

Sinn Und Gehalt Der Sexuellen Persionen

Abt.II,Bd.7 Schoeps,Schriften - Hans-Joachim Schoeps

Phenomenology World-Wide - Anna-Teresa Tymieniecka 2014-11-14

Phenomenology is the philosophy of our times. Through the entire twentieth century this philosophy unfolded and flourished, following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl. Now its seminal ideas have been handed over to a new era. The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers. It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge, transforming our way of seeing the world, our actions toward others, and our lives. Phenomenology's universal spread has, however, oftentimes diluted its original sense, even beyond recognition, and led to a weakening of its dynamics. There is at present an urgent need to retrieve the original understanding of phenomenology, to awaken its dormant forces and redirect them. This is the aim of the present book: resourcement and reinvigoration. It is meant to be not only a reference work but also a guide for research and study. To restore the authentic vision of phenomenology, we propose returning to its foundational source in Husserl's project of a 'universal science', unpacking all its creative capacities. In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality: ideal structures, constitutive consciousness, the intersubjective lifeworld, and beyond. The key concepts and phases of Husserl's thought are here exfoliated. Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated. Phenomenology's geographic spread is reviewed. We then proceed to the culminating work of this philosophy, to the phenomenological life engagements so vigorously advocated by Husserl, to the life-significant issues phenomenology addresses and to how it has enriched the human sciences. Lastly the phenomenological project's new horizons on the plane of life are limned, horizons with so powerful a draw that they may be said not to beckon but to summon. Here is the movement's vanguard. This collection has 71 entries. Each entry is followed by a relevant bibliography. There is a helpful Glossary of Terms and an Index of Names.

Tiefenpsychologie und Revolte - Irmgard Fuchs 2005

Letters of C. G. Jung - C.G Jung 2015-06-05

In May 1956, in his eighty-second year, Jung first discussed with Gerhard Adler the question of the publication of his letters. Over many years, Jung had often used the medium of letters to communicate his ideas to others and to clarify the interpretation of his work, quite apart from answering people who approached him with genuine problems of their own and simply corresponding with friends and colleagues. Many of his letters thus contain new creative ideas and provide a running commentary on his work. From some 1,600 letters written by Jung between the years 1906-1961, the editors have selected over 1,000. Volume 2 contains 460 letters written between 1951 and 1961, during the last years of Jung's life, when he was in contact with many people whose names are familiar to the English reader. These include Mircea Eliade, R.F.C. Hull, Ernest Jones, Herbert Read, J.B. Rhine, Upton Sinclair and Fr. Victor White. Volume 2 also contains an addenda with sixteen letters from the period 1915-1946 and a subject index to both volumes. The annotation throughout is detailed and authoritative.

Personenlexikon der Sexualforschung - Volkmar Sigusch 2009-09-14

Nach einem Vorlauf von mehr als drei Jahrzehnten des Suchens und Sammelns im Frankfurter Institut für Sexualwissenschaft legen in diesem Band 60 angesehene Forscherinnen und Forscher aus aller Welt 200 faszinierende Artikel über Leben und Werk bedeutender Sexualforscherinnen und Sexualforscher vor. Hierzu gehören prominente Fachvertreter, die Institute, Zeitschriften oder Fachgesellschaften gründeten,

weichenstellende Kongresse abhielten, Standardwerke verfassten, Theorien entwickelten oder provozierende Hypothesen aufstellten. Aber auch wenig bekannte, zu ihrer Zeit und in ihrem Bereich jedoch nachhaltig wirkende Persönlichkeiten sowie Außenseiter, denen die Sexualwissenschaft wichtige Impulse verdankt, sind im vorliegenden Lexikon zu finden – ebenso bekannte Philosophen und Soziologen wie etwa Michel Foucault, Norbert Elias oder Niklas Luhmann. Ein besonderes Anliegen ist den Herausgebern die Erschließung des Werkes jener jüdischen Sexualwissenschaftler, die der Naziterror aus Deutschland vertrieben hat. Es gibt kein vergleichbares Werk weltweit.

Sinn und Gehalt der sexuellen Perversion - Medard Boss 1952

Life, Sex and Death - Michael Sinason 2005-07-25

A distinguished and revered elder of the British Psycho-Analytical Society, Dr William Gillespie is one of the few British psychoanalysts who began training in the Vienna of the early 1930s. Later he became well known in England for his pioneering studies of sexual perversion, and for his views on female sexuality, regression in old people facing death, and on instinct theory. William Gillespie is celebrated not only for his scientific contributions but also for his administrative skill, integrity and tact in managing the International Psycho-Analytical Association and the British Psycho-Analytical Society, where he was trusted and respected by both Melanie Klein and Anna Freud. In a biographical introduction the editor, Dr Michael Sinason, looks back on the productive 90 years of Gillespie's life, writing movingly of his early life in China and Scotland and showing his development as a psychoanalytic thinker, organizer and administrator, husband and father. Dr Charles Socarides, an American psychoanalyst eminent in the field of perversion and its treatment, discusses the innovations introduced by each of the papers in the collection shows how Gillespie's ideas influenced by his own contributions and affected the field as a whole.

Sinn und Gehalt der sexuellen Perversionen - Medard Boss 1957

Everyday Mysteries - Emmy van Deurzen 2009-12-16

This book provides an in-depth introduction to existential psychotherapy. Presenting a philosophical alternative to other forms of psychological treatment, it emphasises the problems of living and the human dilemmas that are often neglected by practitioners who focus on personal psychopathology. Emmy van Deurzen defines the philosophical ideas that underpin existential psychotherapy, summarising the contributions made by Kierkegaard, Nietzsche, Heidegger and Sartre among others. She proposes a systemic and practical method of existential psychotherapy, illustrated with detailed case material. This expanded and updated second edition includes new chapters on the contributions of Max Scheler, Albert Camus, Gabriel Marcel and Emmanuel Levinas, as well as on feminist contributors such as Simone de Beauvoir and Hannah Arendt. In addition a new extended case discussion illustrates the approach in practice. Everyday Mysteries offers a fresh perspective for anyone training in psychotherapy, counselling, psychology or psychiatry. Those already established in practice will find this a stimulating source of ideas about everyday life and the mysteries of human experience, which will throw new light on old issues.

Prolegomena Einer Medizinischen Anthropologie - Viktor Emil Gebattel 2013-03-09

Der vorliegende Band faßt eine Reihe von Vorträgen und Aufsätzen zusammen, die - in vielen Jahren (1913-1953) entstanden - die notwendige Annäherung des phänomenologischen Denkens und der psychopathologischen Erfahrung an eine Grundlehre von der menschlichen Seinsart in zunehmender

Deutlichkeit veranschaulichen. Die Veröffentlichung einer solchen Zusammenfassung verstreuter Betrachtungen und Überlegungen erscheint einmal gerechtfertigt dadurch, daß sie von vielen Seiten angefordert wird mit der Begründung, es seien die oft zitierten Untersuchungen schwer oder gar nicht zugänglich. Darüber hinaus aber muß gesagt werden, daß, so verschiedenartig die in den folgenden Mitteilungen behandelten Themen auch sein mögen, die einzelnen Ausführungen trotzdem durch ein gemeinsames Anliegen wie durch eine unausgesprochene Ausrichtung in sich geordnet erscheinen. Diese grundsätzliche Ausrichtung aber ist anthropologischer Natur. Es liegt im Wesen so gearteter Untersuchungen, daß das Primum movens ihrer Methode und ihrer Thematik nicht als solches ausdrücklich in voll entfalteter Systematisierung herausgestellt werden kann. Was einen Forscher im Letzten bewegt, wird, solange der eigentliche Sinngehalt dieses Letzten, hier also der gültige und umfassende Seinsentwurf des Menschen, sich der präzisen Formulierung noch entzieht, besser in umschreibender und gleichnishafter Veranschaulichung als in direkter Aussage angegangen. Dabei läßt es sich nicht vermeiden, daß in den Aufweis vordergründiger Inhalte, seien diese psychotherapeutischer, psychopathologischer oder daseinsanalytischer Art, das zentrale Anliegen soweit eingeht, daß es als sein nisus formativus nicht nur die Darstellung, sondern auch die Auffassung der vorgefundenen Inhalte mitgestaltet.

Philosophische Probleme der Daseinsanalyse von Medard Boss und ihre praktische Anwendung - Gregor Becker 1997

Sinn und Gehalt der sexuellen Perversionen - 1947

Phenomenology in Psychology and Psychiatry - Herbert Spiegelberg 1972-02

Phenomenology in Psychology and Psychiatry is a historical introduction to phenomenology in psychology

working from the general to the details of the subject.

Wer sind wir? Auf der Suche nach der Formel des Menschen - Gerhard Danzer 2011-06-24

Anthropologie ist der Versuch des Menschen, nach seinem Wesen und seiner Natur zu fragen sowie seine Herkunft und Möglichkeiten zu ergründen. Während sich Philosophen schon immer mit diesem Thema beschäftigt haben, sind im 20. Jahrhundert viele Disziplinen hinzugekommen. Der Autor beschreibt anhand von 35 biografischen und werkanalytischen Erörterungen, wie sich Ärzte und Philosophen im 20. Jahrhundert auf die Suche nach der „Formel des Menschen“ begeben haben. Dabei setzt er sich mit den verschiedenen Denkrichtungen kritisch auseinander.

Sinn und Gehalt der sexuellen Perversionen - Medard Boss 1984

Verstümmelung oder Selbstverwirklichung? - Frank Töpfer 2012

Der Psychiater Medard Boss berichtete 1950 über die Operation eines biologischen Mannes, der sich körperlich an seine empfundene seelische Zweigeschlechtlichkeit hatte anpassen lassen - für Boss eine neue Menschwerdung, für seinen Hauptkritiker Alexander Mitscherlich eine Verstümmelung. Die darauf unter Beteiligung L. Binswangers, V. v. Weizsackers, C. G. Jungs, M. Heideggers und anderer entbrannte Kontroverse kreiste um unverändert aktuelle Probleme: Patientenautonomie und ärztliche Verantwortung, Normativität anthropologischer Konzepte, psychotherapeutisches Selbstverständnis. Die Kontroverse ist hier mit teils erstmals veröffentlichten Beiträgen dokumentiert.
