Men's Friendships Peter M. Nardi 1992-02-26 "Men's Friendships" offers an analysis of the differences within each of the genders and the social forces that shape the ways friendship is organized. Through varying perspectives the contributors show that a variation exists within as well as between the genders. They focus on the diversity in men's friendships, and how men develop and maintain friendships with other men and with women. The first section focuses on philosophical and historical questions. Part II illustrates the strong connection between social structure and men's friendships; and the last series of chapters considers cultural diversity. -- From publisher's description.

TransForming Gender Sally Hines 2007 This book is a major contribution to contemporary gender and sexuality studies. At a time when transgender practices are the subject of increasing social and cultural visibility, it marks the first UK study of transgender identity formation. It is also the first examination - anywhere in the world - of transgender practices of intimacy and care. The author addresses changing government legislation concerning the citizenship rights of transgender people. She examines the impact of legislative shifts upon transgender people's identities, intimate relationships and practices of care and considers the implications for future social policy. The book encompasses key approaches from the fields of psychoanalysis, anthropology, lesbian and gay studies, sociology and gender theory. Drawing on extensive interviews with transgender people, "TransForming gender" offers engaging, moving, and, at times, humorous accounts of the experiences of gender transition. Written in an accessible style, it provides a vivid insight into the diversity of living gender in today's world. The book will be essential reading for students and professionals in cultural studies, gender studies and sexuality studies as well as those in sociology, social policy, law, politics and philosophy. It will

also be of interest to health and educational students, trainers and practitioners. Sally Hines is a lecturer in sociology and social policy at the University of Leeds. Her teaching and research interests fall within the areas of identity, gender, sexuality, the body and citizenship.

Speaking of Friendship Helen Gouldner 1987-06-11 *Speaking of Friendship* provides an in-depth look at the friendships of middle-class women. It explores the details of their everyday experiences with making and keeping friends from the beginnings of casual acquaintanceship to the cultivation of close friends and confidantes. The importance women attach to having friends is seen in the determined search they undertake to replace friends from whom they are periodically separated by residential mobility, job switches, and other major changes in their lives. Based on interviews with seventy-five middle- and upper-middle-class women between the ages of thirty and sixty-five, this unique sociological study reveals a kaleidoscope of friendship experiences.

The Fabric of Friendship Joy Carol 2006 Exploring the emotional hurdles that women face in their relationships, *The Fabric of Friendship* reveals a simple truth: friendship is never simple. Weaving her own experiences together with real-life stories of other women, Joy Carol will remind readers of the amazing gifts friendship holds and inspire them to reclaim the power of their relationships.

Communication and Women's Friendships Janet Doubler Ward 1993 By looking at various types of friendships and by examining how they either lapse or develop into strong relationships, we may better understand ourselves and our own relationships. *Communication and Women's Friendships* is directed towards literary scholars, social critics, and anyone interested in the ways in which forms of discourse enhance friendships between women.

Women Behaving Badly Alana Munro 2013-05-28 *Women Behaving Badly* shatters our assumption that all females are loving. It ruptures our romantic notions of Sisterhood. It heightens our awareness of what goes on behind the sweet smiles. It liberates women from the emotional and often difficult prison that is womanhood. It exposes the harsh and fickle reality of friendship between women.

The Odd Women George Gissing 2022-05-29 *The Odd Women* is a novel by George Gissing. Its topics are the role of women in society, marriage, morals and the early feminist movement. After various travails, the adult Alice and Virginia Madden move to London and renew their friendship with Rhoda, an unmarried bluestocking. She is living with the also unmarried Mary Barfoot, and together they run an establishment teaching secretarial skills to young middle-class women remaindered in the marriage equation.

Prophecies, Visions, Occurrences, and Dreams Raymond Aguilera 2001-01-11 *Prophecies, Visions, Occurrences, and Dreams* is an apocalyptic book. Since 1990, Raymond Aguilera began to receive prophecies, visions, and warnings from God about the end of our world as we know it. These messages range from abortion, to the New Age movement, to Pastors who have missed the flock. They reveal things to come, things that now are, and things that should not be... From hope, to love, to doom, to a new beginning, herein lies a broad range of insight from a whole new perspective. The prophecies are simple and straight forward, written from a first-hand perspective. They fly in the face of orthodox tradition and are a thorn in the side to everyone who has already made up his mind and heart on how the end is to come and who God is. This has the potential of being one of the most controversial books of the year.

Women and Friendship Joel D. Block 2002-08 The authors reveal that women's friendships are deeper and more enduring than those between men. Cross-Cultural Communication between Men and Women Nadine Marik 2007-01-12 Seminar paper from the year 2006 in the subject English Language and Literature Studies - Linguistics, grade: 1,0 , The Australian National University (English Department - Australian National University), course: Cross Cultural Communication, language: English, abstract: In the recent history of linguistics, there have been various approaches to analyse women's and men's speech. It was the goal of these studies to find out if men and women speak differently. Their speech behaviour was analysed in respect to phonology, lexical choice and usage as well as interactions between men and women in discourse. Traditionally, sociolinguists have looked at gender in discourse in connection with ethnic background, age, level of education and socio-economic status. Many theories claim that differences in language result from the male tendency to dominate women, and have seen female speech behaviour as a deviation from male speech norms. Deborah Tannen, professor of linguistics at Georgetown University, has developed a different model. She claims that male-female communication is cross-cultural. Men and women may grow up in the same country, in the same society and culture, but they are members of different genders, different subcultures. Men and women talk differently: they apply different speech norms and have different expectations for their interlocutors. Misunderstandings between the sexes easily arise in discourse. In the following I will elaborate on the nature of the two different cultures, their origins, and give examples on how the gender-related cultural norms affect language. Although some of these speech-norms are apparent in western cultures, the main focus will be on Anglo-American culture. Deborah Tannen regards men and women as belonging to two different cultures. The juxtaposition of power on the male side and solidarity on the female side is the key difference between their communities. Other differences in attitudes and values are results of this contrast. Gender is not just biological sex. In linguistics, genderlect refers to an acquired form of speech behaviour that individuals learn from early on. Children learn how to behave from parents and, more importantly, from their peers. Interaction in same-sex groups of children can explain or hint at the psychological behaviour that members of each sex develop. In the male community, power and status are important values that every man will endeavour to attain and maintain. Men perceive life in hierarchies, and continuously struggle to show or defend their status in society. In communication, too, one is always one-up or one-down. Furthermore, men value independence, their language creates distance. The female world differs in attitudes and values.

The F Word Lily Pebbles 2018-03-08 If there's one piece of invaluable advice for women and girls of all ages, it is that there is nothing more important than creating and maintaining strong, positive and happy friendships with other women. In a culture that largely pits women against each other, I want to celebrate female friendships... all strings attached! If my 1998 diary is anything to go by, female friendships are incredibly complex and emotional but they're the mini love stories that make us who we are. For many women, friends are our partners in crime through life; they are the ones who move us into new homes, out of bad relationships, through births and illnesses. In The F Word I've set out to explore and celebrate the essence of female friendship at different life stages and in its many wild and wonderful forms.

BFF?: The truth about female friendship Claire Cohen 2022-06-23 Why do some friendships last a lifetime, while others fade away? How do you break up with a friend? How many 'best' friends should we be aiming for? From the time we start school, we are fed a diet of 'Best Friends Forever' - the idea that you should have a female soulmate to whom you tell all your secrets and who always has your back. It's the stuff of Hollywood films, but for most of us it isn't achievable. We spend years striving for a vision of female friendship that isn't realistic instead of searching for what suits us best or appreciating what we've already got. BFF? is an agenda-setting, personal and humorous book that pulls back the cover on the most underappreciated relationships in our lives to interrogate what modern friendship means, why we need it and what we can do to get the most from it. Featuring interviews with brilliant women, including Emma Barnett, Pandora Sykes, Nimco Ali and Jilly Cooper - as well as the intimate friendship stories of women from all walks of life - Claire Cohen argues that, unlike romance, friendship is much harder to pin down and. And it shows how often our friendships are taken for granted. An antidote to the idea that every woman must belong to a perfect girl gang, this book is a warm and reassuring guide to help women deepen their female friendships in ways that are meaningful and enduring. _____ 'It took me until my thirties to feel truly secure in my friendships - my female ones in particular. I truly believe that if I'd had a book like this when I was younger, it would have fallen into place sooner. That I'd have been happier, more trusting and able to deal with any bumps in the road. That's why I want us all to start telling the truth about female friendship. Because if I - raised in a house full of women, the product of two all-girls schools and the women's editor of a national newspaper - found it hard to trust, open up and had convinced myself that female friends 'weren't for me', then you might not have it worked out either.'

Among friends? Agnes Brandt 2013-03-12 Relationships are the glue that holds the world together. As the author shows, this common belief applies to ancient Greece as much as to contemporary Aotearoa New Zealand. Based on long-term ethnographic fieldwork, this anthropological study dedicates itself to the topic of friendship - this flexible type of sociality that has become increasingly significant in people's lives throughout the world. At the core stand the friendship conceptions and life-worlds of Maori and Pakeha actors in New Zealand. By tracing out people's "friendship worlds" in their wider societal context, the author takes up current debates surrounding issues of identity and sociality, indigeneity and diversity. By

furthering our understanding of the social dynamics of friendship in New Zealand, the study not only contributes to the growing field of friendship research, it also reveals important implications for the understanding of group relations in a postcolonial, so-called "multicultural" society.

Girl Talk Jacqueline Mroz 2018-11-13 A veteran science reporter's investigation into the fascinating and distinctive nature of women's friendships In *Girl Talk*, New York Times science reporter Jacqueline Mroz takes on the science of female friendship -- a phenomenon that's as culturally powerful as it is individually mysterious. She examines friendship from a range of angles, from the historical to the experiential, with a scientific analysis that reveals new truths about what leads us to connect and build alliances, and then "break up" when a friendship no longer serves us. Mroz takes a new look at how friendship has evolved throughout history, showing how friends tend to share more genetic commonalities than strangers, and that the more friends we have, the more empathy and pleasure chemicals are present in our brains. Scientists have also reported that friendship directly influences health and longevity; women with solid, supportive friendships experience fewer "fight or flight" impulses and stronger heart function, and women without friendships tend to develop medical challenges on par with those associated with smoking and excessive body weight. With intimate reporting and insightful analysis, Mroz reveals new awareness about the impact of women's friendships, and how they shape our culture at large.

Spirituality and Your Life Story Bradley Hanson 2014-04-29 Each of us has come to our current life stance through a journey of unique experiences—being born at this time, growing up in this particular social setting and culture, experiencing these specific successes and losses, and having these significant relationships. Whether we are in the early, middle, or latter part of our personal faith story, the ending is still ahead of us—and reviewing our own faith story helps us chart our course into the future. Using psychologist Dan McAdams's idea that we make sense of life by composing our own life story, author Bradley Hanson explores how our personal identity and spirituality are influenced by the meaning and values embedded in our childhood family life and major story lines promoted by our culture. In our most basic quest to make sense of life, he considers sharply contrasting answers to five fundamental questions. With reflection and suggested group discussion questions at the end of each chapter, this study explores the idea that spirituality and one's life story are intimately connected. Praise for *Spirituality and Your Life Story* "Real people tell their stories of success, love, friendship, forgiveness, and loss. Brad Hanson helps us ponder our own deepest commitments and the paths we follow to realize them. A fine book for individual reflection or group discussion." —H. George Anderson, former presiding bishop, Evangelical Lutheran Church in America

Women's Best Friendships Patricia Rind 2012-12-06 Explore the distinct relationships of close female friends! *Women's Best Friendships: Beyond Betty, Veronica, Thelma, and Louise* gives new and comprehensive insight into the complex world of women's closest friendships. Recent studies have shown that women place enormous value on best friendships and consider them to be woven tightly into the fabric of their lives. Using in-depth

interviews, along with close readings of relevant literature and theory, this book focuses on the many facets of these relationships. With heartfelt first-person accounts and insightful commentary from the author, this book examines three intertwining themes: feelings of competition, issues of dependence and independence, and knowing/understanding. This book sheds light on areas of tension among women, especially difficulties in communication, frustration about not being entirely let into a friend's life and thought processes, and the feeling that one friend may value the friendship more than the other. It also discusses women's struggles to maintain closeness over increased distances and the realization that one's friends are flawed, even as friends. This informative book, grounded in established research and theory, presents stories of real friendships--told by the people who live them. These women talk candidly about what makes a best friend, about navigating the choppy waters of friendship, and much more: "Somehow, when we started living farther apart there were ways in which we were being insensitive. We recognized that there was a really strong bond, but we were taking it for granted. So we talked about how close we feel to one another and perhaps how that leads to some arguments or hurt feelings." --Liz, on how distance has affected her relationship with her best friend Susan "Em and I don't fight at all. I don't know if that's good or bad. I don't think I do well with fights. I think that's probably a lot of conflict avoidance on my part. And I think it does lead to some distance, even though it's a best friendship. I think I'm uncomfortable asserting myself. And so it's easier not to have to do that. So maybe my inability to deal with the problems keeps the friendship at a distance, where it's safe and comfortable for me, in that one respect." --Linda, about her desire to avoid any confrontation with Emily, her best friend

Women's Best Friendships: Beyond Betty, Veronica, Thelma, and Louise is a fresh and exciting look at the inner workings of relationships between women. Drawing upon a multitude of issues and insights, this book is a must-have for women's studies classes.

Grace Paley Jacqueline Taylor 1990-04-01 Grace Paley is a "writer's writer," admired by both scholars and the reading public for her originality and unique voice. In this first book-length study of her work, Jacqueline Taylor explores the source of Paley's originality, locating it in the way Paley transforms language to create strongly woman-centered stories. Drawing on interviews with the author, as well as the stories themselves, Taylor emphasizes Paley's awareness that women's voices have been muted and their stories ignored or left untold in our culture's male-oriented dominant discourse. She watches Paley in the process of reshaping language at both the semantic and narrative levels to make it express women's perceptions and experiences. In Paley's stories, it becomes possible to ignore traditional heroic and dramatic themes and instead talk about women and children in such everyday settings as the playground, the kitchen, and the grocery store. Some of the specific techniques Paley uses to accomplish this include identifying and repudiating sexist language in the dominant discourse and redefining ordinary words from the perspective of women. At the narrative level, Taylor reveals how she draws on women's oral traditions to tell open-ended stories that resist rigid beginning-middle-and-end structuring. This transformed language enables Paley to construct a social world where woman-centered meanings can flourish. In her nontraditional stories, no single narrator or version of events dominates. Anyone can be a storyteller and no one has the last word.

Professional Discourses, Gender and Identity in Women's Media Melissa Yoong 2020-11-23 This book examines the professional discourses produced in women's media in Malaysia and the subject positions that they make available for career women. Drawing on feminist critical discourse analysis, critical stylistics and feminist conversation analysis, it identifies a range of gendered discourses around employment and motherhood that are underpinned by postfeminism and neoliberal feminism. Through close linguistic analysis of magazine and newspaper articles and radio talk, the study reveals that these discourses substitute balance, individual success, self-transformation and positive feelings for structural change, and entrench the very issues hindering gender workplace equality. Chapters discuss topics such as sexism, work-family balance, extensive and intensive mothering, breadwinning, gender stereotypes, beauty work, 'synthetic sisterhood', media practices and gender equality policies. This book will be of great interest to students and scholars of language and gender, discourse analysis, and media, communication and cultural studies as well as policy-makers, media practitioners and feminist activists.

Best Friends Terri Apter 2010-02-10 *Best Friends* provides the missing link to understanding and recognizing the impact of some of the most important relationships in girls' and women's lives. Every woman remembers the sting of betrayal of a girlfriend, and every parent of a daughter has seen her come home from school in tears because a girl she thought was her best friend suddenly and inexplicably became her enemy. While boys hash out differences with fists and kicks, girls' societies are marked by secrets and whispers and shifting affection. The lessons learned as an adolescent girl are often carried into adulthood, making women fear confrontation—especially with other women. But the intensity of the struggles reflects the support and healing to be found within these friendships. Girls find themselves in the mirror of other girls, hence the power each has to influence the other. Ruthellen Josselson and Terri Apter's many years of working with hundreds of girls and women have given them insight into the emotionally important relationships that are integral to a girl's self-image. *Best Friends* explores the bonds of friendship between girls and between

women and the sorrows and joys they experience together, from early adolescence and throughout their lives.
