Useless News and Other Crap - Valerie Hansen 2016-07-04

What do Strange Sexual Problems, Deviant People, Goofy Surveys, Weird Criminals and Bizarre Medical and Scientific Facts have in common?

They All Need Punch Lines! Luckily, thanks to the satirical wit of Valerie Hansen, no story here has gone un-punched! From a joke writer who has had jokes published alongside such famous late-night comics as Jay Leno, David Letterman, Bill Maher and Conan O'Brien comes a book full of one-liners and wisecracks about today's stupidest news! Read Valerie's opinions on such important stories as a woman who was born with two vaginas, a man who lost part of his penis while sexually gratifying himself with a vacuum cleaner, a woman with size 164xxx breasts, a giant bronze sculpture of dog feces, a man who had sex with an elephant, a six year study on whether or not bisexual men exist, a woman who died after giving oral sex to a German Shepherd, Testicle Festivals and more!

[Sexual Behavior in the Human Male](#) - Alfred C. Kinsey 1998-05-22

When published in 1948 this volume encountered a storm of condemnation and acclaim. It is, however, a milestone on the path toward a scientific approach to the understanding of human sexual behavior. Dr. Alfred C. Kinsey and his fellow researchers sought to accumulate an objective body of facts regarding sex. They employed first hand interviews to gather this data. This volume is based upon histories of approximately 5,300 males which were collected during a fifteen year period. This text describes the methodology, sampling, coding, interviewing, statistical analyses, and then examines factors and sources of sexual outlet.

[Uncomfortable Ideas](#) - Bo Bennett 2016-10-21

Prepare for a Bumpy Ride. Many of our ideas about the world are based more on feelings than facts, sensibilities than science, and rage than reality. We gravitate toward ideas that make us feel comfortable in areas such as religion, politics, philosophy, social justice, love and sex, humanity, and morality. We avoid ideas that make us feel uncomfortable. This avoidance is a largely unconscious process that affects our judgment and gets in the way of our ability to reach rational and reasonable conclusions. By understanding how our mind works in this area, we can start embracing uncomfortable ideas and be better informed, be more understanding of others, and make better decisions in all areas of life. Some uncomfortable ideas entertained in this book: - Political correctness can be harmful - Identity politics is a dangerous game - Morality is functionally democratic - Victims often do share some of the responsibility - God is a far more horrifying character than Satan - There is no such thing as freewill - Americans are manipulated into being pro-war - Non-whites can be racist, and women can be sexist - Some people do "choose to be gay" - Sometimes the bad guys win - Obese people are not perfect the way they are - It's okay to find inappropriate jokes funny Facts don't care about feelings. Science isn't concerned about sensibilities. And reality couldn't care less about rage. □□□□ "A bumpy ride indeed. Whether one agrees or disagrees with the content, it still manages to make one think critically about certain things, and that is always a good thing. What's more, it is being presented in a non-threatening, clear, balanced, and objective way. A great way to tackle uncomfortable ideas." □□□□ "Very eye-opening. Making us question the things that make them uncomfortable and why, is what we all need. Love it!"

Hilariously Infertile - Karen Jeffries 2018-08-26

This book, titled *Hilariously Infertile*, is on a mission to make others who have struggled with infertility, laugh (perhaps while their feet are still in the stirrups and their vaginas are enjoying the fresh air of the fertility clinic). It is a comedic, self-deprecating, look into the harsh, scary, and often sad world of infertility. *Hilariously Infertile* will make you laugh out loud while wishing you could have a glass of wine with the author and discuss how you relate to her story is. The author pokes fun at the infertility world, with jokes, such as, equating the constant gynecological exams to her sluttiest days in college, and wondering if her husband will be home in time to stick it (the IVF ass shot) into her butt. We follow the author's journey from trying to conceive on her own, discovering she is infertile, getting pregnant, and then doing it all again for her second child. The entire journey is marked with uproarious scenes that any woman who has ever been to the gynecologist can identify with. At times, the author's candor will surely lead the reader to conclude that the outlandish stories cannot be true. But they are, all of them. Included in the journey is a chapter on being a new mom. This chapter is funny and real. It does not boast about being a parent, to those who still may be on that path; rather, it speaks candidly about the adjustment to a new life that the author worked hard to achieve, via fertility treatments, and yet still was not ready for. There is no filter for the author of *Hilariously Infertile*. This book tells it like it is, from sex, to infertility, to being a mother and a wife. If you have thought it somewhere deep down inside, this book says it aloud.

Useless Sexual Trivia - Shane Mooney 2000-02-21

Everything You Always Wanted to Know About Sex, But Never Knew to Ask Did you know that in Middle-Eastern Islamic countries it is not only a sin but also a crime to eat a lamb that you've had sex with? Or that the world vanilla comes from a Latin word meaning "vagina" because of the vanilla pod's resemblance to the female genitalia? Or that Grand Tetons literally means "big tits"? You've probably never even thought about such things. But here they are, in this unusual compilation of strange facts about the facts of life that will make you laugh out loud while your hair stands on end. Highlights include: * Just the Factoids, Man -- For instance, the number of human ova necessary to repopulate the world could fit into a chicken egg. * When Sex Goes Horribly Awry -- Don't be caught with your pants down. Learn once and for all the words you didn't find on your SATs, such as "acrotomophilia," "oculolinctus," and "taphephilia." * Animal Lust -- There is more to sex in the animal kingdom than doing it doggie style. Did you know that a barnacle's penis is 150 percent of its body length? * They Said What?! -- They said plenty: "I knew her before she was a virgin." (Oscar Levant on Doris Day) * Sex Styles of the Rich and Famous -- Forget Bill and Monica. Adolf Hitler was a coprophiliac. * Sex in History -- Catherine the Great did not die under a horse, but she did love to have her feet tickled and her bottom slapped. * Around the World -- It's good to know, for the next time you're invited to the dinner party of a North-African Siwa man, that he believes you will find him irresistible if he laces your food with his semen. * Crimes of Passion -- Did you know that in Harrisburg, Pennsylvania, it is illegal to have sex with a truck driver in a tollbooth? Wonderfully outrageous and absolutely deadpan, this book is, unbelievably, all true.

Audience Genre Expectations in the Age of Digital Media - Leo W. Jeffres 2022-12-05

This volume bridges the divide between film and media studies scholarship by exploring audience expectations of film and TV genre in the age of digital streaming, using qualitative thematic and quantitative data-driven analyses. Through four ground-breaking surveys of audience members and content creators, the authors have empirically determined what audiences expect of various genres, the extent to which these definitions match those of scholars and critics, and the overall variation and complexity of audience expectations in the age of media abundance. They also examine audience habits and preferences, drawing from both theory and original empirical analyses, with a view toward the implications for the moving image in a rapidly changing media environment. The book draws from the data to develop a number of new concepts, including genre repertoire, genre hybridity, audience interest maximization, and variety seeking, and a new stage of genre development, genre bending. It is an ideal resource for students and scholars interested in the symbiotic relationship between audiences and the moving image products they consume, as well as the way the current digital media environment has impacted our understanding of film and TV genres.

Jokes and Targets - Christie Davies 2011-05-23

Jokes and Targets takes up an appealing and entertaining topic—the social and historical origins of jokes about familiar targets such as rustics, Jewish spouses, used car salesmen, and dumb blondes. Christie Davies explains why political jokes flourished in the Soviet Union, why Europeans tell jokes about American lawyers but not about their own lawyers, and why sex jokes often refer to France rather than to other countries. One of the world's leading experts on the study of humor, Davies provides a wide-ranging and detailed study of the jokes that make up an important part of everyday conversation.

Guilty Pleasures - Laura E. Little 2019

Few people associate law books with humor. Yet the legal world--in particular the American legal system--is itself frequently funny. Indeed, jokes about the profession are staples of American comedy. And there is actually humor within the world of law too: both lawyers and judges occasionally strive to be funny to deal with the drudgery of their duties. Just as importantly, though, our legal system is a strong regulator of humor. It encourages some types of humor while muzzling or punishing others. In a sense, law and humor engage a two-way feedback loop: humor provides the raw material for legal regulation and legal regulation inspires humor. In *Guilty Pleasures*, legal scholar Laura Little provides a multi-faceted account of American law and humor, looking at constraints on humor (and humor's effect on law), humor about law, and humor in law. In addition to interspersing amusing episodes from the legal world throughout the book, the book contains 75 New Yorker cartoons about lawyers and a preface by Bob Mankoff, the cartoon editor for the New Yorker.
