

How To Be In A Happy Relationship

How to Make Your Relationship Last - Arlene Brathwaite 2017-06-13

Love is too important, and life is too short. Don't let these pitfalls trip you up and rob you and your significant other of the good life and happy relationship you both deserve! Starting with the Self: 1. Addictions: You know if you've got one, and you know you will have to choose! 2. Pathologies: Disagreeable personality, moodiness, negativity, insecurity, anger problems, and more. 3. Baggage: Past relationships, family drama...best to avoid it, but how to manage it. 4. Financial Problems: Your attitude toward money could make or break your relationship. Looking at the Other: 5. Controlling: This slowly strangles a relationship. 6. Fighting: Demand more from yourself and your significant other. 7. Comparing: There are seven billion people on this planet. Are you sure you want to play this game? Protecting the Whole: 8. Cheating: Don't think about doing it to them. Don't force them to do it to you. 9. Keeping Secrets: How to send your relationship into free fall. 10. Cold Feet: Some thoughts about commitment and marriage. We will work from the bottom up, starting with basic mental health "hygiene" that has to be in place for you to succeed as an individual and in life, much less as a partner to someone else. Only when that is settled are you ready to move on and learn the lessons of a healthy relationship, and we will reveal them in the later chapters of this book.

[Healthy Relationships](#) - Leslie Steinburg 2015-09-28 Relationships can be tricky, especially romantic

ones, so it's important to lay a solid foundation before devoting precious time and effort into growing the relationship. Although relationships tend to differ from couple to couple, the trademark of any healthy romantic partnership comes in the form of five specific pillars on which everything else must be built, namely: love, trust, communication, intimacy, and integrity. But understanding what goes into each of these five pillars is only the first step to building a healthy relationship with your significant other. The real key lies in knowing how to go about the implementation, and that's where this book will come in handy. Each chapter in this book is dedicated to one specific pillar, and includes guidance on putting them into everyday practice. Since no two people are built the same way, it's best that you adapt the advice given in this book to your specific circumstances, and make suitable adjustments as needed to best accommodate both of your needs. By the end of this book, you should be well on your way to a having the healthy and happy relationship that you've always dreamed about with your romantic partner.
