are ensnared.

[Sex, Sexuality and Sexual Health in Southern Africa](#) - Deevia Bhana 2022-07-15

This book—*Sex, Sexuality and Sexual Health in Southern Africa*—is structured around four major themes: gender and sexuality diversity; love, pleasure and respect; gender, sexual violence and health; and sexuality, gender and sexual justice. Chapters in this book analyse sexuality in relation to recent developments in the Southern African region and what this might mean for contemporary theory, policy and practice. Sex, sexuality and sexual health are often viewed through a narrow biomedical lens, ignoring the fact that they are profoundly social and historical in character. The contributors in this book bring to light the entanglements of sexuality with respect, recognition, rights and mutual respectful pleasure. Authors draw attention to partnerships, allyships and feminist, queer and trans coalitions in the pursuit of sexual health and justice in the region. The book will be of interest to final-year undergraduate and postgraduate students, researchers and activists as well as those working in Women and Gender Studies, Critical Sexuality Studies, Sexual and Reproductive Health, Development Studies, Public Health, Psychology, Education, Sociology and Anthropology.

Sexual Diversity in Africa - S.N. Nyeck 2013-10-01

How does one address homophobia without threatening majority rule democracy and freedoms of speech and faith? How does one "Africanize" sexuality research, empirically and theoretically, in an environment that is not necessarily welcoming to African scholars? In *Sexual Diversity in Africa*, contributors critically

engage with current debates about sexuality and gender identity, as well as with contentious issues relating to methodology, epistemology, ethics, and pedagogy. They present a tapestry of issues that testify to the complex nature of sexuality, sexual practices, and gender performance in Africa. Essays examine topics such as the well-established same-sex networks in Accra and Bamako, African "traditions" defined by European observers, and the bizarre mix of faith, pharmaceuticals, and pseudo-science used to "cure" homosexual men. Their evidence also demonstrates the indefensibility of over-simplified constructions of homosexuality versus heterosexuality, modern versus traditional, Africa versus the West, and progress from the African closet towards Western models of out politics, all of which have tainted research on same-sex practices and scientific studies of HIV/AIDS. Asserting that the study of sexuality is intellectually and politically sustainable in Africa, *Sexual Diversity in Africa* contributes to the theorization of sexualities by presenting a more sensitive and knowledgeable study of African experiences and perspectives. Contributors include Olajide Akanji, Christophe Broqua, Cheryl Cooky, Serena Owusua Dankwa, Shari L. Dworkin, Marc Epprecht, Melissa Hackman, Notisha Massaquoi, Crystal Munthree, Kathleen O'Mara, Stella Nyanzi, S.N.Nyeck, Vasu Reddy, Amanda Lock Swarr, and Lisa Wiebesiek.

Hungochani, Second Edition - Marc Epprecht 2013-04-01

In the tapestry of global queer cultures Africa has long been neglected or stereotyped. In *Hungochani*, Marc Epprecht seeks to change these limited views by tracing Southern Africa's history and traditions of homosexuality, modern gay and lesbian identities, and the vibrant gay rights movement that has emerged since the 1980s. Epprecht explores the diverse ways African cultures traditionally explained same-sex sexuality and follows the emergence of new forms of gender identity and sexuality that evolved with the introduction of capitalism, colonial rule, and Christian education. Using oral testimony, memoirs, literature, criminal court records, and early government enquiries from the eighteenth century to the present, he traces the complex origins of homophobia. By bringing forth a wealth of evidence about once-hidden sexual behaviour, Epprecht contributes to the honest, open discussion that is urgently needed in the battle against HIV/AIDS. Homosexuality - or *hungochani* as it is known in Zimbabwe - has been denounced by many politicians and church leaders as an example of how Western decadence has corrupted African traditions. However, a bold, new gay rights movement has emerged in several of the countries of the region since the 1980s, offering an exciting new dimension in the broad struggle for human rights and democracy unfolding on the continent. In a new preface to this edition, Epprecht considers the recent advances of equality on the continent such as the legalization of same-sex marriage in South Africa, as well as discriminatory setbacks such as Uganda's anti-homosexuality legislation.

Public Procurement Reform and Governance in Africa - S.N. Nyeck 2016-06-29

This book presents an interdisciplinary exploration of the governance of public procurement reform in Africa. Through a bottom-up approach to case studies and comparative analyses, scholars, practitioners, and social activists write about the organizational mechanisms and implementation gaps in public procurement governance in light of the general premises of national reform. Reforming the ways in which government purchases works, goods, and services from the private sector is one of the most sweeping policy reform undertaken in Africa in the past decade. Despite the transnational scope of policy change, very little is known about the mechanisms of public procurement governance at the subnational level. The

argument in this volume is that policy reforms that mitigate contractual hazards along the three-dimensional "law-politics-business matrix" are more likely to bring about meaningful institutional transformation and broader social accountability. Key to substantive transformation of public procurement is the revitalization and professionalization of the public sector to meet the opportunities and challenges of development by contract.

Sexuality, Human Rights, and Public Policy - Chima J. Korieh 2019-11-30

Sexuality, Human Rights, and Public Policy explores the intersection of public policy, human rights, and sexuality as they relate to inclusion and exclusion across diverse cultural settings. It examines how knowledge is formed and experienced at the intersections of culture, sexuality, race, and other axes of identity. This volume engages an array of questions including how public policy shapes the conceptualization of sexuality and rights and by extension the phenomena of inclusion and exclusion in contemporary society across the world. By evaluating how public discourse is employed to re-inscribe differences of gender, sexuality, and rights of citizens, this book provides a comparative analysis of how these processes and dynamics resemble each other or differ cross-culturally. This book demonstrates that in the realm of sexualities, approached from the ideal of human rights as a predominantly Western notion is increasingly challenged by diverse views and new interpretations of human rights in non-Western societies such as Africa and the Middle East.

Queer in Africa - Zethu Matebeni 2018-05-23

African sexualities are dynamic, multi-faceted and resilient. However, people with non-heterosexual sexualities and gender variant identities are often involved in struggles for survival, self-definition, and erotic rights. *Queer in Africa* forms an entry point for understanding the vulnerabilities of queer Africans as shaped by social, cultural and political processes, aiming to provide innovative insights about contentious disagreements over their lives. The volume mediates Southern and Northern scholarship, directing attention toward African-centred beliefs made accessible to a wide audience. Key concerns such as identity construction and the intersections between different social forces (such as nationalist traditionalism and sexualities) are addressed via engaging chapters; some empirically based and others providing critical cultural analysis. Highly interdisciplinary in nature, *Queer in Africa* provides a key resource for students, academics, and activists concerned with the international support of sex and gender diversity. It will appeal to those interested in fields such as anthropology, film studies, literary studies, political science, public health, sociology, and socio-legal studies.

Gender Diversity in English Language Education - Navan Govender

"This book combines teaching-informed research studies and research-informed teaching accounts which explore English language education that engages with (a)gender and (a)sexual diversity. Informed by critical theories, critical literacy, post-structuralism, queer theory, and indigeneity/(de)coloniality, the critical perspectives in this volume consider gender and sexuality as dimensions of human life and aim to promote sexual, gender, emotional and relational wellbeing together with the construction of cultural horizons and citizenship. The chapters are organised around three interdependent areas of inquiry: 1) how educators design pedagogies and curriculums around gender diversity, 2) how students and teachers navigate issues of gender diversity in practice, as well as 3) how issues of gender diversity are (not) addressed in the materials for teaching and learning English. The contributors are all teacher educators-researchers and therefore have vast experience in enacting, implementing, designing, and examining the field of English language teacher education from/for the classroom with a gender perspective in diverse settings, with chapters come from Argentina, Bangladesh, Canada, Germany, Norway, Poland, Saudi Arabia, South Africa, Spain, Taiwan, Turkey, the UK and Uruguay."--

Reimagining Christianity and Sexual Diversity in Africa - Ezra Chitando 2021-09-30

Religion is often seen as a conservative force in contemporary Africa. In particular, Christian beliefs and actors are usually depicted as driving the opposition to homosexuality and LGBTI rights in African societies. This book nuances that picture, by drawing attention to discourses emerging in Africa itself that engage with religion, specifically Christianity, in progressive and innovative ways—in support of sexual diversity and the quest for justice for LGBTI people. The authors show not only that African Christian traditions harbour strong potential for countering conservative anti-LGBTI dynamics; but also that this potential has already begun to be realised, by various thinkers, activists and movements across the continent. Their ten case studies document how leading African writers are reimagining Christian thought; how several Christian-inspired groups are transforming religious practice; and how African cultural production creatively appropriates Christian beliefs and symbols. In short, the book explores Christianity as a major resource for a liberating imagination and politics of sexuality and social justice in Africa today. Foregrounding African agency and progressive religious thought, this highly original intervention counterbalances our knowledge of secular approaches to LGBTI rights in Africa, and powerfully decolonises queer theory, theology and politics.

Queer Kinship - Tracy Morison 2019-09-20

What makes kinship queer? This collection from leading and emerging thinkers in gender and sexualities interrogates the politics of belonging, shining a light on the outcasts, rebels, and pioneers. Queer Kinship brings together an array of thought-provoking perspectives on what it means to love and be loved, to 'do

family' and to belong in the South African context. The collection includes a number of different topic areas, disciplinary approaches, and theoretical lenses on familial relations, reproduction, and citizenship. The text amplifies the voices of those who are bending, breaking, and remaking the rules of being and belonging. Photo-essays and artworks offer moving glimpses into the new life worlds being created in and among the 'normal' and the mundane. Taken as a whole, this text offers a critical and intersectional perspective that addresses some important gaps in the scholarship on kinship and families. Queer Kinship makes an innovative contribution to international studies in kinship, gender, and sexualities. It will be a valuable resource to scholars, students, and activists working in these areas.

What is Africanness? Contesting nativism in race, culture and sexualities - Charles Ngwena 2018-01-01

What is Africanness? Contesting nativism in race, culture and sexualities by Charles Ngwena 2018 ISBN: 978-1-920538-82-8 Pages: 306 Print version: Available Electronic version: Free PDF available About the publication What is Africanness: Contesting nativism in culture, race and sexualities, by Charles Ngwena, Professor of Law at the Centre for Human Rights, Faculty of Law, University of Pretoria, is a peer-reviewed monograph aiming to contribute to the ongoing scholarly conversation in and beyond South Africa about who is African and what is African. It aims to implicate a reductive sameness in the naming of Africans ('nativism') by showing its teleology and effects; and offers an alternative understanding of how Africans can be named or can name themselves. The book develops an epistemology for constructing the hermeneutics of Africanness today, long after the primal colonial moment and its debasing racialising ideology. It interrogates the making of Africa in colonial discourses and the making of an African race and African culture(s) and sexuality(ies) in ways that are not just historically conscious but also have a heuristic capacity to contest nativism from the outside as well as from within. The arguments in this book go beyond problematising African identity by addressing an existential gap in theory for explicating African social identity. The book develops an interpretive method – a hermeneutics – for locating and deciphering African identifications in ways that are historically conscious and conjunctural. The hermeneutics look to the present and the future in addition to the past, so that African identifications are not nailed to a mast but remain invested with mobility and the capacity to mutate radically and make new and unexpected beginnings. Comments Charles Ngwena's timely and original book is a wonderful read, rich in theory and insight, and an essential companion for those interested in exploring the 'multiplicity of histories, cultures and subjectivities' that constitute the diversity of 'Africanness' and African identities. – Professor Cathi Albertyn, School of Law, University of the Witwatersrand, Editor, South African Journal on Human Rights This is a brilliant exploration of liberating and affirming ways to speak of African identities and sexualities, reminding us there can be creative beauty where pain and dispossession have resided. – Rudo Chigudu, Centre for Human Rights, University of Pretoria This is a masterpiece! Not only does the author capture the discourse and debates on "Africanness", he aptly examines them before offering his views on "decentring the race of Africanness" with the important recognition of "Africa as land of diverse identifications". – Prof Serges Djoyou Kamga, Thabo Mbeki African Leadership Institute, UNISA Table of Contents ACKNOWLEDGMENTS PREFACE DEDICATION PART 1: BACKGROUND TO THE HERMENEUTICS OF HETEROGENOUS AFRICANNESS 1.
