Connecting Through Yes! - Jack Ito 2013-04-01

This book shows how to use agreement to transform the biggest areas of marital conflict into closeness, cooperation, and mutually desirable outcomes. Licensed psychologist, marriage, and relationship coach Jack Ito PhD illustrates with clear, easy to follow examples, how to communicate about the biggest problems that couples face. These are the same techniques his coaching clients use to stop divorces, end affairs, deal with addicted spouses, solve problems, end blaming, improve dating, handle money issues, parent cooperatively, get out of debt, and more. This book is unique in

offering communication training to couples when one spouse (or significant other) is not ready or willing to work on the relationship.

Forgiveness and Reconciliation - Everett L. Worthington, Jr. 2013-05-13

To be unforgiving is harmful. The inability to come to terms with one's anger or strife often can lead to stress disorders, mental health disorders, and relationship problems.

Forgiveness is a personal decision. Forgiveness and Reconciliation focuses on individual experiences with forgiveness, aiming to create a theory of what forgiveness is and connect it to a clinical theory of how to promote forgiveness.

Dr. Worthington creates an evidence-based approach that is applicable for individuals and relationships, and even for society. He also describes an evidence-based method of reconciliation - restoring trust in damaged relationships. Dr. Worthington hopes that this theory will inform scientific research and improve intervention strategies. Showing that

forgiveness transforms personality, Worthington describes ways a clinician can promote (but not force) forgiveness of others and self. He provides research-based theory and applications and discusses the role of emotion and specific personality traits as related to forgiveness.

Forgiveness and reconciliation might not be cures, but, as Worthington shows, they are tools for transforming both the self and the world.
