The Four Tendencies - Gretchen Rubin
2017-09-12

NEW YORK TIMES BESTSELLER • Are you an Upholder, a Questioner, an Obliger, or a Rebel? From the author of *Better Than Before* and *The Happiness Project* comes a groundbreaking analysis of personality type that "will immediately improve every area of your life" (Melissa Urban, co-founder of the Whole30). During her multibook investigation into human nature, Gretchen Rubin realized that by asking the seemingly dry question "How do I respond to expectations?" we gain explosive self-knowledge. She discovered that based on their answer

people fit into Four Tendencies: • Upholders meet outer and inner expectations readily. "Discipline is my freedom." • Questioners meet inner expectations, but meet outer expectations only if they make sense. "If you convince me why, I'll comply." • Obligers (the largest Tendency) meet outer expectations, but struggle to meet inner expectations—therefore, they need outer accountability to meet inner expectations. "You can count on me, and I'm counting on you to count on me." • Rebels (the smallest group) resist all expectations, outer and inner alike. They do what they choose to do, when they choose to do it, and typically they don't tell themselves what to do. "You can't make me, and neither can I." Our Tendency shapes every aspect of our behavior, so using this framework allows us to make better decisions, meet deadlines, suffer less stress, and engage more effectively. It's far easier to succeed when you know what works for you. With sharp insight, compelling research, and hilarious examples, *The Four Tendencies* will help you get happier, healthier, more productive, and more creative. *I'm a Big Fan of My Girlfriend* -

Sex, Love, and Romance in the Mass Media - Mary-Lou Galician 2004-07-16

This accessible yet research-based text offers both foundational theories and practical applications of analysis and criticism of mass media portrayals of sex, love, and romance in a wide variety of mass media, from entertainment to advertising to news. The multidisciplinary methodological perspective comes out of a media literacy approach and embraces a variety of traditions along the quantitative-qualitative continuum. Focused on portrayals of male-female coupleship, the book is centered around the 12 major myths and stereotypes of Galician's Dr. FUN!'s Mass Media Love Quiz®, each of which has a corresponding Dr. Galician Prescription® that encapsulates healthy strategies--rarely found in the mass media--to counteract that myth or stereotype. Readers learn how to identify, illustrate, deconstruct, evaluate, and reframe the mass media's mythic and stereotypic portrayals of sex, love, and romance. They also learn how to use their own formal critical evaluations to clarify their own values and--as media consumers or mass communication creators--to share their insights with others. Thus, the learning objectives encompass all three major educational domains: cognitive, affective, and behavioral. Part I of this book covers the five foundations: *myths and stereotypes of love and coupleship; *models of realistic and constructive love and coupleship; *mass media storytelling approaches,

techniques, and devices; *research and theories of mass media effects; and *strategies and skills of media literacy. Part II is devoted to exploring the myths and stereotypes identified in the Quiz. Following several brief case studies and a summary of related research and commentary, each chapter focuses on analyses and criticisms of portrayals of sex, love, and romance in the content of news and advertising, as well as entertainment using Galician's Seven-Step Disillusioning Directions. Each chapter concludes with a "Dis-illusion Digest." While critical of unrealistic portrayals and the damage they can cause unsuspecting media consumers, Galician--a media literacy advocate--is not anti-media. Rather, her goal is to empower consumers to use these portrayals with more awareness of their possible consequences, to resist adopting them as models for actual behavior, and to consciously reframe them into more realistic, productive scenarios. This unique text is an engaging classroom resource for media literacy, media and relationships, and media and society coursework.
