**Mr Strangelove** - Ed Sikov 2011-08-19

Peter Sellers was a genius, whose unique mastery created enduring comic characters. But behind the man that could make the world laugh was a tragic sadness. Employing his creations as masks to hide behind, Sellers was convinced his own life was meaningless and empty. Acclaimed (On Sunset Boulevard - the story of Billy Wilder) biographer Ed Sikov has spoken to many who knew and worked with Sellers, including Sophia Loren, Goldie Hawn, and Roman Polanski. Sikov reveals how Sellers was a casualty of his own insecurities and used his public persona to mask his tormented private life, littered with four marriages (and three divorces), countless affairs, and drug and alcohol abuse. This is the authoritative and touching story of a majestic comedian, showing the very private face of a man whose world was lived through the public arena. 'An authoritative biography and a compulsive page turner.' Michael Palin, New York Times 'Sikov's book is often melancholy, but always informative, and entertaining... They don't really make 'em like that any more - you can't get the wood you know' Simon Louvish, Guardian

**Cupboards of Curiosity** - Amelie Hastie 2007

In Cupboards of Curiosity Amelie Hastie rethinks female authorship within film history by expanding the historical archive to include dollhouses, scrapbooks, memoirs, cookbooks, and ephemera. Focusing on women who worked during the silent-film era, Hastie reveals how female stars, directors, and others appropriated personal or "domestic" cultural forms not only to publicize their own achievements but also to reflect on specific films and the broader film industry. Whether considering Colleen Moore's thirty-six scrapbooks or Dietrich's eccentric book Marlene Dietrich's ABC, Hastie emphasizes how these women spoke for themselves--as collectors, historians, critics, and experts--often explicitly contemplating the role their writings and material objects would play in subsequent constructions of history. Hastie pays particular attention to the actresses Colleen Moore and Louise Brooks and Hollywood's first female director, Alice Guy-Blaché. From the beginning of her career, Moore worked intently to preserve a lasting place for herself as a Hollywood star, amassing collections of photos, souvenirs, and clippings as well as a dollhouse so elaborate that it drew extensive public attention. Brooks's short essays reveal how she participated in the creation of her image as Lulu and later emerged as a critic of film stardom. The recovery of Blaché's role in film history by feminist critics in the 1970s and 1980s was made possible by the existence of the director's own autobiographical history. Broadening her analytical framework to include contemporary celebrities, Hastie turns to how-to manuals authored by female stars, from Zasu Pitts's cookbook Candy Hits to Christy

Turlington's Living Yoga. She discusses how these assertions of celebrity expertise in realms seemingly unrelated to film and visual culture allow fans to prolong their experience of stardom.

**Where Do Nudists Keep Their Hankies?** - Mitchell Symons 2021-01-07

My friends have often had cause to remark, I lack both the tact and the embarrassment genes and so am totally uninhibited about asking incredibly personal questions. I'm driven by two specific things: a very low

threshold of boredom on the one hand and almost insatiable curiosity on the other. It's a toxic mix that sometimes makes my wife wince with embarrassment and occasionally loses us friends but, at long last, I can put it to some practical use. So here are a hundred or so questions of a sexual orientation: breezy not sleazy; entertaining not titillating - if any bloke reading this gets a hard on then I will have failed. (if, on the other hand, any woman - any extremely cute woman - finds herself getting incredibly aroused by something I've written, then my email address can be found at the back of the book. I am, of course happily married and totally monogamous but, hey, everything's negotiable...)
