Be a Winner - Kenny Kemp 2011-04-01

Scotland needs more winners - all kinds of winners - in sport and in life. And with the Olympics heading to London and the Commonwealth Games coming to Glasgow, we now have the major catalysts to inspire us to be winners. But as a nation we need to overcome our natural reserve and tendency to underperform when it really matters. We need to find new levels of self-belief and optimism. We need more winning role models: more Chris Hoy, Alex Fergusons, Andy Murrays and Liz McColgans. Packed with significant insights from Scotland's leading sportsmen and women, past and present, *Be a Winner* takes the reader on a personal journey to help them become a genuine success. It encourages them to set their own sporting goals and identify their own personal bests, and, most importantly, gives guidance about how to reach them, through the example of great Scottish winners. It also highlights the steps that an individual can take to develop a winning mentality. From motivation to dedication, competitiveness to teamwork, this book covers all the bases. *Be a Winner* tells it straight when it comes to sport and how to succeed in it, through the advice of the Scottish men and women who have reached the very pinnacle of their various fields. This book will enable a proud Scot to become a 'super Scot'.

Forgotten Women: The Scientists - Zing Tsjeng 2018-02-08

****FREE SAMPLER**** 'To say this series is "empowering" doesn't do it justice. Buy a copy for your daughters, sisters, mums, aunts and nieces - just make sure you buy a copy for your sons, brothers, dads, uncles and nephews, too.' - indy100 The women who shaped and were erased from our history. The *Forgotten Women* series will uncover the lost histories of the influential women who have refused over hundreds of years to accept the hand they've been dealt and, as a result, have formed, shaped and changed the course of our futures. *The Scientists* celebrates 48* unsung scientific heroines whose hugely important, yet broadly unacknowledged or incorrectly attributed, discoveries have transformed our understanding of the scientific world. Mary Anning, the amateur paleontologist whose fossil findings changed scientific thinking about prehistoric life Emmy Noether, dubbed "The Mighty Mathematician You've Never Heard Of" Ynés Mexía, a Mexican-American botanist who discovered over 500 new plant species Wangari Maathai, who pioneered an environmental and ecological revolution in Kenya Margaret Sanger, the maverick nurse whose work led to the legalization of birth control in the USA Chapters including Earth & Universe; Biology & Natural Sciences; Medicine & Psychology; Physics & Chemistry; Mathematics and Technology & Inventions profile the female scientists who have defied the odds, and the opposition, to change the world around us. This free sampler gives you a window into their inspiring yet hidden stories. *The number of Nobel-prize-winning women.

J.O. Francis, Realist Drama and Ethics - Alyce von Rothkirch 2014-06-15

This book rediscovers and re-evaluates the work of the Welsh dramatist J. O. Francis (1882-1954) and his contribution to the development of Welsh drama in the twentieth century. More than a prize-winning dramatist, whose plays were performed all over the world, Francis can also be described as one of the founding fathers of modern Welsh drama, whose work has helped establish theatrical realism on the Welsh stage. His creative non-fiction for the popular press and for radio gives a unique perspective on how Wales was seen through the eyes of a perceptive London-Welsh observer. Using much previously unpublished material, this volume is an excellent introduction to one of Wales's foremost dramatists, and is innovative in the way that it creates a picture of the amateur dramatic scene of south Wales (1920-40) based on sound statistical analysis of available evidence. It situates Francis's work in its cultural context and brings this exciting period in Welsh cultural history to life in its introduction to a new audience.

The Fix - Michelle P. King 2020-03-03

In the vein of #Girlboss and *Nice Girls Don't Get the Corner Office*, discover how to thrive at work from the head of the Global Innovation Coalition for Change at UN Women with this "passionate, practical roadmap for addressing inequality and finally making our workplaces work for women" (Arianna Huffington). For years, we've been telling women that in order to succeed at work, they have to change themselves first—lean in, negotiate like a man, don't act too nice or you'll never get the corner office. But after sixteen years working with major Fortune 500 companies as a gender equality expert, Michelle King has realized one simple truth—the tired advice of fixing women doesn't fix anything. The truth is that workplaces are gendered; they were designed by men for men. Because of this, most organizations unconsciously carry the idea of an "ideal worker," typically a straight, white man who doesn't have to juggle work and family commitments. Based on King's research and exclusive interviews with major companies and thought leaders, *The Fix* reveals why denying the fact that women are held back just because they are women—what she calls gender denial—is the biggest obstacle holding women back at work and outlines the hidden sexism and invisible barriers women encounter at work every day. Women who speak up are seen as pushy. Women who ask for a raise are seen as difficult. Women who spend hours networking don't get the same career benefits as men do. Because women don't look like the ideal worker and can't behave like the ideal worker, they are passed over for promotions, paid less, and pushed out of the workforce, not because they aren't good enough, but because they aren't men. In this fascinating and empowering book, King outlines the invisible barriers that hold women back at all stages of their careers, and provides readers with a clear set of takeaways to thrive despite the sexist workplace, as they fight for change from within. Gender equality is not about women, and it is not about men—it is about making workplaces work for everyone. Together, we can fix work, not women.

Why Women Aren't Winning at Health (But Can) - Anca Griffiths 2024-01-22

For women, health is the ultimate glass ceiling. And for too many of us, the tools we have make it impossible to "win" at health. The fact is, almost nothing in our global health marketplace is designed to serve and heal women. From external factors like the global male-centric medical model, the predatory wellness industry, and the commoditization of traditional health practices, to internal challenges like stacked societal and familial expectations and our need to power through at all costs, women are beset with health-related obstacles from all sides. However, when asked, most women will say, "I'm fine." Somewhere along the way, we decided that being a woman is a problem to be fixed, not a gift to be embraced. Our health systems at best minimize, and at worst outright ignore, key physiological transitions like menstruation, postpartum, perimenopause, and menopause, meaning that women are not supported through the most impactful health experiences of their lives--yet, we're convinced that, somehow, we are the problem. In this groundbreaking book, Anca Griffiths, Marjorie Jenkins, MD, and Alyson McGregor, MD, tackle the complex issue of the women's global health marketplace. With bold insights and piercing clarity, they expose the hidden issues within our current systems, break down the four key reasons why women aren't winning at health, and show you what you can do to take back control of your health journey. With additional contributions from recognized global experts, they lay a strong groundwork to empower women everywhere to thrive beyond the current status quo--because when women are well, everyone wins.

Women in Management Worldwide - Marilyn J. Davidson 2020-11-25

'Excellent', 'Outstanding' and 'Inspirational' were words used to describe the highly acclaimed and award winning first edition of *Women in Management Worldwide*. Edited by two of the world's most eminent researchers into the role of women in work and management, their findings from around the world confirmed that the glass ceiling was still firmly in place, and there were few women directors or CEOs of

large corporations, indeed few in any posts at the top level of private sector organizations. For the second edition of *Women in Management Worldwide: Progress and Prospects*, Professors Davidson and Burke have assembled over 30 experts replete with facts, figures and analysis, to ensure this expanded and updated edition provides a genuinely cross-cultural global assessment of women in management. This important book examines what has and has not changed, and provides evidence that an understanding of the values, norms and cultural issues bearing on the progress or otherwise of women in organizations is becoming ever more necessary. There is a looming crisis in organizational leadership, with demographic factors and globalization leading to an international talent war. Against that background, continuing bias against women seeking leadership responsibilities means organizations are failing to develop available talent, and when corporations experience economic difficulties the consequences bear disproportionately on women managers. With findings from a broader and more representative range of countries, the editors have arranged this second edition country by country to enable comparisons of the data both between countries and regions and between past, present, and likely futures. Researchers, policy makers, legislators and officials needing an understanding of women's status and progress, as well as those teaching or studying international, cross-cultural and human resources management will need to read this book.

The Skills: From First Job to Dream Job - What Every Woman Needs to Know - Mishal Husain 2018-09-06
 'I wish I'd been able to read this book when I was 20. Mind you, it's never too late' Clare Balding
 In *The Skills* award-winning broadcaster Mishal Husain inspires, champions and encourages women to make their ambitions a reality by focusing on practical skills that make a difference.

WomanPrayer WomanSong - Miriam Therese Winter 2008-07-01

""WomanPrayer, WomanSong is a groundbreaking contribution to the church of our day. While drawing on scripture and affirming God's self-revelation in Jesus Christ, this exciting book addresses the urgent need for ritual which incorporates women's experience. Feminine biblical images of God are recovered; feminine pronouns for God are supplied; valiant women are remembered; the church year is reinterpreted to highlight women's experience; and oppression and violence against women in scripture and society are exposed. I have been searching for alternatives to hierarchical, coercive, male images of God which are at the same time faithful to the Christian revelation. I have found a rich resource here "" --Ruth Duck, Pastor, Professor of Worship, Garrett -Evangelical Theological Seminary ""With Miriam Therese Winter's WomanPrayer, WomanSong, the feminist movement in the Christian community goes beyond the critique of patriarchal bias in religion and begins a new phase. Through a new religious encounter with the Mother-spirit of God, a new religious culture begins to develop that also renews the liberating grace and power of biblical faith. For the first time the church prays and sings the ancient story of creation and redemption through women's creative imagination."" --Rosemary Ruether, author of *Women-Church* ""By drawing on tradition to challenge tradition, this book models how a feminist hermeneutic can revitalize tradition. The preface, liturgies, and songs reveal a sophisticated theological mind blessed with the gift of poetic expression."" --Thomas Troeger, Professor of Preaching and Parish Ministry and Vice President and Dean of Academic Affairs, Iliff School of Theology
 Miriam Therese Winter, a Medical Mission Sister, is professor of liturgy, worship, spirituality, and feminist studies and director of the Women's Leadership Institute at Hartford Seminary in Connecticut. She is author of award-winning books and songs, which include *WomanWisdom*, *WomanWitness*, and *WomanWord*, a trilogy of books on all the women of the Bible, and the recording *Joy Is Like the Rain*.

[American Women and Flight Since 1940](#) - Deborah G. Douglas 2004

Kentucky is most commonly associated with horses, tobacco fields, bourbon, and coal mines. There is much more to the state, though, than stories of feuding families and Colonel Sanders' famous fried chicken. Kentucky has a rich and often compelling history, and James C. Klotter and Freda C. Klotter introduce readers to an exciting story that spans 12,000 years, looking at the lives of Kentuckians from Native Americans to astronauts. The *Klotters* examine all aspects of the state's history—its geography, government, social life, cultural achievements, education, and economy. *A Concise History of Kentucky* recounts the events of the deadly frontier wars of the state's early history, the divisive Civil War, and the shocking assassination of a governor in 1900. The book tells of Kentucky's leaders from Daniel Boone and Henry Clay to Abraham Lincoln, Mary Breckinridge, and Muhammad Ali. The authors also highlight the

lives of Kentuckians, both famous and ordinary, to give a voice to history. The *Klotters* explore Kentuckians' accomplishments in government, medicine, politics, and the arts. They describe the writing and music that flowered across the state, and they profile the individuals who worked to secure equal rights for women and African Americans. The book explains what it was like to work in the coal mines and explains the daily routine on a nineteenth-century farm. The authors bring Kentucky's story to the twenty-first century and talk about the state's modern economy, where auto manufacturing jobs are replacing traditional agricultural work. A collaboration of the state historian and an experienced educator, *A Concise History of Kentucky* is the best single resource for Kentuckians new and old who want to learn more about the past, present, and future of the Bluegrass State.

Winning Women Into Mathematics - Mathematical Association of America. Committee on Participation of Women 1991

"American media often ask why women can't do mathematics. Any answer is misleading. Better questions are needed, along with indications of how to find potential answers. The Committee on the Participation of Women of the Mathematical Association of America (MAA) has identified more than fifty cultural customs that discourage aspiring women mathematicians. How can these customs be changed? What can be done to recruit, retain, and acknowledge women in mathematics? The Committee was established in 1987 to 'work for full involvement of women in the affairs of the MAA and to develop MAA activities that will encourage women in careers in the mathematical sciences.' With this book the committee seeks to expand the number and effectiveness of those winning women into mathematics."--Publisher's description.

Women and the Vote - Jad Adams 2014-09-18

Before 1893 no woman anywhere in the world had the vote in a national election. A hundred years later almost all countries had enfranchised women, and it was a sign of backwardness not to have done so. This is the story of how this momentous change came about. The first genuinely global history of women and the vote, it takes the story of women in politics from the earliest times to the present day, revealing startling new connections across time and national boundaries - from Europe and North America to Asia, Africa, Latin America, and the Muslim world post-9/11. A story of individuals as well as of wider movements, it includes the often dramatic life-stories of women's suffrage pioneers from across the world, painting vivid biographical portraits of everyone from Susan B. Anthony and the Pankhursts to hitherto lesser-known activists in China, Latin America, and Africa. It is also the first major post-feminist history of women's struggle for the vote. Controversially, Jad Adams rejects the widely accepted idea that success was primarily a result of the pressure group politics of the suffragists and their supporters. Ultimately, he argues, it was nationalism, not feminism, that was the most important factor in winning women the vote.

Publishers' Directory - Gale Group 2003

Provides detailed information on more than 20,000 U.S. and Canadian publishers, including nearly 1,000 distributors, wholesalers and jobbers, as well as small independent presses. The latest edition adds approximately 500 new entries with increased Canadian listings and Web site and e-mail addresses.

Inspiring Women - Gail Youngberg 2003

"The history of women in Canada is one of starting out struggling to feed and clothe their families and ending up writing the great Canadian novel. *Inspiring Women* charts women's course from subsistence to cultural production.

[Building the Future](#) - Anne Winning 1996

Gender, Politics, and Democracy - Louise P. Edwards 2008

This is the first exploration of women's campaigns to gain equal rights to political participation in China. The dynamic and successful struggle for suffrage rights waged by Chinese women activists through the first

half of the twentieth century challenged fundamental and centuries-old principles of political power. By demanding a public political voice for women, the activists promoted new conceptions of democratic

representation for the entire political structure, not simply for women. Their movement created the space in which gendered codes of virtue would be radically transformed for both men and women.
