[Teenage Pregnancy and Young
Parenthood](#) - Alison Hadley
2017-12-01

Teenage Pregnancy and Young
Parenthood provides a

comprehensive, unparalleled insight into the UK Government's highly successful Teenage Pregnancy Strategy (TPS) for England which reduced the under-18 pregnancy rate by well over 50%, and considers how the lessons from this policy can be applied internationally. This important book captures and shares the lessons from the TPS for future governments and policy makers, and documents the details of implementing a long-term strategy with its innovative approach to policy issues. After providing the rationale for prioritising teenage pregnancy, the book demonstrates evidence for what is effective, both in helping young people avoid unplanned pregnancy and in improving outcomes for young parents. The TPS is analysed against the World Health Organisation's key actions for effective scale-up of adolescent sexual and reproductive health programmes, to offer an important contribution to international understanding of

this global public health challenge. Advocating a 'whole systems' multi-agency approach this book translates evidence into clear action, and combines theory and practice with illustrative case studies to demonstrate how to implement policy successfully. It is valuable reading for policy makers and practitioners dealing with young people's health, as well as undergraduate and postgraduate students in the fields of psychology, health studies, social work, youth work, education, social policy, sociology and related disciplines.

Beyond Knowledge: The Legacy of Competence - Jörg Zumbach 2008-08-07

The edited and peer reviewed volume presents selected papers of the conference

“Beyond knowlegde: the legacy of competence” organized by EARLI SIG Learning and Instruction with Computers in cooperation with SIG Instructional Design. It reflects the current state-of-the-art work of scholars worldwide within the area of learning and instruction with computers. Mainly, areas of computer-based learning environments supporting competence-focused knowledge acquisition but also foundational scientific work are addressed. More specific, contents cover cognitive processes in hypermedia and multimedia learning, social issues in computer-supported collaborative learning, motivation and emotion in Blended Learning and e-Learning.

Discover the Tools You Need to Become Proficient in Conducting Health Education Programs -- Inside and Outside the Classroom! The skills necessary to plan and deliver effective health education programs are fundamentally the same in the classroom, workplace, hospital, and community settings. The Fourth Edition of Health Education: Creating Strategies for School and Community Health assists health educators in making appropriate program planning decision based on the needs of their clients and the educational settings. The authors encourage the systematic development of sound presentation methods and illustrate the evolving state of health education.

Evidence-based Approaches to Sexuality Education -

James J. Ponzetti, Jr.
2015-09-16

This is the first book to provide a multidisciplinary and global overview of evidence-based sexuality education (SE) programs and practices. Readers are introduced to the fundamentals of creating effective programs to prepare them to design new or implement existing programs that promote healthy sexual attitudes and relationships. Noted contributors from various disciplines critically evaluate evidence-based programs from around the globe and through the lifespan. Examples and discussion questions encourage application of the material. Guidance for those who wish to design, implement, and evaluate SE programs in various social contexts is provided. Each chapter follows a consistent structure so readers can easily compare programs: Learning Goals; Introduction; Conclusion; Key Points; Discussion Questions; and Additional Resources. The editor taught human sexuality and family life education courses for years. This book

Downloaded from
legacy.opendemocracy.net
on 2023-11-30 by guest

reviews the key information that his students needed to become competent professionals. Highlights of the book's coverage include: Interdisciplinary, comprehensive summary of evidence-based SE programs in one volume. Prepares readers for professional practice as a Certified Family Life Educator (CFLE) or sex educator by highlighting the fundamentals of developing and implementing SE programs. Exposes readers to evidence-based SE programs from various social contexts including families, schools, communities, and religious institutions. Considers the developmental context of SE across the lifespan along with programs for LGBT individuals and persons with disabilities. Critically reviews SE programs from around the world including the US, Europe, Asia, Africa, Latin America, and other developing countries. The book opens with an historical overview. Part I focus on general frameworks of sexuality education including

UNESCO's International Technical Guidelines. How to develop, deliver, and implement evidence based SE programs, including ethical concerns, are explored in Part II. Part III exposes readers to evidence-based programs in various social contexts-- families, schools, communities, and religious institutions. Part IV considers the developmental context of SE from early childhood through adolescence and adulthood along with programs for LGBT individuals and persons with disabilities. Part V examines diverse global contexts from the US, Latin America, Europe, Asia, Africa, and other developing countries. The book concludes with future trends and directions. Ideal for graduate or advanced undergraduate courses in sex education, sexual health, human sexuality, sex or marriage counseling, intimate relationships, family life education, or home, school, and community services taught in human development and family studies, psychology, social work, health education,

nursing, education, and religion, and in seminaries and family clinics, the book also serves as a resource for practitioners, counselors,

researchers, clergy members, and policy makers interested in evidence based SE programs, or those seeking to become CFLEs or sexuality educators.
