Sample Book Insights: #1 I had always dreamed of being a famous singer. In 1989, I signed a deal with Arista Records, and a year later, I put out my first single, Good Life. It wasn't a hit, but we were still over the moon. #2 I was the eldest of three sisters, and I was in charge of picking out our stage outfits. We flew to L. A. to audition for LaFace Records, and we were all nervous. But we delivered a great show. L. and Kenny were impressed with us. #3 I told everyone I knew about my audition. What was Babyface like. a friend asked me. He was the nicest guy, I cooed. And I've met him twice: once backstage on Soul Train and once at a recording studio in Los Angeles. In 1998, I took a cross-country trip to Los Angeles and went to Soul Train. #4 I was so confused after the meeting with my mother. I didn't expect her to be so angry at me. I decided to sign the contract, and began to feel guilty. I wanted to help my sisters get their big break, but they never experienced the same level of fame that I did.

Unbreak My Heart Toni Braxton 2015-04-21 In this heartfelt memoir, six-time Grammy Award-winning artist and star of WE TV's reality hit *Braxton Family Values*, Toni Braxton writes about her personal life decisions and their impact on her health, family and career. While Braxton appears to be living a gilded life—selling 60 million records, appearing in sold-out Las Vegas performances and hit shows like *Dancing with the Stars*, and starring in her own reality series—hers is in fact a tumultuous story, a tale of triumph over a life filled with obstacles, including two bankruptcy filings. The mother of an autistic child, Braxton long feared that her son's condition might be karmic retribution for earlier life choices, some of which will shock fans. But when heart ailments began plaguing her at the age of 41 and she was diagnosed with Lupus, Braxton knew she had to move beyond the self-recrimination and take charge of her own healing. Intensely honest and deeply inspirational, *Unbreak My Heart* is the never-before-told story of the measures Braxton took to make herself and her family whole again.

Destructive Desires Robert J. Patterson 2019-04-05 Despite rhythm and blues culture's undeniable role in molding, reflecting, and reshaping black cultural production, consciousness, and politics, it has yet to receive the serious scholarly examination it deserves. *Destructive Desires* corrects this omission by analyzing how post-Civil Rights era rhythm and blues culture articulates competing and conflicting political, social, familial, and economic desires within and for African American communities. As an important form of black cultural production, rhythm and blues music helps us to understand black political and cultural desires and longings in light of neo-liberalism's increased codification in America's racial politics and policies since the 1970s. Robert J. Patterson provides a thorough analysis of four artists—Kenneth "Babyface" Edmonds, Adina Howard, Whitney Houston, and Toni Braxton—to examine black cultural longings by demonstrating how our reading of specific moments in their lives, careers, and performances serve as metacommentaries for broader issues in black culture and politics.

New Black Renaissance Manning Marable 2015-12-03 Against a backdrop of multiculturalism and Afrocentricity in the intellectual traditions of African-American studies, this book sets new standards and directions for the future. It is the first book to systematically address the many themes that have changed the political and social landscape for African-Americans. Among these changes are new transnational processes of globalization, the devastating impact of neoliberal public policies upon urban minority communities, increasing imprisonment and attendant loss of voting rights especially among black males, the surging of Hispanic population, and widening class differences as deindustrialization, crack cocaine, and gentrification entered urban communities. Marable and a cast of influential contributors suggest that a new beginning is needed for African-American scholarship. They explain why Black Studies needs to break its conceptual and thematic limitations, exploring "blackness" in new ways and in different geographic sites. They outline the major intersectionalities that should shape a new Black Studies—the complex relationships between race, gender, sexuality, class and youth. They argue that African-American Studies scholarship must help shape and redirect public policies that affect black communities, working with government, foundations and other private institutions on such issues as housing, health care, and criminal justice.
