At the Boundaries of Law (RLE Feminist Theory) - Martha Albertson Fineman 2013-05-20

Feminists have recently begun to challenge the powerful influence of the law on the social and cultural construction of women's roles, identities, and rights. *At the Boundaries of Law* is a timely and path-breaking work that provides a series of non-technical, interdisciplinary explorations into the nature and effects of legal regulation on women's lives. Together the essays examine the fertile - and radically revisionary - links between feminism and legal theory. But *At the Boundaries of Law* rejects the abstract 'grand theorizing' of traditional feminist legal theory, focusing instead on the concrete and material implications of the legal injustices endured by women. These essays emphasise the complex diversity of female experience, collectively arguing for legal theory and practice that both recognises and accommodates the concept of 'difference' - in gender, class, race and sexual orientation. *At the Boundaries of Law* also raises provocative questions about the methodology and future of feminist legal theory itself. In its rich variety of issues and approaches, this volume will command the interest not only of legal theorists, but of those interested in women's studies, philosophy, politics, sociology and history. It is sure to set the future agenda for scholars, policymakers and anyone concerned with the role of law in society.

The Family in Law - Archana Parashar 2017-04-20

This book challenges conventional boundaries of family law providing a solid foundation and edge to students' understanding of the topic.

Gender Justice and Legal Reform in Egypt - Mulki Al-Sharmani 2017

Women; legal status, laws, etc.; Egypt.

*Masculinity, Law and Family* - Richard Collier 2002-11

An incisive exploration of representations in law of male sexuality, authority, paternity and men's violence in the family. This book is of central importance to our understanding of the social and political dimension of masculinity.

**Feminized Justice** - Amanda Glasbeek 2010-07-01

In 1913, Toronto launched Canada's first woman's police court. The court was run by and for women, but was it a great achievement? This multifaceted portrait of the cases, defendants, and officials that graced its halls reveals a fundamental contradiction at the experiment's core: the Toronto Women's Police Court was both a site for feminist adaptations of justice and a court empowered to punish women. Reconstructed from case files and newspaper accounts, this engrossing portrait of the trials and tribulations that accompanied an early experiment in feminized justice sheds new light on maternal feminist politics, women and crime, and the role of resistance, agency, and experience in the criminal justice system.

**Feminist Legal Theories** - Karen Maschke 2013-09-13

Multidisciplinary focus Surveying many disciplines, this anthology brings together an outstanding selection of scholarly articles that examine the profound impact of law on the lives of women in the United States. The themes addressed include the historical, political, and social contexts of legal issues that have affected women's struggles to obtain equal treatment under the law. The articles are drawn from journals in law, political science, history, women's studies, philosophy, and education and represent some of the most interesting writing on the subject. The law in theory and practice Many of the articles bring race, social, and economic factors into their analyses, observing, for example, that black women, poor women, and single mothers are treated by the wielders of the power of the law differently than middle class white women. Other topics covered include the evolution of women's legal status, reproduction rights, sexuality and family issues, equal employment and educational opportunities, domestic violence, pornography and sexual exploitation, hate speech, and feminist legal thought. A valuable research and classroom aid, this series provides in-depth coverage of specific legal issues and takes into account the major legal changes and policies that have had an impact on the lives of American women.

**Law's Families** - Alison Diduck 2003-07

Examining the diversity of perspectives and approaches in family law scholarship and drawing upon this work, this book provides an analysis of recent trends in family law from a socio-legal and feminist perspective, and questions the nature of the 'nuclear' family.

**Litigation** - Wilfrid R. Prest 2004

Litigation does not have a good press - in fact, it is usually viewed very negatively. Rates of litigation in

Western countries are claimed to be spiralling beyond control, and this is said to indicate a fundamental crisis in contemporary Western societies. "Litigation: Past and Present" sheds some much-needed light on these views, by examining actual patterns of litigation, both historical and contemporary, and considering the many ways in which courts provide strategies for social change and social justice. Topics surveyed include the long-range recording of litigation rates, the social uses of legal action, the effectiveness of procedural reforms in reducing litigation, and the impact of legal proceedings and activism on Indigenous rights, and on marriage and family issues. Litigation and its impact are too often discussed in excessively rhetorical and pragmatic terms. This volume, with contributions from internationally recognised scholars, adds much needed empirical research and theoretical perspectives to the discussion.

**The Trouble with Marriage** - Srimati Basu 2015-01-03

The Trouble with Marriage is part of a new global feminist jurisprudence around marriage and violence that looks to law as strategy rather than solution. In this ethnography of lawyer-free family courts and mediations of rape and domestic violence charges in India, Srimati Basu depicts everyday life in legal sites of marital trouble, reevaluating feminist theories of law, marriage, violence, property, and the state. Basu argues that alternative dispute resolution, originally designed to empower women in a less adversarial legal environment, has created new subjectivities, but, paradoxically, has also reinforced oppressive socioeconomic norms that leave women no better off, individually or collectively.

*Gender and Migration in 21st Century Europe* - Samantha Currie 2016-04-15

Providing interdisciplinary and empirically grounded insights into the issues surrounding gender and migration into and within Europe, this work presents a comprehensive and critical overview of the historical, legal, policy and cultural framework underpinning different types of European migration. Analysing the impact of migration on women's careers, the impact of migration on family life and gender perspectives on forced migration, the authors also examine the consequences of EU enlargement for women's migration opportunities and practices, as well as the impact of new regulatory mechanisms at EU level in addressing issues of forced migration and cross-national family breakdown. Recent interdisciplinary research also offers a new insight into the issue of skilled migration and the gendering of previously male-dominated sectors of the labour market.

**At the Boundaries of Law** - Martha Fineman 2012

Annotation Feminists have recently begun to challenge the powerful influence of the law on the social and cultural construction of women's roles, identities, and rights. This timely work provides a series of non-technical, interdisciplinary explorations into the nature and effects of legal regulation on women's lives.

**Family Law** - Sonia Harris-Short 2011-05-19

Presented in an accessible format, this text provides a detailed and authoritative exposition of the law, illustrated by carefully selected materials and complemented by clear and engaging commentary drawing on a range of critical and theoretical perspectives.

*Feminist Responses to Injustices of the State and its Institutions* - Kym Atkinson 2022-11-17

From the denial of abortion rights in Ireland to sexual violence against British South Asian women in England, the state and its institutions continue to fail women. This book offers a counter-narrative to contemporary injustices and a persistent culture of victim-blaming. The academic and activist contributions to this collection explore contemporary research areas and pursue new discursive directions in order to present a feminist criminology, built on feminist praxis, for the 21st century. Providing a direct challenge to regressive and ineffective theory, policy and practice, this book resists the politics of gendered victimization through extending feminist analyses of the state and documenting interventions into contemporary injustices.

**Intersectionality in the Human Rights Legal Framework on Violence against Women** - Lorena Sosa 2017-10-26

This book theoretically explores intersectionality within human rights norms on violence against women and the derived duties for States.

**Feminist Legal Theory (Vol. 1)** - Frances Olsen 1995-10

A collection of previously published articles.

Women-in-Law - Julia Brophy 2022-11-30

First published in 1985, *Women-in-Law* is a collection of essays examining the complex interactions of law, sexuality, and the family. It explores the ways in which legal ideology and practice affect women and looks at issues such as child custody, domestic violence and prostitution in the light of new research. The contributors review the history of feminist involvement with the law and analyse the law's fundamental failure to improve the status of women. They also assess strategies for change in view of the current backlash against women's rights and the traditional role of law in the subjugation of women. This book will be of interest to students of law, political science, sociology, gender studies, and sexuality studies.

*Feminist Perspectives on Criminal Law* - Lois Bibbings 2013-03-04

Intended as a supplement to textbooks on undergraduate courses as well as a core text for a specialist course on law and gender, advanced criminal law and postgraduate courses. The book offers an overview; a feminist critique of the principles of criminal liability; and coverage of specific issues.

***The Politics of Gender*** - Yoke-Lian Lee 2010-10-18

This new title in the *Politics of . . .* series addresses the major theme of the politics of gender. Chapters on a variety of issues, contributed by experts in the field of gender, include Human Trafficking and EU Law, Gender in International Relations, the Gender Politics of Philosophy/Political Theory, the Construction of Masculinity in Hollywood Movies, the Politics of Law, and the Politics of Mainstreaming Gender in the Peace and Security Agenda of the African Union. An A-Z glossary offers supplementary information on key terms, with entries including abortion, Commission on the Status of Women, ecofeminism, equal access, human rights, migration, population control, and sex tourism.

***At the Boundaries of Law (Rle Feminist Theory): Feminism and Legal Theory*** - Martha A. Fineman

2013

Feminists have recently begun to challenge the powerful influence of the law on the social and cultural construction of women's roles, identities, and rights. *At the Boundaries of Law* is a timely and path-breaking work that provides a series of non-technical, interdisciplinary explorations into the nature and effects of legal regulation on women's lives. It is sure to set the future agenda for scholars, policymakers and anyone concerned with the role of law in society."

*Family Mediation* - Howard H. Irving 1995-07-19

Family mediation has quickly become a significant means of legal dispute resolution, recognized in most North American jurisdictions as a relief to already overburdened judicial systems. Using an innovative practical approach, the authors of *Family Mediation* incorporate the pivotal principals of family therapy into this new context - the judicial realm of family mediation. The practice model - therapeutic family mediation - thoroughly treats history specific issues, and practice in an ecosystemic approach and responds to the feminist critique of mediation.
